

Headquarters
Department of the Army
Washington, DC
27 June 2025

***Army Regulation 614–200**

Effective 27 July 2025

Assignments, Details, and Transfers
Enlisted Assignments and Utilization Management

By Order of the Secretary of the Army:

RANDY A. GEORGE
General, United States Army
Chief of Staff

Official:

MARK F. AVERILL
Administrative Assistant to the
Secretary of the Army

History. This publication is an administrative revision. The portions affected by this administrative revision are listed in the summary of change.

Authorities. This regulation implements 10 USC 673, DoDI 1315.18, and DoDI 6495.02, Volume 1.

Applicability. This regulation applies to the Regular Army, the Army National Guard/Army National Guard of the United States, and the U.S. Army Reserve, unless otherwise stated.

Proponent and exception authority. The proponent of this regulation is the Deputy Chief of Staff, G–1. The proponent has the authority to approve exceptions or waivers to this regulation that are consistent with controlling law and regulations. The proponent may delegate this approval authority, in writing, to a division chief within the proponent agency or its direct reporting unit or field operating agency, in the grade of colonel or the civilian equivalent. Activities may request a waiver to this regulation by providing justification that includes a full analysis of the expected benefits and costs (if applicable) and must include formal review by the activity's senior legal officer. All waiver requests will be endorsed by the commander or senior leader of the requesting activity and forwarded through their higher headquarters to the policy proponent. Refer to AR 25–30 for specific requirements.

Army internal control process. This regulation contains internal control provisions in accordance with AR 11–2 and identifies key internal controls that must be evaluated (see appendix B).

Suggested improvements. Users are invited to send comments or suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to usarmy.knox.hrc.mbx.epmd-regulation-proponent@army.mil.

Distribution. This regulation is available in electronic media only and is intended for the Regular Army, the Army National Guard/Army National Guard of the United States, and the U.S. Army Reserve.

*This regulation supersedes AR 614–200, dated 25 January 2019, and rescinds AD 2012–17, dated 5 May 2021.

Summary of Change

AR 614–200

Enlisted Assignments and Utilization Management

This administrative revision, dated 4 September 2025—

- Removes victim representative (para 5–15*d*).
- Corrects paragraph numbering issues (para 8–22).

This major revision, dated 27 June 2025—

- Removes special duty assignment pay policy (chap 3).
- Changes “gender” to “sex” per Executive Order 14168 (paras 3–2*j*, 10–3*f*, 10–3*g*, 10–4*f*, and 10–13*b*(6)).
- Revises policy governing the assignment of Soldiers with chronic medical conditions to comply with AR 40–501 (para 3–9*f*).
- Incorporates and rescinds Army Directive 2021–17, Lateral Appointment to Corporal and Eligibility for Basic Leaders Course (para 3–17*b*).
- Incorporates fertility treatment stabilization and reassignment policy from Army Directive 2025–02, Parenthood, Pregnancy, and Postpartum (paras 5–12 and 5–25).
- Implements expedited transfer policy for victims of sexual assault from DoDI 6495.02, Volume 1, and prescribes related procedures (para 5–15).
- Incorporates Army Directive 2019–15, Enlisted Centralized Selection Boards (chap 7).
- Incorporates Army Directive 2024–12, Promotion and Frocking to Sergeant Major (para 7–6).
- Incorporates Army Directive 2024–14, Command Assessment Program and Command/Key Billet (para 7–18).
- Updates information on appointment to first sergeant (para 8–28).
- Updates information regarding cyber assignments (throughout).

Glossary of Terms

Chapter 1

General

Section I

Introduction

1–1. Purpose

This regulation prescribes the reporting, selection, assignment, and utilization of Regular Army (RA) and the United States (U.S.) Army Reserve (USAR) enlisted personnel, excluding initial entry training (IET) Soldiers who are governed by AR 612–201. It provides general assignment policies and responsibilities for managing the enlisted force. Policy in this regulation is in addition to that in AR 614–30. This regulation is not construed as authority for extending stabilized tours limited by statutes.

1–2. References, forms, and explanation of abbreviations

See appendix A. The abbreviations, brevity codes, and acronyms (ABCAs) used in this electronic publication are defined when you hover over them. All ABCAs are listed in the ABCA directory located at <https://armypubs.army.mil/>.

1–3. Associated publications

This section contains no entries.

1–4. Responsibilities

Responsibilities are listed in chapter 2.

1–5. Records management (recordkeeping) requirements

The records management requirement for all record numbers, associated forms, and reports required by this publication are addressed in the Records Retention Schedule–Army (RRS–A). Detailed information for all related record numbers, forms, and reports are located in Army Records Information Management System (ARIMS)/RRS–A at <https://www.arims.army.mil>. If any record numbers, forms, and reports are not current, addressed, and/or published correctly in ARIMS/RRS–A, see DA Pam 25–403 for guidance.

Section II

Administrative Assignment Policy

1–6. Family care plan

Family care plans to cover military Family members must be in place to ensure that all Soldiers (regardless of grade) can deploy promptly and perform their military duties when not deployed. The Family care plans are governed by AR 600–20.

1–7. Exceptional Family Member Program

The Exceptional Family Member Program (EFMP) allows the U.S. Army Human Resources Command (HRC) to consider the special education and medical needs of exceptional Family members (EFMs) during the assignment process and reassign Soldiers when readiness does not require a specific reassignment to an area where the Family member's needs can be accommodated. The EFMP is governed by AR 608–75.

1–8. Leave

Leave may be granted to each Soldier, upon request, at the discretion of the Soldier's immediate commander if it does not interfere with the Soldier's port call or reporting date. Leave policy is governed by AR 600–8–10.

1–9. Security clearance

Assignment instructions (AI) from HRC will include personnel security requirements. Soldiers must meet the security clearance requirements for follow-on positions prior to executing a permanent change of

station (PCS). AR 600–8–11 provides procedures for processing AI requiring security clearance. Soldiers will not be held at the home station pending the results of the investigation unless such guidance is in the AI.

1–10. Mode of travel

Air transportation is the preferred mode of travel for Soldiers to and from assignment areas. (For exceptions, see AR 55–46.)

1–11. Deletions and deferments

Deletions and deferments are governed by AR 600–8–11.

1–12. Time-on-station

a. The time-on-station (TOS) requirements are established to enhance operational readiness by stabilizing Soldiers in units to reduce PCS costs and to improve the quality of life by reducing personal or Family turbulence. When all other factors are equal, TOS is a primary consideration in selecting Soldiers for reassignment. The TOS is computed from the month of arrival to the month of departure, inclusive.

b. The TOS applies only to continental United States (CONUS)-based Soldiers. Soldiers based outside continental United States (OCONUS) have designated tour lengths. The TOS is not a consideration in the Army assignment process for OCONUS-based Soldiers. Soldiers will remain on station for the maximum number of years possible in accordance with Army requirements and consistent with force stabilization rules. Waiver approval authority regarding TOS requirements for assignments within or from CONUS is—

(1) For Soldiers who will have served less than 2 years TOS at the time of reassignment, HRC Directors with oversight of military personnel assignments, or the Commanding General (CG), HRC, if the HRC Director is not a GO.

(2) For Soldiers who will have served more than 2 years but less than 4 years TOS at the time of reassignment, HRC Division Chiefs with oversight of military personnel assignments if the Division Chief is a colonel (COL), or HRC Deputy Directors with oversight of military personnel assignments, when a COL does not occupy the position of Division Chief.

c. The minimum TOS requirement for Soldiers assigned from or within CONUS is 36 months (see DoDI 1315.18). Waivers may be granted individually on a case-by-case basis by the appropriate approval authority contained in paragraph 1–12b provided it is determined that the Soldier is the most qualified member available. As an exception, Soldiers may be reassigned before completing minimum TOS requirements without a TOS waiver as prescribed below:

Note: Soldiers are not exempt from meeting other requirements prescribed in this regulation.

(1) Reassignments to an overseas tour.

(2) Reassignments to a different duty station for training or educational purposes. This includes Soldiers being reassigned to the U.S. Army Sergeants Major Academy (USASMA) and all other schools requiring a PCS.

(3) Reassignments that are a direct result of major weapons system changes or unit conversions (for example, formation of a new Unit Manning System). Moves associated with replacing a Soldier selected to staff a new weapons system or unit are not covered by this exception.

(4) Reassignments to retrain Soldiers into new specialties in conjunction with reenlistment. In these instances, a 12-month minimum TOS will apply.

(5) Reassignments from the Office of the Secretary of Defense, the Office of the Chairman, Joint Chiefs of Staff, or Joint Staff, a Defense Agency, or a Department of Defense (DoD) Field Activity where the tenure is limited by statute or policy to less than 36 months.

(6) Reassignments under the EFMP or for compassionate reasons.

(7) Reassignments to a different duty station in preparation for unit deployment or move.

(8) Reassignments of first-term Soldiers.

(9) Reassignments to keep married Army couples together. In these instances, a 24-month minimum TOS will apply.

(10) Reassignments of newly accessed Soldiers reassigned to a different duty station for initial skill training or who are being separated.

(11) Reassignments due to disqualification from duty as a result of a denial or revocation of security clearance, professional certification, nuclear certification, medical qualification to perform assigned duties, or relief-for-cause of assignment, and where it has been determined that no vacant position exists within the limits of the same geographic location in which the Soldier may serve pending requalification or recertification.

(12) Reassignments as prisoners, including assignments to and from confinement or reassignment for the purpose of standing trial.

(13) Reassignments from patient status.

(14) Reassignment to accomplish PCS travel before a medical travel restriction for pregnancy (normally 36 weeks or more gestation) being imposed on the Soldier or the Soldier's spouse. This also includes reassignment for the purpose of receiving adequate medical care, including the reassignment of a birth parent Soldier from an unaccompanied tour because of the lack of adequate obstetric care.

(15) Reassignments due to involvement in incidents that cause serious adverse publicity or embarrassment for the Government, that may jeopardize the mission, or that indicate that the Soldier is a potential defector.

(16) Reassignments based on Soldiers or their dependents being threatened with bodily harm or death and circumstances are such that military and civilian authorities are unable to provide for their continued safety. The installation's Special Agent in Charge, Criminal Investigative Division, and Staff Judge Advocate will verify the threats and circumstances.

(17) Reassignments based on completion or elimination from training or educational programs.

(18) Reassignments involving a low-cost move as defined in the glossary.

(19) Reassignment actions based upon waiver of the requirement to complete a full joint duty assignment tour by the Director, Officer and Enlisted Personnel Management, under the Deputy Assistant Secretary of Defense for Military Personnel Policy.

(20) Reassignments due to Soldiers being rendered excess as governed by the rules for immediately available (IA) Soldiers in paragraph 3–18.

(21) Reassignment of a Soldier who makes an unrestricted report of being sexually assaulted and who is granted expedited transfer as authorized in DoDI 6495.02, Volume 1, in accordance with 10 USC 673, or a Soldier who is the subject of a criminal investigation whom the approving authority selects for transfer. Victims of sex offenses listed under Uniform Code Military Justice (UCMJ), Articles 117a, 120, 120c, and 130 and attempts to commit those offenses are eligible for an expedited transfer.

1–13. Retainability

a. Soldiers will not depart CONUS unless they have the required retainability. The appropriate approval authority listed below may waive retainability restrictions on a case-by-case basis or group basis when unit moves, inactivations, base closures, or IA personnel are involved. The waiver request may be initiated at any level of command.

b. Moves from CONUS-to-CONUS require 2 years retainability (unless otherwise specified in this regulation) after arrival at the gaining installation. Soldiers who are changing occupational specialty as a result of retraining must have a minimum of 1-year service retainability. The waiver approval authority for CONUS-to-CONUS assignments is—

(1) For Soldiers who will have less than 1-year service retainability after arrival at the gaining installation, HRC Directors with oversight of military personnel assignments, or the CG, HRC, if the HRC Director is not a GO.

(2) For Soldiers who will have more than 1 but less than 2 years retainability after arrival at the gaining installation—

(a) For RA, HRC Division Chiefs with oversight of military personnel assignments, or HRC Deputy Directors with oversight of military personnel assignments if the HRC Division Chief is not a COL.

(b) For USAR Active Guard Reserve (AGR), the Chief, Enlisted Management Division, Reserve Personnel Management Directorate, HRC, or the Deputy Director, Reserve Personnel Management Directorate, when the Chief, Enlisted Management Division, Reserve Personnel Management Directorate is not a COL.

c. Moves from OCONUS-to-CONUS: refer to AR 614–30 for retainability.

d. Exception moves. Soldiers reassigned CONUS-to-CONUS or overseas-to-CONUS as a result of the below must have a minimum of 6 months retainability at the gaining installation—

(1) Humanitarian reasons (EFMP).

- (2) Release from prisoner status.
- (3) Patient status (when the Soldier cannot effectively be used at or in the vicinity of the installation).
- (4) Soldiers returning from contingency operations overseas (operations in hostile environments).

Chapter 2

Responsibilities

2-1. Assistant Secretary of the Army (Manpower and Reserve Affairs)

The ASA (M&RA) will—

- a. Develop and oversee assignment policy.
- b. Approve second PCS assignments within the same fiscal year.
- c. Waive criteria on assignment limitations for first-term Soldiers.

2-2. Deputy Chief of Staff, G-1

The DCS, G-1 will—

- a. Provide advice and assistance to the ASA (M&RA) in developing assignment policy for enlisted personnel.
- b. Designate all command sergeant major (CSM) positions.
- c. Plan and supervise the execution of policy for the Space Imbalanced Military Occupational Specialty (SIMOS) Program.
- d. Grant exceptions on a case-by-case basis to non-statutory provisions of this regulation unless otherwise restricted.
- e. Plan and supervise the execution of the stabilization policy for enlisted personnel.
- f. Plan and supervise the execution of the policy for the Enlisted Personnel Management System, U.S. Army Individual Ready Reserve (EPMS-IRR).
- g. Through the CG, HRC —
 - (1) Interpret and implement policies initiated by the DCS, G-1.
 - (2) Issue AI.
 - (3) Manage the distribution of Soldiers to support the Army's mission worldwide.
 - (4) Manage the CSM Program.
 - (5) Implement assignment and utilization policies and monitor sergeant major (SGM) assignments throughout the Army.
 - (6) Provide all Soldiers with broad opportunities for career progression and development, including approving applications for training.
 - (7) Supervise all personnel management functions for SIMOS, including identifying military occupational specialties (MOSS) that are space imbalanced and publishing a SIMOS listing at least once a year.
 - (8) Make final decision on all Joint domicile (JD) assignments.
 - (9) Establish procedures for managing, developing, and assigning Soldiers in career development programs (Intelligence Career Program, Explosive Ordnance Disposal (EOD) Career Program, Army Bands Career Program (ABCP), technical escort training), and Cyber.
 - (10) Approve Army Special Operations Forces (ARSOF) reenlistment option applications for training and assignment to ARSOF units, including—
 - (a) Approving voluntary reclassification applications for training and assignment to ARSOF units.
 - (b) Coordinating with Commander, U.S. Army John F. Kennedy Special Warfare Center, and School (AOJK), Fort Bragg, NC 28307-5000, (usasoc.arsof.proponency.shdmbx@socom.mil) on those applications that require a waiver.
 - (11) Delegate, when necessary, approval authority to Commander, U.S. Army John F. Kennedy Special Warfare Center, and School to—
 - (a) Approve waivers for ARSOF reenlistment option applications.
 - (b) Approve all voluntary applications, including waivers (when needed) for ARSOF training and reclassification into career management fields (CMF) 18, 37, and 38.
 - (c) Award appropriate CMF MOS to RA Soldiers who have completed the Civil Affairs (CA) Qualification Course (CAQC), Psychological Operations (PSYOPS) Qualification Course (POQC), or Special Forces (SF) Qualification Course (SFQC).
 - (d) Report Soldiers who fail to successfully complete the CAQC, POQC, or SFQC to the Branch Chief, Army Special Operation Forces Branch (AHRC-TAA-SF), HRC.

(12) Manage the Drill Sergeant (DS) Program. The CG, HRC, has centralized control over the selection, assignment, classification, and release of all RA Soldiers assigned to the DS Program. The DS Assignment Team (AHRC–FSR–N), Nominative Branch, Readiness Division (RD), Force Shaping Directorate (FSD), is the HRC point of contact for personnel matters concerning all RA Soldiers in the program. This includes requests to enter, requests for deletion or deferment from the DS Program, re-requests for third-year DS extensions, and Soldier appeals of DS Program removal actions for reasons other than suitability screening.

(13) Executes and administers procedures and programs to implement Department of the Army (DA) policy pertaining to reclassification, including reclassifications—

- (a) For sergeant first class (SFC) and above, regardless of MOS.
- (b) Requiring recoupment of bonus.
- (c) Resulting from change to the MOS structure reflected in DA Pam 611–21.

(14) Grant exceptions on a case-by-case basis to non-statutory provisions of this regulation if delegated by the DCS, G–1, unless otherwise restricted. This authority may be delegated to an authorized official in the grade of COL or equivalent civilian grade level who directs assignment policies or procedures for the Army. This authority will not be delegated outside of the proponent agency or its direct reporting unit (DRU) or field operating agency.

(15) Executes procedures to implement the policies established herein.

(16) Control operational requirements of individual Soldier stabilization.

(17) Exercise assignment approval authority for Soldiers assigned to stabilized positions.

(18) Ensure that the Reserve Component (RC) career counselor—as part of the transition life cycle function—counsels, informs, and initially assigns those Soldiers with or without a military service obligation who are being released from AD into Army National Guard of the United States (ARNGUS) units, USAR troop program unit (TPU), or the Individual Ready Reserve (IRR).

(19) Budget for training, provide policy direction and monitor the personnel management of Individual Mobilization Augmentee (IMA) and IRR.

(20) Management of USAR AGR Soldiers in accordance with AR 135–18.

(21) Manage the IRR (see AR 140–10) and approve all assignments to the IMA Program (see AR 140–10). CG, HRC also coordinates with the CG, USAR Command, commanders of USAR geographic and functional commands, and CG, U.S. Army Recruiting Command (USAREC), in filling unit shortages. The CG, HRC will implement policies for IRR/IMA personnel management and training in coordination with other members of the Army staff and designates personnel managers to manage an appropriate number of IRR and IMA Soldiers.

(22) Nominate Soldiers to fill Soldier Recovery Unit (SRU) cadre positions when installation re-sources are not available. Identify IRR Soldiers, retiree recall volunteers, and IMA Soldiers available for assignment to SRU cadre positions.

(23) Provide AI for Soldiers being return to duty (RTD) from SRUs and send an email response to the SRU commander/O–5 commander, U.S. Army Installation Management Command (IMCOM) commander, IMCOM MPD Chief, HQ U.S. Army Medical Command (MEDCOM) commander, and the Soldier's Defense Enterprise Email. This notification of assignment by email may be used as authority to issue Soldier's individual PCS orders.

(a) Report date for RTD Soldiers who are reassigned on the same installation (local move) will be within 10 days from the HRC email assignment notification to SRU or MPD.

(b) Report date for RTD Soldiers assigned to a unit requiring a PCS will be within 60 days from the HRC AI or request for orders (RFO) notification.

2–3. Chief, Army Reserve

The Chief, Army Reserve (CAR), who also serves as the CG, U.S. Army Reserve Command (USARC)—

a. Assists in developing and overseeing policies for the management of all USAR Soldiers and provide management priorities to CG, HRC for AGR positions.

b. Ensures USAR training divisions/separate brigade commanders conduct the DS Program within their units as prescribed in paragraph 2–9d.

c. Develops procedures and programs pertaining to the reclassification of USAR Soldiers.

d. Delegates to USARC major subordinate command commanders the following responsibilities over USAR TPU enlisted Soldiers (other than E-9) within their commands:

- (1) Planning and supervising the execution of assignment policy.

(2) Classification or reclassification authority for Soldiers assigned to TPUs within their commands, except RA and AGR Soldiers serving in TPUs.

2-4. Commanding General, U.S. Army Training and Doctrine Command

The CG, TRADOC will—

- a. Publicize career development programs, and—
 - (1) Counsel prospective Soldiers on program opportunities and requirements.
 - (2) Ensure applicants are eligible before applying for membership or training.
- b. Develop initial and transition training to support the SIMOS Program.
- c. Review modified table of organization and equipment (MTOE) or table of distribution and allowances (TDA) for SIMOS positions to maximize CONUS documentation and ensure proper utilization and assignment of Soldiers.
- d. Manage the DS Program by—
 - (1) Operating the DS Academy.
 - (2) Removing Soldiers from school (when reason warrants) and returning them to their home station.
 - (3) Completing academic evaluation reports.
 - (4) Providing strength management statistics.
 - (5) Providing vital information on all Soldiers who report to, as well as who graduate from, DS Academy.
 - (6) Providing historical data, including removal data, on Soldiers who have served DS duty.
- e. Approve reclassification of Soldiers in the grade of Staff Sergeant (SSG) and below in military occupational specialties (MOSs) authorized by HRC.
- f. Manage Army Instructor Development and Recognition Program.
- g. The U.S. Army Training Center, Fort Jackson, is the Army proponent for and manages the DS Program.
- h. Through the CG, USAREC—
 - (1) Be responsible for the ARSOF Recruiting Program.
 - (2) Award appropriate CMF 18, 37, and 38 MOS to RC Soldiers who elect to qualify by attending resident instruction.

2-5. Commanders of Army commands, Army service component commands, and direct reporting units

Commanders of ACOMs, ASCCs, and DRUs will be responsible for the following personnel matters that pertain to their command or to agencies under their jurisdiction. Commanders will—

- a. Submit enlisted personnel requisitions to the CG, HRC reflecting personnel requirements.
- b. Ensure that Soldiers within their commands are properly assigned and utilized.
- c. Approve reclassification of their Soldiers. For RA, commanders will approve reclassification of Soldiers, SSG, and below when their MOS is authorized by the HRC's reenlistment or reclassification IN/OUT call message, or otherwise directed by the CG, HRC.
- d. Ensure Soldiers are afforded an opportunity for training and that—
 - (1) Their applications are processed promptly.
 - (2) When selected, they are fully qualified.
- e. Publicize the career development programs and—
 - (1) Counsel prospective Soldiers on program opportunities and requirements.
 - (2) Ensure applicants are eligible for membership or training.
- f. Approve or disapprove exchange assignments.
- g. Publicize the ARSOF Program and ensure Soldiers have access to ARSOF in-service recruiters and recruiter briefings. Additionally, Commanders will work with ARSOF in-service recruiters to schedule assessment and selection course dates to meet both unit and ARSOF operational requirements and the Soldier's career goals.
- h. Delegate to subordinate senior commanders authority to assign Soldiers, including determining Soldiers' suitability for assignments from a security standpoint. Commanders should consult with appropriate installation security officials to ensure Soldiers meet the security requirements of projected assignment.
- i. Recommend approval or disapproval of all positions slated for stabilization.
- j. Ensure Commanders of SRUs are responsible for reassignment of Soldiers being declared RTD as prescribed in paragraph 2-8.

- k. Ensure commanders of local activities and units execute the responsibilities prescribed in paragraph 2–9.
- l. Ensure Chiefs, MPD, or brigade combat team (BCT)/brigade S1s execute responsibilities pre-scribed in paragraph 2–10.
- m. Be responsible for the following as related to USAR Soldiers within their commands—
 - (1) Executing assignment policy for enlisted TPU Soldiers.
 - (2) Managing and executing procedures and programs pertaining to reclassification of USAR Soldiers.
 - (3) Classification or reclassification authority for Soldiers assigned to TPUs within their commands, except RA and AGR Soldiers. This delegation cannot be further delegated below the ACOM, ASCC, or DRU level.

2–6. Chief National Guard Bureau

The CNGB will ensure State Adjutants General comply with the personnel management programs pre-scribed in this regulation.

2–7. Directors of Army training centers and schools

- a. Directors of Army training centers and schools will—
 - (1) As appropriate, grant waivers of qualifications specified in the Army Training Requirements and Resources System (ATRRS) course catalog.
 - (2) Evaluate ways to reduce or eliminate SIMOS (both current or projected) through changes to MTOE or TDA, MOS mergers or conversions, or in the case of new fielding modification of the fielding schedule.
 - (3) Identify non-SIMOS TDA positions within the personnel proponents' affected CMF to be recoded as SIMOS. If no CMF position can be identified as SIMOS, the director will coordinate with the Chief, Military Schools Branch (AHRC–FSF–EM), HRC, and provide justification to identify other TDA positions for the affected SIMOS.
 - (4) Recommend changes in service-remaining requirements for those MOSs that are deemed critically short, thereby enhancing the return on the training investment and the maximum retainability of Soldiers in shortage skills.
- b. The U.S. Army Training Center, Fort Jackson, is the Army proponent for and manages the DS Program.

2–8. Commanders of Soldier recovery units

Commanders having SRUs are responsible for reassignment of Soldiers being RTD as follows:

- a. Continental U.S. Soldier recovery unit. Immediately upon the Soldiers being declared RTD, the SRU commander (or first O–5 commander in the chain of command, if the SRU commander is not an O–5 or above) will request AI directly to the HRC via email to usarmy.knox.hrc.mbx.epmd-coad@army.mil.
- b. Outside the continental United States Soldier recovery unit. Immediately upon the Soldier being declared RTD, the SRU commander (or first O–5 in the chain of command, if the SRU commander is not an O–5 or above) will request AI via email from their respective OCONUS theater commander.
 - (1) If the OCONUS theater commander determines that the Soldier will be reassigned within the OCONUS area, OCONUS commander must provide SRU commanders/ O–5 the assignment decision within 5 days of RTD notification. Further, the OCONUS theater commander will establish coordination with the Chief of the servicing IMCOM military personnel division (MPD) to produce PCS orders within the 5-day required processing standard.
 - (2) If the OCONUS theater commander determines that the Soldier cannot be reassigned within the OCONUS command or has a near term or expired date eligible for return from overseas (DEROS), OCONUS commander will forward request for AI as prescribed for CONUS SRUs in paragraph 2–8a.

2–9. Local activity, unit, and senior commanders

- a. Local activity, unit, and senior commanders (SCs) will—
 - (1) Update all field automated data base systems.
 - (2) Screen AI special instructions and initiate security clearances for secret and top secret within 60 days of AI.
 - (3) Manage the DS Program at their level, including—
 - (a) Ensuring Soldiers selected are eligible.

(b) Designating local DS manager to serve as point of contact with the Chief, Nominative Branch, HRC (AHRC–FSR–N) and Headquarters (HQ), TRADOC, Chief, Drill Sergeant Management (ATBO–BO) on matters relating to the DS Program.

(c) Submitting "monthly status report messages" to arrive at the HRC (AHRC–FSR–N) no later than the 5th working day of each month.

(d) Awarding Soldiers skill qualification identifiers (SQLs) "X" on successful completion of DS Academy and "8" on successful completion of DS Leader Course.

(e) Awarding, terminating, and reinstating special duty assignment pay (SDAP) (proficiency pay) to DSs.

(4) Recruit volunteers for assignment to airborne, ranger, and ARSOF units and recruiting team support.

(5) Ensure applications for assignments to 75th Ranger Regiment are processed promptly, including all security clearance requirements.

(6) Inform subordinate commanders of noncompliance with utilization policies (see chap 3, sec II) for correction and recommend available courses of action.

(7) Inform Soldiers of the specific duty MOS they are being assigned to, and, if different from the primary military occupational specialty (PMOS), career progression military occupational specialty (CPMOS), or secondary military occupational specialty (SMOS), tell them the reason for assignment and its impact on their career.

(8) Report assignment eligibility and availability (AEA) codes (when applicable, include termination date) to the local Chief, MPD, or BCT/brigade S1.

(9) Initiate and maintain procedures to ensure prompt and complete processing of all required security clearance actions for Soldiers selected to attend the CA, PSYOPS, or SF assessment and selection courses. An Standard Form 86 (Questionnaire for National Security Positions) must be submitted on each CA, PSYOPS, or SF assessment and selection course selectee and eligible Soldier granted an interim secret security clearance within 45 days of the Soldier's return from CA, PSYOPS, or SF assessment and selection course.

(10) Ensure Soldiers maintain AEA by updating and keeping EFMP enrollment current in accordance with AR 608–75.

(11) Control the assignment of Soldiers into and out of established organizations and positions and notify the Chief, Actions, Policy, and Procedures Branch, HRC, (AHRC–FSO–A), when organization or position stabilization are no longer required.

b. In addition, SCs at installations conducting DS Academy or training will submit academic evaluation reports (see AR 623–3) on all Soldiers attending DS Academy to the Chief, Nominative Branch, HRC (AHRC–FSR–N) and provide a by-name message to the Chief, Nominative Branch, HRC (AHRC–FSR–N) and Chief, Drill Sergeant Management, TRADOC (ATBO–BO)—

(1) Listing Soldiers who report to each DS class.

(2) Listing Soldiers who graduate from each DS class.

c. SCs are responsible for resourcing and approving personnel to fill component-specific SRU cadre positions.

d. The USAR training divisions/separate brigade commanders will be responsible for conducting the DS Program within their units. Responsibilities include operation of DS Academies and assignment to and referral from DS duties and other appropriate responsibilities contained in AR 140–10.

2–10. Chiefs, military personnel division, and brigade combat team/brigade S1s

Chiefs, MPD, and BCT/brigade S1s will—

a. Implement assignment policies and procedures.

b. Update Soldier information on the Enlisted Assignment System of Record (for example, enrollment, and disenrollment in the Married Army Couples Program (MACP) and change in marital status).

Chapter 3

Enlisted Assignment System

Section I

Managing Enlisted Assignments

3–1. Overview

The primary goal of the enlisted personnel assignment system is to satisfy the personnel requirements of the Army. The secondary goals are to—

- a. Professionally develop Soldiers.
- b. Maximize dwell time.
- c. Meet Soldiers' personal desires.

3–2. Assignment selection criteria

Except for CONUS requirements that will be filled from OCONUS returnees who are IA, the primary considerations in reassigning a Soldier will be the Soldier's current qualifications and ability to fill a valid requirement. A secondary consideration will be achieving co-location of dual military couples. Other factors, such as availability, volunteer status, and TOS, spouse employment, spouse, and child educational activities, volunteer activities, and so forth, may be considered when in line with mission requirements and Servicemember career development.

- a. See AR 614–30 for policy on assignment to Germany of Soldiers who are German aliens and assignment to Türkiye of Soldiers who are Turkish aliens or Dual U.S./Turkish citizens.
- b. See AR 614–30 for policy on assignment of Soldiers who are former members of the Peace Corps.
- c. Soldiers released from civil or military prisons being restored to duty will not be assigned to the foreign country or area where the offense was committed.
- d. Former officers or warrant officers reverting to enlisted status will be reassigned to another installation. They will be reported IA. Exceptions may be granted when—
 - (1) The Soldier requests to remain at the original installation.
 - (2) The commander concurs.
 - (3) There is a valid vacancy.
 - (4) No higher priority requirement dictates a reassignment.
- e. Promotion of Soldiers to master sergeant (MSG) and below will not be the sole reason for a PCS. However, Soldiers selected for promotion will be considered for assignments in the grade selected for promotion.
- f. A sole surviving son or daughter will be exempt from assignment to a hostile fire area (HFA) unless the Soldier waives the designation (see para 5–7).
- g. Enlisted Soldiers will be assigned to positions in accordance with applicable DA and DoD policy.
- h. Prior to departure in compliance with AI, Soldiers must take action to meet any remaining service requirement (see AR 601–280).
- i. Soldiers will normally receive a reporting date no less than 150 days beyond the date AI are issued by HRC.

j. Equal assignment opportunities are as follows:

(1) Assignments will be made for all Soldiers without regard to their color, race, religious preference, ethnic background, national origin, age, marital status, sexual orientation, or sex, consistent with requirements for physical capabilities and with DA, DoD policy, and applicable law. (This applies equally to both PCS and temporary duty (TDY) assignment actions). Exceptions to this policy include:

- (a) Marital status for military couples.
- (b) Marital status when the Assistant Secretary of Defense for Manpower and Reserve Affairs (ASD (M&RA)), with the concurrence of the General Counsel of the Department of Defense, determines on a case-by-case basis and for reasons of national security that marital status is an essential assignment qualification for particular military billets or positions.
- (c) Sex in cases approved by the Secretary of Defense. This authority will not be delegated.
- (d) Cases where status of forces agreement (SOFA) protections are not extended to same sex spouses.
- (e) The religious preference of chaplains.

(2) Personnel decisions, including those related to the assignments of Soldiers, will not be influenced by the employment, educational activities, volunteer activities, or health of a Soldier's family member, with the following exceptions:

(a) When necessary to ameliorate the personal hardship of a Soldier or family member because a family member needs access to specialized medical treatment or educational services covered in DoDI 1315.19 and DoDI 1342.12.

(b) When otherwise required by law in instances in which a prohibited conflict of interest may exist between the official duties of a Soldier and the employment of a family member.

(3) Individual cases approved on a case-by-case basis.

k. Restrictions on assignments OCONUS prior to completion of basic training (BT) are contained in AR 614–30. Limitations on the number of moves for first-term Soldiers serving initial enlistments of—

(1) Three years or less will be given no more than one assignment before their expiration term of service (ETS) following basic and initial skills training, unless required to serve in a dependent-restricted tour area overseas, in which case such Soldiers will be given no more than two assignments in different locations.

(2) More than 3, but no more than 4 years, will be given no more than one CONUS assignment before their ETS following initial BT and skill training. If overseas assignment is required, the Soldier will be given no more than two assignments before ETS.

(3) More than four, but no more than 5 years, will be given no more than two assignments in different locations before their ETS following initial BT and skill training, regardless of tour length.

(4) More than 5 years will be given no more than two assignments in different locations, unless required to serve an overseas assignment. In that case, no more than three assignments before their ETS following initial BT and skill training, regardless of tour length.

l. The following reassignments of first-term Soldiers are not subject to the limitations listed above:

(1) Reassignment to a different duty station to or from training based on the needs of the Army.

(2) Reassignments under the MACP.

(3) Reassignments under the EFMP or for compassionate reasons.

(4) Reassignment of Soldiers disqualified for duty as a result of denial or revocation of security clearance, professional certification, nuclear certification, or medical qualification, or relief from duty for cause.

(5) Reassignment to or from patient or prisoner status.

(6) Reassignment of Soldiers determined as excess due to unit inactivation or deactivation; base realignment and closure; organization or staffing changes; reclassification or other actions changing the occupational specialty or skill designator of the Soldier.

(7) Reassignment of Soldiers via expedited transfer as authorized by DoDI 6495.02, Volume 1.

m. Unit moves will not require Armywide equitable assignment policy.

n. Concurrent assignment of Soldiers of the same immediate Family to the same military unit is not prohibited. Good order and discipline will be considered in determining whether members of the same Family are to be assigned to the same unit. Requests for reassignment to a different unit may be approved for all but one Soldier of the same Family and will be based on military requirements.

o. Married Army couples and single Soldiers are eligible for duty worldwide and all assignments for which they qualify, including assignments to imminent-danger or HFAs. Single Soldiers and military couples with dependents will have a current and viable Family care plan completed in accordance with AR 600–20. If the Soldier cannot or will not develop an adequate Family care plan, the commander will process the Soldier for separation in accordance with AR 635–200.

p. Refer to AR 614–30 for overseas assignment restrictions of birth parent Soldiers with newborns and military couples or single parent Soldiers in the process of adopting a child.

q. Local reassignments/diversions approval/disapproval authorities.

(1) Local reassignments/diversions within ACOMs, ASCCs, or DRUs. Local reassignments/diversions within ACOM, ASCC, or DRU can be approved by the lowest level commander, exercising authority over both the losing and gaining units. Local reassignments/diversions within ACOM, ASCC, or DRU do not require coordination with HRC.

(2) Local reassignments that cross ACOM, ASCC, or DRU. The approval/disapproval authority for local moves that cross ACOMs, ASCCs, or DRUs is the Chief, RD, FSD, HRC. Requests for local moves that cross ACOMs, ASCCs, or DRUs will be routed to HRC to determine if the available inventory supports the reassignment of the Soldier and determine if a replacement is required/supportable. Units must provide

HRC sufficient time to reassign the Soldier (minimum of 90 days). If the reassignment warrants a backfill, the replacement will arrive based on HRC assignment policies.

(a) Requests for Soldiers to be reassigned on an intra-post transfer (IPT) across ACOM, ASCC, or DRUs will be submitted via email. These local reassignments will be requested on a personnel action request (PAR) signed by the first lieutenant colonel (LTC)/O5 commander in the chain of command along with a letter of release signed by the losing command G1 and a letter of acceptance from the gaining command G1. Emails will contain 'IPT Action' in the subject line and be sent to RD at usarmy.knox.hrc.mbx.epmd-readiness-team@army.mil. Chief, RD will coordinate with the recommended Soldier's Career Branch to determine supportability. If the reassignment is supportable, Chief, RD will provide confirmation via email.

(b) Requests for Soldiers to be reassigned across ACOM, ASCC, or DRUs that are not supportable will be returned to the command with a justification.

(3) Diversions that cross ACOM, ASCC, or DRU. The approval/disapproval authority for diversions that cross ACOM, ASCC, or DRUs is the Chief, RD, FSD, HRC. Diversions will be routed to HRC to determine if the available inventory supports the diversion of the Soldier and determine if a replacement is supportable. If the diversion warrants a backfill, the replacement will arrive based on HRC assignment policies. Requests for diversions that cross ACOM, ASCC, or DRUs will be requested prior to the Soldier being arrived at the gaining installation.

(a) Requests recommending Soldiers to be diverted across ACOM, ASCC, or DRUs will be submitted via email. These diversions will be requested on a PAR signed by the first LTC/O-5 commander in the chain of command, along with a letter of release from the losing command G1 and a letter of acceptance from the gaining command G-1. Emails will contain 'IPT Action' in the subject line and be sent to RD at usarmy.knox.hrc.mbx.epmd-readiness-team@army.mil. RD will coordinate with the recommended Soldier's Career Branch to determine supportability. If the diversion is required/supportable, Chief, RD will execute a top of the system diversion. The MPD that published the original order will publish the diversion order. Once the diversion order is published, the losing MPD will transmit the diversion order to the gaining installation.

(b) Requests for Soldiers to be diverted across ACOM, ASCC, or DRUs that are not supportable will be returned to the command with a justification.

r. Local reassignments/diversions (USAR/AGR only).

(1) Approval/disapproval authority remains with Chief, Operations and Readiness Division, Reserve Personnel Management Directorate.

(2) Requests will be submitted via email (usarmy.knox.hrc.mbx.rpmd-ord-policy-branch@army.mil) on a PAR signed by the first LTC/O-5 Commander in the chain of command.

(3) If the reassignment is supportable, Chief, RD will provide confirmation via email. Requests that are not supported will be returned to the command with a justification.

3-3. Assignment preferences

a. Soldiers' CONUS area of preference and overseas area of preference are considered in the assignment process; however, assignments are made to fulfill Army requirements.

b. When selecting a preference, Soldiers should choose installations or geographic areas where their PMOS, SQIs, and additional skill identifiers (ASIs) are required.

3-4. The Enlisted Assignment System of Record

a. The Enlisted Assignment System of Record is the principal automated source for information concerning enlisted assignment actions until subsumed by future personnel systems of record. It is an interactive online system for enlisted assignments and distribution functions.

b. Detailed instructions and specifics on the Enlisted Assignment System of Record are available in the appropriate user's manual.

3-5. Enlisted distribution target model

a. The enlisted distribution target model (EDTM) is an automated system that creates enlisted distribution targets by MOS, grade, and unit identification code (UIC). The model fills each UIC reflected in the personnel manning authorization document with projected available inventory from the MOS Level System according to the DCS, G-1 distribution policy.

b. The EDTM constrains the assignment process to coincide with the projected operating strength targets. It represents assets the Army realistically expects to be available for distribution. The model targets each UIC for fill according to the DCS, G-1 enlisted distribution policy. Therefore, the possibility exists (depending on the fill priority and projected inventory) for a unit to be targeted at less than authorized strength.

c. Field personnel managers may view the targets—grouped by private through specialist (SPC), sergeant (SGT) through MSG, and SGM for the current month plus 4 through 12 months (CM+4 through CM+12).

d. The targets are produced monthly or more frequently if changes to projected authorizations or operating strength warrant an update. (Questions on the EDTM may be referred to the Chief, Modeling and Requirement Branch, HRC (AHRC-FSR-M), 1600 Spearhead Division Avenue, Fort Knox, KY 40122-5302.)

3-6. Requisitions/job openings

a. The allocation of requisitions for each of the requisitioning activities listed below will be limited to the command's share of available inventory, determined by the EDTM. Requisitions are allocated to the field via the Enlisted Assignment System of Record at the 4-character military occupational specialty code (MOSC) level. Requisitioning activities then expand the allocations to the 9-character MOSC level, adding security requirements, other details, and special instructions, if necessary, and transmit them to the HRC by verifying requisitions in the Enlisted Assignment System of Record. The requisitioning activities are as follows:

- (1) CONUS installations.
- (2) CONUS elements of functional commands.
- (3) U.S. Army Europe and Africa; Eighth U.S. Army; U.S. Army Pacific; and U.S. Army South (USARSO).
- (4) MEDCOM.
- (5) U.S. Army Special Operations Command (USASOC).

b. All other requisitioning activities will determine their 9-character MOSC level requirements and any special instructions and transmit them by creating requisitions in the Enlisted Assignment System of Record. If no requisitions are received from a requisitioning activity during the month, the assumption is that no requirement exists.

c. The Enlisted Assignment System of Record will generate the control and serial number when the requisition is created. (See the Enlisted Assignment System of Record user's manual for details.)

d. The lead time required in submitting personnel requisitions provides time for selecting and preparing Soldiers for movement. Actual lead times necessary for each ACOM, ASCC, or DRU are established during the requisition allocation process or via direct communication between the HRC and the supported command. (Questions on this process may be referred to the Chief, RD, FSD, HRC (AHRC-FSR), 1600 Spearhead Division Avenue, Fort Knox, KY 40122-5302, or usarmy.knox.hrc.mbx.epmd-readiness-branch@army.mil).

3-7. Stabilization of tours, assignment eligibility, and availability codes

a. A request for individual stabilization, to include extensions, may be disapproved by any commander in the chain of command without referral to HRC.

b. Assignment of personnel to positions requiring stabilization usually will be made by HQDA-directed AI.

c. Only Soldiers in authorized positions may be stabilized. Over-strength or excess personnel (or personnel not working in their PMOS) may not be stabilized except in the case of compassionate stabilizations.

d. Personnel assigned to organizations or positions for which HQDA has approved stabilized tours normally will not be reassigned before completion of the stabilized tour. However, reassignment can occur if they—

- (1) Have been granted HQDA approval of a request for compassionate reassignment.
- (2) Become disqualified to serve in the assignment; or are relieved for cause from the assignment.
- (3) Are selected by HQDA to fill high priority assignments or when HQDA has determined it is in the best interest of the Service or the individual Soldier.
- (4) Become surplus to the needs of the organization.

- (5) Reenlist under a reenlistment option.
- (6) Are selected for or are promoted to E-9 or selected to attend the USASMA.
- (7) Are selected for attendance to an officer accession program.
- e. Requests for extension of stabilized tours (including organizations and selected positions) will be submitted as individual requests and must be fully justified. If five or more individuals are serviced by the same MPD, all Servicemembers will be included in a single request for stabilization. Requests for stabilization normally will not be approved when—
 - (1) The installation is over-strength in the Soldier's grade, substitutable grades, and MOS.
 - (2) The Soldier is not working in their PMOS or specialty.
 - (3) The Soldier is not in an authorized position.
 - (4) The Soldier is on AI.
 - (5) The Soldier is within 45 days of their market opening.
- f. SRU Cadre stabilization extension requests must be routed through the SRU commander to the regional G1 for forwarding to MEDCOM.
- g. Requests for organization and position stabilization will be sent through the organization and through the ACOM, ASCC, DRU commander to DCS, G-1 (DAPE-MPE-DR), Washington, DC 20310-0300, for approval. ACOM, ASCC, DRU commanders may disapprove requests for organizations, positions, and individual stabilization without referral to DCS, G-1.
- h. Requests for command-directed behavioral health evaluation or follow-up treatment will be stabilized at their current unit and identified as non-available for PCS and deployment until properly cleared by a behavioral healthcare provider.
- i. AEA codes are a management tool used to identify the Soldier's eligibility and availability for reassignment. Table 3-1 will be used to determine appropriate AEA codes.
 - (1) When two or more AEA codes apply, the AEA code with the longest period of stabilization will be reported, except when AEA Code "N" applies, in which case AEA Code "N" will always be reported.
 - (2) AEA codes will be processed immediately upon change of a Soldier's eligibility status.
 - (3) AEA codes are based on the type of stabilization and the Soldier's circumstances. Some AEA codes require a termination date, which will be the date the Soldier becomes eligible for an assignment.
- j. The Enlisted Assignment System of Record will be used to submit AEA transactions.
- k. Stabilization may be waived by the CG, HRC, under the following conditions. Waiver of stabilizations does not constitute a TOS waiver. TOS rules still apply.
 - (1) Reassignments to fill higher priority assignments.
 - (2) Reassignments when HQDA has determined it is in the best interest of the Service or the individual Soldier.
- l. AEA Code "L" will automatically be created on the Enlisted Assignment System of Record—
 - (1) When a PCS arrival transaction is processed.
 - (2) Upon the AEA code termination date expiration.
- m. Currently, there are 35 AEA codes.
 - (1) HRC exclusive: D, E, F, G, H, I, J, K, M, N, O, P, R, S, T, V, W, Y, 1, 2, 3, 4, 5, 6, 7, 8, and 9.
 - (2) Field and HRC: A, B, C, L, Q, U, X, and Z.

Table 3-1
Assignment eligibility and availability codes—Continued

Rule	Code	Description
1	A	Soldiers permanently ineligible for future assignments due to— Approved retirement or request for retirement (see AR 635-200). Termination date will be the effective date of retirement. Being involuntarily ordered to AD for 12 months or less in an individual status or as a member of intact units. Termination date will be the ETS date.

Table 3–1
Assignment eligibility and availability codes—Continued

Rule	Code	Description
		Signing a Declination of Continued Service Statement or not being able to reenlist or extend to meet the service remaining requirement (SRR). Termination date will be the ETS date. However, these Soldiers may be considered eligible for other reassignments (CONUS and OCONUS) provided they have sufficient service remaining to meet the requirements of the new assignment.
		Being dropped from the rolls as a deserter.
		Confined as a result of conviction by special or general court-martial or civil court.
2	B	Soldiers being considered for elimination from the Service, or their assignment precludes their reassignment for an unspecified time. This code does not have a termination date.
3	C	Soldiers temporarily ineligible for reassignment for the following reasons: Medical, convalescence. Student or trainees (except IET). Enrolled in the Army Substance Abuse Program (ASAP) inpatient rehabilitation (see AR 600–85). Soldiers with field bar to continued service. (Termination date will be ETS date, not to exceed 12 months.)
4	D	Career Development or Critical Leader Time. Career Developmental—applicable to certain CMF's, per DA Pam 600–25. Termination date will not exceed 24 months.
5	E	Computer network operators. Top of the system input only. Termination date will not exceed 60 months.
6	F	Crew Stabilization. Termination date will not exceed 24 months.
7	G	Soldiers stabilized under "special category." The termination date will not exceed 48 months.
8	H	Equal opportunity advisor/inspector general (IG) duty stabilization. Termination date will not exceed 36 months.
9	I	Soldiers approved for warrant officer or officer-producing programs. This code does not have a termination date.
10	J	Soldiers awaiting medical evaluation board or a physical evaluation board. This code is top of the system generated based on assignment deletion code ED or reenlistment ineligibility Code 9H. This AEA code carries 12-month stabilization.
11	K	Criminal investigation division (CID) special agent accession/training. Top of the system input only. The termination date will not exceed 15 months.
12	L	Soldiers eligible for PCS reassignment, subject to normal PCS TOS restrictions. There is no termination date.
13	M	Soldiers stabilized while awaiting a U.S. Army Reenlistment/Reclassification System transaction for reenlistment or undergoing reclassification. This code will terminate upon completion of reenlistment or reclassification action.

Table 3–1
Assignment eligibility and availability codes—Continued

Rule	Code	Description
14	N	CONUS-based Soldiers who have received a deployment indicator (transaction) denoting that they are currently deployed OCONUS.
15	O	Operational deletion/regeneration stabilization. Soldiers who have received an approved deletion of assignment for operational reasons. This code is also used for regeneration stabilization as determined by the HRC. The termination date will be based upon operational needs. Top of the system input only.
16	P	Sexual Assault Response Coordinators (SARC) Victim Advocates (VA) Stabilization. The termination date will not exceed 36 months.
17	Q	Soldiers ineligible for assignment under the Lautenberg Amendment. Affected Soldiers are not eligible for firearms or ammunition. Soldiers cannot be assigned to units requiring possession, handling, or use of firearms or ammunition or re-assigned overseas. Soldiers cannot be deployed overseas. This code does not have a termination date.
18	R	Stabilized OCONUS deploy or redeploy 61 or more consecutive days.
19	S	Soldiers being reassigned or deleted from AI status for compassionate reasons. The termination date will be when the problem is resolved or 12 months, whichever occurs first.
20	T	Soldiers performing duties directed by the HRC or when they are in a nomination hold status. There may be a termination date.
21	U	Soldiers who have enlistment commitments. The termination date will be computed for Soldiers enlisted for unit or station of choice from the date Soldiers are assigned to the unit or station. Soldier's stabilization will not exceed 12 months. (Soldiers may terminate their stabilization by signing a waiver to the contract.)
22	V	Soldiers who have received an "individual stabilization," other than special category. Termination date will not exceed 24 months.
23	W	Soldiers who have received organization stabilization. Termination date will not exceed 48 months.
24	X	Soldiers stabilized for the following reasons: SSG through SGM assigned (and stabilized for 36 months) to RA/RC. This includes RA Soldiers attached to ARNGUS or RC units for duty in full-time manning (FTM) positions. Soldiers assigned (and stabilized for 36 months) to Reserve Officers' Training Corps (ROTC). Soldiers assigned (and stabilized for 36 months) to USAREC in administrative or support positions.
25	Y	Approved High School Senior Stabilization. Termination date will be 1 month after child's graduation.
26	Z	Soldiers who have been confirmed as accepting assignment incentive pay -Korea. Termination date will be the date eligible for return from overseas (DEROS).

Table 3–1
Assignment eligibility and availability codes—Continued

Rule	Code	Description
27	0	Special Management Division Nominations. Soldiers selected for assessment and assignment to Special Management Unit (SMU). Internal HRC nomination. Termination date will not exceed 6 months.
27	1	Security Forces Assistance Brigade (SFAB) nomination. Soldiers who have submitted a volunteer packet for assignment to SFAB will be stabilized until the final decision is rendered.
28	2	Soldiers have successfully completed the detailed recruiters' course and have arrived at the recruiting stations where they will serve as a recruiter. The termination date will not exceed 36 months.
29	3	Accession assignment incentive pay stabilization. Termination will not exceed 36 months.
30	4	CSM projected change of responsibility date (PCORD). Will be entered by HRC via the Enlisted Assignment System of Record.
31	5	Soldiers who have successfully completed the DS Course and have arrived at the installation where they will serve as a DS. Top of the system input only. The termination date will not exceed 36 months.
32	6	Identified for potential unit move. Top of the system input only. Termination date will not exceed 12 months.
33	7	Soldiers on Joint Individual Augmentation taskers. Termination date will be the end of the month of the tasker
34	8	Soldiers stabilized pending special assignment nomination (presidential support activities, the White House, and EOD). Termination date will not exceed 24 months.
35	9	Soldiers identified to attend the special forces assessment and selection (SFAS) course. There is no termination date.

Section II

Personnel Utilization

3–8. Objectives

- To ensure efficient use of enlisted Soldiers in accomplishing the Army mission.
- To place Soldiers in positions that require skills, knowledge, and abilities as shown by their PMOS, SMOS, or additional MOS (AMOS).
- To provide policies on personnel utilization that will strengthen and broaden MOS qualifications and prepare Soldiers for career progression, greater responsibility, and diversity of assignment.

3–9. Criteria

Soldiers will be assigned to an organizational element according to the authorized MTOE/TDA/Duty military occupational specialty positions, consistent with their PMOS or CPMOS qualifications, and meet the required criteria.

- The criteria for SIMOS are found in paragraph 3–12.
- The criteria for bonus recipients are found in AR 601–280.
- The criteria for first sergeant (1SG) positions are available in chapter 8, section IV.
- Soldiers with school-trained SQI or ASI will be assigned in the SQI or ASI for the minimum SRR for the respective course. An SQI or ASI is not a substitute for an MOS and will not represent the sole skill requirement for any position.

e. Defense Language Institute graduates will be utilized in positions authorized foreign language ability. (Exceptions must be approved by the HRC.)

f. Non-bonus first-term Soldiers will serve in their PMOS during their first-term of service. When exigencies dictate, commanders will assure PMOS utilization through the first 12 months after completion of advanced individual training (AIT). Commanders then may award SMOS or AMOS as appropriate. Only ACOM, ASCC, or DRU commanders may grant exceptions, and exceptions may be granted for operational necessity only.

g. Intelligence career program Soldiers will be assigned in their PMOS only, unless approved by the Chief, Military Intelligence Branch, HRC (AHRC-TAF-MI).

h. Soldiers with PMOS 42R or 42S (band personnel) will be assigned in their PMOS only, unless approved by the Chief, Soldier Support Branch, HRC (AHRC-TAS-SSB).

i. Soldiers in the grades of SGT through SGM or CSM will be assigned to fill MOS and grade authorizations in MTOE troop units before filling TDA staff positions. Commanders with classification authority can authorize exceptions to meet essential local needs.

j. Assign Soldiers within the same grade or up to two grades higher if no higher-ranking Soldiers are available. Utilization within the same or higher skill level should be considered. The higher skill level will include any other MOS to which the Soldier would advance in the normal line of progression in the MOS career pattern set forth in DA Pam 611-21.

k. Assign Soldiers in the shortage or balanced MOS for which they are trained, provided current PMOS is listed as over-strength in DA Pam 611-21 or as otherwise directed by the HRC.

l. Soldiers who were paired as "Buddy Teams" in designated training units will be assigned to the same installation by the HRC under the Buddy Team Assignment Program. Installations will further assign Soldiers to the same unit (ideally the same company, battery, squad, or team) for the first 6 months of their assignment. The first COL in the Soldiers' chain of command is the approval authority for buddy teams not being assigned to the same unit (company, battery, squad, or team) for the first 6 months of their assignment.

m. To ensure compliance with the Child Soldier Protocol to the United Nations Convention on the Rights of the Child, on the Involvement of Children in Armed Conflict, Soldiers under age 18 will not be assigned on a PCS or deployed on TDY or temporary change of station to duty stations outside of CONUS, except Alaska, Hawaii, the Commonwealth of Puerto Rico, or territories or possessions of the U.S. Commanders must take all feasible measures to ensure that Soldiers under the age of 18 do not take a direct part in hostilities. Also, see the Child Soldier Prevention Act of 2008, Title IV of Public Law 110-457. Nothing in this policy limits the Soldier's inherent right of self-defense.

n. When considering a SPC or corporal (CPL) for utilization at the higher grade, the following sequence should be followed:

- (1) Noncommissioned officer (NCO) position at present grade.
- (2) NCO position at a higher grade.

o. Supervised on-the-job training (OJT) may be used to improve utilization and qualifications of Soldiers in their PMOS, SMOS, or ASI (except intelligence MOS). However, supervised OJT will not be used to—

- (1) Award MOS that requires formal school training described in DA Pam 611-21.
- (2) Change Soldiers' PMOS for the sole purpose of meeting local requirements.
- (3) Cause the loss of school-trained assets.

p. As an exception, Soldiers may be utilized—

- (1) When the assignment is under actual combat conditions.
- (2) When the assignment is to meet an urgent military requirement to satisfy an exceptional need for special duty (SD). (See the glossary for the definition of "special duty" and its two subsets, "borrowed military manpower" and "troop diversions.") Time is limited to 90 days, after which Soldiers must be re-turned to duties in their PMOS or career progression military occupation specialty (CPMOS). Extensions will not be granted.

- (3) When the sole purpose of the assignment is to qualify Soldiers for a shortage MOS. The MOS and skill level must be authorized for the Soldiers' grade.

- (4) To support reserve summer training.

- (5) When the assignment is under special instructions from the HRC.

- (6) In specialist positions, there must be no NCO vacancies in their current grade and same or higher skill level.

(7) In their PMOS, in a position one grade lower if they are excess (excluding CSM/SGM). This precludes PCS moves and offsets grade or space imbalanced conditions between OCONUS and CONUS. Soldiers directed to serve in a lower-grade position must not be penalized in their noncommissioned officer evaluation report (NCOER). The first choice for utilization of the NCO under this exception will be in a lower-grade NCO position. Strength managers will provide Soldiers utilized under this exception the specific reasons for such action.

(8) In their SMOS, AMOS, or in a MOS substitute for the PMOS in the same or higher skill level, as authorized in DA Pam 611–21, when there is no requirement for PMOS. Assignment will not exceed 12 months.

q. Commanders will maintain current inventories of authorized and actual strengths by MOS. Using MOS strength, utilization of Soldiers will be reevaluated periodically, and MOS overages and shortages will be adjusted by reassigning Soldiers when appropriate. If an overage or excess still exists after the adjustment, Soldiers in the overage MOS and grade who have been assigned to the installation or activity the longest since the last PCS will be reported as IA (see para 3–18). However, Soldiers pending reassignment will be utilized in a position most in line with their grade and qualifications.

r. Soldiers who must be reassigned due to the inactivation of a post, camp, or station will be reported 180 days before the inactivation date.

s. For rehabilitation transfers, refer to AR 635–200.

t. Soldiers who have a chronic medical condition will be assigned pursuant to the medical fitness standards prescribed in AR 40–501.

u. Soldiers qualified and certified by TJAG as paralegals in accordance with AR 27–1 will be assigned by TJAG, who serves as the career manager for paralegals to include the worldwide assignment of enlisted MOS 27D.

3–10. Noncommissioned Officer Professional Development System graduates

Commanders will set policy on utilizing Soldiers in MTOE troop positions and TDA positions immediately following graduation from Noncommissioned Officer Professional Development System (NCOPDS) courses. The NCOPDS establishes an organizational framework to develop the next generation of competent and committed NCOs. NCOs develop as leaders throughout their career through progressive and sequential processes. These processes incorporate training, education, and experience across three learning domains--Institutional, Operational, and Self-Development.

3–11. Conscientious objectors

a. Utilization of conscientious objectors is regulated by AR 600–43.

b. Commanders will try to effectively utilize conscientious objectors by assigning them to noncombatant duties and training—

(1) In any unit that is unarmed at all times.

(2) In any medical department.

(3) In any other assignment, the primary function of which does not require the use of arms in combat provided that such other assignment is acceptable to the individual concerned and does not require the individual to bear arms or to be trained in their use. (However, defense-type training consisting of unarmed defense, passage through minefields, search of casualties for booby traps, and disarming of booby traps found on casualties will be taught if a conscientious objector so requests.)

c. Service aboard an armed ship or aircraft or in a combat zone will not be considered to be combatant duty unless the individual concerned is personally and directly involved in the operation of weapons.

d. Excluding noncombatant duties and training, conscientious objectors are—

(1) Not allowed to avoid hazardous duties that may be part of the mission of the unit to which assigned.

(2) Subject to Army regulations and directives, including those on training and discipline.

(3) Available for worldwide assignments.

3–12. Space Imbalanced Military Occupational Specialty Program

a. A SIMOS condition exists when 55 percent or more of the authorizations are OCONUS. This program is intended for grades SGT through SFC and is designed to enhance personnel retention in the career force and to provide more effective use of enlisted Soldiers.

b. Participation in the SIMOS program by Soldiers holding a SIMOS is mandatory and will be closely monitored with primary emphasis on improving readiness of OCONUS units requiring Soldiers' skills, equity of OCONUS assignment, and CONUS turnaround time.

c. Soldiers with a SMOS that is a SIMOS will also be considered for inclusion in the SIMOS program. Consideration will be given to the status of current PMOS and CPMOS, need, and availability of refresher training in SMOS upon deployment OCONUS, and PMOS or CPMOS upon return to CONUS and availability of Soldiers holding the SIMOS as PMOS.

3-13. Skill qualification identifiers

a. The SQI is the fifth character of the MOSC and may be used with any MOS unless restricted by DA Pam 611-21. The fifth character of the MOSC will contain the letter "O" when the Soldier is not qualified for an SQI.

b. The servicing chief, MPD, commander, BCT, or brigade S1, or the training activity commander will award SQI to fully qualified Soldiers by posting the transaction through the Personnel System of Record. As an exception, only the first currently serving USASOC subordinate commander, COL, or above, in the Soldiers chain of command may award SQI "S."

c. With the exception of SQI "X," "Q," "8," or "B" (which maintain precedence while a Soldier is assigned to an authorized DS position, equal opportunity advisor position, instructor position, or IG NCO position, respectively), the order of precedence for SQI is—

- (1) V ranger-parachutist.
- (2) G ranger.
- (3) S special operations support personnel.
- (4) P parachutist.
- (5) F flying status.
- (6) M first sergeant.
- (7) X drill sergeant.
- (8) Q equal opportunity advisor.
- (9) 8 instructor.
- (10) B IG noncommissioned officer.
- (11) 4 non-career recruiter.
- (12) L linguist.

d. SQI "L" will be awarded to Soldiers who are qualified exclusively in a language and not in another SQI. Any awarded SQI takes precedence over SQI "L," however, the Soldiers' language identification code will be recorded in the eighth and ninth character of the MOSC even when it has been replaced by another SQI in the MOS.

e. The SQI will be withdrawn and deleted from the MOS awarded when qualification skills are lost or when the Soldier withdraws from a voluntary program (for example, airborne, or ranger duty).

f. SQI "S" will be withdrawn and deleted from the MOS awarded when qualification skills are lost, when the Soldier has committed any act or engaged in conduct inconsistent with Special Operations Forces core attributes or displays repeated substandard performance and conduct as determined by the first currently serving USASOC commander in the Soldier's chain of command.

g. SQIs listed in table 3-3 will be withdrawn and deleted from the MOS awarded for Soldiers who are required to register as sex offenders.

3-14. Additional skill identifiers

a. The ASI is the sixth and seventh characters of the MOSC. It identifies skills requiring formal school training or other criteria specified in DA Pam 611-21. The ASI is associated with specific MOS as authorized in DA Pam 611-21. The sixth and seventh characters of the MOSC will contain "00" when the Soldier is not qualified for an ASI. Soldiers will be awarded ASI in both PMOS and SMOS when qualified.

b. Soldiers completing formal ASI training at Army Service schools will be awarded the ASI upon successful completion of the course. Mandatory utilization of school-trained ASI assets is required for the minimum SRR (see table 3-1). Commanders will establish procedures to ensure ASI-qualified Soldiers serve in the position they were trained for.

c. The ASI will be awarded when the Soldier meets the qualifying criteria outlined in DA Pam 611-21, for example, upon successful completion of new equipment training, formal school training, as announced

by DA Pam 611–21, or as directed by HRC. Only HRC and the designated Army Service schools are authorized to withdraw an ASI except for ASI "Y2," "4A," or when directed by HRC.

(1) The Commandant, U.S. Adjutant General School, Army Soldier Support Institute, Fort Jackson, SC, will award and withdraw ASI "F5." Regional Support Command commanders will award the ASI to USAR Soldiers.

(2) The Commander, U.S. Army Intelligence and Security Command (INSCOM), Fort Huachuca, AZ, will award and withdraw ASI "G9."

(3) The Commandant, U.S. Army School of Music (USASOM), Joint Base Little Creek-Fort Story (JBLC–FS), Virginia Beach, VA, will award and withdraw all ASIs associated with PMOS 42R to include ASI "C1."

(4) The ASI "4A" will be awarded by HRC (Retention and Reclassification Branch (AHRC–FSF–ER)) to identify Soldiers who are awarded an MOS prior to formal training and who retain continued promotion eligibility (consideration, recommendation, and subsequent promotion) in newly acquired MOS (prior to completion of training). The Commandant of the MOS-producing school will remove the ASI when the Soldier has successfully completed mandatory MOS training.

(5) The ASI "4B" will be awarded when directed by the Chief, Retention and Reclassification Branch, HRC (AHRC–FSF–ER) to identify Soldiers who are awarded an MOS prior to formal training and who are otherwise ineligible for further promotion (consideration, recommendation, and subsequent promotion) until all mandatory MOS training is completed. The Chief, MPD, or the BCT/brigade S1s will track status for all Soldiers with ASI "4A." Upon determination that a Soldier failed (due to their own fault—as determined by the unit commander) to attend or failed to complete training, ASI "4A" will be changed to ASI "4B". The MOS-producing school will remove the ASI when the Soldier has successfully completed mandatory MOS training.

(6) Soldiers will not be awarded ASI "4A" or "4B" when the MOS reclassification is based on approved MOS mergers stemming from force structure changes as initiated by a proponent. The Chief, Retention and Reclassification Branch, HRC (AHRC–FSF–ER) will award either ASI "Y2" or "Y3" as dictated by the approved Military Occupational Specialty Classification Structure, DA Pam 611–21 action. These Soldiers are otherwise MOS qualified and retain continued promotion eligibility.

(7) Battle Staff NCO (ASI 2S). Commanders will select and train Soldiers for valid battle staff positions within 12 months of arrival at local duty station. Commanders will submit requests to stabilize battle-staff-trained NCOs to the Chief, Actions, Policy, and Procedures Branch (AHRC–FSO–A). Stabilization requests will be submitted only for Soldiers who received battle staff training within 12 months of arrival on station and who are serving in an authorized battle staff position. Upon approval, Soldiers will be given AEA Code "G" with a 12-month termination date from date of approval.

d. When a commander decides that a Soldier is no longer qualified, a request to withdraw the ASI is forwarded through channels to HRC (AHRC-appropriate career branch).

e. Withdrawing an ASI does not require withdrawal of the related MOS but withdrawing the MOS does require withdrawal of ASI. (An exception is when the newly awarded MOS is associated with the ASI per AR 611–1 and DA Pam 611–21).

f. Appropriate professional development proficiency codes (PDPC) ASI codes to identify CSM/SGM experience levels will be awarded by the Chief, SGM/CSM Branch, HRC (AHRC–TAD). The PDPC ASIs will be awarded via the Enlisted Assignment System of Record, and an MOS order is not required for award or withdrawal.

g. The CG, TRADOC, or the designated representative will award and withdraw personnel development skill identifiers for instructors.

3–15. Language codes

a. The eighth and ninth characters of the MOSC identify a Soldier qualification in foreign languages (see AR 11–6). Language codes may be used with any MOS. Soldiers qualified in a language will be awarded the proper language code by publishing orders in the same manner as for an MOS. The eighth and ninth characters of the MOSC will contain "YY" when a Soldier is not qualified in a language.

b. For Soldiers with multiple language skills—

(1) The control language (CLANG) or primary language is the language for which the Soldier most recently attended a full-length basic language course. If the Soldier has not attended a full-length basic language course that is, a language conversion course, such as Persian Farsi to Dari, (called the mission language), the CLANG will remain the first trained or recruited for language for purposes of promotion

and foreign language proficiency bonus, but the Soldier can be assigned against a requirement in their mission language. This will be the Soldier's CLANG until the Soldier is no longer under an AD ser-vice obligation for the language or as determined by the appropriate branch manager. Branch managers will determine the CLANG based on proficiency level and requirements. Soldiers who meet the 22 standard can request to change their mission language to their CLANG with HRC approval based on the availability of authorizations or requirements by submitting a PAR. This will be used as the exception rather than the rule and will be based on the needs and discretion of the Army (see AR 11–6).

(2) The code for the CLANG in which a Soldier received an enlistment bonus (EB) or selective reenlistment bonus will be the code the Soldier is awarded.

c. For Soldiers assigned to non-linguist positions, the language code will be for the language for which the Soldier was most recently trained.

d. The SQL “L” will be withdrawn from MOSC when language proficiency for both listening and reading comprehension fall below the standards specified in AR 11–6. The two-character language identifier code will remain in order to track that the Soldier had training or proficiency at one-time in the CLANG.

3–16. Military occupational specialty code

Soldiers' MOSC (fifth through ninth characters) will be recorded and reported through the Enlisted Assignment System of Record.

3–17. Lateral appointments

a. For lateral appointments of MSG to 1SG, see paragraph 8–28.

b. For lateral appointments of SPC to CPL, see AR 600–8–19.

c. For lateral appointments of SGM to CSM, see paragraph 7–4.

3–18. Immediately available Soldiers

a. Soldiers who cannot be properly utilized or are excess to unit requirements are considered IA, previously known as surplus.

b. Commanders will report IA Soldiers to the appropriate career branch chief, HRC as soon as their availability date is known but no later than 1 day after availability date. Commanders can use table 3–2 for rules to assist in the reporting process. However, commanders will fully explain the situation when one of these rules does not adequately describe the particulars of a Soldier's case.

c. Refer to AR 614–30 for IA policies relative to Soldiers serving OCONUS.

Table 3–2
Determining immediately available rules—Continued

1	School failure—Soldiers who fail to complete courses at Army Service schools, training centers, officer candidate schools, civilian institutions, airborne schools, or DS or ARSOF training, unless otherwise directed by the HRC.
2	RTD from SRUs—CONUS and OCONUS SRU commanders (or first O5 commander in the chain of command if the SRU commander is not a O5 or above) will report Soldiers as RTD in accordance with paragraph 2–8. The Chief, Special Actions Branch, HRC AHRC–FSO–S is responsible for coordinating AI for RTD Soldiers and notifying CONUS and OCONUS authorities as prescribed in paragraph 2–8.
3	Soldiers assigned to military personnel transportation and assistance offices in emergency PCS status who require further AI.
4	Loss of qualifications—for example, denial, or revocation of security clearance, professional certification, nuclear certification, or medical qualification to perform, relieved recruiter, airborne terminee, relief from duty for cause, or Soldier's failure to meet prerequisites for special reassignment under AR 50–5 and AR 50–6.
5	OCONUS returnees assigned to transfer station who are ineligible for transfer processing.
6	Prisoners in CONUS sentenced to punitive discharges who are being restored to duty in CONUS. Request AI as soon as directed to restore to duty (see AR 190–45).
7	Absentees restored to duty in CONUS when no provisions for disposition exist in AR 630–10.
8	Soldiers who, because of being in absent without leave status, or for other reasons, previously were withheld from shipment against AI issued under AR 630–10.

Table 3–2
Determining immediately available rules—Continued

9	Prior-Service personnel who have enlisted or reenlisted under options for which pertinent regulations do not provide specific processing AI and no further training or less than 8 weeks of BT is required. Soldiers, inducted, reclassified, or ordered to active AD from an Army retired status will be included in this category. (Does not apply to Reserve Enlisted Program Soldiers ordered to Active Duty for training (ADT) only.)
10	Soldiers completing courses at Army Service schools, Navy, Air Force, or civilian schools (other than college-level training). Time frame for requesting AI: a. Course over 12 weeks and all language training at Defense Language Institute/East—no later than 60 days before graduation. b. Course 8 to 12 weeks—not later than 45 days before graduation. c. Course less than 8 weeks—not later than 15 days before graduation.
11	Soldiers completing college-level training at civilian schools. Identify Soldiers with reporting code 09D00 and request no later than 45 days before completion.
12	Trainees who become MOS-qualified and do not receive AI (see AR 612–201).
13	Soldiers requiring rehabilitative treatment under the provisions of AR 600–85 Soldier must be assigned to an installation that can provide rehabilitative treatment. Area of preference should coincide with installation announced by HRC as having a rehabilitative capability.
14	Former officers (to include warrant officers) reverting to enlisted status (see AR 601–210 or AR 601–280) who require a new PCS assignment.
15	Soldiers who for security reasons require transfer from current post, camp, or station.
16	Soldiers completing stabilization for extreme Family problems and whose grade and MOS are not authorized at the present duty station.
17	Soldiers who have departed their permanent duty station en-route to an OCONUS location on PCS orders and are directed to report to the nearest Army installation due to mobilization.
18	Soldiers who have been declared excess at their current duty station for any of the following reasons: a. Unit inactivation. b. Base closure or consolidation. c. Force structure changes. d. Reclassification or other actions changing the MOS of the Soldier. e. Promotion to E–9.

Section III

Registration of Military Sex Offenders

3–19. General

In accordance with AR 190–45, provisions of 34 USC 20901 et seq., DoDI 1325.07, and AR 27–10 military sex offenders are required to register with the installation provost marshal, with state or territorial sex offender registration officials, and with local law enforcement officials of the jurisdiction in which the sex offender will reside, work, or attend school upon leaving confinement, or upon conviction if not confined. Military sex offenders include Soldiers who have been convicted of covered offenses under the UCMJ; Soldiers who are required to register as sex offenders under state or territorial law; and Soldiers who have been convicted by foreign governments of offenses equivalent to or closely analogous to the covered offenses under the UCMJ. The CG, HRC, will ensure the assignment management system supports the Soldier in meeting this requirement. An assignment consideration (ASCO) code will be assigned to Soldiers who have qualifying courts-martial or civilian court convictions that require them to register as a military sex offender.

3–20. Covered offenses

Offenses listed in AR 27–10, 34 USC 20911, and DoDI 1325.07 require a code to identify convicted Soldiers and their requirement to register as sex offenders.

3–21. Documentation in support of registration requirement

a. Upon any assignment that causes a change in the state or territory in which the Soldier resides, works, performs duties, or attends military or civilian schooling, military sex offenders are required to report to the installation provost marshal's office to request information on registration requirements in that state or territory. Failure to receive accurate information from the installation provost marshal's office about registration requirements in that state or territory does not remove the obligation of the Soldier, or excuse his or her failure, to register as a sex offender in that state or territory. During in and out-processing, military sex offenders must be notified of the registration requirement. The notification will be made through the chain of command by personnel or legal channels.

b. The installation provost marshal will provide the Soldiers with the "state registration" document that will register them on the installation where they are assigned. Soldiers must also report to the local or state police law enforcement agency to understand and comply with state registration requirements. Military sex offenders are subject to registration requirements as a sex offender in any State or U.S. territory in which they reside, are employed, carry on a vocation, or are a student.

c. Military sex offenders will provide the installation provost marshal, state sex offender registration officials, and chief local law enforcement officer of the jurisdiction in which they reside written notice of the date of their arrival in their jurisdictions, the sexual offense(s) of which convicted, and their requirement to register as a sex offender. Every address change must be reported in the manner provided by State law to the Provost Marshal within 5 calendar days before or after reporting to a new duty assignment or a change in their address. Offenders who fail to register or change or update such registration as required under a state sex offender registration program may be subject to criminal prosecution under State law and under the UCMJ, Art. 92, for failure to obey an order or regulation.

3–22. Assignment of military sex offenders

a. Commanders will ensure that Soldiers convicted of a sexual offense are not assigned or deployed on a TDY, temporary change of station (TCS), or PCS status to duty stations in a foreign country. The only permitted OCONUS locations are Hawaii, Alaska, the Commonwealth of Puerto Rico, or territories or possessions of the U.S.

b. Soldiers currently serving in any unauthorized OCONUS locations who have been convicted of an offense are ineligible for continued duty at those locations. Overseas commanders or commanders of ACOMs, ASCCs, or DRUs will identify such Soldiers in their commands and coordinate with CG, HRC, for reassignment to CONUS or the permitted OCONUS locations. Soldiers who are deployed to an unauthorized OCONUS location in any status (TDY or TCS) will immediately be returned to their parent organization.

c. Affected Soldiers who are in military confinement facilities in an unauthorized OCONUS location will remain for the term of their confinement. Affected Soldiers who are convicted of a sex offense and scheduled for immediate confinement in an unauthorized OCONUS location may undergo this confinement as scheduled. In either of these circumstances, commanders will follow current policy for initiating administrative proceedings, with the intent to complete the separation process during the period of confinement. If separation cannot be finalized during the period of confinement, reassignment takes precedence upon completion of confinement, as opposed to the Soldier remaining in the non-permitted location for the purpose of finalizing separation.

d. Affected RC Soldiers, other than AGR Soldiers, whose domicile and unit of assignment are located in an unauthorized OCONUS location, may remain in that location pending separation by their current command. These Soldiers, however, will only perform inactive or AD service at the location of their unit of assignment, except where travel is necessary as part of the separation process.

e. Sexual offenses have no place in the Army. They degrade mission readiness by devastating the Army's ability to work effectively as a team and violate the Army Values. Military sex offenders will not be utilized or classified in any of the assignments, positions, branches, military occupational specialties, CMFs, or SQIs listed in table 3–3. Military sex offenders currently utilized in those assignments or positions will be immediately removed, and military sex offenders classified in those branches, military occupational specialties, CMFs, or SQIs will be immediately reclassified.

f. Soldiers currently serving in any prohibited occupational specialty CMF or assignment who have been convicted of a qualified offense are ineligible for continued duty in that CMF or assignment. If applicable, Commanders of ACOMs, ASCCs, or DRUs will identify such Soldiers in their commands and coordinate with HRC for reclassification and reassignment.

Table 3–3

Prohibited enlisted military occupational specialties, career management fields, skill qualification identifiers, assignments, and positions for Soldiers convicted of sex offenses—Continued

Military occupational specialty or career management field	Title, skill, or skill qualification identifier
27	Paralegal
31	Military police
46	Public affairs
56	Religious support
68	Medical
79	Recruitment and reenlistment
Immaterial	IG NCO (SQI "B")
Immaterial	Equal opportunity advisor (SQI "Q")
Immaterial	IET units
Immaterial	Drill sergeant (SQI "X")
Immaterial	Detailed recruiter (SQI "4")
Immaterial	Instructor or trainer (SQI "8")
Immaterial	Enlisted instructor or advisor positions
Immaterial	Enlisted aides
Immaterial	Special assignments
Immaterial	Nominative assignments as reflected in this regulation
Immaterial	USAREC
Immaterial	Professor of Military Science (PMS or Assistant PMS)
Immaterial	MEPCOM

Section IV

Personnel Classification or Reclassification

3–23. Classification

The enlisted MOS classification and structure, including the CMF, for the Army is prescribed by AR 611–1.

3–24. Scope of reclassification

An awarded MOS, especially the PMOS, represents significant time and effort, both to the Army and the Soldier. The needs of the Army will be the overriding factor in reclassification actions. However, in changing a PMOS, carefully consider the costs and benefits to the Army and the Soldier. Current policy and guidance in AR 601–280, AR 611–1, DA Pam 611–21, ATRRS Course Catalog, and as announced in the HRC reenlistment or reclassification IN/OUT call messages will be followed unless otherwise specified in this regulation.

Section V

Enlisted Personnel Management System, U.S. Army Individual Ready Reserve, and Individual Mobilization Augmentee

3–25. General

This section prescribes policies and establishes responsibilities for the enlisted personnel management of IRR and IMA Soldiers.

a. The enlisted personnel management process is designed to provide for the effective personnel life-style management of IRR and IMA Soldiers' administrative, training, and professional development.

b. Enlisted members of the IRR and IMA are managed by career management noncommissioned officers (CMNCO) according to their MOS. CMNCOs provide career guidance, assignment opportunities, training assignments, promotion information, reenlistment, and separation guidance.

c. Enlisted members of the IRR and IMA are also supported administratively by a Personnel Action Branch within Reserve Personnel Management Directorate career branches, depending on their MOS. Personnel Action Branches process awards, generate corrected DD Form 214 (Certificate of Uniform Service), provide retirement point corrections, prepare statements of service, verify VA loan eligibility, provide records upon request, and update personnel records systems, to name a few.

d. The enlisted personnel management process provides IRR and IMA Soldiers with the opportunity for a balanced mix of training, experience, and career opportunities. This is accomplished through assignment to TPU and IMA positions, attendance at Service schools, and counterpart training with TPU and RA organizations.

(1) TPU assignments. The CG, HRC places priority on encouraging IRR Soldiers to join USAR and ARNGUS units.

(2) Military education. Soldiers will be encouraged to participate in RA Service schools, The Army School System schools, and Army correspondence course programs to increase MOS proficiency.

(3) Counterpart training. Counterpart training is directed at developing the skills of each IRR Soldier. It gives the Soldier an opportunity for short ADT tours with RA organizations or RC units. Training is in designated positions to increase knowledge, skills, and performance of the individual's MOS. The training will be based on a CMNCO's evaluation of the Soldier's professional needs and Army mobilization requirements.

e. IRR Soldiers will be given every opportunity to maintain MOS proficiency and further enhance their military careers consistent with resources and priorities. They will be encouraged to actively participate in highly flexible training phases and schooling and to seek assignment to USAR and ARNGUS units.

3–26. Operational policy

a. Each USAR major subordinate command (MSC) must identify to the CG, HRC, the designated point of contact for the coordination of enlisted personnel IRR assignments.

b. The CMNCO provides counseling, career planning, and training for each IRR Soldier. The CMNCO's mission is to—

(1) Retain qualified IRR Soldiers.

(2) Perform personnel mobilization screening.

(3) Retain MOS qualified Soldiers according to Army requirements.

c. AR 140–145 contains operational policy on the assignment and utilization of IMA Soldiers.

Chapter 4

Attendance at Service Schools

4–1. Applicability

This chapter applies to—

a. RA enlisted Soldiers.

b. ARNGUS and USAR Soldiers only when they are serving on AD or ADT to attend Service school.

4–2. Application submission

a. Applications for attendance at Service schools will be submitted to the appropriate approval authority listed in table 4–2.

b. Soldiers serving on a stabilized or OCONUS tour must serve at least 5/6th of that tour prior to curtailment for attendance at a Service school.

c. Soldiers assigned OCONUS may submit an application for attendance at a Service school not less than 5 months or more than 12 months before DEROS.

4–3. Selection criteria

a. Soldiers must meet the prerequisites (see AR 350–1 and ATRRS Course Catalog) and MOS requirements to attend a Service school (see DA Pam 611–21). However, as an exception, Soldiers who possess other significant civilian-acquired skills or qualifications may be accepted for entry in the specific

course for which applying. If it is later determined that enlistees are qualified for more advanced courses, they must waive their enlistment commitments in favor of the alternate course. See AR 601–210 for processing procedures.

b. HRC personnel will announce Selection criteria for attendance at Navy and Air Force schools or courses not listed in the ATRRS course catalog.

c. Selection of Soldiers will be based on the “best-qualified Soldier” method. Selection of the best-qualified Soldiers will be based on the requirement for technically trained personnel and the projected assignment for the Soldier. When excessive numbers of Soldiers apply for the same course or a limited number of quotas are available, HRC personnel will select the best-qualified personnel. Commanders will not establish additional selection criteria.

d. Soldiers selected to attend Service schools must be able to complete the SRRs in paragraph 4–6.

e. Normally, Soldiers will be selected for schooling in the same CMF in which classified. A Soldier will not be selected for a course in the same career group that trains at a skill level lower than that for which the Soldier presently qualifies. School training should be in progressively higher skill levels to promote career progression of the Soldier. The following grade standards apply in selecting Soldiers for MOS training:

(1) Skill level 1 courses.

(a) All skill level 1 Soldiers may be selected for skill level 1 courses without regard to grade authorization.

(b) Skill level 2 Soldiers and above may be selected for skill level 1 courses when authorized by DA Pam 611–21 or when waiver is granted by the proponent for that CMF.

(2) NCO-level courses. Only Soldiers in the grade of E4 or higher will be selected for an NCO-level course. To qualify for selection, Soldiers must be in a grade equal to or lower than the highest grade authorized for the school-trained MOS (including skill level).

f. Soldiers will not be selected for successive attendance at courses in different entry groups unless training in one course is a prerequisite for the other or training is directed by HRC.

g. Soldiers who have successfully completed a Service school course will not be selected again for the same or an equivalent course unless such training is required to maintain proficiency in the MOS. Soldiers will not be selected to attend a course if, because of prior training or experience, they already possess the knowledge and skills that would be obtained through successful completion of the course. Requests for exception must clearly explain why school training is necessary if the Soldier—

(1) Holds, as primary, the MOS containing the skills taught in the course. It must be assumed that if pertinent regulations have been followed, a Soldier who has been awarded a PMOS is fully qualified in that MOS.

(2) Does not hold the MOS for which the course trains but has performed duty in that MOS and is qualified for the award of the MOS. (Unless otherwise prohibited by this regulation, a Soldier who has performed in a MOS for an extended period of time should be considered qualified and awarded the MOS.) Those MOSs that require formal training are identified in DA Pam 611–21.

(3) Is drawing SDAP and holds the MOS as a verified MOS.

h. Except as authorized in paragraph 4–3e, Soldiers who have completed a school course will not be selected again for school until they have served in their MOS for the time required by the SRR.

i. Commanders who are OCONUS will select Soldiers to attend Army Service schools during the term of service in their command only when qualified Soldiers are not available through normal re-placement channels. Selectees will attend the school in a TDY status. On completion of the course, they will be returned to the OCONUS command.

j. Soldiers may be involuntarily selected for schooling for retraining in shortage MOSs or to further their career development.

k. Soldiers who enlisted under the Stripes for Skills Program are ineligible to attend any MOS-producing school course until completion of 1 year of service in the accelerated grade awarded under the program.

l. Soldiers who do not meet the body composition standards of AR 600–9 will not be authorized to attend professional military schools. Professional military schooling, as defined in AR 600–9, includes all individual training courses beyond IET. This IET includes entry-course non-prior Service (NPS) personnel, BT, AIT, one station unit training (OSUT), or one station training level.

m. The immediate commander will ensure Soldiers have the security clearance required for—

(1) The course of instruction.

(2) Award of an MOS following the course if it differs from that required for attending the course. Before the Soldier departs for school, the immediate commander will ensure that the Soldier has applied for a security clearance of the level required for award of the MOS.

4-4. Waivers

Soldiers may apply for a waiver of course prerequisites in technical MOS-producing courses if they have previous related training and have demonstrated that they are capable of completing the course.

a. Waiver requests will be forwarded to the appropriate personnel proponent as defined in ATRRS course catalog. Application should include the following:

- (1) Appropriate justification.
- (2) All aptitude area scores.
- (3) The course prerequisite(s) to be waived.
- (4) Any outstanding facts to support the request.

b. Granting waivers for prerequisites is authority for the Soldier to be enrolled in the course for which applying.

c. Soldiers desiring to waive an enlistment commitment to attend a school course or to select an alternate course must sign the following statement: "I voluntarily waive enlistment choice made at the time of my enlistment in favor of attending (course number and title). I realize and fully understand that on school completion, I will be assigned according to the needs of the Army."

d. Soldiers desiring to waive a reenlistment commitment should refer to AR 601-280.

4-5. Administrative guidelines

a. Soldiers ordered to Army Service schools from organizations in CONUS will take clothing and equipment required by AR 700-84. Special clothing required for the course will be furnished to Soldiers before they depart for school (see ATRRS Course Catalog). Soldiers ordered to schools directly from an OCONUS command will be furnished required clothing and equipment that are available in the command. Items that are not available will be furnished to Soldiers on arrival at the school.

b. Soldiers will be advised that Family member travel and shipment of household goods to schools at Government expense is not authorized under Joint Travel Regulations (JTRs) unless the Soldier is being assigned PCS to a school or installation to attend one of the following:

- (1) A course of 20 weeks or more.
- (2) Two or more courses for a cumulative period of 20 weeks or more at any one duty station.

c. Family members will not accompany Soldiers ordered to schools from OCONUS commands at Government expense when they are scheduled to return OCONUS, regardless of the length of the course. However, if Family members do accompany or join them at their own expense, Soldiers must be advised that they may encounter some of the following hardships:

- (1) On-post Family housing is not available. Students normally are not permitted to live off-post.
- (2) In many areas, housing near schools or installations is unavailable or extremely costly. In some areas, if it is available, it is substandard.
- (3) Rigid training schedules often preclude regular visits away from school or installation.
- (4) Soldiers in CONUS who are entitled to Family member travel and shipment of household goods and who are selected for a course or courses of less than 20 weeks will sign the following statement, which will be filed per AR 600-8-104. "I have been advised of the provisions of JTR, which restrict Family member travel and movement of household goods to schools at Government expense when scheduled course is less than 20 weeks in duration. I understand that if my Family members accompany me to the school, it will be at my own expense. I also understand that PCS orders for assignment on completion of course, when applicable, will authorize Family member travel and movement of household goods only from the station at which I attended school to the new PCS assignment. I further understand that if my PCS orders are canceled and I am returned to my old permanent station, I am not entitled to a dislocation allowance. Failure to complete the course satisfactorily will result in cancellation of the PCS portion of the orders."

d. Guidelines for assignment or attachment of Soldiers selected to attend Service schools will be specified in their orders.

e. Any leave enroute to the school or on completion of the course will be granted under AR 600-8-10.

4–6. Service-remaining requirements

a. Unless the HRC directs otherwise, in-Service Soldiers must meet the SRRs appropriate for the selected courses. This applies to Soldiers who attend Service schools in a PCS, TDY pending further orders, TDY enroute, or TDY and return status. It also applies to those who attend functional courses, seminars, and so forth at civilian institutions (on a contract or reimbursable basis) for training not available in the Service school system and where no other established SRR exists. Soldiers who do not meet the SRR must be processed in accordance with AR 601–280 before they comply with orders directing movement to the school.

b. Service-remaining obligations for Soldiers who recycle for academic or disciplinary reasons or who voluntarily recycle will be computed from the new course completion date. Extension of enlistment will be accomplished under AR 601–280 prior to restart of training.

c. SRRs for Soldiers who complete training but do not possess required security clearance for award of CMF 18, 37, or 38 will be computed from the date MOS is awarded. This does not apply if delay in granting of required security clearance can be attributed to processing delays.

d. The amount of SRRs will not be changed for students who meet prerequisites at the beginning of a course and are recycled through no fault of their own. Approval must be obtained from the Chief, Retention and Reclassification Branch, HRC (AHRC–FSF–ER) for reclassified Soldiers (or Soldiers who have reenlisted for retraining) prior to placement in the next available course. Enlistment commitments will be honored without any additional SRRs.

e. Soldiers selected for additional schooling under special training programs before completing BT or AIT must meet the service-remaining obligation prescribed by the regulation for that program.

f. The required amount of the SRR will be computed from the completion date of the course. When Soldiers are selected to attend two or more successive courses, the combined course lengths will be added to obtain the total SRR. This combined amount will not exceed 36 months. SRRs will be based on the course length shown in table 4–1, unless otherwise stated. Soldiers eligible to but refusing to take action to satisfy the SRRs must be processed in accordance with AR 601–280.

g. Soldiers attending the following NCOPDS courses will incur a 6-month service-remaining obligation upon graduation:

- (1) Advanced Leader Course (ALC).
- (2) Senior Leader Course (SLC).
- (3) Master Leader Course (MLC).

h. Soldiers attending the Battle Staff Course will incur a 12-month service-remaining obligation upon completion of training.

i. Soldiers attending the USASMA will incur a 24-month or more service remaining obligation upon graduation.

j. Soldiers attending the following courses will incur a 36-month service-remaining obligation upon completion of training:

- (1) Middle Enlisted Cryptologic Career Advancement Program.
- (2) Military Electronic Intelligence Signals Analyst Program.
- (3) Military Intern Signal Intelligence Analyst Program.
- (4) Apprentice Special Agent Course.
- (5) Training associated with MOS 15R, 15T, 15E, 15N, 15W, 15C, or 15M (excluding ASI Q2 training).
- (6) Training associated with MOS 25B (Information Technology Specialist) and 25D (Cyber Network Defender).
- (7) Training associated with MOS 35L (Counterintelligence Special Agent Course).
- (8) Career Counselor Course MOS 79S and USAR Career Counselor Course MOS 79V.
- (9) Training associated with MOS 89D (EOD).
- (10) Training associated with the E-6 ASI (Cyber Operator) under the Future Operator Readiness, Growth, and Enrichment Program.
- (11) Training associated with entry into and award of a CMF 18 MOS. Soldier must be able to serve 36 months AD in a CMF 18 MOS duty position upon completion of MOS training (including completion of any required language/specialized skill training).

(12) Training associated with entry into and award of a CMF 37 MOS. Soldiers attending CMF 37 courses will incur a 36-month service-remaining obligation upon graduation.

(13) Training associated with entry into and award of MOS 38R, Civil Reconnaissance Sergeant or 38W, CA Medical Sergeant. The Soldier must be able to serve 36-months AD in a 38R or 38W MOS duty

position upon completion of MOS training (including completion of any required language/specialized skill training).

(14) Training associated with Soldiers attending the Army Software Factory or Army Artificial Intelligence-Cloud Technician programs.

(15) Training associated with qualification and certification in INSCOM National Security Agency (NSA) Interactive Operator (IO) work roles.

k. Soldiers attending specialized courses to prepare them for qualification and certification in U.S. Cyber Command work roles or service advanced cyberspace operations work roles will incur a service remaining obligation at a 3:1 ratio, with a minimum service remaining obligation of 24 months.

l. Training associated with qualification and certification in INSCOM NSA Apprentice Exploitation Analyst (AEA) work roles will incur a 24-month service remaining obligation.

m. RA Soldiers who will become eligible to retire must agree to meet their SRR to attend the selected course. Soldiers will be required to sign a statement before movement to the school acknowledging that they have been informed that voluntary retirement will not be approved until the required service has been completed after either graduation or termination of class attendance (see AR 635–200).

n. Soldiers in the ARNGUS and USAR units on AD who are selected to attend Service schools must sign an agreement that they will remain on AD to complete the course although their units may be released from AD earlier.

School application approval authority—Continued

Courses	Approval authority
a. MOS-producing, except—	U.S. Human Resources Command (AHRC–FSF–ER), Fort Knox, KY 40122-5306
(1) CMF79, MOS 79R, 79S	U.S. Human Resources Command (AHRC–FSF–ER), Fort Knox, KY 40122-5306
(2) MOS 35L	U.S. Army Intelligence Center of Excellence, Office of the Chief Military Intelligence (ATZS–MI), Fort Huachuca, AZ 85613-7080
(3) MOS 31D	U.S. Army Criminal Investigation Division (CISP–AC), Quantico, VA 22134
(4) CMF 18, MOS 37F, CMF 38	U.S. Human Resources Command (AHRC–TAA–SF), Fort Knox, KY 40122-5305
b. Functional (including ASI or SQL) or non-MOS-producing courses, except—	U.S. Human Resources Command (AHRC–FSF–EM), Fort Knox, KY 40122-5306
(1) Airborne	
(a) Training and assignment	U.S. Human Resources Command (AHRC–appropriate career branch), Fort Knox, KY 40122-xxxx
(b) Training	U.S. Human Resources Command (AHRC–FSF–EM), Fort Knox, KY 40122-5306
(2) Ranger	U.S. Human Resources Command (AHRC–TAA), Fort Knox, KY 40122-5305
(a) Training and assignment	U.S. Human Resources Command (AHRC–FSF–EM), Fort Knox, KY 40122-5306
(b) Training	U.S. Human Resources Command (AHRC–FSF–EM), Fort Knox, KY 40122-5306
(3) U.S. Army Medical Department (AMEDD) functional (non-MOS/non-ASI producing courses)	Headquarters, Department of the Army (SGPE–EDT), Washington, DC 20324

4–7. School assignment and classification

a. Soldiers' records will be evaluated upon arrival at school in a PCS status. Soldiers' qualifications will be evaluated to—

(1) Ensure input of qualified personnel to school courses. Evaluation will include verifying Soldiers meet course SRRs prior to start of training.

(2) Preclude unnecessary training of Soldiers already qualified in the skills and knowledge taught in the course.

(a) Soldiers who meet course prerequisites or those for whom a waiver has been obtained will be entered in the selected course.

(b) The school commandant may assign soldiers to a course other than that for which selected only after approval by the Chief, Retention and Reclassification Branch, HRC (AHRC–FSF–ER). A different assignment will be considered when a student fails to qualify for the selected course or is exceptionally qualified for a course other than the selected one, particularly a more advanced course. The Chief, Retention and Reclassification Branch, HRC (AHRC–FSF–ER) is the approval authority for requests to

assign Soldiers to another course (see table 4–2). However, if the Soldier is attending school TDY, the commander shown in the TDY orders must grant approval first.

(c) Soldiers who, because of prior training or experience, possess some of the skills and knowledge of the course will be entered in the course. They will be given only the training needed to qualify for award of MOS, ASI, SQI, language identification code, or other qualification identifier.

(d) Soldiers found to be fully qualified in all skills and knowledge in the selected course and who require no additional training will be classified into the appropriate MOS or awarded the ASI, SQI, and language identification code and reported for assignment. The Chief, Retention and Reclassification Branch, HRC will be advised of these actions.

b. If Soldiers are erroneously ordered to school or if a course has been relocated, Soldiers will be re-assigned as appropriate. Travel will be chargeable to Military Personnel, Army Funds (see DFAS–IN Regulation 37–1).

c. In exceptional cases, to correct serious misclassification in original selection, a school commandant may recommend to the HRC that a Soldier be assigned to another school (course) that is better suited for the Soldier by qualification and interests. If the HRC approves, assignment will be chargeable to Military Personnel, Army Funds.

d. On successful completion of an MOS-producing course, graduates will be awarded the school-trained MOS. Reclassified Soldiers must possess a reclassification control number to be awarded the new MOS.

e. Soldiers who successfully complete a course will receive a graduate certificate and MOS orders and have their records annotated per AR 600–8–104.

4–8. Dismissal from school

Soldiers may be dismissed from school in accordance with AR 350–1.

Chapter 5

Optional Assignments and Soldier-Initiated Assignments or Actions

Section I

Optional Assignments

5–1. Scope and objectives

a. Soldiers must volunteer for optional assignments. They also must be highly motivated to complete the required training and successfully perform the duties. Because of the unique mission or capabilities of the units, a high state of readiness is required. Therefore, volunteers will be assigned on a priority basis. Stringent screening processes exist to ensure that only the highest quality volunteers are accepted and assigned. Soldiers who desire to apply for duty or assignment may do so without regard to current assignment. Only fully qualified Soldiers will be accepted for duty in optional assignments.

b. The objective of the Airborne Program is to ensure an adequate number of parachute-qualified Soldiers are available to maintain a high state of readiness.

c. The objective of the Ranger Training Brigade Program is to maintain Army readiness through range qualified Soldiers (SQI “G” and “V”).

d. The U.S. Army Parachute Team (USAPT) (Golden Knights) objective is to increase public awareness of and enhance the image of the Army both nationally and internationally. The Golden Knights are highly qualified Soldiers who represent the Army through demonstration jumps, participation in national and international-level jump competitions, tandem camps, and utilization of media relations or public contact opportunities in support of Army recruiting and marketing efforts.

e. The United States Army Marksmanship Unit (USAMU) objective is to select, equip, and train Soldiers to compete and win intra-service, national, international, and Olympic marksmanship competitions; increase lethality through training, research, and development, doctrine development, and augmentation to contingency operations; enhance accessions through demonstrations, clinics, and public engagements; and promote the Army by fostering public confidence in Army marksmanship through active information and public relations programs focusing on the accomplishments and capabilities of USAMU Soldiers.

5-2. Airborne duty (special qualification identifier “P” (parachutist))

a. Soldiers must successfully complete airborne training (be awarded SQI “P”) to be assigned to an airborne position (see chap 4 for training). Guidance for submitting an application for airborne training and assignment is in DA Pam 600-8.

b. Soldiers volunteering for airborne training must—

(1) Have completed BT and AIT (except for MOS 92R) or the equivalent of such training. (That is, they must possess civilian-acquired skills or qualify for on-the-job AIT on graduation from BT.)

(2) Meet the medical qualifications for airborne training and duty (see AR 40-501).

(3) Achieve the aptitude score for the MOS in which enlisting; this applies to all potential airborne volunteer enlistees. Trainees with an enlistment option for MOS 92R will be scheduled by the Chief, Modeling and Requirement Branch, HRC (AHRC-FSR-M) to attend airborne training enroute to MOS 92R training.

(4) Not have more than 30 days lost during current enlistment due to one or more of the following reasons:

(a) Desertion.

(b) Being absent from their organization, station, or duty without proper authority as determined by competent authority.

(c) Confinement by military or civilian authorities in connection with a trial, whether before, during, or after the trial.

(d) Inability as determined by competent authority, to perform the duties because of intemperate use of drugs or alcoholic liquor or because of disease or injury resulting from their misconduct (see 10 USC 972).

(5) Be less than 36 years old on the date of application. Soldiers in the grade of SGT or above may obtain a waiver for age with favorable recommendation from a medical doctor.

(6) Have enough service remaining on current enlistment to complete at least 12 months of service after airborne training. Applicants without enough service remaining to meet this requirement must take action to meet length of service requirements (see AR 601-280). Action to meet time-in-service remaining requirements must be completed before orders to attend airborne training are issued.

(7) Not be alerted for or on AI to an overseas area (either as an individual or as a member of a unit) unless the projected assignment is to an airborne unit.

(8) Not be under court-martial charges or investigation that may result in trial by court-martial.

(9) Not possess a DA-controlled or shortage MOS, unless that MOS is in an airborne table of organization and equipment (TOE) identified by SQI “P” for airborne qualified Soldiers. Soldiers possessing a PMOS that are not in an airborne TOE are ineligible to apply for airborne training while so assigned.

(10) Not be in AIT. On declaration of general war or full mobilization, this criterion is suspended.

(11) Not be currently enrolled in or committed for any course for award of an MOS not shown in an airborne unit TOE. (Waiver may be requested, if not already enrolled, provided application for airborne training contains a waiver of enlistment commitment.)

(12) Have completed any service obligation incurred as a result of previous training received at an Army course of instruction for an MOS not shown in an airborne TOE. (This does not apply if the MOS is in an overage status Armywide within applicant's year group.)

(13) Not have deliberately terminated previous airborne duty or training. (This does not apply to those whose termination was based on extreme Family problems.) On declaration of general war or full mobilization, this criterion is suspended.

(14) Pass physical readiness test. The test will be—

(a) Not more than 30 days before the date of application and again not more than 15 days before the class start date for permanent party personnel. Those who fail to pass the second test will be reported to CG, HRC, through the appropriate HRC branch manager, for reassignment. Orders assigning the Soldier to airborne training will be revoked.

(b) Within 2 weeks before departing from the BT activity for Soldiers completing BT and attending airborne training before reported for on-the-job AIT.

(c) During AIT for new accessions to the Army, except as in paragraph 5-2b(14)(b). Soldiers who fail the first test will be retested during AIT. Those who fail to pass the final test will be reported to Chief, IET Management (AHRC-FSR-D), HRC, for reassignment.

(15) Meet medical, physical, and mental prerequisites for attending airborne training. (See AR 40-501 and ATRRS Course Catalog.)

- c. Soldiers assigned to an airborne position or unit will serve a 3-year tour unless—
 - (1) Physically disqualified.
 - (2) Exempted by the General Court-Martial Convening Authority (GCMCA).
 - (3) Separated from the Service.
 - (4) Accepted for another airborne, ranger, ARSOF, or other training or assignment that has higher priority.
- d. Airborne Soldiers are managed by the career management branch that controls their MOS.
- e. All airborne qualified Soldiers are given equal consideration with their peers in career development actions.
- f. Airborne qualified Soldiers assigned to non-airborne positions may apply for reassignment to airborne positions. Experienced airborne qualified Soldiers assigned to non-airborne duty positions may volunteer for permissive parachute status. Policy is prescribed in AR 350–1.
- g. Airborne qualified Soldiers will be involuntarily assigned to an airborne unit if required to maintain a high state of unit readiness.
- h. Airborne qualified Soldiers who are excess to the needs of a unit, regardless of MOS, may be re-assigned to satisfy Armywide requirements. First priority will be to assign them to other airborne units.
- i. Soldiers who were rejected for, or relieved from, airborne training or duty (because of temporary physical limitation or failure to qualify in the physical readiness test) and who later qualify for airborne training or assignment may reapply for airborne training or duty.
- j. For DA-directed prospective airborne assignments issued via the Enlisted Assignment System of Record, reassignment work centers must conduct individual interviews to determine Soldiers' eligibility for airborne assignment. Soldiers must be advised that they must serve 36 months in the designated Airborne assignment. This is not an SRR.
- k. Soldiers desiring to terminate their current airborne status (including in lieu of PCS or locally-directed airborne reassignment) may submit a request to terminate through their chain of command stating their desire to be removed from airborne duty and that they do not desire future airborne status.
 - (1) If the Soldier has served 36 months or longer in current airborne assignment, the GCMCA will approve the request and direct removal from airborne status to include withdrawal of SQI "P." Approval authority may be delegated as local GCMCA dictates.
 - (2) If the Soldier has served less than 36 months in current airborne duty assignment, airborne status may not be terminated unless the GCMCA approves the request.
 - (3) Approved airborne termination requests will be forwarded to appropriate installation work center for withdrawal of the airborne SQI and termination of hazardous duty incentive pay (if applicable).
- l. Designated work centers will terminate hazardous duty incentive pay, if applicable, upon receipt of approved Soldier-initiated airborne termination requests or approved command-initiated removal actions.
- m. Soldiers desiring to withdraw from the airborne program in accordance with paragraph 3–13e will submit requests for removal of their airborne SQI to the servicing chief, MPD, commander, BCT, or brigade S1.
- n. Soldiers who have been terminated from airborne duty or withdraw from the airborne program will be reported to the appropriate career branch chief, HRC, for appropriate reassignment or reassignment deletion action.
- o. Soldiers who terminate airborne status or withdraw from the airborne program will have SQI "P" withdrawn. Since SQI "V" and ASIs "F7," "W8," and "W9" are dependent on SQI "P," those, if held by the Soldier, will also be withdrawn. In addition, SQI "S" will be withdrawn, except for those Soldiers who hold an MOS in CMF 15 or MOS 15P, which are exempted from the airborne requirement for SQI "S." (See DA Pam 611–21.)

5–3. Ranger training brigade assignment (skill qualification identifier "G" (ranger) and "V" (ranger parachutist))

- a. Soldiers may volunteer for ranger duty. They will be briefed on all aspects of ranger duty prior to submitting their applications.
- b. Soldiers who volunteer for ranger training must meet the minimum medical fitness standards (see AR 40–501), the prerequisites for ranger training (see chap 4 and ATRRS Course Catalog), and, when applicable, the prerequisites for airborne training. Soldiers will attend training TDY and return to parent organization or TDY enroute to assignment.

- c. Soldiers desiring an assignment with the ranger training brigade should contact the Ranger Team, Infantry Branch, HRC (AHRC–TAA).
- d. Soldiers stationed OCONUS may submit their application no less than 5 months prior to their DEROS.
- e. Soldiers who are CONUS-based may submit their application anytime; however, they must serve one year TOS prior to PCS.
- f. Upon successful completion of ranger training, Soldiers will be awarded SQI "G" when non-airborne qualified or "V" when airborne qualified.

5–4. The U.S. Army Parachute Team (The Golden Knights)

The USAPT conducts worldwide parachute demonstrations, competitions, and a tandem orientation program to connect the U.S. Army with the American public and enhance the Army's recruiting efforts while providing technical expertise in support of military free fall programs.

a. For information regarding selection, training, and assignment for duty to the USAPT, contact USAPT Operations at Defense Switched Network (DSN): 236–4800 or commercial: (910) 396–4800 and review the application at <https://www.goarmy.com/events/golden-knights/join.html>.

b. Parachutist team positions (for example, tandem, competition, and demonstration teams) will be stabilized for an indefinite period of time, utilizing the appropriate AEA code, by the HRC Nominative Branch at DSN: (312) 983–5192. These Soldiers are retained based on their expertise and continued excellence in the demonstration, competition, and tandem arenas of parachuting. Their retention is required for the Army to be competitive at the National and World levels of parachuting as world-class competitive athletes and, in accordance with DoDI 5410.19, Volume 1, to promote the Army's recruiting mission. The level of expertise required to perform these duties safely and consistently at high levels are extremely critical for mission success and requires years to be proficient. If a Soldier is removed from an active parachutist team position, the USAPT Battalion commander or delegated representative will immediately report to the HRC Nominative Branch to request the removal of a Soldier's stabilization code and have the Soldier available for reassignment. Only the HRC Nominative Branch can update these Soldiers' AEA termination date.

5–5. The U.S. Army Marksmanship Unit

The USAMU supports accessions and enhances lethality to enable the Army to win on a complex, competitive battlefield.

a. Information regarding selection, training, and assignment for duty with the USAMU may be found on the USAMU website at https://recruiting.army.mil/army_marksmanship/. Soldiers desiring further information may also contact USAMU Operations/Liaison Recruiting office at DSN: 835–1272 or COM: (706) 545–1272.

b. The USAMU's competitive marksmanship positions (Training Instructor/Shooter) and gunsmithing positions are stabilized for an indefinite period of assignment, utilizing the appropriate AEA code, by the HRC Nominative Branch Team at DSN (312) 983–5192. These Soldiers are retained based on their expertise, skills, and continued excellence in their marksmanship competition and gunsmithing skills. The level of expertise required to perform these duties is extremely critical for mission success. The USAMU Commander or duly appointed person will report to HRC nominative branch to request removal of a Soldier's stabilization code and have the Soldier available for reassignment if a Soldier is removed from a competitive marksmanship or gunsmithing position. Only the Chief, Nominative Branch, HRC can update these Soldiers' AEA termination date.

Section II

Soldier-Initiated Assignments

5–6. Exchange assignments

a. For mutual convenience, Soldiers may request on a PAR, exchange assignments, often referred to as swap assignments (current duty only), with other Soldiers. Both Soldiers must agree and be of the same grade and MOS and be similarly qualified.

b. The initiating Soldier must include the following two statements on the PAR:

(1) "I have read and understand the provisions of AR 614–200 and hereby waive all claims against the U.S. Government for transportation for me, my Family members, my household goods, and my personal property incident to travel and shipment resulting from reassignment from (current station) to (new location), as requested by me. I further agree to waive all claims against the U.S. Government for mileage allowance or per diem allowance for me and my Family."

(2) "I agree to an exchange assignment with [Ford, Kevin J., SGT, 11B20 presently stationed at Fort Defense, VA]. If this request is approved, I understand that all expenses, including transportation of Family members and household goods, incident to this reassignment will be borne by me. I further understand that any time used as travel time between duty stations will be charged against me as ordinary leave. The following personal data is submitted: (Name: Ross, Louis, Grade: SGT, E–5 MOS: 11B, Unit, and station: CO A 2d BN 4th Inf, 86th Inf Division, Fort Service, NY 01122)."

- c. Exchanges must be CONUS-to-CONUS or OCONUS within the same OCONUS command.
- d. The commanders of both Soldiers concerned must concur in the proposed exchange assignment and agree on the date of assignment.
- e. Soldiers must have served at least 12 months at current duty station (18 months for USAR AGR Soldiers) and have at least 12 months' time remaining in service upon arrival at the gaining installation.
- f. Soldiers will pay all costs incurred in relocation, and all travel time will be charged as ordinary leave.
- g. Eligibility for Foreign Service does not change, and no stabilization period is authorized for either Soldier.
- h. Soldiers in receipt of AI, or in a deployed status, are not eligible.
- i. If a married Army couple currently occupying a common household is separated because one Soldier is granted an exchange assignment, the other Soldier may not apply for reassignment to the same installation to reestablish a Joint residence.
- j. USAR AGR Soldiers will not request exchange assignment to the unit where previously assigned prior to their current unit of assignment.

5–7. Exemption from assignment to duty in a designated hostile fire area

Assignment to duty in a hostile fire or imminent-danger area (hereinafter referred to as "hostile fire area" (HFA)) must be shared equitably by all similarly qualified Soldiers, except as outlined as follows:

- a. **Combat Wounded Soldiers.** Wounded Soldiers who have been hospitalized 30 or more days outside an HFA due to wounds received from combat action will not be returned to the hostile fire area unless they are medically qualified and they volunteer to return. Soldiers reassigned under this paragraph, may be eligible for subsequent HFA tours. The provisions of this paragraph will not apply to Soldiers hospitalized for injury, accident, or illness not attributable to HFA. This prevents considering cases such as self-inflicted wounds and other noncombat causes.
- b. **Surviving Family Member.** If a military member of a Family, during military service in an HFA, is killed, dies, is missing-in-action, is captured, or has been officially determined by the Department of Veterans Affairs or a military Service to be 100 percent disabled, then Soldiers of the same Family will be exempt, upon request, from serving in designated HFAs or, if serving in such an area, will be reassigned from there. Family members include the following:

- (1) **Parent.** This includes stepfather, father by adoption, stepmother, mother by adoption, or those who have stood in loco parentis as the Soldier's parent for at least 5 years.
- (2) **Brothers and sisters.** This includes stepbrothers, brothers by adoption, half-brothers, stepsisters, sisters by adoption, or half-sisters.
- (3) **Spouse.**
- (4) **Children.**
 - (a) Legitimate child.
 - (b) Legally adopted child.
 - (c) Stepchild, if a member of the household at the time the stepchild entered military service.
 - (d) An illegitimate child of a female Soldier.
 - (e) An illegitimate child to whose support a male Soldier is ordered or decreed judicially to contribute, who has been decreed judicially to have been fathered by a Soldier, or whose Soldier father acknowledged in writing under oath that he is the father.
 - (f) A person for whom the Soldier stood in loco parentis for at least 5 years.

c. **Sole surviving son or daughter.** A sole surviving son or daughter may not be assigned to a PCS, a TDY, or duties involving actual combat with the enemy if they, or one of their parents, or their spouse

submits a written request for noncombat duty. On approval of such a request, a sole surviving son or daughter will not be assigned to any overseas area designated as a hostile fire or imminent-danger pay area nor to duties that may subject them to combat with the enemy.

(1) A sole surviving son or daughter refers to the only remaining child in a family in which:

(a) The father or mother or one or more siblings served in the military; and

(b) Was killed in action; died from wounds, accident, or disease; is in a captured or missing-in-action status; or is permanently 100 percent disabled as determined by the Department of Veteran's Affairs or one of the Military Services; and

(c) The death, status, disability, or hospitalization did not result from the intentional conduct or willful neglect of the parent or sibling.

(2) The Soldier may qualify as a sole surviving son or daughter through either the father or mother.

The parent through whom the Servicemember seeks to qualify does not need to be living, but the Soldier must be the only remaining child, natural or adopted, of that parent.

d. Conscientious Objectors. Assignment of conscientious objectors will be subject to the restrictions contained in paragraph 3–11 and AR 600–43.

5–8. Requests for and waivers of hostile fire exemptions

a. Requests for exemption from duty in an HFA may be submitted at any time. When a request is submitted to exempt a Soldier from their current assignment, the Soldier will be retained in place until action on their application is finalized.

b. Soldiers' requests for exemption from duty in an HFA will be forwarded through command channels to the CG, HRC, Special Actions Branch (AHRC–FSO–S), 1600 Spearhead Division Avenue, Fort Knox, KY 40122-5303, usarmy.knox.mbx.epmd-compassionate-section@army.mil for approval. A Soldier's parent(s) or spouse may submit requests for approval of sole surviving son or daughter status on behalf of the Soldier directly to the CG, HRC, Special Actions Branch. Requests for surviving family member exemption may only be submitted by the Soldier.

c. All requests will include substantiating evidence and identification of all personnel involved. Upon approval, the Chief, Special Actions Branch, will process assignment deletions and any other actions required to reflect the HFA assignment restriction.

d. When the parent(s) or spouse of a qualified sole surviving son or daughter requests protective assignment for an eligible Soldier, the Soldier will be afforded the opportunity of waiving the parental or spousal request before a final determination is made by the approval authority. Soldiers may also waive previously approved sole surviving son or daughter exemptions when initial approval was based on their own application.

e. A Soldier who enlists, reenlists, or voluntarily extends their period of AD after getting surviving family member or sole surviving son or daughter status is considered as having waived their right to exemption from assignment to a hostile fire area.

f. Soldiers who withdraw their approved HFA exemption may request reinstatement of the exemption at any time by resubmitting their request. The Soldier will be removed promptly to a "safe haven" within the combat zone until the request for reinstatement is completed.

Section III

Compassionate Reassignments

5–9. Overview

a. Compassionate actions are requests from individual Soldiers when personal problems exist. The two types of compassionate requests for personal problems are:

(1) Temporary (resolvable within a year); or

(2) Not expected to be resolved within a year.

b. Soldiers may be reassigned, deleted, or deferred from AI, or attached as a result of an approved compassionate request. Soldiers requesting reassignment may be assigned to an area other than their requested geographical preference based on availability of medical services and the needs of the Army.

c. Soldiers may request reassignment from their current duty location to any other duty location.

d. Normally, the following conditions alone are not bases for a compassionate request:

- (1) Soldier's desire is to be in a new area. For example, Soldier/Family Member chooses to remain at current location and not travel with Soldier to new location, does not constitute a compassionate action.
- (2) Divorce or separation that is the result of Family separation due to military requirements.
- (3) Legal actions and court appearances for matters relating to divorce or child custody issues.
- (4) Awarding of custody of dependent child or children to the Soldier under the terms of a divorce or legal separation by temporary or permanent court order.
- (5) Sole parenthood and family care plan issues/concerns. Sole parenthood due to single parent, new MACP enrollment or divorce/custody is not applicable.
- (6) Pregnancies involving threatened miscarriage, breech birth, cesarean section, or Rhesus factor incompatibility of spouse.
- (7) The problem is expected to be resolved by Family members joining the Soldier at their duty station.
- (8) Minor allergies suffered by the members of the Family due to climatic conditions.
- (9) Problems relating to home ownership or housing shortages. This includes, but not limited to, the Soldier unable to sell a home or find a home at the new location. It also includes Soldier/Family Member choosing to remain at current location and not travel with Soldier to new location, which may cause financial hardship due to two separate households.
- (10) Financial problems alone or as the result of mismanagement of financial affairs by the Soldier or the Soldier's Family, or problems related to an off-duty job, spouse's job, spouse's college enrollment or private business activities, or problems related to PCS move without dependents and managing two separate households.
- (11) Chronic problems relating to parents or parents-in-law.
- (12) Elective surgeries and procedures, such as body augmentation, and so forth.
- (13) Immigration, Visa, or citizenship issue/problems.
- (14) Requests for reassignment due to MACP enrollment.
- e. Compassionate requests for Expedited Transfers for victims of sexual assault or related offenses will be processed according to the procedures in paragraph 5–15.
- f. Soldiers are authorized to submit only one request for reconsideration for the same or similar extreme family problem, provided that there are new supporting documents.
- g. Commanders (O6 and above) will review each application to determine that the established criteria have been met. Requests that do not meet standards for a change in assignment will not be approved. Applications that are not approved will be returned to Soldiers. Reasons for disapproval will be specified.
- h. Compassionate requests will be signed by an O6 or above or a memorandum from the Chief, MPD.
- i. Request for compassionate actions will be forwarded through the servicing Chief of MPD or BCT/brigade S1 to the HRC Special Actions Branch Chief via email (usarmy.knox.mbx.epmd-compassionate-section@army.mil). USAR AGR requests for compassionate actions will be forwarded to the Director, Reserve Personnel Management Directorate, HRC via email to usar-my.knox.hrc.mbx.rpmd-ord-policy-branch@army.mil.
- j. Soldiers on approved compassionate assignments will perform the duties as required of that position or as directed by the commander.
- k. Soldier is to remain at current location while pending a compassionate decision. They are not to take any irreversible PCS actions, such as shipping Household Goods, privately owned vehicle, or hold baggage.

5–10. Criteria

- a. Compassionate requests must be initiated by the individual Soldier concerned utilizing DA Form 3739 (Application for Compassionate Actions). Spouses of Soldiers enrolled in the MACP will receive compassionate consideration unless otherwise indicated in the remarks section of DA Form 3739. However, this does not guarantee favorable consideration.
- b. Compassionate consideration will be given for problems that cannot be resolved through the use of leave, correspondence, power of attorney, or the help of Family members or other parties.
- c. Compassionate consideration will be given only for Family members. A Family member includes spouse, child, parent, minor brother or sister, person in loco parentis, or the only living blood relative of the Soldier. Other persons, including parents-in-law, may also be considered provided they are documented as authorized Family members pursuant to 32 CFR 161 and DoD policy. If the problem is based on conditions of the parents-in-law, there must be no other Family members of the spouse's Family to help solve the problem. For consideration of in loco parentis, Soldier must provide proof (court document)

that person was his or her legal guardian for a period of 5 years or more before reaching the age of 21 and that there was not a biological parent residing in the same household.

d. Director, Reserve Personnel Management Directorate, HRC (AHRC-RPM), is the approving authority for AGR compassionate actions, and Chief, Special Actions Branch (AHRC-FSO-S) is the approving authority for RA compassionate actions. There must be a valid MOS and grade authorization at the requested installation or activity. A 12-Month stabilization may be granted on a case-by-case basis.

e. HRC Directors with oversight of military personnel assignments may waive the MOS and grade authorization requirement when a valid MOS and grade authorization does not exist at the requested installation or activity and the Office of the Surgeon General has recommended approval. Waiver of MOS and grade authorization will only apply to extreme cases involving the Soldier's spouse or child. Upon completion of 12-month stabilization, Soldier will be awarded AEA Code "L" and may be placed on assignment to a location where MOS is authorized.

f. Soldiers' AI may be deferred pending the results of their compassionate request (see AR 600-8-11). However, Soldiers in BT will not be deferred from AIT pending the results.

g. Soldiers requesting compassionate reassignment to a location that results in having an unfulfilled enlistment commitment for assignment location must submit with their compassionate request a statement waiving their enlistment commitment location if their compassionate request is approved.

h. Soldiers requesting compassionate reassignments from OCONUS locations where medical care for Family members is not available, as determined by appropriate medical authorities (Medical Readiness Command, Europe or ACOM, ASCC, or DRU Surgeon General), must submit medical documentation from the treating medical provider verifying care is not available.

5-11. Supporting documentation

DA Form 3739 endorsed by the first O6 or higher in the chain of command is required for all compassionate actions. This form must be filled out completely, with no sections left blank. If an item is not applicable, input N/A. The following documentation will be included (as appropriate) with DA Form 3739:

a. Medical problems. A signed statement from the attending physician giving the specific medical diagnosis, prognosis of illness, and treatment plan. The statement will include date of onset, past and anticipated periods of hospitalization, period of convalescence, and anticipated life expectancy for terminal cases. The medical documentation must be dated within 90 days of receipt in the HRC functional mailboxes. The statement will list any other factors that establish the Soldier's presence as having a bearing on the medical condition. For cases involving reassignment from OCONUS location where medical care for Family members is not available, include documentation from appropriate medical authorities stating that fact.

b. Legal problems. A signed statement from a licensed attorney stating the problem and the reasons why solutions other than reassignment of the Soldier are unacceptable. If applicable, a copy of the court order (signed by the judge), next scheduled court date, divorce decree, executor of the will, or other pertinent legal documents will be submitted.

c. Sexual assault. Statements from police or serious incident reports.

d. Child abuse. Statements from police, social service agencies, child protective services, or examining physicians or other mandated reporters.

e. Other problems. Supporting statements from responsible persons (for example, social workers, court clerks, Child Protective Services, Family Advocacy Program, American Red Cross personnel) who have personal knowledge of the situation.

5-12. Compassionate requests when problems are temporary

The following criteria is in addition to the criteria listed in paragraph 5-9 and 5-10:

a. The problem must be temporary and resolvable within 1 year from the date that the Soldier submits a correctly completed DA Form 3739 (Application for Compassionate Actions).

b. The problem neither existed nor was foreseen at the time of the latest entry on AD. Reenlistment without a break in service is not considered to be the latest entry on AD.

c. Commanders (O6 and above), on a one-time basis, may—

(1) Temporarily defer, up to 60 days, Soldiers' AI when the request for Family travel was submitted late due to extensive evaluation and testing of Family members identified during mandatory medical screening in support of the EFMP (not applicable to IET students).

(2) Delete Soldiers' AI when within 9 months of Soldiers' report date—

- (a) The Soldier's spouse or minor child died.
- (b) There has been a documented sexual assault of the Soldier's spouse or minor child, and the Soldier's presence is essential to resolve related problems.
- d. Situations not stated in paragraph 5–12c will be decided by the Chief, Special Actions Branch or Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM). The following are examples of conditions that normally warrant approval:
 - (1) Terminal illness with less than 12 months' life expectancy of an authorized Family member documented by the attending physician.
 - (2) Scheduled major surgery of Soldier's spouse or minor child with 12 months or less recovery/rehabilitation documented by attending physician.
 - (3) A recent severe behavioral health episode involving the Soldier's spouse or child.
 - (4) The Soldier's minor children are being made wards of the court or placed in an orphanage or foster home as the result of Family separation. Separation must be the result of military Service and not of neglect or misconduct on the part of the Soldier.
 - (5) Adoption or long-term foster care cases (in which the youth is expected to remain in the foster home for 24 months or more) in which the home study (deciding if a child is to be placed) has been completed and an adoptive or long-term foster care child is in the Soldier's home or is scheduled to be placed in the Soldiers' home within 90 days. Additionally, if the Soldier is pending reassignment action, the child must have been placed in the Soldier's home before notification of reassignment. The Soldier is responsible to coordinate with the adoption/placement agency to obtain court permission to PCS with the child at the earliest time allowed.
 - (6) Soldiers enroute from an accompanied OCONUS tour to an unaccompanied OCONUS tour may be deferred for up to 30 days. The deferment is for settlement of Family when the Soldier's presence is required for unforeseen problems.
 - (7) Soldiers who have received (or whose spouse has received) a justification memo for treatment or a referral to a fertility specialist by a gynecologic surgeon/obstetrician, and who choose to begin fertility treatment, may be eligible for compassionate reassignment actions to installations where treatment is available. For dual Army couples, both Soldiers will be reassigned.

5–13. Compassionate requests when problems are not expected to be resolved within one year

The following criteria are in addition to the criteria listed in paragraphs 5–9 and 5–10:

- a. A second PCS in the same fiscal year is not involved.
- b. A valid requirement (requisition) for the Soldier's grade and PMOS must exist at the desired location.
- c. The following are examples of conditions that normally warrant approval:
 - (1) Extreme Family problems that cannot be resolved through methods listed in paragraph 5–10b, and that cannot be resolved in 1 year.
 - (2) Serious health problems.
 - (3) Disabling allergies that will be aggravated by climatic conditions.

5–14. Compassionate reassignments under emergency conditions

- a. Soldiers that have an emergency situation and who are in a leave status may apply for a change in assignment or attachment through the commander of the nearest Army installation or activity that has a personnel or administration office that normally initiates personnel actions, provided—
 - (1) They have a verified compassionate problem that can be resolved only by remaining in the area of attachment.
 - (2) The local commander, based on Soldier's supporting documents, determines that one of the following emergency situations exists:
 - (a) Documented or recent death of an authorized Family member.
 - (b) Documented terminal illness of an authorized Family member.
 - (c) Documented or recent sexual assault of an authorized Family member.
 - (d) Documented child abuse case, child custody case, or child protective service case where the child is at risk of being placed in foster care or placed for adoption (this would include incarceration of an authorized Family member with a minor child/children).
 - (e) Emergency medical evacuation of an authorized Family member.
- b. While on leave, a Soldier may request attachment when:

(1) Prior to the Soldier's departure on leave, the Soldier's request for compassionate reassignment was processed and forwarded by the Soldier's assigned activity or installation and the request was received at the HRC; or

(2) While the Soldier is on leave, a documented emergency (as noted in paras 5–14a(2)(a) through 5–14a(2)(e)) occurs and the Soldier has not yet submitted a request.

c. For RA Soldiers, The Chief, Soldier Actions Branch, HRC (AHRC–FSO–S) is the approval authority for requests for compassionate attachment. For AGR Soldiers, the Director, Reserve Personnel Management Directorate, HRC (AHRC–RPM) is the approval authority for compassionate attachment. The period of attachment will be for 10 days (or as otherwise directed by the Chief, Soldier Actions Branch or Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM)).

d. Soldiers with situations that do not qualify as an emergency situation will be instructed to return to their parent unit and submit their compassionate attachment application through their parent unit.

e. For purposes of this paragraph, an Army installation or activity is defined as any unit that normally initiates personnel actions. This includes, but is not limited to, military entrance processing stations, U.S. Army Recruiting Battalion, and depots.

f. Normally, Soldiers who are returned from OCONUS on emergency leave qualify as emergency cases. These Soldiers may contact the nearest military personnel and transportation assistance officer. RA Soldiers who cannot report to an installation should contact the Chief, Special Actions Branch, HRC (AHRC–FSO–S). USAR AGR Soldiers should contact their Career Manager. Attachment requests will be forwarded to the HRC via The Enlisted Assignment System of Record.

g. Soldiers may be attached for 10 days (or as otherwise directed by the Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM)) to the installation or activity processing the request when authorized by the Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM), and Soldiers have submitted a compassionate request at the assigned activity or installation prior to departure on leave, or documented emergencies, as noted in paragraph 5–14a, exist for submitting a compassionate reassignment request.

h. Attachment for Soldiers on leave from or enroute between CONUS installations must have approval of the gaining commander and the Chief, Special Actions Branch or the Director, RPMD, HRC (AHRC–FSO–S or AHRC–RPM).

i. During attachment—

(1) Soldier's grade and MOS do not have to be authorized at the installation or activity processing the request.

(2) Payment of per diem and travel allowance is not authorized.

(3) The compassionate reassignment request (if not submitted prior to the attachment) must be processed, forwarded, and received at the HRC prior to the conclusion of the 10-day attachment period. If the HRC has not received the application prior to the conclusion of the 10-day attachment period, then the Soldier will be released from attached status and directed to comply with current AI or return to the parent unit.

(4) Soldiers will remain at the installation and perform duties as directed by the commander. Soldiers will be granted enough free time to permit them to document their request. However, any absence in excess of 72 hours will be charged as ordinary leave.

j. If the compassionate reassignment application has been submitted to Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM), then the Soldier will remain attached until a reply is received. If no response has been received within 10 days, then local commanders must contact the Chief, Special Actions Branch, or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM) for the status and appropriate action.

k. Release from attachment.

(1) Soldier will be released from attachment as directed by the Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM).

(2) Under no conditions may installation local commanders grant attachment extensions for compassionate reasons without approval from the Chief, Special Actions Branch, or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM).

l. The maximum period of attachment will not exceed 60 days. If a Soldier seeks attachment for more than 60 days, the action should be submitted as a reassignment, not an attachment. The 60-day period

includes the initial period of attachment for a Soldier submitting a compassionate reassignment request from a location other than their parent unit.

5–15. Expedited transfers for victims of sexual assault or related offenses

In accordance with DoDI 6495.02, Volume 1, the intent behind the expedited transfer policy is to address situations where a victim of sexual assault feels safe but uncomfortable and to assist in the victim's recovery by moving the victim to a new location where no one knows of the sexual assault. An example of where a victim feels uncomfortable is where a victim may be experiencing ostracism and retaliation.

a. The Army is committed to the health, safety, and well-being of its Soldiers. Victims of sexual assault may not wish to remain in their current unit or organization after the sexual assault incident, as remaining may negatively affect their emotional well-being, as well as the cohesion of the unit or organization. It is Army policy that a presumption in favor of transferring or reassigning a sexual assault victim will be supported at their request, following that victim's credible unrestricted report of sexual assault. Commanders will consider requests for transfer or reassignment in an expedited manner.

b. Soldier victims of sexual assault or related offenses listed under UCMJ, Articles 117a, 120, 120c, and 130, or attempts to commit these offenses, are eligible to request an expedited transfer.

(1) Soldiers may request an expedited transfer on behalf of their Family member aged 18 and older if the Family member is a victim of sexual assault that was unrelated to domestic abuse, has filed an unrestricted report of sexual assault, the sexual assault subject is a servicemember or the subject has a military nexus, or the sexual assault occurred on a DoD installation or facility. Requests for expedited transfers for adult Family members will be processed by the Soldier's commander within 5 calendar days of the submission of the application. If the application is disapproved by the commander, the Soldier will be given the opportunity to request review by the first GO in his or her chain of command. The GO must make a decision within 5 calendar days of submission of the request for review.

(2) The following policy applies to the transfer of Family members:

(a) The transfer will include the Soldier and the Soldier's Family members, even if they are geographically separated.

(b) The Family members may be transferred expeditiously, and the Soldier's transfer may be delayed based upon professional development or operational requirements.

(c) The Soldier's commander will ultimately determine whether Soldiers will be transferred at the same time as their Family members.

(d) The Soldier's commander will assign personnel, within the command, if possible, to assist Soldiers with approved dependent expedited transfers with the out-processing required for PCS moves, including facilitating transportation, as necessary, and will ensure Soldiers receive any required evaluation report.

(e) The losing and gaining SARCs will coordinate the transfer of the adult dependent's case and facilitate the intake meeting with the gaining SARC at the new installation.

c. Any threat to life or safety of a victim must be immediately reported to the command and CID.

d. Soldiers and Family Members aged 18 and older who file an unrestricted report of sexual assault must be informed by the SARC, sexual harassment/assault response and prevention victim advocate (SHARP VA), commander, or civilian supervisor equivalent, at the time of making the report, or as soon as practicable, of the option to request an expedited transfer from their assigned command or installation, or to a different location within their assigned command or installation. A Soldier on AI may also request an assignment deletion when the subject of the criminal investigation is assigned or inbound to the Soldier's gaining location.

e. Brigade commanders will take all necessary steps to prevent a transfer from negatively impacting the Soldier's career to the extent possible. The commander will ensure the Soldier is fully informed regarding foreseeable impacts on their career, the potential impact of the transfer or reassignment on the investigation and case disposition or the initiation of other adverse action against the subject, the effect on bonus recoupment, if any, and any other possible consequences of granting the request. Victims requesting a transfer must be informed that they may have to return for the prosecution of the case, if the determination is made that prosecution, is the appropriate action.

f. Expedited transfer procedures require that a commander make a determination and provide his or her reasons and justification on the transfer of a Soldier based on a credible report of sexual assault. Commanders must consider the following factors in determining whether a transfer or reassignment is appropriate, and, if so, the lowest level of transfer or reassignment that would meet both the needs of the victim and the Army:

- (1) The Soldier's reasons for the request.
- (2) Potential transfer of the subject instead of the Soldier requesting the transfer.
- (3) Nature and circumstances of the offense.
- (4) Whether a temporary transfer would meet the Soldier's needs and the operational needs of the unit, including situationally unique requirements in deployed areas.
- (5) Training status of the Soldier requesting the transfer.
- (6) Availability of positions within other units on the installation.
- (7) Status of the investigation and potential impact on the investigation and future disposition of the offense after consultation with CID and the servicing legal office.
- (8) Location of the subject.
- (9) Subject's status (Servicemember or civilian).
- (10) Other pertinent circumstances or facts, such as potential disposition of collateral misconduct.

g. Procedures—

(1) Requests will be submitted by the Soldier on a PAR to their brigade-level commanding officer, with a CID case number, name of investigating agent, and a statement from the Soldier explaining why they want to be moved or deleted from assignment. Victims are encouraged to include all their concerns in the request to aid the commander in understanding their needs and in making an informed decision.

(2) The brigade commander must document the date and time the request is received; it is the brigade commander's responsibility to review, recommend approval/disapproval, and track requests for expedited transfer.

(3) Upon receipt of an expedited transfer request, the brigade commander must inform the SARC of the expedited transfer request.

(4) The brigade commander or above must make a credible report determination at the time the request is made, after considering the advice of the supporting judge advocate, or other legal advisor concerned, and the available evidence provided by CID or civilian law enforcement. Only reports that are determined credible will be forwarded to the approval or disapproval authorities listed below for re-assignment consideration. If the expedited transfer is rejected because there was no credible report, the grounds on which it was rejected must be documented by the brigade commander.

(a) A commander may transfer a victim on other grounds, such as, on humanitarian grounds, through a process outside of the expedited transfer process.

(b) Even in those court-martial cases in which the accused has been acquitted, the standard for approving an expedited transfer remains whether a credible report has been filed. The commander must consider all the facts and circumstances surrounding the case and the basis for the transfer request.

(5) Requests for expedited transfer or reassignment must be endorsed by an O5 or higher. Within 5 calendar days from the receipt of the Soldier's request, the commander in the chain of command with the appropriate approval authority (as prescribed below) must provide a decision regarding the Soldier's request.

(6) Approval or disapproval authorities.

(a) Requests, where battalion/brigade commanders recommend disapproval for non-PCS expedited transfers, must go to the GCMCA for final decision.

(b) Local moves that do not cross ACOM, ASCC, or DRU. The approval authority for local moves that do not cross ACOM, ASCC, or DRU is the lowest level commander exercising authority over both the losing and gaining unit. The disapproval authority for local moves that do not cross ACOM, ASCC, or DRU is the first GO in the Soldier's chain of command, who may delegate disapproval authority to another GO or senior executive service (SES) within the command. These assignments do not require coordination with or notification to HRC.

(c) RA local moves that cross ACOM, ASCC, or DRU. The approval authority for local moves that cross ACOM, ASCC, or DRU is the SC at the installation. The disapproval authority for local moves that cross ACOM, ASCC, or DRU is the SC at the installation, provided the SC is a GO. When the SC is not a GO, the disapproval authority is the first GO in the Soldier's chain of command, who may delegate disapproval authority to another GO or member of the SES within the command. Approved assignments require notification to HRC, FSD, RD, Plans & Operations Branch via encrypted email at usar-my.knox.hrc.mbx.epmd-readiness-branch@army.mil. Disapproved assignments do not require coordination with or notification to HRC.

(d) PCS moves. The approval authority for enlisted PCS moves is the Chief, Special Actions Branch (AHRC-FSO-S), HRC, for RA, and the Director, Reserve Personnel Management Directorate, (AHRC-

RPM) for USAR AGR. HRC has all assignment waiver authorities to execute PCS of victims of sexual assault. The disapproval authority for enlisted PCS reassignments is the CG, HRC. All PCS expedited transfer requests require coordination with HRC. Recommendations for PCS disapproval require a command endorsement, with justification, forwarded to HRC with the original request.

(7) Transfers to a different installation should be completed within 30 calendar days from the date the transfer is approved. Local moves should be completed within 1 week from the date the transfer is approved.

(8) The brigade commander will task personnel within the command, with the exception of the alleged offender(s), to assist Soldiers with approved expedited transfers with any out-processing required for PCS moves, including facilitating transportation, as necessary.

(9) The brigade commander will ensure Soldiers with approved expedited transfers receive an evaluation report if required.

(10) The brigade commander will notify the Soldier of the requirement for the victim to have a final meeting with the losing SARC and an introduction (to be arranged by the losing SARC) with the gaining SARC upon arrival at their next duty station. The brigade commander will explain that the purpose of the introduction with the gaining SARC is to help the Soldier victim understand the full range of support options at the new installation and facilitate appointments with mental health, medical, advocacy, legal services, or other support personnel at the new location, and help answer any questions that the Soldier victim may have.

(11) The brigade commander will advise the Soldier of the requirement to have a meeting with the gaining commander if the Soldier victim seeks continued advocacy, legal, or healthcare (mental health or other medical) services at the new location or if the investigation or legal proceedings involving the Soldier victim's report is ongoing at the time of the transfer.

(12) The brigade commander will ensure the Soldier is scheduled for a final meeting with the losing SARC, so that the losing SARC can answer any remaining questions the victim may have about the transfer process, ensure the victim has contact information for resources available at the new location, and to facilitate any further scheduling.

(13) The losing brigade commander will ensure the gaining brigade commander is aware of the Soldier's arrival to their command. This may be done by telephone, email, or other written correspondence. A memorandum of record will be maintained recording the action. The losing brigade commander will not inform the gaining commander of the sexual assault incident unless one of the following applies: active criminal investigation, active legal proceeding, ongoing victim health care (medical or mental health) needs that are directly related to the sexual assault, ongoing monthly case management group oversight involving the victim, or active sexual assault prevention and response victim support services.

(14) Requests for enlisted reassignment actions must be encrypted and forwarded to HRC via email to: usarmy.knox.hrc.mbx.epmd-special-actions-branch@army.mil for RA and usarmy.knox.hrc.mbx.rpmd-ord-policy-branch@army.mil for USAR AGR. Return correspondence from HRC will be through email.

(15) Recommendations for PCS approval will have the following statements entered verbatim by the commander, on the PAR and will be submitted to HRC for decision:

(a) "Based on all available evidence, supporting documentation, and the advice of the supporting legal advisor, I believe there are reasonable grounds to conclude a sexual offense under UCMJ, Articles 117a, 120, 120c, or 130 has been committed against the Soldier requesting transfer or reassignment."

(b) "A temporary or permanent movement to a unit within the same battalion or brigade; to a unit within the same division; or to a unit on the same installation have all been considered."

(c) "I have fully informed the victim of the potential impact of transfer or reassignment on the investigation; of the potential that the victim may have to return for prosecution if prosecution is the appropriate course of action; future disposition of the allegation and potential prosecution or other adverse action that may be initiated against the subject; potential for bonus recoupment, if applicable; reasonably foreseeable career impacts; and other possible consequences of granting the request."

(d) "The Soldier understands permanent change of station does not guarantee station of choice. PCS requests will ordinarily be to a valid authorized requirement, CONUS, at the needs of the army."

(e) "I believe a reassignment from (losing installation) would be in the best interest of the Soldier and the organization."

h. Expedited transfer procedures for RC members who make unrestricted reports of sexual assault will be established by commanders within available resources and authorities.

(1) If requested by the Soldier, the command should allow for separate training on different weekends or times from the alleged offender or with a different unit in the home drilling location to ensure undue burden is not placed on the Soldier and his or her family by the transfer. The potential transfer of the alleged offender instead of the Soldier should also be considered. At a minimum, the alleged offender's access to the Soldier who made the unrestricted report must be controlled as appropriate.

(2) USAR TPU expedited transfer requests will be processed in accordance with AR 140–10. Requests must be endorsed by the first O5 commander or higher on DA Form 4651 (Request for Reserve Component Assignment or Attachment). The first Mission Support Command/Expeditionary Support Command SARC will forward the submission to the USARC, DCS, G–1 for final processing.

Section IV

Married Army Couples Program

5–16. Applicability

Provisions of this section apply to AD Servicemembers in the following categories: RA, RC, USAR AGR, and 10 USC ARNGUS AGR Soldiers married to members of the RA, RCs, other AD U.S. military Services, USAR AGR, and 10 USC ARNGUS. Soldiers married to civilians or non-AD members of the Army or other military Services are not included.

5–17. Scope

a. RA married Army couples desiring joint assignment to establish a common household or JD must request such assignment by enrolling in the MACP. Application for enrollment can be initiated anytime, including IET Soldiers, after date of marriage.

(1) Only one Soldier needs to request enrollment in the MACP when both Soldiers are serviced by the same MPD, BCT, or brigade S1; otherwise, both must apply. Company-level commanders are the signature authority for MACP requests on the PAR.

(2) The servicing Chief of MPD or BCT/brigade S1 will submit the appropriate spouse information in the Enlisted Assignment System of Record. Soldiers are not officially enrolled until their spouse information is updated on the Enlisted Assignment System of Record.

(3) After submission of the spouse data, the Chief, MPD, or BCT/ brigade S1 will verify enrollment through the Personnel System of Record. Verification of enrollment must be made prior to notifying Soldiers of the status of their enrollment.

(4) When one Soldier is considered for reassignment, the other Soldier is automatically considered for assignment to the same location or area except when one Soldier is assigned to a dependent-restricted location. AI for each member will indicate whether a joint assignment is approved. If one Soldier is considered for assignment, and the other Soldier does not have sufficient time remaining prior to ETS for an assignment and does not reenlist or extend, the provisions of the MACP do not apply.

(5) Enrollment guarantees JD ASCO; however, it does not guarantee that the couple will be assigned together at the same location or at the same time.

(6) Consideration is continuous as long as the couple remains enrolled in the program.

(7) Favorable consideration for JD assignment will depend on—

(a) A valid requisition/requirement existing in the same area for both Soldiers' military PMOS and branch (officers) and grades.

(b) Career progression of both Soldiers not being adversely affected and Soldiers being otherwise eligible for the assignment.

(8) Married Army couples who do not enroll in the MACP indicate that JD assignments are not desired; therefore, this cannot be used as the basis to request deletion from an assignment.

b. RA and USAR AGR Soldiers married to members of other branches of service who desire to be co-located with their spouse may request joint stationing by submitting a PAR.

c. USAR AGR Soldiers, upon notification of ASCO, must reiterate to talent managers their enrollment in MACP.

d. Action based on intended marriage will not be considered even as an exception to policy.

5–18. Soldiers in advanced individual training

a. Soldiers who marry during or after AIT and have not proceeded to their first unit of assignment and who desire a JD with their spouse will be enrolled in the MACP. When enrolled, the Soldiers will be automatically provided JD ASCO prior to completion of training. Both Soldiers must apply unless they are both attending AIT at the same location (both signatures required). AIT Soldiers in receipt of AI may request JD through their local personnel center. The local personnel center will coordinate the request with the Chief, IET Management (AHRC–FSR–D), HRC. AR 612–201 contains additional policy on JD enrollment and assignment for AIT Soldiers.

b. When a married Army couple are both in AIT, they will be considered for assignment to the same area. If one spouse has an enlistment commitment for a specific location (unit or station), both Soldiers will be assigned to that location, if possible.

c. When each member of a married Army couple has an enlistment commitment for a different location, one spouse (in some instances both) must waive the commitment in order for them to be assigned together.

d. Soldiers will be retained in AIT pending the outcome of JD requests.

e. Soldiers will not be retrained to accommodate a JD request.

5–19. Criteria

a. The guideline for a JD is assignments close enough together for Soldiers to establish a common household (50-mile radius or 1-hour driving time of each other). Married Soldiers will not be assigned so that they will be in their spouse's rating chain.

b. Married Army couples must meet their military obligations (regardless of assignment) to the same extent as unmarried Soldiers or Soldiers married to civilians.

c. As an exception, a reassignment may be granted by HRC Directors with oversight of military personnel assignments, regardless of Soldier's TOS, to establish a JD when a Soldier's spouse is assigned to an SRU (not applicable for exception if spouse is assigned as SRU cadre). The Soldier desiring reassignment to the spouse's SRU location must initiate the request for reassignment.

d. A reassignment under the MACP to establish a JD may be granted as an exception. Reassignment is contingent on the following:

(1) A valid requisition exists in the Soldier's grade and MOS at the gaining installation, and assignments are near enough to each other to establish a JD.

(2) Losing installation does not have a critical shortage in the Soldier's grade and MOS.

(3) Soldiers have served a minimum of 24 months TOS when departing the losing duty station for a CONUS-to-CONUS reassignment (12 months when volunteering to join spouse in an OCONUS area.) Soldiers may submit a voluntary request for OCONUS after 6 months TOS if military spouse is located OCONUS for movement after completion of 12-month TOS requirement. If both Soldiers are assigned to CONUS locations, a request for CONUS reassignment may be submitted after 14 months (for movement upon completion of 24-months TOS requirement) for PCS at Government expense.

(4) Soldiers must have 24 months TOS remaining after arrival at gaining CONUS installation (must be able to serve prescribed tour to join spouse overseas). If needed, this service may be acquired through extension or reenlistment prior to departing the losing duty station.

e. When a Soldier is reassigned to join spouse, neither will be involuntarily reassigned for at least 12 months from the date the reassigned Soldier arrives on station. This policy will also apply when both are reassigned to establish a common household. The 12-month period will be computed from the latter of the two arrivals when the arrival dates differ. The term "involuntarily reassigned" does not include deployments or other TDY requirements.

f. Soldiers who are otherwise qualified and not within the reenlistment window may extend their current term of enlistment to have a Joint ETS month with their spouse. This extension will not exceed 23 months and will be limited to the number of months necessary to accomplish the joint ETS.

g. Soldiers married to members of a Regular or Reserve Component of any Service (Army, Air Force, Navy, Marines, or Coast Guard) and enrolled in the MACP must initiate a Family care plan if re-quired by policy prescribed in AR 600–20.

h. JD assignments will not be considered when one Soldier is attending school in a PCS status. However, consideration will be given upon school completion.

i. Married Army couples may be assigned to the same OCONUS area if—

(1) There is a valid vacancy for both Soldiers.

- (2) A common household can be established as determined by the gaining command.
- (3) Both have enough remaining service to serve the prescribed tour. If needed, this service may be acquired through extension or reenlistment prior to departing the losing station. However, neither Soldier will be exempt from OCONUS service if criteria in paragraphs 5–19i(1) or 5–19i(2), does not exist at the time both are voluntarily or involuntarily assigned OCONUS.
- (4) Both have served a minimum of 12 months at current CONUS duty stations.
 - j. Family travel is not automatic upon approval of a JD assignment (see AR 55–46). Soldiers must apply for Family travel and receive approval from the OCONUS command prior to their Family's departure.
 - k. When a married Army couple on an approved OCONUS JD assignment arrives OCONUS at different times, the first arriving Soldier's DEROS will be automatically (without Soldier's consent) adjusted to equal the spouse's DEROS. The second arriving Soldier is not authorized a tour curtailment to meet the spouse's DEROS.
 - l. MACP consideration is not coordinated for dependent-restricted assignments. However, the spouse may submit an individual request to the same short tour area or a different short tour area. (This assignment does not provide for establishment of a JD, and the couple is not entitled to Government Family housing or other special considerations based upon their marital status.)
 - m. Married Army couples with minor Family members may volunteer for assignment to a dependent-restricted OCONUS area providing they have proper care for their Family members. They will serve the unaccompanied tour unless they request command sponsorships.
 - n. If a married Army couple with Family members are both involuntarily assigned to a dependent-restricted OCONUS area, one Soldier may request a temporary deferment to arrange for care of the Family member(s).
 - o. Married Army couples assigned together to a short tour area that authorizes Family members will serve the accompanied tour. However, if the AI do not indicate Soldiers are assigned under the MACP, the couple (even though they share a common household) will serve the unaccompanied tour. Couples may request tour extensions.
 - p. When one member of a married Army couple separates from AD prior to completion of prescribed tour, the remaining Soldier is still obligated to complete the tour.
 - q. OCONUS tour lengths for married Army couples are prescribed in AR 614–30, DoDI 1315.18, and the JTR.
 - r. When either member of a married Army couple completes an unaccompanied overseas tour, neither Soldier will be required to serve a similar tour until they have served together in CONUS or OCONUS for at least 12 months, when possible.

5–20. Permissive assignments

- a. A permissive assignment (at no cost to the Government) CONUS-to-CONUS or intra-theater OCONUS areas is another means for a married Army couple to establish JD. (Only one of the Soldiers need apply.)
- b. Area moves that are CONUS-to-OCONUS, OCONUS-to-CONUS, inter-theater, and short tour OCONUS under permissive conditions are not authorized.
- c. An application for permissive assignment will include a statement that the application, if approved, is subject to the following rules:
 - (1) Soldiers must have at least 12 months but less than 24 months at current station. (This cannot be waived.) However, Soldiers may submit request for permissive assignment after serving 6 months at current duty station for movement after completion of the 12-month TOS requirement.
 - (2) A valid requirement must exist for the Soldier's grade and MOS at the gaining location.
 - (3) Soldiers must have, or acquire, sufficient service to complete at least 12 months at the gaining location. Soldiers who are CONUS-based will be stabilized for 12 months at the gaining installation. Soldiers based OCONUS will extend their DEROS, when necessary.
 - (4) Soldiers will pay all expenses incident to travel to the new duty station, including transportation of Family members and shipment of household goods. Soldiers will also arrange for shipment of household goods. Government facilities, including packing, movement, and storage will not be used. Soldiers may, however, obtain advice from the local transportation office.
 - (5) Travel time in conjunction with the move will be charged as ordinary leave.
 - (6) A permissive assignment request may be withdrawn at any time prior to departing the current duty station. If the request is withdrawn, AI will be revoked.

5–21. Disenrollment from Married Army Couple Program

a. Soldiers may terminate enrollment in the MACP at any time by initiating a PAR to their servicing MPD and or brigade S1 to the Personnel System of Record. Failure to update MACP information or change marital status will cause continued JD ASCO (including Soldiers who are legally separated or divorced).

b. Soldiers that are legally separated or divorced must update current marital status through their servicing MPD and/ or brigade S1. Soldiers will be automatically disenrolled from the MACP when their marital status is updated in the Enlisted Assignment System of Record.

c. Servicemembers should not disenroll from the MACP for the purpose of accepting an assignment. Soldiers may request a temporary break to accept reassignment orders for a specific location, training, or duty assignment. Upon completion of the prescribed tour of duty, the Soldier will automatically be considered for JD for all future assignments again.

Section V

Stabilization

5–22. Compassionate stabilizations due to death of a spouse

This policy was established to help a Soldier during a period of extreme hardship to ensure that they are afforded the stability and allowed time to address personal affairs. Soldiers who experience the death of a spouse are automatically stabilized for a period of not less than 12 months upon HRC Casualty and Mortuary Affairs Operations notification to the Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM) of the death of a Soldier's spouse.

a. Upon notification of the death of a Soldier's spouse, the Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM) will enter ASCO code of S3-Survivor Stabilization in the Enlisted Assignment System of Record along with an AEA Code "S" with an expiration date.

b. The Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC will send an email to the first O5 or higher in the Soldier's chain of command explaining the Soldier's options, along with a sample PAR. Soldiers on AI requesting to remain at their current location will be deleted. Soldiers may request a reassignment rather than stabilize at their current location within 30 days of notification from the Chief, Special Actions Branch, or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM). The Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–EPO–A or AHRC–RPM) will make every attempt to issue AI to the requested location. OCONUS Soldiers who are approved for stabilization and request stabilization at a different location will be curtailed. If a response is not received at HRC (AHRC–FSO–S or AHRC–RPM) within 30 days of the email, the Soldier must submit a compassionate request for any reassignment or deletion requests.

c. Soldiers desiring to extend their stabilization from the initial 12 months must initiate a PAR re-requesting an extension up to 24 months through their chain of command, endorsed by the first O–5 or higher. The brigade S1 or equivalent will forward all documentation to the CG, HRC, at usarmy.knox.hrc.mbx.epmd-compassionate-section@army.mil for RA Soldiers and to usarmy.knox.hrc.mbx.rpmd-ord-policy-branch@army.mil for USAR AGR Soldiers for action. Soldiers serving OCONUS and requiring an exception to policy must receive approval from DCS, G–1, Director of Military Personnel Management (DMPM).

d. OCONUS Soldiers who request to extend their stabilization and have a DEROS prior to the requested stabilization termination date must include the following statement: "Upon approval, I will extend my overseas tour to meet the stabilization requirements. I understand that I must meet the SRR to qualify and be eligible for follow-on OCONUS-to-CONUS assignment based on my new DEROS."

e. Soldiers on AI requesting to remain at their current location will have their AI deleted. Soldiers may request a compassionate reassignment rather than stabilize at their current location. The Chief, Special Actions Branch at HRC (AHRC–FSO–S) or the Director, Reserve Personnel Management Directorate (AHRC–RPM) will make every attempt to issue AI to the requested location. OCONUS Soldiers who are approved for stabilization and request stabilization at a different location will be curtailed.

f. Soldiers may terminate their stabilization request at any time during the stabilization period by submitting a PAR through their chain of command to the Chief, Special Actions Branch, or the Director,

Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM). The Soldier will then become IA for worldwide assignment.

5–23. Stabilization of Soldiers and military Families with special needs (Exceptional Family Member Program stabilization)

Army policy allows for military Families with special needs to be stabilized for up to four years so medical or educational services, which cannot be immediately replicated or acquired elsewhere, are not disrupted. The stabilization for the EFM also applies to the Soldier; however, the Soldier may be required to travel TDY or TCS away from home station to participate in combat or operational deployments, training exercises, or for personnel management or professional development reasons, after the first year of the approved stabilization timeframe. The stabilization period (if approved) starts on the date the EFM began receiving the required services. The Family member that is the basis for the stabilization request must be enrolled in the EFMP.

a. Criteria. The stabilization must support Army Readiness and professional development of the Soldier, and one or more of the below situations must apply in order to establish eligibility for stabilization under this program:

(1) A PCS move would disrupt access to necessary medical or educational services that would place the EFM's health, safety, or development in jeopardy.

(2) The EFM has a diagnosis that requires extensive support from TRICARE, State, and local resources that would be difficult to replicate or reacquire in a timely manner.

(3) The Family has multiple EFM's receiving a combination of TRICARE, state, and local services that would be difficult to replicate or reacquire in a timely manner.

b. Requests. Soldiers requesting stabilization under this provision must complete a DA Form 3739 along with supporting documentation. Minimum documentation includes the following:

(1) PAR requesting stabilization through the chain of command. The request must be endorsed by a COL (O–6) commander or higher. The PAR will include the following information:

(a) Justification for request and timeframe.

(b) The following statement signed by the Soldier: "I understand that if my stabilization request is approved, I may be required to travel TDY or TCS away from home station to participate in combat or operational deployments, training exercises, or for personnel management or professional development after the first year of the approved stabilization timeframe. I also understand that I may request termination of my stabilization in writing (PAR) at any time during the stabilization period (a period not to exceed four consecutive years)."

(2) DD Form 2792 (Family Member Medical Summary). Complete with EFMP coordinator's signature and stamp.

(3) DD Form 2792–1 (Early Intervention/Special Education Summary) (if applicable).

(4) Correspondence from a treating physician or education specialist with diagnosis, prognosis, treatment plan.

c. Additions. Additional documentation may include—

(1) Individual Family Service Plan.

(2) Individual Education Plan.

d. Submission.

(1) The S–1 will forward all documentation to the CG, HRC, Compassionate Actions Team functional mailbox, usarmy.knox.hrc.mbx.epmd-compassionate-section@army.mil, for action of RA Soldiers. For AGR Soldiers, the S–1 will forward all documentation to usarmy.knox.hrc.mbx.rpmd-ord-policy-branch@army.mil.

(2) If approved, the Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC–FSO–S or AHRC–RPM) will annotate the Soldier's record in the personnel database of record with the ASCO code "S2" (EFMP Stabilization) and the AEA Code "S" (Stabilized –Extreme Family Problems). The AEA code will be accompanied by an expiration date (YMAEAT) that designates the end of the stabilization period. The end date is determined by the Office of The Surgeon General or based on when services began for the EFM. For example, if treatment began 12 months before the request, then Servicemember may receive an additional 12–36 months stabilization. The Soldier may terminate the request at any time during the approved period and become IA for worldwide assignment. Requests to remove AEA Code "S" code requires a PAR endorsed by a COL (O–6) level commander or

higher. Appropriate special needs (EFMP) coordination must be accomplished prior to post-stabilization assignment selection.

(3) OCONUS Soldiers who request stabilization and have a DEROS prior to the requested stabilization period end date must include the following statement on their request: "If approved, I will extend my overseas tour to coincide with the remaining requirement as a result of my new DEROS." Upon approval, these Soldiers must extend their Foreign Service tour to meet the stabilization period.

(4) If approved for stabilization, Soldiers on HRC-issued AI who wish to remain at their current duty station will be deleted from an assignment. If the request pertains to stabilization at a different or specific location, the Chief, Special Actions Branch or the Director, Reserve Personnel Management Directorate, HRC (AHRC-FSO-S or AHRC-RPM) will consider Army requirements, as well as the availability of the required special needs resources at the requested location.

5-24. Stabilization for Soldiers with high school seniors

a. Policy. Soldiers with Family members in high school may request stabilization from PCS movement during the child's senior year. The intent of the program is to provide stability to Soldiers with Family members in their junior and senior years of high school. In order to qualify, the student must be enrolled in Defense Enrollment Eligibility System (DEERS) and must be under the direct care or custody of the Soldier submitting the request.

(1) HRC Directors with oversight of military personnel assignments are the approval/disapproval authority.

(2) For Soldiers on AI, normal reassignment rules apply. That is, the Soldier may request deletion or deferment in accordance with AR 600-8-11. These requests will be considered an exception to policy.

(3) Soldiers' EFMP is required to be current or closed in accordance with AR 608-75.

(4) Soldiers enrolled in the MACP must both apply if both desire stabilization under these provisions.

(5) Stabilization under these provisions may be changed or canceled due to the changing needs of the Army.

(6) Stabilization does not preclude Army assignment authorities from placing the Soldier (or one of the two MACP-enrolled Soldiers serving at the same geographical location as the high school in which their child is a student) on assignment to a dependent-restricted tour during the stabilization period.

(7) Soldiers may be eligible to PCS before the start of the student's junior year of high school.

b. Applicability and criteria.

(1) The provisions of this section apply to RA and USAR AGR Soldiers only. ARNGUS Soldiers should contact their servicing personnel office for guidance.

(2) RA and USAR AGR Soldiers assigned to non-Army agencies or units must comply with all directives and regulations that apply to their command before submitting their request (for example, Soldiers assigned to the Defense Courier Service must comply with DoDI 5200.33). Submission requirements are prescribed below. Soldiers may only request stabilization when currently assigned to a duty station at the same geographical location as the high school in which their child is a student (for example, a Soldier stationed OCONUS serving a dependent-restricted tour is ineligible to apply).

c. Submission of requests.

(1) Requests should be submitted no earlier than March of the student's "freshman" year, and not later than the commencement of the student's sophomore school year (for example, Student's projected graduation date is June 2026; submit request between March-September 2023). Requests submitted outside of this time frame will be considered as an exception to policy and must be justified as to the delay of submission.

(2) Soldiers with high school students may apply within 6 months after arrival at a new duty station, regardless of high school grade level.

(3) All requests will be submitted to the appropriate HRC point of contact below for consideration, regardless of chain of command recommendation. Soldier will request stabilization using a PAR or memorandum. The request will be submitted to the Chief, Actions, Policy, and Procedures Branch (AHRC-FSO-A) for RA or the Chief, Operations and Readiness Division, Reserve Personnel Management Directorate, for USAR AGR for consideration. Soldier's request will include the following:

(a) A letter or memorandum from the high school with the student's name and projected graduation date.

(b) A copy of the DD Form 1172-2 (Application for Identification Card/ DEERS Enrollment.)

(c) The statement: "Student (child's full name) is enrolled in DEERS and under the direct care or custody of the Soldier submitting the request."

(d) OCONUS Soldiers whose DEROS is prior to the requested stabilization date must include the following statement in their request: "I will extend my foreign service tour to meet the stabilization requirement. Based on my new DEROS, I understand that I must still meet the time remaining in service requirement to be eligible for reassignment to CONUS."

(4) Requests for stabilization of CSM/SGM or selectees for the USASMA will be coordinated with the Chief, Command Management Branch, or Sergeant Major Branch, HRC (AHRC–EPS).

5–25. Stabilization policy for Soldiers/Spouses undergoing fertility treatment

a. Soldiers who have received a justification memo for treatment or a referral to a fertility specialist by a gynecologic surgeon/obstetrician will be stabilized from PCS for up to 365 days from the date of the first appointment while undergoing fertility treatment. Both members of a dual Army couple will be stabilized when currently assigned to the same location. A 365-day stabilization will also be provided for Soldiers whose spouses are undergoing fertility treatment (including when the spouse is a civilian or a member of another military Service).

(1) Soldiers who received a RFO, AI, or PCS orders prior to receiving a fertility treatment justification memo or referral are not eligible for this stabilization.

(2) Soldiers may choose to waive their own stabilization or end it early.

b. Soldiers/spouses who are granted a fertility profile for assisted reproductive technology procedures are eligible for a stabilization extension of up to 365 additional days (4 assisted reproductive technology cycles) from the date granted on the fertility profile. Soldiers/Spouses undergoing fertility treatments other than assisted reproductive technology are not authorized this extension.

c. Soldiers who receive RFO, AI, or PCS orders while stabilized for fertility treatment qualify for the stabilization extension after receiving a fertility profile for assisted reproductive technology.

d. Soldiers stationed OCONUS requesting fertility stabilization or extension must also submit a request for voluntary foreign service tour extension if the stabilization period exceeds their tour end date.

e. Soldiers may choose to terminate their stabilization early.

f. Submission of requests.

(1) Soldiers will submit fertility treatment stabilizations, extensions, and early terminations via PAR or memorandum, with supporting documents. The submission will be verified and endorsed by the battalion commander and forwarded to the Actions, Policy, and Procedures Branch (usar-my.knox.hrc.mbx.epmd-psa-branch@army.mil) for RA or Operations and Readiness Division, Reserve Personnel Management Directorate, for USAR AGR.

(2) The Chief, Actions, Policy, and Procedures Branch will stabilize Soldiers using AEA Code "G," with the appropriate year and month of stabilization termination.

Chapter 6

Career Development Programs and Instructor or Advisor Positions

Section I

Career Development Programs

6–1. Overview and objectives

a. A career development program is a system of intensive management of selected MOS or CMF. These programs are established to ensure that there are enough highly trained and experienced Soldiers to fill positions that require unique or highly technical skills. To develop Soldiers with the required proficiency, career fields within each program often require—

(1) Frequent movement from one job to another to gain required experience.

(2) An above average frequency of advanced training.

(3) Lengthy or frequent training periods.

b. Each program provides the opportunity for career progression to the highest enlisted grade within one or more MOS included in the program. Only the most highly qualified and career-motivated Soldiers will be accepted into the following career development programs:

(1) Intelligence.

- (2) EOD.
- (3) Technical escort training.
- (4) Army Band Career Program (ABCP).
- (5) Cyber.
- c. The Intelligence Career Program's objectives are to—
 - (1) Improve the intelligence capability of the Army.
 - (2) Provide highly skilled Soldiers to fill enlisted intelligence requirements within DoD and military intelligence units within the Army.
 - (3) Provide opportunities and incentives for career enhancement in the intelligence field.
 - (4) Provide an inventory of Soldiers directly engaged in intelligence activities.
- d. The EOD Program objectives are to—
 - (1) Provide individual training, intensive career management, and development of Soldiers according to their demonstrated ability and potential for advancement.
 - (2) Retain qualified Soldiers through greater opportunities, incentives, and job satisfaction.
- e. The technical escort training objective involves duties that include close association with or possibly exposure to toxic chemicals and other hazardous materials during operations and training.
- f. The ABCP objectives are to—
 - (1) Acquire, develop, employ, and retain Soldiers with the greatest potential to achieve the mission of Army Bands.
 - (2) Provide the highest level of musical proficiency and leadership training to accomplish the mission of Army Bands.
 - (3) Provide the Army with highly skilled Soldiers who use the capability of music to enhance Warrior morale, support Army recruiting efforts, provide comfort to recovering Soldiers, reinforce relations with host nation populations, and maintain a connection with the American public and Army Families.
- g. The Cyber Career Program's objectives are to—
 - (1) Improve the cyberwarfare capabilities of the Army in response to adversary activity or to provide additional options for senior leaders.
 - (2) Provide highly skilled Soldiers to fill enlisted cyberwarfare requirements within DoD and cyber-space operations units within the Army.

6–2. The Intelligence Career Program

- a. Soldiers must possess a PMOS in CMF 35 or qualify for entry into these MOSs by meeting the pre-requisites in DA Pam 611–21, including the applicable security clearance required for the position. Waivers will only be approved in exceptional cases when in the best interest of the Army.
- b. Language training eligibility requirements, including a schedule of applicable language courses, are in AR 11–6. When feasible, career Soldiers in language-dependent MOSs should be trained in a second operational language.
- c. Soldiers applying for training in MOS 35L must consider the following:
 - (1) Soldiers stationed OCONUS may apply for training in MOS 35L after arrival in the OCONUS unit but no later than 5 months before DEROS.
 - (2) Soldiers applying for training in MOS 35L who have less than 10 months remaining OCONUS may be required to—
 - (a) Voluntarily extend the OCONUS tour pending final approval (6 to 9 months processing time required).
 - (b) Return to CONUS and serve at least 1 year at the new station before attending school. (Soldiers must sign a statement to this effect.)
 - (3) All newly accredited 35L Soldiers will serve a minimum probation period of one year. If the newly accredited 35L Soldier has more than one year between the first duty day following the award of the MOS and reaching the age of 21, the Soldier will proceed on a probation period until reaching the age of 21. During this period, Soldiers will not be utilized on sensitive investigations except under special circumstances. Overall performance, capabilities, and potential during this period will be evaluated continuously. Within 30 days after the probation period, a special recommendation stating whether the Soldier should be retained in MOS 35L will be submitted.
- d. Soldiers assigned MOSs in CMF 35 may not have their MOSs withdrawn without approval. However, pending approval, Soldiers may be suspended from duties in CMF 35 and assigned other duties for the following reasons:

- (1) Expressing a desire not to perform duties in their assigned MOS. This expressed desire is not to be used solely to evade an assignment that the Soldier thinks is unsatisfactory.
 - (2) Committing or expressing a desire to commit acts of disaffection, disloyalty, or subversion.
 - (3) Exhibiting character deficiencies, including indiscretions or improprieties below standards prescribed in this section.
 - (4) Losing badge or credentials through negligence (MOS 35L).
 - (5) Abusing operational privileges granted to certain intelligence Soldiers.
 - (6) Demonstrating inability to perform duties commensurate with military-grade and standards.
- e. When Soldiers are suspended, disciplinary, or administrative action may be taken under the UCMJ or other pertinent regulations.
- f. When Soldiers are disqualified for duties in the Intelligence Career Program, they will be reclassified (see AR 380–67). Soldiers who are mandatorily reclassified out of an MOS in CMF 35 will not hold, as either an SMOS or AMOS, any MOS in CMF 35.
- g. When Soldiers are released from the Intelligence Career Program for reasons prescribed in AR 380–67, their Command will forward a request for action (RFA) through the Defense Counterintelligence and Security Agency (DCSA) Adjudication and Vetting Services (AVS) Portal.
- h. Soldiers selected for the Computer Network Operations Program will incur a 5-year SRR upon assignment to these specialized positions and will be stabilized for a period not to exceed 5 years TOS. The INSCOM will provide a by-name roster identifying Soldiers selected for assignment to computer network operations positions to the CG, HRC (AHRC–FSO–A) within 6 months of their arrival at Fort Meade, MD.

6–3. The Explosive Ordnance Disposal Career Program

- a. The EOD Career Program is a volunteer program designed to train Soldiers in locating, identifying, evaluating, rendering safe, recovering, and disposing of foreign and domestic conventional, nuclear, chemical, and biological ordnance; improvised explosive devices; weapons of mass destruction, and large vehicle bombs; as well as conducting Post Blast investigations and intelligence gathering operations on first seen explosive ordnance items, improvised explosive devices and their fusing or triggering systems, and other explosive ordnance related items or components. Soldiers serving in the EOD Career Program also support very important person missions for the U.S. Secret Service, U.S. State Department, and other Federal agencies. Upon completion of formal training, Soldiers are awarded MOS 89D (EOD specialist).
- b. NPS Soldiers must meet the training selection standards, prerequisites, and MOS requirements prescribed in DA Pam 611–21 and this regulation for accession into the EOD Program. SPCs may volunteer for initial EOD training provided they meet the training selection standards prerequisites and MOS standards prescribed in AR 611–105, DA Pam 611–21, and this regulation. However, CPLs may not volunteer. SPCs applying for initial EOD training must not be in a promotable status as of the date of the completion of entry into EOD training.
- c. Soldiers, SFC, and below, who were previously qualified but have not worked in MOS 89D for 36 months or more may volunteer for reentry into the program (MOS 89D). However, Soldiers must meet the training selection standards, prerequisites, and MOS requirements prescribed in DA Pam 611–21 and this regulation and must complete all developmental training as directed by the personnel proponent. All Soldiers will complete NCOPDS technical track training for MOS 89D for their skill level when reentering the program if such courses were not completed prior to their departure.
- d. Soldiers are not eligible to apply when they—
- (1) Are assigned (or alerted, or under orders for assignment) to units alerted for OCONUS movement.
 - (2) Are under court-martial proceedings, investigation that may result in trial by court-martial, or suspension of favorable personnel actions (see AR 600–8–2).
 - (3) Have been relieved from EOD training or duty due to punitive action, denial, or revocation of security clearance, or personal request for relief from EOD.
 - (4) Have received EB or variable reenlistment bonus for current service obligation.
 - (5) Have lost time under 10 USC 972 within 2 years of the date of application.
 - (6) Are serving OCONUS. (Soldiers may apply from 10 through 5 months before DEROS.)
 - (7) Have had their EOD badge revoked under provisions of AR 611–105.
- e. Soldiers desiring to participate in the EOD Career Program should contact the EOD unit closest to their current duty station. The EOD unit commander or 1SG will provide further guidance on current application policies and procedures. First-term Soldiers who enlisted for EOD training will be interviewed

upon entry into Phase I training at Fort Gregg-Adams, VA. The interview will include the nature and requirements for the training and duties. EOD interviews, volunteer statements, documentation of bomb suit testing, and letters of acceptability will not be valid if more than 15 months has elapsed between the initiation of documents and reporting for training.

f. When Soldiers complete the prescribed EOD training, they will be—

- (1) Awarded MOS 89D and appropriate skill level.
- (2) Assigned to EOD duties under the current policies and directives.

(3) Notified that should they be removed from EOD duties, returned to a prior MOS, or reclassified, MOS 89D will not be retained as a secondary or additional MOS without concurrence of the MOS personnel proponent and final approval by HRC. A copy of approval will be filed in the Soldier's official military personnel file (OMPF) in accordance with AR 600–8–104.

g. A copy of the EOD volunteer statement will be maintained in the OMPF in accordance with AR 600–8–104.

h. When Soldiers are approved for EOD training, they will be attached (effective 90 days before Phase I training report date) to the EOD company for an assessment and evaluation period. Soldiers may be attached earlier provided their current commander agrees. When the approval is received less than 90 days before the reporting date, Soldiers will be attached as soon as possible. A PCS is not authorized, and the attachment must not involve expenditure of Government travel funds.

i. Initial training for entry into the EOD Program is a two-phase process. Phase I is conducted at Fort Gregg-Adams, Virginia, and Phase II is conducted at Eglin Air Force Base, Florida. Accepted volunteers will PCS to attend formal training.

j. Soldiers who fail to complete the prescribed EOD training or who enter the training and later are found to be unqualified will be removed from the EOD Program and reassigned. Soldiers who fail due to medical limitations, academic failure, or administrative requirements may reapply once medical limitations are corrected, or administrative requirements are met. Academic failures may reapply for training after 24 months.

k. Soldiers accessed into the EOD Program who have previously completed any MOS specific NCOPDS technical tract training must complete MOS 89D technical tract training upon completion of the basic EOD course.

l. Soldiers involuntarily reclassified due to over-strength in the EOD Career Program may request reentry into the program should a shortage develop.

m. Soldiers may terminate their volunteer status at their discretion. Termination of volunteer status will result in immediate reclassification from MOS 89D and reassignment from the assigned EOD unit. The MOS 89D will not be designated as a secondary or alternate MOS in conjunction with this type of reclassification action. Soldiers who voluntarily terminate EOD status may not reapply for the EOD Program.

(1) In accordance with AR 600–8–22, if a Soldier has not satisfactorily served in a TOE or TDA EOD position for 18 months, the EOD badge will be revoked.

(2) If the Soldier has not met the service obligations for the MOS 89D producing school referenced in chapter 4 upon termination of EOD volunteer status, then all EOD certifications will be revoked.

(3) All unearned incentives (that is, EB, reenlistment bonus, critical skills retention bonus, and so forth) will be recouped by the Government.

(4) All service obligations (that is, enlistment, reenlistment, extension, training, or promotion) will be transferred to the new MOS.

n. EOD Soldiers assigned to the Weapons of Mass Destruction and the technical escort programs must have 48 months TOS remaining upon assignment to these specialized positions and will be stabilized for a period not to exceed 48 months TOS.

6–4. The Technical Escort Training Program

a. AD Soldiers (through MSG) may volunteer for technical escort training, provided they meet the selection standards and prerequisites in the ATRRS Course Catalog and the MOS requirements in DA Pam 611–21 for the following MOS:

- (1) Chemical operations specialist (74D).
- (2) EOD specialist (89D).

b. Soldiers are not eligible to apply when they—

- (1) Are assigned (or alerted, or under orders for assignment) to units alerted for OCONUS movement.
- (2) Are alerted or under orders for OCONUS movement.

- (3) Are under court-martial proceedings, investigation that may result in trial by court-martial, or suspension of favorable personnel actions (see AR 600–8–2).
- (4) Have been previously rejected for or relieved from technical escort training or duty because of punitive action, denial, or revocation of security clearance, academic failure, or personal request for relief from technical escort duties.
- (5) Are serving OCONUS (exception: Soldiers may apply 10 through 5 months before DEROS).
 - c. Soldiers will be advised of the following prior to submitting an application:
 - (1) The nature and requirements for the training and duties.
 - (2) Technical escort duty assignment according to current policies and directives, upon completion of Technical escort training.
 - d. Technical escort training is held at the U.S. Army Chemical, Biological, Radiological, and Nuclear School, Fort Leonard Wood, MO.
 - (1) If a vacancy exists at Soldier's current installation, Soldier will return to that installation after completing the course (TDY and return).
 - (2) If no vacancy exists, Soldier will attend the course TDY enroute to PCS. When Soldiers have Family members, AI will be issued when course attendance is approved. Otherwise, they will attend the course in a TDY pending further orders status.
 - e. Graduates of the technical escort training will be awarded ASI L3.
 - f. Soldiers assigned in a chemical surety program must be qualified or eligible to qualify under AR 50–6.
 - g. Chemical operations specialists assigned to the CONUS-based Weapons of Mass Destruction Program and the technical escort Program must have 48 months' time-in-service (TIS) remaining upon assignment and will be stabilized for a period not to exceed 48 months TOS.
 - h. A Soldier who fails to complete the prescribed technical escort training or enters the training and later is found to be unqualified will be removed from training and released from the technical escort Program (see AR 50–6).
 - i. Soldiers may request voluntary release from the technical escort Program. However, when Soldiers commit an offense while in training that causes disqualification for continued training, they will not be allowed to voluntarily withdraw from technical escort training. Soldiers will be processed under AR 50–6.

6–5. The Army Band Career Program

- a. Soldiers who hold, or are later awarded, PMOS 42R or 42S are automatically members of the ABCP.
- b. Soldiers may be selected to enter the ABCP on enlistment, reenlistment, or voluntary reclassification into PMOS 42R or 42S. (See AR 601–210 for enlistment options.)
- c. Soldiers may not apply for entry in the ABCP when they are—
 - (1) Serving on an enlistment that receives an enlistment or reenlistment bonus. Soldiers may only apply on subsequent reenlistment.
 - (2) Alerted for or on orders to an assignment OCONUS.
 - (3) Under suspended favorable personnel action (see AR 600–8–2).
 - (4) Former members of the ABCP who were involuntarily removed from the program for cause or for failure to maintain a required level of proficiency.
- d. To be selected for entry-level membership in the ABCP, applicants must meet prerequisites in ATRRS Course Catalog for Course 450–42R10 Musician (ASI 9B–9X) and demonstrate MOS qualification on their primary instrument (control ASI). Instrumental proficiency must be demonstrated on the Army Musician Proficiency Assessment (AMPA) prior to enlistment.
 - (1) The only personnel authorized to administer the AMPA are those certified by the Commandant, USASOM, as major duties required of their positions.
 - (2) Information on AMPA procedures and standards are in AR 220–90 and DA Pam 220–90. Additional information may be obtained by contacting the USASOM Training Director, DSN 253–5681, and the Army Bands liaison at any USAREC brigade HQ.
 - (3) Soldiers enlisting for the ABCP are enlisted under the Army civilian-acquired skill program only if they meet all requirements listed for membership in the ABCP. Additional information and requirements are available in AR 601–210.
 - (4) Music production technicians must demonstrate a professional level of skill in mixing sound for live performances as directed by the AMPA assessor. An AMPA score of 24 is required for MOS qualification.

(5) All Army musicians must demonstrate the abilities to learn new music quickly (less than 48 hours) and to perform music from memory.

e. Formal technical (musical) training for enlisted personnel consists of the following three courses of instruction conducted at the USASOM, JBLC-FS, Virginia Beach, VA 23459-2617:

(1) 450-42R10 Musician (ASI 9B-9X) trains qualified initial enlistees, retrainees, or Soldiers selected from those in OJT for MOS qualification training as a musician.

(2) Army Bands ALC, which trains qualified Army Musician SSG in technical duties required of music performance team leaders. Selection is limited to members of the ABCP.

(3) Army Bands SLC trains qualified Army Musician SFCs and SSGs to conduct ceremonial ensembles and assume additional duties as required by the band's command team. Selection is limited to members of the ABCP.

f. All prospective Army musicians will attend AIT at the USASOM except those enlisting for service in special bands and PMOS 42S.

g. Soldiers who have PMOS 42R or PMOS 42S will not be assigned or utilized in an MOS outside that series without prior approval from the Chief, Soldier Support Branch, HRC (ARHC-TAS-SSB). Exceptions are as follows:

(1) Soldiers pending reclassification out of PMOS 42R or 42S may be utilized as directed by senior or division commander.

(2) Soldiers temporarily unable to perform duty as Army musicians may be utilized as directed by the unit commander.

(3) Soldiers in the ABCP may be assigned as Army Bands liaison NCOs to USAREC brigade HQ.

h. Special band musicians are as follows:

(1) Soldiers assigned to the following band activities are designated as special band musicians, PMOS 42S.

(a) U.S. Army Band (Pershing's Own).

(b) U.S. Army Field Band.

(c) U.S. Military Academy Band.

(d) Old Guard Fife and Drum Corps.

(2) Commanders of special bands select special band musicians based on the needs of the band and the qualification standards established by each special band commander for the band they command. As a minimum, special band musicians must exhibit the highest standards of military bearing, personal appearance, and discipline for special bands to accomplish their mission. Prospective special band musicians must demonstrate superior musical expertise equivalent to professional performers in the civilian community. In addition to the standard requirements of the ABCP, PMOS 42S applicants for the U.S. Army Band (Pershing's Own) and the Old Guard Fife and Drum Corps (3d U.S. Infantry) must be qualified for assignment to a presidential support activity (see chap 8, sec I).

(3) Prospective special band support personnel must demonstrate outstanding technical skills in their area of expertise. Soldiers assigned to the U.S. Army Field Band as motor transport operators (88M) must meet the requirements in paragraph 8-11.

(4) AR 601-210 provides specific instructions for civilian personnel desiring to apply for enlistment into special bands.

(5) Enlisted personnel desiring to apply for a position in a special band are required to submit a packet to the commander of the special band with vacancies to fill. This packet should consist of the following:

(a) A resume.

(b) An audition recording that meets the requirements of the special band vacancy. Vocalists must submit a video recording at all levels of the selection process.

(c) A copy of the enlisted record brief.

(d) Copies of the previous five NCO evaluation reports.

(e) A memorandum from the Soldier's current commander agreeing to release the Soldier, if select-ed, from the current assignment for reassignment to fill the vacancy within 180 days of selection (or once a suitable replacement has been identified) and allowing the applicant to audition at the site of the band for which the application is being made.

(6) The stabilization period for Soldiers assigned as special band musicians to band activities listed in paragraph 6-5h(1) is indefinite.

(7) Withdrawal of MOS 42S. When Soldiers are no longer assigned to organizations authorized MOS 42S positions, the PMOS 42S will be withdrawn by the Chief, Soldier Support Branch, HRC. Army personnel are not authorized SMOS 42S.

i. Removal from the ABCP.

(1) Soldiers may request removal from the ABCP by applying for voluntary reclassification out of PMOS 42R or 42S. Approval authority is the Chief, Retention and Reclassification Branch, HRC (AHRC-FSF-ER).

(2) Voluntary termination of special band member status will include removal from the ABCP unless the individual requests reclassification and continued service in PMOS 42R. The Commandant, USASOM NCO Academy will determine the individual's eligibility for reclassification to PMOS 42R, to include the individual's need for NCOPDS training or other considerations that affect promotion and retention in PMOS 42R.

(3) Approval authority for involuntary reclassification from a PMOS 42R or 42S is the Chief, Retention and Reclassification Branch, HRC (AHRC-FSF-ER). Soldiers will be involuntarily reclassified for the following reasons:

(a) Due to failure to maintain proficiency in the Soldier's control ASI associated with PMOS 42R or in PMOS 42S as determined by the band commander. Refer to paragraph 6-5k, below, for instrumental deficiency documentation.

(b) For disciplinary reasons when, as a result of disciplinary action, the Soldier can no longer satisfactorily perform duties in the MOS.

j. Removal from musician training.

(1) Soldiers undergoing IET for the ABCP may be relieved from enrollment and removed from the program for—

(a) Academic deficiencies.

(b) Disciplinary actions.

(c) Failure to demonstrate minimum required level of performance for the MOS.

(d) Compassionate or hardship reasons.

(e) Falsification of facts on application.

(f) Character or leadership deficiencies.

(2) NCOs in NCOPDS courses who do not meet course standards may be referred to the Commandant, USASOM NCO Academy, for the actions of an Academic Review Board or to the Commandant, USASOM, to consider removing them from the ABCP and loss of qualification to hold PMOS 42R.

(3) Command authorities in the appropriate HQ of the NCO's RA or RC will determine the individual's potential for continued service in a PMOS other than 42R Musician.

k. Removing RA and RC band Soldiers from ABCP for instrumental, vocal, or music production deficiency—

(1) Soldiers who are serving in an RA Component band must be counseled in writing by the band commander regarding an instrumental, vocal, or music production performance deficiency. The commander will discuss specific deficiencies in the Soldier's performance and state that the Soldier must retrain well enough to achieve an AMPA score meeting the MOS qualification standards as directed in AR 220-90.

(2) Commanders of RA bands will allow the Soldier 90 days of retraining to resolve deficiencies and regain technical qualifications to hold PMOS 42R and the control ASI for the Soldier's current instrument, voice, or music production skills.

(3) Commanders of RC bands will allow the RC Soldier at least 90 days and may allow up to 180 days of retraining to regain the technical qualifications to hold PMOS 42R and the control ASI for the Soldier's current instrument, voice, or music production skills.

(4) Commanders of RA and RC bands will arrange for the Soldier to take the AMPA on the instrument of their control ASI at least twice or up to four times during the retraining periods provided for in paragraph 6-5k. All AMPAs during retraining will be 30 days or more after the first AMPA and no less than 30 days between subsequent AMPAs. Commanders will ensure AMPAs are administered and assessed by properly certified personnel in accordance with policies and procedures in AR 220-90 and DA Pam 220-90.

(5) All AMPAs conducted under the provisions of this regulation will be video recorded and clearly audible and visible. Commanders will provide a memorandum validating the applicant's identity.

(6) Commanders of RA and RC bands may choose to assess the two required AMPAs in the unit so long as properly certified AMPA administrators and assessors are employed per requirements in AR 220-

90 and DA Pam 220–90. Band commanders may request assistance from the Commandant, USASOM in finding certified assessors or administrators or in any other matter of concern related to the AMPA. The band commander may choose to request the assistance of the Commandant, USASOM at any time during the retraining period.

(7) Soldiers who pass one of the AMPAs given during the retraining period with a score meeting the MOS qualification standards of AR 220–90 for their primary instrument (control ASI) will be considered MOS qualified, and no further action is required. Soldiers who do not pass any of the AMPAs during the retraining period will be considered unqualified for membership in the ABCP and subject to voluntary or involuntary reclassification or other changes in duty status in accordance with the policies and procedures of the RA or reserve Army component in which the Soldier serves.

(8) Concerns about the accuracy of AMPA scores given in the unit may be referred to the Commandant, USASOM for review by a board of three senior Army musicians who are certified AMPA assessors at the rank of MSG or higher. The Commandant, USASOM will forward their recommendation and a copy of the board's findings to the Soldier and the band commander. The band commander will include the Commandant's recommendation and the board's findings in subsequent personnel actions and will forward them through the Soldier's chain of command to the approval authority, Chief, Retention and Reclassification Branch, HRC (AHRC–FSF–ER) for RA Component, NGB, G1 for ARNGUS, and HQ, USARC, G1 for USAR Soldiers.

6–6. The Cyber Career Program

a. Soldiers must possess a PMOS in CMF 17 or qualify for entry into these MOSs by meeting the prerequisites in DA Pam 611–21, including the applicable security clearance required for the position. Waivers will only be approved in exceptional cases when in the best interest of the Army.

b. Soldiers assigned MOSs in CMF 17 may not have their MOSs withdrawn without approval. However, pending approval, Soldiers may be suspended from duties in CMF 17 and assigned other duties for the following reasons:

(1) Expressing a desire not to perform duties in their assigned MOS. This expressed desire is not to be used solely to evade an assignment that the Soldier thinks is unsatisfactory.

(2) Committing or expressing a desire to commit acts of disaffection, disloyalty, or subversion.

(3) Exhibiting character deficiencies, including indiscretions or improprieties below standards prescribed in this section.

(4) Losing access to secure work facilities or displaying characteristics that would make it difficult to maintain the required security clearance.

(5) Demonstrating inability to perform duties commensurate with military-grade standards or cyber work roles proficiencies.

c. When Soldiers are suspended, disciplinary, or administrative action may be taken under the UCMJ or other pertinent regulations.

d. When Soldiers are disqualified for duties (AR 380–67) in the Cyber Career Program, they will be reclassified. Soldiers who are mandatorily reclassified out of an MOS in CMF 17, will not hold, as either an SMOS or AMOS, any MOS in CMF 17.

e. When Soldiers are released from the Cyber Career Program for reasons outlined in AR 380–67, the U.S. Army Central Personnel Security Clearance Facility will be notified.

f. Soldiers within the Cyber Career Program, as well as those from other CMFs (Signal, Military Intelligence, or Fires) on assignment to the Cyber Mission Force or Cyber Operating Force, must adhere to training and certification standards managed by U.S. Cyber Command and published within the Joint Cyberspace Training and Certification Standards to ensure that they are trained and certified to conduct specialized missions with national level priority.

Section II

Enlisted Instructor or Advisor Positions

6–7. Scope and objectives

a. Only the highest quality Soldiers will be assigned as instructors or advisors. Normally, Soldiers assigned as instructors will hold SQI "8" and may hold personnel development skill identifiers for instructors. Soldiers assigned to these positions will be stabilized for a period of 36 months. However, HRC may

reassign Soldiers with less than 36 months in accordance with paragraph 3–7d(3). Soldiers may volunteer or be selected for an instructor or advisor position, as appropriate, at the following:

- (1) Active Component to RC (AC to RC) (including FTM) and ROTC.
- (2) Uniformed Service schools.
- (3) NCO Leadership Center of Excellence (CoE).
- (4) Basic Officer Leader Course (BOLC) and AIT.
- (5) US Army Cadet Command (USACC).

b. The objective of AC to RC and FTM advisors and ROTC instructors is to support the training and readiness of RC Soldiers.

c. The objective of Uniformed Service school instructors is to train Soldiers enrolled at Army Service schools, Joint Service schools, and intra-service schools in their respective course curriculums.

d. The NCO Leadership CoE's objectives are as follows:

- (1) To train eligible Soldiers in the following courses:
 - (a) Command sergeant major (including spouse's course).
 - (b) Sergeant major (resident and nonresident).
 - (c) Battle staff.
- (2) To provide common core training for ALC, SLC, and MLC.
- (3) Proponency for Basic Leader Course (BLC) and enlisted professional development for the Army.
- (4) Proponency for MLC.

e. BOLC exposes precommissioned candidates, newly commissioned officers, and warrant officers to seasoned Soldiers with the broadest Army experience possible. NCO cadre influence and impact the near, mid, and long-term professionalism and competence of the Army based on the solid foundation built during BOLC. NCO cadre support all BOLC phases.

(1) BOLC Phase I encompasses training those officers during their pre-commissioning experience. This training is generally associated with the respective commissioning source: (ROTC, United States Military Academy, Officer Candidate School, and Warrant Officer Candidate School).

(2) BOLC Phase II is a 6-week course that trains, educates, and acculturates newly commissioned officers and warrant officers. BOLC Phase II develops competent, adaptable officers able to lead Soldiers in any environment.

(3) BOLC objectives are to—

(a) Develop competent, confident, and adaptive warrior leaders by training precommissioned, newly commissioned officers, and warrant officers in warrior tasks, battle drills, and on how to perform in leadership positions.

(b) To develop by end state, an officer who demonstrates the characteristics of an Army leader, lives the Army values, embodies the Army culture, and who is ready to lead small unit tactics upon arrival at their first duty assignment.

f. The objective of the USACC's instructors and staff is to educate, train, and to commission leaders.

g. Refer to AR 600–78 for suitability screening requirements, appointing authorities, removal authorities, approval authorities, and appeals authorities for all training cadre positions.

6–8. Selection criteria

The initial selection criteria for instructor duty are as follows:

- a. Be a high school graduate or possess the general educational development (GED) equivalent.
- b. Have no personal habits or character traits that are questionable from a security standpoint, such as financial irresponsibility, unusual foreign holdings or interest, alcohol, or drug misuse (does not include Soldiers who are declared rehabilitation successes under the ASAP), gambling, or emotional dysregulation.
- c. Have no diagnosed mental or psychiatric disorders which, in the opinion of competent medical authority, may cause a defect in judgment or reliability with due regard to the transient or continuing effect of the illness and the medical findings in such case.
- d. Possess a favorable National Agency Check with Local Agency Check and Credit Check (NACLC), or higher, investigation.
- e. No record of assault.
- f. Not listed as a military sex offender (see table 3–3) and have a favorable National Sex Offender Registry check.
- g. Possess mature judgment and initiative.

- h. Have served at least 3 years of active Federal Service in any branch of the Armed Forces.
- i. Have 3 years' time remaining in-service upon arrival at assignment or be able to reenlist or extend to meet the requirement.
- j. Have a security clearance consistent with that required to attend the requisite instructor course.
- k. Meet minimum reading grade level and language grade level (measured by Test of Adult Basic Education (see AR 350–1)) required for attendance to the requisite instructor course.
- l. Display good military bearing.
- m. Meet the body composition requirements in AR 600–9.
- n. Be able to pass the physical fitness test of record.
- o. Be fully qualified in the MOS for which instructor duty is desired and have at least 1 year of experience in that MOS.
- p. Have recently held a leadership assignment (RA only).
- q. Have no speech impediment.
- r. Have no record of conviction by special or general court-martial or civilian court of sexual offenses listed in AR 27–10 or otherwise be required to register as a sex offender under AR 27–10.
- s. Have no convictions in any court of any felony or violent misdemeanor.
- t. Soldiers will not be assigned consecutive tours of duty as AC to RC, FTM advisors, USACC, or ROTC instructors.

6–9. Active Component to Reserve Component full-time manning advisors and Reserve Officers Training Corps instructors

- a. In addition to the criteria in paragraph 6–8, Soldiers must—
 - (1) Be SSG or above.
 - (2) Have a physical profile of 111121 or better.
 - (3) Have Family members who are free from medical limitations or conditions requiring regular, continued treatment or consultation that cannot be treated at a civilian medical center and the cost offset by Military Health Care System (TRICARE) or TRICARE supplemental insurance.
 - (4) Have a general technical (GT) score of 100 or higher.
 - (5) Be competitive for promotion to the next higher grade as evidenced by NCOERs.
 - (6) Have had an assignment to a TOE unit within the last 2 years.
 - (7) Be in possession of, or be able to obtain, a civilian driver's license and have no limitations preventing the operation of a military vehicle.
 - (8) If an SSG, be an ALC graduate.
 - (9) If an SFC, be an SLC graduate.
 - (10) If an MSG, be an MLC graduate.
 - (11) If an SGM, be a USASMA graduate, or have successfully served in positions of increased responsibility with troops.
- b. To the extent practicable, to avoid training disruption Soldiers assigned to ROTC units will not be reassigned while school is in session and not until after advanced camp (May, August, and December PCSs are optimal).
- c. Soldiers should be aware that assignment may be to a location where Government support facilities, such as hospitals, exchanges, and commissaries, may be limited or unavailable.

6–10. Uniformed Service school instructors

- a. In addition to the initial selection criteria in paragraph 6–8, Soldiers must—
 - (1) Be SSG or above; however, exceptions will be considered on a case-by-case basis to secure the best-qualified instructors available. Proponent school commandants may grant exceptions to otherwise qualified SGTs to fill instructor vacancies. Proponent commandants will provide a copy of approved exception to otherwise qualified SGTs to Soldier's assignment branch.
 - (2) Possess a physical profile of 111121 or better.
 - (3) Be equal or higher in grade to the level of students that will attend the course.
 - (4) Be graduates of the course they will instruct.
 - (5) Instructors assigned to the U.S. Army Medical Center of Excellence (MEDCoE), or the Medical Education and Training Campus are required to have an associate degree from an accredited college program or be within 12 hours of completion upon arrival at Fort Sam Houston. The associate degree must

be completed within one year of assignment as an instructor. The degree requirement is waivable by the CG, MEDCoE.

b. Assignment of instructors at Joint or intra-service schools will be coordinated with the host Ser-vice school.

6–11. Noncommissioned Officer Leadership Center of Excellence instructors

- a. In addition to the criteria in paragraph 6–8, Soldiers must—
- (1) Be U.S. citizens (by birth or naturalization).
 - (2) Be SFC or above.
 - (3) Possess a physical profile of 111121 or better.
 - (4) Have a minimum GT score of 100.
 - (5) Be a USASMA course graduate, if SGM or if performing duties as a SGM course instructor, writer, or evaluator.
 - (6) Be an SLC course graduate if SFC.
 - (7) Be an MLC course graduate if MSG.
 - (8) Be a battle staff course graduate and have 12 months experience on a battle staff at battalion level or higher to perform duties as battle staff course instructor, writer, or evaluator.
- b. Back-to-back instructor assignments are allowed for NCO Leadership CoE instructors.
- c. Final approval of all instructor assignments will be made by the Commandant, NCO Leadership CoE.

6–12. Basic Officer Leader Course-B, and Advanced Individual Training instructors

In addition to the criteria in paragraph 6–8, Soldiers must—

- a. Successfully complete the BOLC–B Instructor Certification Program if assigned as a BOLC–B Tactical (TAC) NCO, or Army Basic Instructor Course if assigned as an AIT instructor.
- b. Have a minimum GT score of 100. This criterion may be waived to 90 by the Commander of the Center for Initial Military Training on a case-by-case basis for SGT through SFC.
- c. Have had an assignment to a TOE unit within the last two years (exceptions apply to RC personnel with comparable experience and Soldiers completing tour of duty as DSs or recruiters).
- d. Have served in principle duties of PMOS within the last 2 years (4 years if completing a tour as a DS or recruiter).
- e. Be competitive for promotion to the next higher grade as evidenced by evaluation reports.
- f. Have no record of conviction by court-martial or time lost under 10 USC 972 during current enlistment or within the last 3 years, whichever is longer.
- g. Not be flagged under provisions of AR 600–8–2.
- h. Have served as a SFC Platoon Sergeant (PSG) in an MTOE unit (or equivalent position in TDA units for RC Soldiers) if proposed assignment is to a BOLC–B TAC NCO position.
- i. Be a graduate of ALC, SLC, or equivalent upon assignment to BOLC–B or AIT.
- j. Possess appropriate interpersonal skills to interact, coach, and mentor newly commissioned officers if proposed assignment is to a BOLC–B TAC NCO position.
- k. Not have any medical conditions or profiles which would hamper their performance as a BOLC–B or AIT instructor.

6–13. U.S. Army Cadet Command instructors

In addition to the criteria in paragraph 6–8, Soldiers must—

- a. Successfully complete the Army Basic Instructor Course, if assigned as an instructor.
- (1) Be SSG or above; however, exceptions will be considered on a case-by-case basis to secure the best-qualified instructors available.
 - (2) Have a physical profile of 211321 or better.
 - (3) Have Family members who are free from medical limitations or conditions requiring regular, continued treatment of consultation that cannot be treated at a civilian medical center and at the cost offset by TRICARE or TRICARE supplemental insurance.
 - (4) Have a GT score of 100 or higher.
 - (5) Be competitive for promotion to the next higher grade as evidenced by NCOERs.
 - (6) Have had an assignment to a TOE unit within the last 2 years.

(7) Be in possession of, or able to obtain, a civilian driver's license and have no limitations preventing the operation of a military vehicle.

(8) Have completed Professional Military Education (PME) commensurate with their current grade.

b. To the maximum extent possible, to avoid training disruption Soldiers assigned to USACC units will not be reassigned while school is in session and not until after advanced camp (May, August, and December PCSs are optimal).

c. Soldiers should be aware that assignment may be to a location where Government support facilities, such as hospitals, exchanges, and commissaries, may not be available.

Chapter 7

Sergeant Major of the Army, Command Sergeants Major, and Sergeants Major

Section I

Overview

7-1. Scope

This chapter applies to RA and USAR Soldiers in the rank of U.S. Army Senior Enlisted Advisor to the Chairman of the Joint Chiefs of Staff (SEAC), Sergeant Major of the Army (SMA), CSM, and SGM.

7-2. Summary

The Army expects its senior-most NCOs to serve selflessly no matter where assigned and utilized, benefiting from its investment in a career's worth of training and development. The Army will utilize individuals based on an evaluation of their talent (knowledge, skills, and behaviors) by matching them to unit requirements. The management philosophies outlined within this chapter are designed to enhance Army readiness by aligning individual capability with the Army's needs while optimizing human performance and engagement. Eligibility criteria in support of these efforts ensures consideration of highly qualified, broadly skilled, and experienced NCO leaders who have been developed to assume higher levels of responsibility.

7-3. Centralized management

The Vice Chief of Staff of the Army (VCSA) and the SMA have management oversight of all CSM/SGM (including NCOs selected for USASMA training) across the Army.

a. The SMA is the approval authority for all RA slates and has general oversight of all CSM and SGM programs.

b. The CAR, Deputy CAR (DCAR), and the USARC CSM have management oversight for USARC CSM/SGM, and NCOs selected for USASMA training. The USARC CSM is the approval authority for all USAR Slates and general oversight of all CSM and SGM programs.

c. Management authorities are as follows:

(1) All RA USASMA students (effective with the resident course start date to include students attending a non-traditional training course, such as Joint Special Operations Senior Enlisted Academy or non-resident training) 1SG/MSG and SGM are the functional responsibility of the Branch Chief, Sergeants Major Branch (AHRC-TAD-S), Sergeants Major Management Division, HRC.

(2) All RA non-nominative CSMs are the functional responsibility of the Branch Chief, Command Management Branch (AHRC-TAD-C), Sergeants Major Management Division, HRC.

(3) All RA nominative CSM/SGM are the functional responsibility of the Chief, Nominative Sergeants Major Program Office (DACS-SMN), Sergeants Major Management Division, HRC.

(4) All USAR CSM/SGM AGR, TPU (including nominative CSM/SGM), IMA, IRR, and USASMA students are the functional responsibility of the Director, Senior Leader Development Office (SLDO), (DAAR-SL), Office of the Chief, Army Reserve (OCAR).

d. This chapter prescribes policies as follows:

(1) Section I: RA and USAR.

(2) Section II: RA only.

(3) Sections III thru V: RA and USAR (AGR).

(4) Section VI: USAR TPU only.

(5) Section VII: USAR (TPU, IMA, and IRR).

7-4. Lateral appointments (U.S. Army Senior Enlisted Advisor to the Chairman of the Joint Chiefs of Staff, Sergeant Major of the Army, command sergeant major, or sergeant major)

Wearing of CSM rank requires formal appointment following a determination of qualification for such appointment by a HQDA CSM/SGM Evaluation Board, without exception. Soldiers will wear CSM or SGM rank commensurate with the duties to which they are assigned and serving. Soldiers serving in an authorized CSM position will wear the CSM rank, and Soldiers serving in an authorized SGM position will wear SGM rank.

a. Lateral appointments between SEAC, SMA, CSM, and SGM will be announced in the Soldier's AI published by HRC (AHRC-TAD) for RA or OCAR (DAAR-SL) for USAR AGR. However, when AI are not required, the lateral appointment will be announced by memorandum by the same agencies.

b. Effective date of lateral appointment.

(1) Lateral appointment to SEAC. The effective date is the date the Soldier assumes SEAC duties. Rank entry date remains unchanged.

(2) Lateral appointment to SMA. The effective date is the date the Soldier assumes SMA duties. Rank entry date remains unchanged.

(3) Lateral appointment to CSM. The effective date is the date the Soldier assumes CSM duties. Rank entry date remains unchanged.

(4) Lateral appointment to SGM.

(a) All CSMs will be laterally appointed to SGM prior to a reduction in grade when otherwise required.

(b) In all instances, the effective date for lateral appointment to SGM is the day after the Soldier completes (or is removed from) the preceding CSM assignment (typically, the PCORD). The rank entry date remains unchanged.

c. If this is the Soldier's first appointment to CSM, the losing HQ S1 will prepare the DA Form 4873 (Certificate of Appointment to Command Sergeant Major) and present it at an appointment ceremony.

7-5. Appointment of interim command sergeant major

When a command loses an authorized CSM and the position cannot be immediately filled, an interim CSM may be identified. The interim CSM will remain until another CSM is assigned. The interim CSM—

a. Will be a SGM, 1SG, or MSG.

b. Will serve in the current grade held. If not already an SGM, they will not be promoted to SGM against the CSM position.

c. Will remain assigned to their current duty position.

d. Will not be laterally appointed to CSM.

7-6. Frocking of master sergeants to sergeant major

Refer to AR 600-8-19 for policy on frocking of MSG to SGM.

7-7. Personnel suitability screening

Soldiers identified to attend the USASMA, initial appointment to CSM, selection/slating as a brigade-level CSM, nominative/key billet CSM/SGM, or selection as the SMA are all subject to post-board suitability screening as described in AR 600-78.

a. This process includes review of information contained within the restricted section of the Army Military Human Resource Record (AMHRR), substantiated DA IG reports, and reports filed with the U. S. Army Crimes Records Center. Suitability screening focuses on obtaining derogatory information that was not available nor considered by the original board. Derogatory information is considered any credible, unfavorable information that may reflect on a Soldier's character, integrity, trustworthiness, or reliability. The information may disqualify an individual from selection because of the potential adverse impact on the efficiency of the Army.

b. The suitability process will be conducted in two phases. The first phase is the Enlisted Review Board, followed by the second phase, potential referral to the U.S. Army Senior Enlisted Review Board.

(1) Enlisted Review Board.

(a) Conducts a post-board screening process by reviewing substantiated, relevant, and potentially serious in nature derogatory information pertaining to NCOs subject to screening.

(b) The Enlisted Review Board is a recommending body to the DMPM (DAPE-MP), who, on behalf of the DCS, G-1, approves, or disapproves the board's recommendations to either release the NCO without further review or to refer the NCO to the Army Senior Enlisted Review Board.

(c) NCOs subject to further consideration by the Army Senior Enlisted Review Board will be informed by HRC (through the chain of command) and afforded the opportunity to submit matters of mitigation or extenuation for additional consideration.

(2) U.S. Army Senior Enlisted Review Board.

(a) Reviews derogatory information pertaining to individuals who were referred by the Enlisted Re-view Board, along with matters of mitigation or extenuation submitted by the affected NCO.

(b) The Army Senior Enlisted Review Board members will consider if the derogatory information and rebuttal are inconsistent with the maturity, judgment, and strength of character required for their selection.

c. The DCS, G-1, DMPM will conduct suitability screening for all RA (other than nominative CSM/SGM selects) and USAR (AGR & IMA) Soldiers.

d. The CAR will ensure that the suitability screening of USAR (TPU and IRR) Soldiers is completed. The USAR TPU/IRR Enlisted Review Board and Army Senior Enlisted Review Board will follow these process guidelines, whereby the CAR (or Deputy CAR if delegated) is the approval/disapproval authority for the Enlisted Review Board and Army Senior Enlisted Review Board recommendations.

e. No Soldier will be scheduled in ATRRS to attend the USASMA or be assigned/utilized in one of the above positions without having first received written release or approval from the authorized screening agency.

Section II

Sergeant Major of the Army

7-8. Sergeant Major of the Army overview

a. Established in 1966, the SMA is the senior enlisted position of the Army. Appointed by the Chief of Staff of the Army (CSA), the SMA serves at the discretion of the Secretary of the Army. The SMA is the senior enlisted advisor and consultant to the CSA.

b. The SMA provides information on problems and proposed solutions affecting enlisted personnel concerning standards, profession development, growth, and advancement of NCOs, morale, training, pay, promotions, and quality of life for Soldiers and their Family members. The SMA provides the enlisted viewpoint to Members of Congress, DA selection boards, and committees, meets with military and civilian organizations to discuss enlisted affairs, and receives and represents Army enlisted personnel at appropriate ceremonies.

7-9. Sergeant Major of the Army selection

When required, an SMA selection board will be formally announced by the DCS, G-1, via an All-Army Activity message.

a. The board announcement message will contain all established eligibility criteria. Typically, eligibility is limited to Soldiers with CSM experience at the nominative three or four-star GO level.

b. Detailed instructions will be contained in the board announcement message.

7-10. Sergeant Major of the Army responsibilities for senior noncommissioned officer management

The SMA has a direct role in the nominative CSM or SGM process and serves, concurrent with the CSA, as the approval authority for nominative slates. The SMA serves as the lead agent of the CSM or SGM Nominative Program. The SMA serves as the exception authority for requests to serve longer than the prescribed tour lengths for all nominative CSM or SGM.

Section III

Nominative Command Sergeants Major and Nominative Sergeants Major (Regular Army and U.S. Army Reserve (Active Guard Reserve))

7-11. Nominative command sergeants major and nominative sergeants major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) overview

Nominative CSM assignments are those where CSMs work directly for a GO commanding an organization. Additionally, Principal staff SGMs at HQDA are also nominative. Certain other SGM positions may be considered nominative at the direction of the SMA (RA) or the USARC CSM (USAR AGR) where SGM

works directly for a GO or SES equivalent. These positions must be validated on an MTOE or TDA. The Army uses PDPCs to identify Soldiers who have served and those currently serving as nominative SGM.

7–12. Nominative command sergeants major and nominative sergeants major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) management

a. Selection to serve as a nominative CSM/SGM represents a significant investment in the development of our most senior NCOs. The Army expects these NCOs to serve selflessly, no matter where they are assigned.

b. NCOs selected as best-qualified to serve as a nominative CSM/SGM may not decline selection or assignment nor request removal from future consideration. NCOs that submit retirement will be automatically removed from future consideration.

c. Only Soldiers selected for assignment as a nominative CSM/SGM will be reclassified into PMOS “00Z” effective on the date assigned to a valid nominative position, with the former PMOS re-designated as their SMOS. Upon completion of a nominative tour, if not selected for a follow-on position, the Chief, Nominative Sergeants Major Program Office (RA) or Director, OCAR SLDO (USAR (AGR)) will withdraw PMOS “00Z” and reclassify the NCO to their original PMOS.

d. Selection as a result of the vetting process constitutes immediate availability by the selected NCO for worldwide assignment.

e. NCOs selected for assignment as a nominative CSM/SGM retain all PCS entitlements they are otherwise entitled to. Once selected, the Soldier waives consideration of the below ASCOs:

- (1) Consecutive overseas tours/In-Place Consecutive Overseas Tour to slated unit.
- (2) Foreign service tour extension to meet the slated unit's PCORD.
- (3) Curtailment of current assignment to meet the slated unit's PCORD.
- (4) Assignment to dependent-restricted areas.
- (5) Waiver of any Soldier-initiated stabilization (high school senior stabilization, and so forth).
- (6) Although HRC will make every effort, accommodation of the MACP cannot be guaranteed.

f. Nominative tour lengths are determined by the SMA for the RA and the USARC CSM for the USAR (AGR).

(1) Joint position tour lengths will be determined at the time of announcement by the joint agency or command.

(2) Requirements Sourcing Application Module assignments will be based on the Requirements Sourcing Application Module tasking. This will be coordinated prior to assignment. Requirements Sourcing Application Module tasking instructions, to include training requirements, will be coordinated with DCS, G–3/5/7 Individual Assignment tasking section.

g. All nominative CSM/SGM will have a PCORD (AEA Code “4”) established upon change of responsibility to their nominative position. The Chief, Nominative Sergeants Major Program Office (RA) or Director, OCAR SLDO (USAR (AGR)), will award the PCORD within the Human Resources system of record.

h. Once the PCORD is established, tour extensions may be requested due to operational requirements not earlier than 12 and not later than 9 months prior to the established PCORD. Requests must be endorsed by the GO, and for RA must be submitted through the ACOM, ASCC, or DRU CSM, and to the Chief, Nominative Sergeants Major Program Office for decision by the SMA, and for USAR (AGR) through the Director, OCAR SLDO (DAAR–SL) for decision by the USARC CSM.

i. Nominative CSM/SGM may have their Retention Control Point (RCP) date adjusted by the Chief, Nominative Sergeants Major Program Office (RA) or Director, OCAR SLDO (USAR (AGR)) to meet assignment requirements, as needed.

j. Current serving nominative CSM/SGM will retire no later than the first day of the sixth month following PCORD, unless selected for another assignment.

k. Current serving nominative CSM/SGM who are deployed will retire no later than the first day of the seventh month following re-deployment or the first day of the sixth month following PCORD, whichever is later unless selected for another assignment. Extensions are not authorized.

l. Nominative CSM/SGM with more than 29 years active Federal service will submit for retirement in accordance with AR 635–200, no later than nine months from their mandatory retirement date as determined by AR 601–280 unless selected for a subsequent nominative position.

m. All nominative retirement requests must be submitted through the ACOM/ASCC/DRU CSM to the Chief, Nominative Sergeants Major Program Office (RA) or Director, OCAR SLDO (for USAR (AGR)) for initial review prior to submission through the local personnel service center. In accordance with AR 600–

81, retiring Soldiers can begin the Transition Assistance Program as early as 24 months prior to their retirement date but no later than 365 days prior to their transition date.

n. Nominative CSM/SGM with less than 29 years of active Federal service, may be reassigned based on the needs of the Army if not selected for a follow-on nominative assignment.

o. Under special circumstances, an RCP extension beyond the PCORD may be granted by the functional management authority after coordination with the SMA (RA) or USARC CSM (USAR (AGR)) (for example, nominative CSM/SGM assigned on a Requirements Sourcing Application Module tasking).

7–13. Nominative command sergeants major and nominative sergeants major (Regular Army) selection process

Selection to serve as a nominative CSM or SGM is achieved utilizing a 2-phase process.

a. HQDA CSM/SGM Evaluation Board (Phase 1).

(1) A HQDA NCO evaluation board will convene annually to evaluate individual talent (skills, knowledge, and behaviors) for the purpose of creating an order of merit list (OML). This OML will be used to identify best-qualified NCOs for additional consideration (Phase II) to serve as a nominative CSM or SGM at the one or two-star GO level, producing the Annual Nominative Eligibility List. Eligibility criteria will be announced separately. Eligibility criteria will ensure consideration of highly qualified, broadly skilled, and experienced NCOs who have been developed to assume higher levels of responsibility. This effort enhances Army readiness by aligning individual capability with Army needs while optimizing human performance.

(2) NCOs permanently removed from the nominative program are not eligible for Phase II consideration, regardless of their standing on the OML.

(3) An NCO's OML status does not, in, and of itself, constitute, or guarantee selection to a nominative CSM/SGM position. All NCOs identified as fully qualified, subject to established requirements and their individual OML status, will be referred to Phase II for further consideration and, at a later date, may be nominated to a selecting official (GO/SES) to serve as a nominative CSM and or SGM.

(4) Current/former nominative CSM/SGM are not eligible for evaluation by the CSM/SGM Evaluation Board but are otherwise eligible for continued utilization in the Nominative Program.

b. SMA Nominative Panel (Phase 2).

(1) A SMA Nominative Panel will convene, at the discretion of the SMA, to consider Soldiers both selected as best-qualified by the HQDA CSM/SGM Nominative Selection Board and current/former nominative CSM or SGM for individual nomination to a GO for selection to serve against a specific upcoming vacancy.

(2) The SMA Nominative Panel will review and evaluate best-qualified CSM/SGM for potential nomination to a GO based on knowledge, skills, and behaviors of the NCO and the position requirements, forwarding only those NCOs evaluated as best-qualified for the nominative position to the selecting GO for consideration.

(3) It is the responsibility of the individual CSM/SGM to ensure their AMHRR and Enlisted Record Brief are accurate and up to date. The Chief, Nominative Sergeants Major Program Office will compile records for review by the Panel. Other than as provided for in this regulation, documents that are not filed in the AMHRR will not be authorized for consideration by the panel.

(4) A letter of recommendation (LOR) is a required, specific memorandum that covers the nominee's strengths and weaknesses. The LOR will be written and sent by the CSM/SGM's current commander/rater and will adhere to the format provided by the Nominative Sergeants Major Program Office. LORs will not be accepted from the rated CSM/SGM.

(a) All NCOs selected as best-qualified by the CSM/SGM Evaluation Board are required to have an LOR submitted to the Chief, Nominative Sergeants Major Program Office within 30 days of the list release. The Chief, Nominative Sergeants Major Program Office will coordinate directly with the selectee's commander/rater for the letter.

(b) All commanders/raters of newly assigned/first-time nominative CSM/SGM and currently serving one and two-star level GO command level nominative CSM/SGM are required to submit an LOR annually.

(5) Candidates selected by the panel will be approved by the VCSA and staffed to the interviewing GO for interview and selection.

7-14. Nominative command sergeants major and nominative sergeants major (U.S. Army Reserve (Active Guard Reserve)) selection process

a. USAR (AGR) selection to serve as a nominative CSM or SGM is achieved utilizing the USAR CSM policy and management process. The USARC CSM will publish a standard operating procedure to depict the process in its entirety.

b. USAR (AGR) CSM/SGM nominative announcement.

(1) When a nominative position requires the assignment of a USAR (AGR) SGM, the commander over the position will prepare a memorandum announcing the vacancy and forward it through command authority to the Director, OCAR SLDO (DAAR-SL). Vacancy announcements must be released at least six months prior to the incumbent's PCORD. The announcement will include any special qualifications, knowledge, skills, and behaviors the commander may desire in the nominated SGM.

(2) The Director, OCAR SLDO (DAAR-SL) will publish the vacancy announcement in a venue to ensure all eligible USAR (AGR) CSMs and SGMs have the opportunity to request consideration for selection.

(3) It is the responsibility of the individual CSM/SGM to ensure their AMHRR and Enlisted Record Brief are accurate and up to date.

c. USAR (AGR) CSM/SGM nominative selection.

(1) The Director, OCAR SLDO (DAAR-SL) will receive nominative applications and verify qualifications, accuracy, and completion based on the announcement requirements. Refer to the USAR CSM and SGM Management standard operating procedure (SOP) for packet requirements.

(2) The two-star command CSM (for one-star vacancy) or USARC CSM (for two-star vacancy) will convene a nominative panel, at the discretion of the USARC CSM, to consider Soldiers as best-qualified for the individual nomination to a GO or SES equivalent to serve against the announced vacancy.

(3) A GO or SES equivalent at the affected command will review the records recommended by the nominative panel and make the selection.

(4) The Director, OCAR SLDO (DAAR-SL) is informed of the selection and will process the selectee for assignment to the position on the date requested.

7-15. Nominative command sergeant major/sergeant major (Regular Army/U.S. Army Reserve (Active Guard Reserve)) suitability screening

All current nominative SGM and CSM selected to serve as a nominative CSM/SGM are subject to extensive suitability screening as described in AR 600-78. If derogatory information is received that displays character or ethical deficiencies, or unprofessional actions, a CSM/SGM may be removed from the Nominative Program or the eligible pool of candidates. The SMA will review and determine the NCO's status. Should the SMA determine that the NCO's conduct may warrant his or her removal from the eligible list or the Nominative Program, the following will occur:

a. The Chief, Nominative Sergeants Major Program Office (RA) or Director, OCAR SLDO (USAR (AGR)) will email a consideration of removal letter to the CSM/SGM. Individuals must acknowledge receipt of the official notification to the Chief, Nominative Sergeants Major Program Office, or Director, OCAR SLDO within 48 hours.

b. Upon receipt of the letter, the individual will be afforded the opportunity to submit any rebuttal documents. The rebuttal must be submitted to the Chief, Nominative Sergeants Major Program Office, or Director, OCAR SLDO within 30 days.

c. The rebuttal will be reviewed and considered by the SMA (RA) or USARC CSM (USAR (AGR)) and the final decision to remove the NCO from future eligibility will be made by the VCSA (RA) or the CAR (USAR (AGR)). Upon final determination by the VCSA/CAR, the individual will be notified of the decision in writing.

d. NCOs under investigation for any reason must immediately notify the Chief, Nominative Sergeants Major Program Office, or Director, OCAR SLDO through their command, ACOM, or ASCC CSM.

Section IV

Command Sergeants Major or Key Billet Sergeants Major Management (Regular Army and U.S. Army Reserve (Active Guard Reserve))

7–16. Command sergeants major/key billet sergeants major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) overview

a. The CSM is the senior NCO in the HQ of units, commands, or organizations at battalion or higher level or TDA units in which a commander had the authority to impose disciplinary action under the UCMJ. A SGM Key Billet is a duty assignment at the SGM rank requiring specific, highly developed skills and experiences that are deemed critical to a unit's mission. Key billet SGMs exercise sound judgment and recommend actions to the commander or key billet officer. They principally manage re-sources and oversee processes that operate in a leadership environment. Enlisted Soldiers under the commander's authority include those authorized by unit TDA, those in TDA or MTOE of subordinate units, and assigned students, trainees, and patients. The CSM is the senior enlisted trainer and spokesperson that enforces established policies and standards for enlisted Soldiers pertaining to performance, care, conduct, appearance, effective personnel utilization and management, and training; and ensures that subordinate NCOs do the same.

b. Requirement of physical readiness. In order to ensure leaders are fully prepared to perform the full range of their responsibilities, all NCOs selected and slated to serve as CSM are required to meet the physical demands and deployment requirements associated with the CSM position in which they serve. Soldiers selected for assignment as a CSM, regardless of age, must have a Cardiovascular Screening Program (CVSP) screening (the medical procedures for the CVSP are prescribed in AR 40–502), meet body composition standards set forth in AR 600–9, and pass all events of the physical fitness test of record, in compliance with any current profile, before assuming assignment to a CSM position. A CVSP clearance granted during the Soldier's last periodic health assessment is sufficient to meet the CVSP requirement.

c. The Army uses PDPCs to identify Soldiers who are or have served as brigade and battalion CSM or Key Billet SGMs.

d. The Army selects and appoints NCOs to serve as a CSM by utilizing the OML generated by an annual CSM/SGM Evaluation Board process as provided for in this regulation and corresponding Memorandum of Instruction, approved by the DCS, G–1, DMPM.

e. In support of the U.S. Army Special Bands and The Judge Advocate General, Soldiers possessing military occupational specialty 42S and 27D will be selected for appointment to specific 42S and 27D CSM positions by means of CSM advisory appointment panels.

f. Tour lengths are set in the board announcement message; however, tour lengths may be adjusted based on unit operational readiness needs. Tour lengths are established by CG, HRC (in accordance with SMA guidance for RA), or the Director, OCAR SLDO (in accordance with USARC CSM guidance) for USAR (AGR). Incumbent CSM designees will move or relinquish their position, at a prescribed time, which is designated as the PCORD. All CSMs will have a PCORD. The PCORD will be the determining factor in designating future CSM requirements. All CSM selectees are expected to serve the full duration of their prescribed tour.

(1) The minimum CSM tour length to receive credit for a CSM tour is generally completion of one-half of the normal tour.

(2) Current serving CSM electing to retire will do so no later than the first day of the fourth month following their current PCORD unless selected for another assignment.

(3) Soldiers who are deployed will retire no later than the first day of the fourth month following re-deployment or first day of the fourth month following PCORD whichever is later, unless selected for another assignment. Extensions are not authorized.

(4) The approval authority for curtailments, extensions, early activation, or deferment to an established CSM tour length for RA are as follows:

(a) Division-level commanders (major general and above), in coordination with the Chief, Command Management Branch, Sergeants Major Management Division, HRC may approve curtailments and extensions of position/key billet tours up to 45 days.

(b) Corps-level commanders (lieutenant general and above), in coordination with the Chief, Command Management Branch, Sergeants Major Management Division, HRC, may approve curtailments and extensions of command/key billet tours up to 60 days.

(c) ACOM/ASCC/DRU commanders, in coordination with the Chief, Command Management Branch, Sergeants Major Management Division, HRC, may approve curtailments and extensions of command/key billet tours of 61 to 90 days and in-theater changes of these positions upon concurrence of ACOM/ASCC/DRU commanders.

(d) The Chief, Command Management Branch, Sergeants Major Management Division, HRC, has the authority to extend or curtail CSM tours up to 90 days in coordination with ACOM, ASCC, DRU, or Joint Activity commanders to maintain unit operational readiness.

(e) The SMA approves curtailments and extensions of CSM/key billet tours of 91 days or more. These requests must be forwarded to the Chief, Command Management Branch, Sergeants Major Management Division, for processing.

(f) CSMs will not be curtailed or extended until coordination action is complete. Once approval has been coordinated through the appropriate agency, the Chief, Command Management Branch, Sergeants Major Management Division, HRC, will notify affected commands that the curtailment or extension action has been approved and adjust the Soldier's report date in the Enlisted Assignment System of Record accordingly.

(5) The approval authority for USAR AGR curtailments, extensions, early activation, or deferment to an established CSM tour length are as follows:

(a) The Director, OCAR SLDO (DAAR–SL), has the authority to extend or curtail CSM tours up to 30 days in coordination with division-level commanders (major general and above) to maintain operational readiness.

(b) The USARC CSM has the authority to approve all requests to extend or curtail CSM/key billet tours of 31 days or more. These requests must be forwarded to the Director, OCAR SLDO (DAAR–SL) for processing.

(c) CSMs will not be curtailed or extended until coordination action is complete. Once approval has been coordinated through the appropriate agency, the Director, SLDO will notify affected commands that the curtailment or extension action has been approved and adjust the Soldier's report date in the HR system of record accordingly.

7–17. Command sergeants major/key billet sergeants major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) evaluation boards

The Army conducts CSM/SGM evaluation boards annually to evaluate individual talent (skills, knowledge, and behaviors), thereby creating an OML based on that evaluation. The OML informs a process used to identify best-qualified NCOs during a slating process to serve as a Group, brigade, or bat-talion CSM or key billet SGM by ensuring individuals are employed within their talent set. Eligibility criteria will be announced separately. Eligibility criteria will ensure consideration of highly qualified, broadly skilled, and experienced NCOs who have been developed to assume higher levels of responsibility. This effort enhances Army readiness by aligning individual capability with Army needs while optimizing human performance. The Army expects these NCOs to serve selflessly no matter where they are assigned, and all NCOs considered by the board will be considered without regard to category or assignment. Subject to the needs of the Army, a slating process will identify NCOs for assignment against CSM/SGM key billet requirements. Slating responsibilities rest with CG, HRC for RA NCOs, and the Director, OCAR SLDO (DAAR–SL) for USAR (AGR) NCOs.

a. The CG, HRC will announce CSM/SGM evaluation boards by MILPER message. Board announcements will include eligibility criteria, along with restrictions, and be published approximately 120 days prior to the board convene date. Once established and announced, eligibility criteria cannot be waived.

b. Identifying projected CSM/SGM key billet position vacancies is a function of the Chief, Command Management Branch, HRC (AHRC–TAD–C) for RA and the Director, OCAR SLDO (DAAR–SL) for USAR (AGR). Projected RA CSM/SGM, key billet position vacancies, will be sent to appropriate commanders of ACOMs, ASCCs, DRUs, and Joint activities for validation. Projected USAR (AGR) CSM position vacancies will be validated by the Director, OCAR SLDO (DAAR–SL). Commanders will review projected unit vacancies and PCORD and identify any additional valid MTOE or TDA special requirements against each position (for example, parachute, language), then concur or non-concur and provide justification for non-concurrences. The Division Chief, Sergeants Major Management Division, HRC (for RA), and the

Director, OCAR SLDO (for AGR), has final approval authority for vacancy determination prior to the initiation of the CSM slating process. Specific CSM structure is outlined in DA Pam 611–21.

7–18. Brigade command sergeants major and key billet Sergeant Major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) Command Assessment Program, Sergeant Major Assessment Program

Selection for Brigade CSM and key billet SGM positions is one of the most important decisions the Army makes. Leaders at this level are critical to the accomplishment of the Army's mission for a variety of reasons: they play a crucial role in the retention of our finest Soldiers and Civilians, ensure the mission success of their units, and comprise the primary source of future Nominative SGMs and strategic leaders. Therefore, the Army must select adaptive and innovative leaders who can both lead the Army enterprise and generate results within Joint and Interagency environments.

a. Selection to fill Brigade CSM and key billet SGM critical assignments occurs in three phases:

(1) HQDA CSM/SGM Evaluation Board determines an input board score and generates an invitation list for the SMAP, which assesses the enlisted population of the CAP. The invitation list is published by the Chief, Command Management Branch, Sergeants Major Management Division, HRC.

(2) The SMAP objectively assesses and identifies candidates who are "Certified" for Brigade CSM and key billet SGM and "Not Yet Certified" for Brigade CSM and key billet SGM positions. The CAP then produces the OML calculation for candidates found "Certified" for Brigade CSM and key billet SGM positions using their HQDA CSM/SGM Evaluation Board job performance score and SMAP scored assessments.

(3) The SMA reviews the OML results, validates the OML, and selects the leaders who have merited Brigade CSM and key billet SGM positions and who will be slated into those positions.

b. The Secretary of the Army, in consultation with the CSA and SMA, through the CG, HRC, convenes SMAP as an additional step to the brigade CSM and key billet SGM selection and slating process. The HRC Assessments Director is the Executive Director for CAP. The purpose of SMAP is to expand the Army's understanding of each leader's talents, assess whether they are certified for Brigade CSM and key billet SGM leadership, and identify potential to lead at more senior levels. The SMAP encompasses cognitive, non-cognitive, psychometric, future potential, strategic potential, physical fitness, written communication, verbal communication, and peer and subordinate assessments, and culminates in the Army Comprehensive Talent Interview (ACTI) with senior Army leaders. The Army uses the SMAP results to inform principal Brigade CSM and key billet SGM selection and removal of candidates from Brigade CSM and key billet SGM consideration.

c. SMAP ACTI panels are composed of members that represent the varied career experience of the Army population and are coordinated through the Colonels Officer Management Office, Sergeant Majors Management Division, and other Army entities as required.

d. SMAP candidates on permanent profile will take the ACFT at SMAP within the limitations of their permanent profile. SMAP candidates on temporary profile will not take the ACFT while at SMAP.

e. SMAP deferments. Candidates invited to attend SMAP must attend unless the candidate submits an opt-out request or requests a deferment. The SMA is the approval authority for SMAP deferments. Candidates who do not have an SMA-approved deferment prior to the end of SMAP and are unable to attend SMAP will be removed from Brigade CSM and key billet SGM consideration without prejudice and may compete the following year if eligible.

(1) If the SMA approves a SMAP deferment and the candidate was determined "Certified" for Brigade CSM and key billet SGM during their most recent previous SMAP attendance, their SMAP eligibility standing will remain unchanged relative to peers, and they will be eligible to assume a Brigade CSM and key billet SGM position if selected.

(2) If the SMA approves a SMAP deferment but the candidate was either determined "Not Yet Certified" for Brigade CSM and key billet SGM during their most recent previous SMAP attendance or has never attended SMAP, their SMAP eligibility standing will remain unchanged relative to peers, and they must attend the following year's SMAP and be found "Certified" before assuming a Brigade CSM and key billet SGM position.

(3) Candidates may request a deferment from participating in SMAP for the following reasons: On maternity convalescent leave, pregnant (unless medically cleared to participate), hospitalized, in directed health-related isolation or quarantine, on emergency leave, operational necessity, or other extenuating circumstances.

f. If a candidate is found “Not Yet Certified” for Brigade CSM and key billet SGM based upon SMAP screening events, they will be notified in-person by a CAP senior leader prior to departure from the SMAP. They will be removed from Brigade CSM and key billet SGM consideration and may re compete the following year if eligible.

g. If there are not enough candidates that are determined “Certified” for Brigade CSM and key billet SGM, currently serving Brigade CSMs and key billet SGMs may be extended in their positions, or vacant positions will be filled from other CMFs.

h. The Executive Director, CAP has the authority to receive and answer inquiries from the chain of command concerning a candidate’s SMAP results. The Executive Director, CAP may not alter SMAP results, to include “Certified/Not Yet Certified” determinations, based on any inquiry. Any disputes to SMAP results must be addressed to the SMA or the VCSA for adjudication.

i. The Chief, Command Management Branch, Sergeants Major Management Division, HRC, will publish annual selection rates, weighting formulas, and other pertinent data to increase transparency, in coordination with slating releases.

j. SMAP process details and changes will be published in annual Army Senior Leader policy documents and MILPER messages, as necessary.

7–19. Command sergeants major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) slating

a. The slating process supports Army requirements by identifying best-qualified NCOs for assignment eligibility based on their knowledge, skills, and behaviors and requirements established for the specific unit. All of this is to be accomplished within the framework of supporting the personal and professional growth and development of senior NCO leaders.

b. The SMA is the final approval authority for RA slates, the USARC CSM is the final approval authority for USAR slates, and the CG, USASOC is the approval authority for ARSOF slates.

c. NCOs who are unable to assume the CSM responsibility (without prejudice) or do not complete one-half of a CSM tour because of medical problems involving them or their immediate Family or are physically unqualified, will normally be slated for another position, provided the medical problem is eliminated within the same fiscal year for which the Soldier was slated. The same is true for NCOs who have already assumed a CSM position if the medical problem is eliminated within 12 months.

d. Process.

(1) The CG, HRC, formulates a proposed CSM slate for approval for RA, and the Director, OCAR SLDO is responsible for USAR AGR.

(2) For RA only, prior to submitting a slate to the approval authority, all ACOM, ASCC, DRU, and Joint activity commanders will be given adequate time to review and notify the CG, HRC of concurrence or non-concurrence (with detailed justification for non-concurrence to support the exception).

(3) Slates are close hold until they have been officially released to the field.

(4) Following approval of the CSM slate, the CG, HRC will publish slating and notification procedures by MILPER message.

(5) NCOs who have been slated against a CSM position will not be diverted from that position by the ACOM, ASCC, DRU, or Joint Activity commander without coordination and approval of the CG, HRC for RA, or CAR for USAR.

(6) The approved slate (MILPER message) identifies Soldiers against specific units of assignment and, upon release, constitutes official PCS notification.

e. Once slated for assignment to a CSM position, retirement eligible NCOs who decline a CSM assignment are required to “retire in lieu of PCS” as provided for in AR 635–200.

f. Retirement in lieu of assignment.

(1) Retirement packets must be routed through the first GO in the chain of command and received at HRC within 30 days of release of the slate. The effective date of retirement will be in accordance with AR 635–200.

(2) Soldiers who are not retirement eligible will comply with AI or request voluntary separation from the Army under provisions of AR 635–200.

(3) Retirement packets received at HRC outside of the 30-day provision will be submitted and reviewed as an exception to policy only on a case-by-case basis.

g. Generally, withdrawal of an approved retirement or service extension will not be approved for NCOs declining a CSM assignment. For RA, the CG, HRC, is the exception authority for instances of extreme personal hardship or compassionate reasons. The CAR is the exception authority for USAR (AGR).

7–20. Involuntary removal from command sergeants major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) duties

A CSM who is formally relieved of their duties on an NCOER will be immediately reassigned from the CSM position and will permanently lose all future eligibility for CSM appointment.

a. The GCMCA will inform the Chief, Command Management Branch, HRC (AHRC–TAD–C) for RA or the Director, OCAR SLDO (DAAR–SL) for USAR (AGR) immediately of such instances, in writing.

b. Management authority will—

(1) Remove the Soldier from the CSM position, laterally appoint the Soldier to SGM, and reassign the Soldier to a SGM position.

(2) Remove the PCORD.

(3) Withdraw any applicable PDPC codes, as determined by DA Pam 611–21.

(4) Notify the Office of the SMA or USARC CSM as appropriate.

Section V

Sergeants Major Management (Regular Army and U.S. Army Reserve (Active Guard Reserve))

7–21. Sergeants Major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) overview

NCOs in the rank of SGM and MSG who are graduates of, enrolled in, or identified for attendance to the USASMA must be managed efficiently and effectively. Soldiers' pattern of assignments will be in a variety of positions; primarily, they will be within the Soldiers' CMF based on proven performance and professional development. This is designed to utilize the Soldiers within their areas of expertise, which will take advantage of personal interests, aptitude, and experience. Broadening these leaders through assignment experiences outside the tactical and operational realm to prepare them for responsibilities at more senior levels is important. Assignment decisions at this rank should be consistent with the tiered development of PDPCs.

7–22. Sergeants Major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) assignment and utilization

a. SGMs will be assigned to TOE, MTOE, and TDA positions based on unit authorizations.

b. Soldiers must be able to obtain and maintain the minimum-security clearance for the position against which they are assigned and utilized.

c. SGMs may volunteer for foreign service, and SGMs serving OCONUS may volunteer for consecutive OCONUS tours (see AR 614–30).

d. RA SGMs serving in authorized positions will be stabilized in accordance with chapter 3; however, in OCONUS areas, stabilization will not involuntarily exceed normal tour length. Stabilization may be terminated to meet priority requirements or to maintain tour equity.

e. As an exception to AR 635–200, RA, and USAR AGR Soldiers covered by this chapter will be officially notified electronically of PCS by the Chief, SGM Management Branch, HRC (AHRC–TAD–S) for RA Soldiers or the Director, OCAR SLDO (DAAR–SL) for USAR (AGR) Soldiers. If the Soldier elects to retire in lieu of PCS, the provisions of AR 635–200 are applicable.

7–23. Sergeants Major (Regular Army and U.S. Army Reserve (Active Guard Reserve)) special duty assignments

SGM SD assignments are SGM positions (other than nominative SGM) where the SGM serves as principal staff within presidential support activities; Office of Secretary of Defense; Office, Secretary of the Army; Office, Joint Chiefs of Staff; and Army staff SGM positions. The position must be validated on an MTOE or TDA. The CG, HRC (for RA), and the Director, OCAR SLDO (for USAR (AGR)) will identify qualified individuals and provide sufficient nominations to the appropriate agency for consideration.

Section VI

Command Sergeants Major and Nominative Sergeants Major (U.S. Army Reserve (Troop Program Unit))

7-24. Command sergeants major/nominative sergeants major (U.S. Army Reserve (Troop Program Unit)) management

The USARC CSM (DAAR-CSM) has management oversight for the USAR (TPU) CSM program. The Director, OCAR SLDO has functional responsibility. This authority may not be further delegated. Management includes the administrative actions necessary to effect assignment, reassignment, training, reclassification, appointment, reappointment, and removal.

7-25. Command sergeants major/nominative sergeants major (U.S. Army Reserve (Troop Program Unit)) objectives

The USAR TPU CSM Program is designed to improve the effectiveness of Soldiers occupying the most responsible enlisted positions in the USAR. The objective of the program is to appoint the best-qualified Soldiers possessing the highest qualities of leadership, integrity, dedication, and professionalism to fill CSM positions. The objectives of the management program are to—

- a. Ensure the efficient use of CSMs to enhance USAR readiness and mission accomplishment.
- b. Provide USAR commands with CSMs whose experience and training have been expanded by progressive assignments.
- c. Improve the effectiveness of CSMs by providing a diversity of assignments.
- d. Provide CSMs assignments with greater responsibility at progressively higher levels.
- e. Avoid stagnation of CSMs in assignments that will inhibit or preclude the normal career progression of other senior NCOs.

7-26. Command sergeants major/nominative sergeants major (U.S. Army Reserve (Troop Program Unit)) assignment policy

Only the Director, OCAR (DAAR-SL), will issue orders to assign CSM to CSM positions.

a. Command authorities must establish a rotational assignment plan to achieve the above objectives. Command authorities will ensure the professional development plan identifies currently serving CSMs 6 months prior to completing a stabilized or extended assignment or upon reaching maximum years of service or age for—

- (1) Rotational reassignment to a CSM position of equal or higher command level, if possible.
- (2) Extension of assignment.
- (3) Voluntary reassignment to the Retired Reserve or IRR.
- (4) Immediate reassignment to a SGM position. This includes involuntary reassignment to the IRR if there is no SGM position available.

b. A CSM will be reassigned—

- (1) To selected reserve positions, as available, consistent with membership status (TPU to TPU).
 - (2) To the IRR (USAR control group reinforcement) as an SGM.
 - (3) As a CSM to the Retired Reserve, if eligible, and the CSM's application has been approved.
- c. The three levels of CSM position assignments are battalion, brigade, and nominative.

(1) Battalion level positions are those in which the CSM serves in a unit generally commanded by an LTC.

(2) Brigade-level positions are those in which the CSM serves in a unit generally commanded by a COL with at least one subordinate unit authorized a CSM. The NCO Academy CSM positions are considered brigade-level positions.

(3) Nominative positions are as follows:

- (a) RDs, MSCs, and DRUs with a GO commander.
- (b) The USARC CSM.

(4) The initial assignment (appointment) of a CSM must be at battalion level. Based on performance, the CSM should be considered for progression to a brigade-level position. After successful performance at brigade-level, a CSM will be eligible to be considered for nominative positions.

(5) The CSM may only be assigned to CSM positions. They may not be carried over-strength or assigned to a special category code. Any assignment or status disqualifying the Soldier for CSM appointment requires reappointment to SGM.

d. All vacancies that cannot be filled through the command's rotational assignment plan must be identified to the Director, OCAR SLDO (DAAR–SL).

e. The Director, OCAR SLDO will establish the process for routine assignment policy with the USARC CSM through a published SOP.

7–27. Command sergeants major/nominative sergeants major (U.S. Army Reserve (troop program unit)) selection and assignment procedures

a. USAR TPU CSM/SGM nominative announcement.

(1) When a nominative position requires a TPU CSM or SGM, the commander to which the position resides will prepare a memorandum announcing the vacancy and forward it through command authority to the Director, OCAR SLDO (DAAR–SL). Vacancy announcements must be published at least six months prior to the incumbent's PCORD. The announcement will include any special qualifications, knowledge, skills, and behaviors the commander may desire in the nominated SGM.

(2) The Director, OCAR SLDO (DAAR–SL), will publish the vacancy announcement in a venue to ensure all USAR TPU, IMA, and IRR CSMs and SGMs have the opportunity to request consideration for selection.

(3) It is the responsibility of the individual CSM/SGM to ensure their AMHRR and Enlisted Record Brief is accurate and up to date.

b. USAR TPU CSM/SGM nominative selection.

(1) The Director, OCAR SLDO (DAAR–SL) will receive nominative applications and verify qualifications, accuracy, and completion based on the announcement requirements. Refer to the USAR CSM and SGM Management SOP for packet requirements.

(2) The two-star command CSM (for one-star vacancy) or USARC CSM (for two-star vacancy) will convene a nominative panel, at the discretion of the USARC CSM, to consider Soldiers as best-qualified for the individual nomination to a GO or SES equivalent to serve against the announced vacancy. An LOR is required covering each nominee's strengths and weaknesses.

(3) A GO or SES equivalent at the affected command will review the records recommended by the nominative panel and make the selection.

(4) The Director, OCAR SLDO (DAAR–SL), is informed of the selection and will process the selectee for assignment to the position on the date requested.

7–28. Stabilization upon assignment to a command sergeant major (U.S. Army Reserve (Troop Program Unit)) position

a. Upon assignment to a CSM position, a CSM will be stabilized in that position for 36 months. The stabilized period of assignment starts on the date of assignment to a CSM position while in the grade of CSM. Exceptions to this policy will be considered only in unique circumstances. Exceptions must be fully justified, endorsed by the chain of command, sent through the Director, OCAR SLDO (DAAR–SL), approved by the USARC CSM. Time served as an interim CSM prior to appointment to CSM will not be computed as part of the period of stabilization. CSMs on their initial stabilization tour (after appointment) who voluntarily withdraw or are involuntary relieved from the program without completing the prescribed tour lose eligibility for reappointment rights.

b. During stabilization, the removal or reassignment of a CSM will be voluntary unless—

(1) Removed for cause.

(2) The CSM position has been terminated.

(3) Removal is based on maximum age or years of service (see AR 140–10).

c. On completion of a stabilized period of assignment, a CSM may be—

(1) Retained in the position when authorized.

(2) Reassigned to another CSM position, if available. The reassignment must be voluntary.

(3) Voluntarily withdrawn from the CSM Program and laterally appointed to SGM for assignment to a SGM position, if available.

(4) Voluntarily reassigned to the Retired Reserve.

(5) Involuntarily withdrawn from the CSM Program, laterally appointed to SGM, and assigned to either a SGM position or the control group (reinforcement) if the CSM is not retained or reassigned according to paragraphs 7–28c(1) through 7–28c(4).

d. On completion of a stabilized period of assignment, the management authority may extend a CSM in his or her current CSM assignment for efficient personnel management. When so determined and fully justified, the management authority will approve retention of an incumbent CSM for the number of months required, but not to exceed 12 months. The extension of assignment may not exceed the CSM's maximum years of service date unless an exception to remain in an active status has been granted by the CAR (see AR 140–10).

e. A CSM will not be extended for the sole purpose of departing concurrently with the commander.

7–29. Involuntary removal from command sergeants major (U.S. Army Reserve (Troop Program Unit) Program (for cause))

a. A CSM who fails to be effective or maintain the expected high standards of a CSM is subject to removal from the CSM Program. The immediate commander will prepare an appropriate recommendation for removal from the CSM Program.

(1) When a commander determines a CSM is ineffective, appropriate counseling will be provided to the CSM in accordance with AR 600–20.

(2) If the recommendation for removal is based on a single incident or act of misconduct, counseling is not required if the commander determines it is not appropriate under the circumstances.

b. The recommendation, with supporting documentation, will be in memorandum format and will be sent by certified, restricted delivery mail or presented in person to the CSM. The CSM will be given 30 days from the receipt of the recommendation to submit a written rebuttal. If the CSM elects not to submit a rebuttal, he or she will so indicate by written endorsement. Failure of the CSM to respond constitutes a waiver of that right.

c. If, after a review of any rebuttal submitted by the CSM, the immediate commander determines the Soldier should still be removed from the CSM Program, the entire file will be forwarded through command channels to the authority cited in paragraph 7–29e.

d. Each commander in the chain of command will review the case and make recommendations by endorsement.

e. Upon coordination with the USARC CSM and the Director, OCAR SLDO, the DCAR will take final action on the recommendation. This authority will not be further delegated.

f. The CSM will be informed, in writing, of the final determination through command channels. A copy of the final decision will also be provided to the Director, OCAR SLDO.

g. A copy of all approved removals will be sent to the management authority for action to reassign a CSM to another TPU that has a vacant SGM position with suitable MOS to control group (reinforcement) or transfer to the Retired Reserve if requested.

h. A CSM who is formally relieved of his or her duties on an NCOER will be immediately reassigned from the CSM position.

(1) The GCMCA will inform the management authority immediately of such instances, in writing.

(2) The management authority will—

(a) Remove the Soldier from the CSM position, laterally appoint the Soldier to SGM, and reassign the Soldier to a special category code in USAR personnel systems or a SGM position, if available.

(b) Remove the PCORD and withdraw any applicable PDPC codes, as determined by DA Pam 611–21. Any recommendation for the removal of a CSM made for cause must be accompanied with a “Relief-for-Cause” evaluation report (report code 5) or a General Officer Memorandum of Reprimand.

(c) Removal from the CSM program does not take the place of any separation action covered in AR 135–178.

7–30. Reappointment to sergeant major (U.S. Army Reserve (Troop Program Unit)) to perform tours of duty or undergoing medical evaluation boards

a. If a tour of duty is available, a CSM may request a tour of ADT, Active Duty for Operational Support (ADOS), or ADOS-Reserve Component (ADOS-RC). The USARC CSM is the approval authority for such requests. These tours are described in AR 135–200 and AR 135–210. However, if the tour does not specifically require the services of a CSM, or if the duty or training purpose of the tour is not related to the function of a CSM, then a CSM must be reclassified and laterally re-appointed to SGM before entry on

the tour of duty. In these cases, the CSM position will be announced for fill and will not be held for the CSM that is vacating the position for a tour of duty. Reappointment rights will not apply to those who are serving under their initial stabilized tour and volunteer for a tour as a SGM prior to the completion of a minimum of three years.

b. When a TPU CSM is undergoing medical evaluation processing (MOS Administrative Retention Review, Medical Evaluation Board, or Physical Evaluation Board) and the processing time exceeds 120 days, the CSM will be laterally appointed to SGM and assigned to a special category code in USAR personnel systems for management. When determination has been made that the SGM is fit and is re-turned to duty, the SGM may be reappointed as a CSM provided a CSM position is available for assignment.

c. Appointments and reappointments between SGM and CSM under this paragraph will be announced by memorandum. Reclassification will be published in orders per AR 600–8–105.

7–31. Terminated, redesignated, or reorganized command sergeant major (U.S. Army Reserve (Troop Program Unit)) positions

If a CSM position is terminated or redesignated to SGM, the incumbent will be laterally appointed to SGM if not reassigned to another authorized CSM position.

a. The affected NCO will be reported to the management authority. The CSM will be given credit for having completed a stabilized period of assignment. Removing a CSM because the position was terminated is considered involuntary.

b. In the event of a TPU reorganization, the CSM will be retained in the reorganized CSM position if a CSM position is authorized by the TOE or TDA. The CSM's stabilized assignment will continue in effect and is based on assignment to the previous CSM position. If a CSM position is not authorized or available in the reorganization, the CSM will be processed as having completed a stabilized period of assignment.

c. If a TPU relocates within reasonable commuting distance from the CSM's home, the incumbent retains the position. If the unit relocates outside reasonable commuting distance (see AR 140–10), the CSM has the option to—

- (1) Retain the position.
- (2) Withdraw and be considered to have completed a stabilized period of assignment.

7–32. Termination of command sergeant major (U.S. Army Reserve (Troop Program Unit)) appointment

a. A CSM must be laterally appointed to SGM when voluntarily or involuntarily removed from a CSM position.

b. The management authority will immediately reassign the CSM as a SGM when a CSM—

- (1) Voluntarily withdraws from the CSM Program.
- (2) Is reassigned to another position that is not a CSM position.
- (3) Is removed for cause.
- (4) Fails to complete or make satisfactory progress in the USASMA.

7–33. Command sergeants major/nominative sergeants major (U.S. Army Reserve (Troop Program Unit)) reappointment policy

a. The authority to reappoint a CSM rests with the Director, OCAR SLDO.

b. A SGM will be reappointed to CSM if they—

(1) Were laterally appointed to SGM with reappointment eligibility and have been reassigned to a CSM position.

(2) Were laterally appointed to SGM with reappointment eligibility and are transferred to the Retired Reserve (see AR 635–200).

(3) Could not complete 3 years of stabilization as a result of operational requirements (involuntary).

c. The following Soldiers are not authorized CSM reappointment if they—

(1) Voluntarily withdrew from the CSM Program without successful completion of at least three years of initial tour. Exceptions in cases involving cogent personal reasons (examples of cogent personal reasons include, but are not limited to, hardship, and employment conflict) will be considered by the USARC CSM.

(2) Were removed for cause.

Section VII

The U.S. Army Reserve (Troop Program Unit, Individual Mobilization Augmentee, and Individual Ready Reserve) Sergeants Major Program

7–34. U.S. Army Reserve (Troop Program Unit, Individual Mobilization Augmentee, and Individual Ready Reserve) sergeants major overview

USAR (TPU, IMA, and IRR) Soldiers who are selected for attendance to the USASMA for the purpose of potential promotion must be managed efficiently and effectively. Individuals should rotate between operational and institutional assignments based on the availability of positions for which SGMs qualify. Doing so will produce capable, well-rounded leaders that are able to leverage their knowledge, skills, and abilities to accomplish assigned missions and better the USAR.

7–35. U.S. Army Reserve (Troop Program Unit, Individual Mobilization Augmentee, and Individual Ready Reserve) sergeants major assignment and utilization

a. USAR (TPU) SGMs.

- (1) SGMs will be assigned to TOE, MTOE, or TDA positions based on unit authorizations.
- (2) Soldiers must be able to obtain and maintain the minimum-security clearance for the position against which they are assigned and utilized.
- (3) SGMs will only be assigned to SGM positions. They may not be carried over-strength or assigned to a special category code in the HR system of record (except when otherwise specified in the regulation). Any such assignment may result in involuntary reassignment to another SGM position with-in commuting distance or the IRR.
- (4) SGMs who fail to elect voluntary assignment upon completion of tenure or approved extension are subject to involuntary reassignment to another SGM position within commuting distance or the IRR. They may also elect to transfer to the Retired Reserve. Transfer to another SGM position in the same parent UIC in which the SGM just completed tenure is not allowed.
- (5) SGMs will serve no more than 3 years in an authorized SGM position from the date of assignment to position. Exceptions to policy for tenure may be submitted through the Director, OCAR SLDO to USARC CSM no earlier than 1 year, but no later than 6 months before end of tenure.
- (6) SGMs who lose their position due to unit inactivation, reorganization, or relocation may be reassigned over-strength for no more than 1 year from the date of the unit inactivation, reorganization, or relocation. Thereafter, they will be reassigned (involuntarily or voluntarily) to either a valid SGM position for which they qualify or the IRR unless they voluntarily elect assignment to the Retired Reserve (if eligible).
- (7) If a tour of duty is available, a CSM may request a tour of ADT, ADOS, or ADOS–RC. The USARC CSM is the approval authority for such requests. These tours are described in AR 135–200 and AR 135–210.

b. USAR (IMA) SGMs.

- (1) SGMs will be assigned to a Mobilization TDA position based on unit authorizations.
- (2) Soldiers must be able to obtain and maintain the minimum-security clearance for the position against which they are assigned and utilized.
- (3) SGMs who fail to elect voluntary assignment upon completion of tenure or approved extension are subject to involuntary reassignment to the IRR. They may also elect transfer to a USAR (TPU) position or to the Retired Reserve. Transfer to another SGM position in the same UIC in which the SGM just completed tenure is not allowed.
- (4) SGMs will serve no more than 4 years in an authorized SGM position from the date of assignment to position as prescribed in AR 140–145. Exceptions to policy for tenure may be submitted through the Director, OCAR SLDO (DAAR–SL) no earlier than 1 year but no later than 6 months before end of tenure.
- (5) SGMs who lose their position due to unit inactivation, reorganization, or relocation may be reassigned over-strength for no more than 1 year from the unit inactivation, reorganization, or relocation date. Thereafter, they will be reassigned (involuntarily or voluntarily) to either a valid SGM position for which they qualify or the IRR unless they voluntarily elect assignment to the Retired Reserve (if eligible).

c. USAR (IRR) SGMs.

- (1) SGMs assigned to the IRR may take part in Inactive Duty Training in a non-pay training status (for retirements point credit only) per AR 140–185 when authorized by HRC upon receipt of an attachment order to a military unit.

(2) Soldiers who have accrued 20 years of qualifying service for retired pay are required to attain 50 points annually to be retained in an active status in IRR as prescribed in AR 140–10.

(3) Soldiers who fail to attain 50 points by the anniversary of their retirement year ending date will be removed from active status per AR 140–10.

(4) Soldiers who have not reached an age of entitlement for retired pay but have received a notice of eligibility yet fail to attain the requisite 50 retirement points during their anniversary year may apply for a one-time waiver to remain in the IRR. If no waiver request is received, the Soldier will be transferred to the Retired Reserve.

7–36. U.S. Army Reserve (individual mobilization augmentee) special duty assignments

SGM SD assignments are SGM positions (other than nominative SGM) where the SGM serves as principal staff within the Office of Secretary of Defense; Office, Secretary of the Army; Office, Joint Chiefs of Staff; and Army staff SGM positions. OCAR SLDO (DAAR–SL) will identify qualified individuals and provide sufficient nominations to the appropriate agency for consideration. The position must be validated on a mobilization TDA.

Chapter 8

Assignment to Specific Type Organizations or Activities or Duty Positions

Section I

Presidential Support Activities

8–1. Presidential support activities scope

a. This paragraph applies to all DA organizations that assign RA enlisted Soldiers to duties involving regular or frequent contact with or access to the President or presidential facilities, communications activities, or modes of transportation. These assignments are divided into two categories—

(1) Category 1 includes Soldiers assigned—

(a) On a permanent or full-time basis to duties in direct support of the President, including the office staff of the Director, White House Military Office, and all individuals under their control. This includes Soldiers assigned to presidential air crew, associated maintenance, and security; White House Communication Agency; presidential retreat; White House Transportation Agency; presidential mess and medical facilities; and other administrative positions at the White House.

(b) On a temporary or part-time basis to duties supporting the President such as selected security, transportation, flight-line safety and baggage personnel, and others with similar duties.

(c) To the Office of the Military Aide to the Vice President.

(2) Category 2 includes Soldiers assigned to honor guards, ceremonial units, military bands that perform at presidential functions and facilities, and designated units requiring a lesser degree of access to the President or presidential support activities.

b. Certain designated positions within Category 1 that are the most sensitive presidential support activities are also identified as Category A billets.

c. Only the best-qualified Soldiers will be considered for nomination and assignment to presidential support duties. Consideration will be based on a determination that their assignment is clearly consistent with optimum presidential security.

d. Refer to AR 600–78 for suitability screening requirements for White House positions.

e. A nominee will not be selected if serious derogatory information is revealed during their suitability screening. Denial or revocation of a security clearance for access to classified information will automatically disqualify a Soldier for nomination and assignment to presidential support duties.

8–2. Qualification criteria

Initial selection criteria for presidential support duties are as follows:

a. Must be a U.S. citizen (by birth or naturalization).

b. Must have a record of excellent credit and conduct, and outstanding job performance, past and present.

c. Must be exceptionally well qualified in applicable MOS.

d. Must exhibit a high degree of maturity, discretion, and trustworthiness beyond reproach.

- e. Must be diplomatic and courteous in deportment.
- f. Must exhibit superior military bearing, neatness, and manner.
- g. Must meet body composition requirements prescribed in AR 600–9.
- h. Must have no record of arrests by civil or military authorities or frequent involvement with law enforcement agencies that clearly indicates irresponsibility or disrespect for the law (including traffic violations).
- i. Must have no record of civil conviction, except for minor offenses that do not disqualify for top secret security clearance under AR 380–67.
- j. Must have no record of conviction by court-martial or time lost to be made good under 10 USC 972 during current enlistment.
- k. Must have no personal habit or traits of character that are questionable from a security standpoint, such as financial irresponsibility, foreign holdings or interest, alcohol, drug misuse (does not include Soldiers who are declared rehabilitation successes under the ASAP), gambling, or emotional dysregulation.
- l. Have no diagnosed mental or psychiatric disorders which, in the opinion of competent medical authority, may cause a defect in judgment or reliability with due regard to the transient or continuing effect of the illness and the medical findings in such case.
- m. Must be a high school graduate or GED equivalent.
- n. Must have a minimum GT score of 110 (can be waived to 100).
- o. Must possess a “1” under “S” of physical profile.
- p. Immediate Family members must be U.S. citizens who are not subject to physical, mental, or other forms of duress by a foreign power and who do not advocate, or practice acts of force or violence to prevent others from exercising their rights under the Constitution or laws of the U.S., any State, or sub-division thereof. Immediate Family includes spouse, offspring, living parents, siblings, or other relatives or persons to whom the Soldier is closely linked by affection or obligation.

8–3. Investigative requirements

- a. Soldiers must have a single scope background investigation (SSBI) completed within 12 months before selection to presidential support activities.
- b. Soldiers selected for initial assignment to a Category A billet must also complete (within 3 days of selection) a Tax Information Disclosure (Tax Check Waiver) and a Financial Disclosure Report. Soldiers already cleared for presidential support duties in category 1 positions, who are nominated for Category A billets from within a support unit will complete a Tax Check Waiver and Financial Disclosure Report as well as the expanded scope investigation check (White House Special Background Investigation) to at least the completion date of their previous SSBI.
- c. The SSBI will be updated at 5-year intervals for Soldiers who have been assigned continuously to presidential support duties.

8–4. Assignment termination

- a. Soldiers may apply for reassignment from presidential support duties.
- b. Soldiers may be temporarily suspended or permanently removed when they are, or appear to be, unsuitable for the required duties. Permanent removal for cause will be based on information that is valid grounds for administrative, disciplinary, or other adverse action. Unfavorable information under the purview of AR 600–37 must be resolved before permanent removal.
- c. Assignment to presidential support activities is automatically terminated when Soldiers are—
 - (1) Reassigned on completion of normal tour of duty.
 - (2) No longer qualified to perform duties for medical reasons, lack of proficiency, or for cause.
- d. Disqualification of Soldiers for nomination or assignment to presidential support duties is not grounds for any further action (administrative, personnel, disciplinary, or security-related). Disqualification may not necessarily be an adverse reflection on the ability or character of Soldiers to perform other and nonpresidential support duties.
- e. Soldiers terminated for reasons other than cause may be re-nominated for presidential support duties.

8–5. White House Communications Agency

- a. Soldiers assigned to the White House Communications Agency provide secure and unsecured telecommunications for the President at all times in any worldwide locale. The White House Communications

Agency also provides telecommunications support for the Vice President, the U.S. Secret Service, the White House Staff, and other officials as designated.

b. These assignments entail OJT and continuing education on some of the most advanced telecommunications or electronics equipment in existence, extensive travel throughout the world, stabilized tours for up to 6 years in the Washington, DC area, and, in some positions, shift work.

c. In addition to the qualifications in paragraphs 8–2 and 8–3, Soldiers must—

- (1) Have 2 years' TIS and at least 48 months' time remaining in service.
- (2) Possess a physical profile of 111121 or better.

d. Soldiers may volunteer or be nominated for assignments.

8–6. White House Transportation Agency

a. Soldiers assigned to the WHTA provide transportation and transportation support to the President and presidential staff.

b. In addition to the qualifications in paragraphs 8–2 and 8–3, to be assigned to the WHTA, Soldiers—

- (1) Must have 48 months SRR.
- (2) Have less than 17 years TIS upon reporting to the Agency (waivable).
- (3) Possess a physical profile of 111121 or better.
- (4) Be SSG or above (waivable).

c. Master driver (88M only) must have 8 years of experience as a motor transport operator (in addition to para 8–6b).

d. The Director, WHTA, is the approval authority for waiver requests to the above waivable criterion.

e. Soldiers may volunteer or be nominated for assignments to the WHTA. Once assigned, Soldiers will be stabilized for a period not to exceed 48 months TOS.

8–7. Third U.S. Infantry Regiment (The Old Guard) and attached units' assignments

a. Duties in these assignments include the security of the Nation's capital and the Army's official ceremonial units that conduct—

- (1) Military funerals at Arlington National Cemetery and National Capital Region.
- (2) Parades in the Military District of Washington (MDW).
- (3) Special military pageants and shows.
- (4) Wreath placement at the Tomb of the Unknown Soldier, the John F. Kennedy grave site, and other locations as directed by MDW.

(5) Arrival and departure ceremonies at the White House and the Pentagon hosted by the President, Vice President, Secretary of State, Secretary of Defense, or the CSA.

b. In addition to qualifications in paragraphs 8–2 and 8–3, Soldiers must—

(1) Volunteer or be nominated by a career manager and not be in receipt of AI. The Regimental Commander or a designated representative will approve assignments to the Regiment.

(2) Have a physical profile of 111121 or better.

(3) Be able to perform ceremonial functions without glasses or with contact lenses.

(4) Be within the following ranges to meet height requirements or have an approved waiver:

(a) Males. Minimum height of 5'10".

(b) Females. Minimum height of 5'8".

(5) Not have any tattoos or brands on the head, face, neck, hands, or wrist visible in Army Service Uniform/Army Green Service Uniform (ASU/AGSU) or have an approved waiver.

(6) Must have 24 months SRR upon arrival at assignment.

Section II

Specific Type Duty Positions

8–8. Specific type duty positions

a. This section covers criteria and assignment procedures for the following:

- (1) Observer, coach, trainer (OCT) at combat training centers (CTCs) and First Army.
- (2) U.S. Military Entrance Processing Command assignments.
- (3) Motor Transport Operator (88M) at U.S. Army Field Band.
- (4) Enlisted Aides on the Personal Staff of GOs.

- (5) IG positions.
- (6) Master resilience trainers (MRTs).
- (7) SRU cadre assignments.
- (8) SARC and SHARP VA.
- b. See AR 195–3 for information regarding training and assignment for duty in the U.S. Army Criminal Investigation Division Program.
- c. See AR 11–6 for information on the Army Foreign Language Program.
- d. Refer to AR 611–60 for information regarding training, screening criteria, and assignment for duty in the Defense Attaché Service, and to AR 600–78 for suitability screening requirements for Attaché positions.
- e. See AR 600–20 for information regarding selection and assignment for equal opportunity duty and SHARP duty and AR 600–78 for suitability screening requirements for equal opportunity and SHARP professional positions.
- f. See AR 601–1 for information regarding selection and assignment to USAREC for recruiting duty and to AR 600–78 for suitability screening requirements, appointing authorities, removal authorities, approval authorities, and appeals authorities for all recruiting cadre positions.

8–9. Observer, coach, trainer at combat training centers and First Army

a. Only the most highly qualified Soldiers are selected to serve as OCTs at the following CTC locations or as an OCT with First Army:

- (1) National Training Center Operations Group, Fort Irwin, CA.
- (2) Joint Readiness Training Center, Fort Polk, LA.
- (3) Joint Multinational Readiness Center, Hohenfels, Germany.
- (4) Mission Command Training Program, Fort Leavenworth, KS.
- (5) First U.S. Army Training Support Brigades.
- b. To serve as an OCT at a CTC or with First Army, Soldiers must—
 - (1) Be SSG or higher.
 - (2) Have at least 24 months of service remaining upon assignment.
 - (3) Have had an assignment to TOE unit within the last 2 years.
 - (4) Have served in principal duties of PMOS within the last 2 years (4 years if completing a tour as a DS or recruiter).
 - (5) Be high school graduates or have a GED equivalent.
 - (6) Be competitive for promotion to the next higher grade as evidenced by evaluation reports.
 - (7) Have a GT score of 110 (may be waived to 100).
 - (8) Meet body composition requirements in AR 600–9.
 - (9) Have no restrictive physical profile (must possess a physical profile of 111121 or better).
 - (10) Have no record of conviction by court-martial or civilian criminal court or time lost under 10 USC 972 during current enlistment or within last 3 years, whichever is longer.
 - (11) Not be flagged under provisions of AR 600–8–2.
 - (12) Have served as a PSG or equivalent in MTOE unit, if SFC. Exceptions will be approved by Chief, Infantry Branch, HRC (AHRC–TAE–IN) on a case-by-case basis for Soldiers without PSG experience.
 - (13) Have served as a 1SG if MSG.
 - (14) Be a graduate of the Battle Staff Course or have equivalent experience for an assignment in the Mission Command Training Program.
 - (15) Complete the Combined Arms Training Activity "certification process" upon arrival at the CTC.
- c. An assignment to national training center requires primarily heavy (mechanized or armor) experience, while Joint Readiness Training Center requires primarily light (MTOE divisions, brigades, regiments, or battalions that are titled "light," "air assault," "airborne," "mountain," or "ranger") experience. However, both locations train and evaluate heavy/light and light/heavy rotations.
- d. Normally, Soldiers are assigned as an OCT for 2 years; however, they may be removed earlier if they fail to meet qualifications in paragraph 8–9b.
- e. For First Army assignments, Soldiers should be aware that assignments may be to a location where Government support facilities, such as hospitals, exchanges, and commissaries may be limited or not available.
- f. Project warriors are Soldiers that will be doctrine writers or platform instructors at designated TRADOC schools for 2 years, after completing a 2-year tour as an OCT at the CTCs, making Project

Warrior a 4-year assignment. Project Warriors infuse the expertise developed as OCTs at the CTCs and TRADOC schools into the rest of the Army.

(1) Project Warriors' primary assignments will be to their branch schools, but exceptions may be made on a case-by-case basis.

(2) In addition to the initial criteria in paragraph 8–9b, Soldiers must—

(a) Have deployed in support of combat operations (preferable, but not a disqualifying factor).

(b) Be SFC through MSG.

(c) Be competitive for promotion, as evidenced by NCOERs.

(3) Enlisted Assignments Branch Force Integrators will coordinate with Branch School proponents for candidate selection and assignments.

(4) The appropriate Branch Chief, HRC, will ensure that Soldiers have "Project Warrior" annotated in the special instruction section of the AI.

8–10. U.S. Military Entrance Processing Command assignments

a. Soldiers must be highly qualified and meet the following criteria:

(1) Be serving in the grade of SGT or higher unless the individual has a critical skill.

(2) Possess good military bearing meet body composition requirements in AR 600–9.

(3) Be a high school graduate or possess a GED equivalent.

(4) Have excellent character and moral background. Refer to AR 600–78 for suitability screening requirements for all military entrance processing station positions.

(5) Have no current record of excessive indebtedness or a history of recurring indebtedness.

(6) Have no record of conviction by court-martial, of time lost during current enlistment, or nonjudicial punishment under UCMJ within the last 3 years.

(7) Have no record of civil conviction other than those that normally are waived to permit the Soldier to enlist or reenlist.

(8) Be financially able to maintain their families in communities where Government support facilities, such as hospitals, exchanges, and commissaries, may not be available.

(9) Be able to read and speak English clearly without speech impediments.

(10) Be in possession of, or able to obtain, a civilian driver's license and have no physical limitations preventing the operation of a military sedan.

(11) Must have enough time remaining in-service to complete the prescribed tour (3 years) or be eligible under AR 601–280 to reenlist or extend.

(12) Possess a favorable NACLC or higher investigation.

b. Soldiers whose personal conduct or performance of duty warrant reassignment prior to completion of a normal tour of duty will be reported for reassignment under DoDM 1145.02.

8–11. Motor Transport Operator (88M) at U.S. Army Field Band

Due to the high public visibility and extensive TDY requirements of this assignment, Soldiers must be highly qualified and meet the following criteria:

a. Possess an excellent driving record and be qualified to drive commercial-style tractor-trailers and buses.

b. Be CPL through MSG.

c. Not have a lifting profile or any lifting restrictions. Must be able to lift large, heavy cases of equipment.

d. Display good military bearing and appearance.

e. Possess or be eligible for Government credit card.

f. Be diplomatic and courteous in deportment. Must be able to answer the public's questions about their vehicles, career, and the Army in general.

g. Be able to travel TDY a minimum of 120 to 150 days a year with no OCONUS travel restrictions.

h. Meet body composition standards in AR 600–9.

8–12. Enlisted aides on the personal staff of general officers

a. Certain GOs are authorized enlisted aides on their staff to perform tasks and details which, if performed by the GOs, would be at the expense of their primary military and official duties and responsibilities. The CSA is entitled to four enlisted aides. Other GOs in Government quarters are entitled to aides based on budget constraints and requirements of each GO position.

b. Enlisted aide duties must relate to the military and official duties of the GO, to include assisting the GO in discharging the DoD representational responsibilities associated with his or her assigned position and, thereby, serve a necessary military purpose. The propriety of duties is determined by the official purpose they serve rather than the nature of the duties. No GO may use an enlisted aide for duties that contribute only to the GO's personal benefit, have no substantive connection with the GO's official duties and responsibilities, or contribute solely to the personal benefit of the individual GO or their family members. In connection with military and official functions and duties, enlisted aides may perform the following (list not all-inclusive, provided only as a guide) tasks and details:

(1) Assist with care, cleanliness, and order of those areas of assigned quarters used for official events, to include common areas that provide access to these spaces (such as stairways and hallways) or areas of the assigned housing that are used by the enlisted aide in support of these events.

(2) Assist with care of GO's military uniforms and civilian attire worn at official events and government-issued equipment of the GO.

(3) Perform as point of contact in the GO's quarters. Receive and maintain records of telephone calls, make appointments, and receive official guests and visitors.

(4) Plan, prepare, arrange, and conduct official social functions and activities, such as receptions, parties, and dinners.

(5) Purchase, prepare, and serve food and beverages in the GO's quarters for a qualifying representational event.

(6) Perform tasks that aid the GO in accomplishing military and official responsibilities, including performing errands for the GO, providing security for the quarters, and providing administrative assistance that have a substantive connection to the GO's official responsibilities or assist with the physical security of the GO's military housing. Errands should not be of a personal nature for the GO or their dependents. Physical security includes but is not limited to securing the GO's military housing, adhering to basic anti-terrorism and force protection measures as the environment dictates, and maintaining situational awareness.

(7) Assist with PCS moves which may include packing/unpacking of official books, military uniforms, and government-issued equipment. Enlisted aides may not pack or unpack a GO's personal items.

(8) Perform general yard maintenance, including lawn care, policing debris, and litter, of areas commonly used for official events unless a lawn care contract exists. If there is an existing lawn care contract, minor general yard maintenance in preparation of qualifying representational events is authorized.

c. Normally, enlisted aides hold PMOS 92G; however, Soldiers with other PMOS may be assigned if requested by the GO.

d. Soldiers may volunteer for the Enlisted Aide Program at any time provided they meet the following prerequisites:

(1) Must meet all minimal qualifications to hold MOS 92G.

(2) Must be in the ranks of SGT to MSG (SGMs are ineligible for Enlisted Aide Program). SPC/CPL will only be considered as an exception to the policy.

(3) Must complete the Enlisted Aide Training Course and Advance Culinary Skills Training Course at Fort Lee, VA, prior to or within 12 months of reporting to the Enlisted Aide duty assignment.

(4) The Z5 ASI will be permanently awarded after completing the Enlisted Aide Training Course, Advance Culinary Skills Training Course, and 24 months of successful service as an Enlisted Aide to a GO. If not met and currently serving as an Enlisted Aide, the Z5 ASI will be temporarily awarded.

(5) Have no information on record that may preclude a favorable SSBI (must receive a favorable SSBI before assignment).

(6) Must be able to obtain and maintain at least a secret security clearance. Clearance will be verified by HRC.

(7) Not listed as a military sex offender (see table 3–3) and have a favorable National Sex Offender Registry check.

(8) Have a thorough suitability screening conducted by HRC. Refer to AR 600–78 for suitability screening requirements for Enlisted Aides. Soldiers with reports of unfavorable information disqualifiers will be excluded from enlisted aide duty.

e. Enlisted aides serving on the GO's staff may be reassigned with the GO provided—

(1) The GO so desires.

(2) The enlisted aide is authorized in the new assignment.

f. Enlisted aides' assignment OCONUS and return to CONUS may be made without regard to OCONUS tour limitations.

g. Soldiers attending the Starkey Institute of Household Management to become certified household managers will incur a 24-month service-remaining obligation upon completion of training. Soldiers holding PMOS 92G will be awarded ASI "Z5." For all other Soldiers, the ASI will be displayed in the duty military occupational specialty.

h. Soldiers may voluntarily withdraw from duty as an enlisted aide at any time. They may also be involuntarily removed and have ASI "Z5" withdrawn.

8–13. Inspector General positions

IG positions will be designated in approved MTOEs and TDAs in coordination with HQDA; specifically, the Chief, Operations and Support Division (SAIG–OP), U.S. Army IG Agency. Authority to establish and designate IG positions in TDAs is delegated to commanders reporting directly to HQDA with The Inspector General (TIG) concurrence. Only units and organizations whose MTOE or TDA reflect IG paragraphs and line numbers with authorized and required positions will have assigned IGs. Soldiers SFC through SGM are nominated, or may volunteer, and must be accepted by TIG for IG duty positions.

a. To qualify, Soldiers must—

(1) Be citizens of the U.S. (by birth or naturalization).

(2) Not be on AI.

(3) Have broad, contemporary Army experience. The best candidates will have served in diverse assignments and are considered experts in how the Army runs. This includes a thorough understanding and practice in Army culture, Army doctrine, and current tactics, techniques, and procedures. They must have impeccable professional and ethical reputations and an Army record reflecting outstanding performance and potential for future promotion and service. They must be excellent communicators. These attributes are essential in order to provide credibility for those Soldiers, Family members, and civilians seeking IG assistance as well as Senior Leaders who rely on IGs for advice and counsel.

(4) Be high school graduates or have GED equivalency.

(5) Possess a GT score of 110 or higher.

(6) The best candidates will also have at least an associate degree and, if an SGM, be a graduate of the USASMA.

(7) Have 36 months service remaining or be eligible to extend or reenlist (see AR 601–280).

(8) Possess mature judgment and initiative.

(9) Display moral attributes and personal traits that demonstrate adherence to Army Values.

(10) Be diplomatic and courteous.

(11) Display good military bearing, appearance, and neatness.

(12) Have demonstrated ability or potential to serve in positions of increasing responsibility.

(13) Have excellent character, good moral background, and emotional stability. Refer to AR 600–78 for suitability screening requirements for IG positions.

(14) Have no record of—

(a) Punishment under UCMJ, Art. 15.

(b) Conviction by court-martial.

(c) GO letters of reprimand filed in the AMHRR.

(d) Time lost during current enlistment.

(e) Derogatory information contained in IG records as screened by the U.S. Army Inspector General Agency (USAIGA).

(15) Have no record of civil conviction, except for minor offenses.

(16) Not be listed as a military sex offender (see table 3–3).

(17) Meet body composition requirements in AR 600–9.

(18) Receive a passing score on the physical fitness test of record within the last 6 months.

(19) Have a profile of 111221 or better.

(20) Serve no consecutive details as an IG. TIG may approve consecutive details as an exception to policy with the specific consent of the NCO concerned.

(21) Possess and maintain a secret-level security clearance.

(22) Remain in a deployable status for all required areas.

b. Soldiers assigned to IG duty positions must first attend the DA IG School conducted by the USAIGA, Fort Belvoir, VA. Upon successful completion of the course, Soldiers will be awarded SQI "B."

c. Detail as an IG is career-enhancing and in accordance with current assignment policies that reflect Army leadership priorities.

(1) IG duty is a unique opportunity for NCOs to gain a broad, Armywide perspective and understanding of the Army not usually available in any other assignment. As a result, selection for IG duty represents an investment in these Soldiers that will continue to benefit the Army long after their IG tour of duty is complete.

(2) IG NCO or Assistant IG is a detail/ Special Duty Assignment for all MOSs (except 18 series MOS) for all Skill Level 4 (SFC) and above. It is important that NCOs are nominated, screened, select-ed, trained, and assigned in accordance with the below:

(a) All Skill Level 4 (SFC) will possess experience as a PSG (or equivalent) prior to selection for an IG NCO or assistant IG assignment.

(b) All Skill Level 5 (MSG) will possess experience as a 1SG (or equivalent) prior to selection for an IG NCO/Assistant IG assignment.

(c) All IG NCO SGMs or assistant IG SGMs will possess experience as a SGM or CSM prior to selection for an IG NCO or assistant IG assignment. This precludes assigning recent USASMA graduates as IG NCO or assistant IGs as their first SGM assignment.

(3) Since IG duty is based on NCOs with contemporary Army experience, IG assignments will normally not exceed a traditional assignment period of 36 months (or a tour elected in accordance with AR 614–30). This time limitation ensures that IG experience does not become dated, keeps NCOs competitive in their MOS, and further benefits the Army by reassigning Soldiers with IG skills to where the Army, most needs them.

(4) Commanders or directing authorities are encouraged to locally nominate NCOs leaving senior NCO positions who meet the attributes in paragraph 8–13a and enjoy the commander's or directing authority's total confidence. Commanders or directing authorities must first gain the concurrence of respective HRC, USARC, or NGB assignment managers before the NCO(s) is nominated by HRC, USARC, or NGB for TIG to either approve or disapprove the NCO(s) to fill the unit's IG position(s).

(5) The Nominative Team Chief, HRC, for RA; Chief, USARC Operations Division, for USARC; or Chief, NGB IG Operations Branch, for NGB; will submit nominations of SFC and above NCOs to fill requisitions for IG assignments to TIG for either approval or disapproval for detail prior to issuing orders or AI. As previously mentioned, commanders, and heads of DA agencies authorized IGs on MTOEs or TDAs may locally nominate SFC and above NCOs assigned within their organizations for detail as an IG, submitting nominations through the Nominative Team Chief, HRC, to TIG for approval or disapproval. The Chief, Health Services Division (AHRC–TAH) will nominate AMEDD NCOs directly to TIG. The nomination will reflect the name of the incumbent to be replaced and the reason. In all cases:

(a) Nominations will be submitted through the Commander, HRC, USARC, or NGB, through the Division Chief, Operations and Support Division, IG, HQDA (SAIG–OP), 1700 Army Pentagon, 5C560, Washington, DC 20310–1700, to TIG.

(b) Nomination packets will include: an up to date Soldier record brief, last ten NCOERs, most recent for-record DA Form 705 (Army Physical Fitness Test Scorecard) (or equivalent based on the Army physical fitness test of record), and, if the NCO exceeds the body fat screening criteria, DA Form 5500 (Body Fat Content Worksheet (Male)) or DA Form 5501 (Body Fat Content Worksheet (Female)).

(c) Multiple nominations for one duty position will not be considered.

(d) The nominating agencies or commands will not assign the nominated NCO to IG positions until TIG approves the nomination and the NCO successfully completes the U.S. Army IG Course.

(e) In accordance with DoDD 5106.04, Army NCOs identified for detail as IGs in Joint commands and DoD agencies will, if requested, be nominated in the same manner but are subject to TIG review and recommendation to joint commanders and DoD agency heads for suitability to serve as an IG.

d. Detail as an IG will be announced as follows:

(1) In CONUS, with the exception of overseas returnees and intra–CONUS reassignees, details will be announced by a command memorandum. Detail of overseas returnees and intra–CONUS reassignees will be announced on orders published in compliance with HRC AI.

(2) Detail of NCOs in areas OCONUS will be announced by a command memorandum published by the HQ of the major overseas command reporting directly to HQDA.

e. Curtailments and reassignments. The following will apply when removing an NCO from IG duty:

(1) Assignment or branch managers. Assignment managers may identify Soldiers to move anytime within the IG tour of duty based on the needs of the Army or Army leadership assignment priorities. In all

instances, NCOs approved by TIG for IG duty will not be reassigned or removed until assignment managers notify TIG via Operations and Support Division (SAIG–OP), USAIGA, and a viable replacement is nominated and approved by TIG.

(2) Commander or directing authority. To protect the integrity of the IG system and ensure proper IG support, commanders, or directing authorities who consider curtailing a Soldier's IG detail must coordinate through respective assignment managers to obtain TIG approval before any reassignment.

(a) TIG will normally approve commander requests for early release based on professional development reasons, including, but not limited to, assignment to branch-qualifying positions or professional development schools.

(b) Under special conditions, TIG may approve the removal or reassignment of an IG without prejudice. The commander or the Soldier will initiate a request for curtailment and removal without prejudice on a PAR or in a memorandum format with a justification and an anticipated release date. The immediate supervisor must endorse curtailment requests, and these requests will be processed through normal personnel channels through the Soldier's assignment manager.

(c) The assignment manager will forward requests to DA IG (SAIG–OP), 1700 Army Pentagon, 5C560, Washington, DC 20301–1700, for TIG approval.

(d) Replacements for all approved curtailments will be processed through normal personnel channels.

(3) TIG may remove any NCO from service as an IG for violations of law or regulation or the professional Army ethic, which represents a combination of the Army Values, the Warrior Ethos, and, for IGs, the IG oath. In all instances, once TIG revokes IG credentials and orders the removal of an NCO from IG duty, commanders, or directing authorities will reassign the Soldier away from the IG office. The Chief, Operations and Support Division, DA IG (SAIG–OP) will notify HRC/USARC/NGB assignment managers of the removal so HRC, USARC, or NGB assignment managers may reassign the Soldier to a non-IG billet.

(4) In the following cases, detail as an IG will be automatically terminated:

(a) On reassignment within a command to non-IG duties. The command terminating the detail must meet the requirements as prescribed above. The command will announce the termination of the detail and announce the new IG by a command memorandum.

(b) Relief-for-cause or relief from AD.

(5) Detail as an IG will remain in effect and does not require relief from one detailed IG position to a new detailed IG position if the NCO is reassigned as an IG within a command having subordinate IG offices. However, the reassignment does not negate TIG's requirement that NCOs serve as an IG no more than three years, with extensions by exception.

f. Normally, NCOs will not serve consecutive or repetitive tours as an IG. Nominations for repetitive or consecutive IG tours must be approved by TIG.

8–14. Master resilience trainers

MRTs plan and provide resilience training to Soldiers, Families, and Army Civilians at the unit and installation level. They are also the organization's point of contact for information regarding resilience training and the Comprehensive Soldier and Family Fitness Program. Commanders will submit requests to stabilize Soldiers who have completed the MRT Course and will serve as a MRT to the Chief, Actions, Policy, and Procedures Branch (AHRC–FSO–A). Stabilizations for the initial assignment as an MRT will be for a period of 24 months from the date the ASI is awarded, utilizing AEA code "G." Those Soldiers deployed or stationed in an area where less than 36 months' TOS is the standard will be stabilized only through the end of their normal tour. For more information refer to AR 350–53. The Director, FSD, is the approval authority for all requests for stabilization and extensions.

8–15. Soldier Recovery unit cadre assignments

a. Soldiers nominated for SRU cadre positions must meet the requirements of AR 40–58.

b. Soldiers nominated for SRU cadre positions are selected primarily from the installation of assignment. SCs are responsible for resourcing and approving personnel to fill component-specific cadre positions. The Director of Strategic Readiness Branch, FSD, HRC (AHRC–FSR–S), in coordination with the CG, MEDCOM will fill any necessary requirements thereafter.

c. On-post reassignments will be coordinated through the appropriate HRC career branch manager to ensure that nominated personnel are not being considered for other assignments. Soldiers on AI will not

be used for SRU cadre unless coordinated and approved by HRC career managers. Other AEA codes should not preclude assignment to a SRU for Soldiers identified for cadre assignments on the installation.

d. Cadre assignment length is 2 years to avoid cadre strain. RA cadre personnel will be stabilized for 24 months upon arrival using AEA Code "W" (Organizational Stabilization). RC orders are for a period not to exceed 730 days and processed in accordance with the Army Mobilization and Deployment Reference. One 12-month extension may be requested for exceptional cadre personnel under extenuating circumstances through the chain of command to MEDCOM DCS, G-3/5/7. MEDCOM DCS, G-3/5/7 will endorse and return requests to the SC for submission to the HRC Director with oversight of military personnel assignments for final approval for RA cadre personnel.

e. Refer to AR 600-78 for suitability screening requirements for SRU cadre.

8-16. Sexual Assault Response Coordinators and sexual harassment/assault response and prevention victim advocate Victim Advocate assignments

a. For CONUS and OCONUS long tour areas, the standard tour length for full-time SARC and SHARP VAs is 24 months in position. For OCONUS dependent-restricted tour areas, the standard tour length is 12 months in position. Periods served as collateral duty do not count toward stabilization in full-time positions.

b. OCONUS selectees whose DEROS does not meet the standard tour length requirement must voluntarily extend their overseas tour in accordance with existing policies and procedures to meet the 24/12-month standard tour length.

c. Extension beyond two years in a SARC or SHARP VA position is dependent upon renewal of credentialing; Soldiers cannot serve in a SARC or SHARP VA position if their credentials are expired, even if renewal is pending.

d. SHARP incentive options for Soldiers serving as full-time SARCs and SHARP VAs with ASI 1H.

(1) Soldiers who are full-time SARCs and SHARP VAs with 1H ASI may request assignment preference following the completion of their tour.

(2) Any Soldier serving as a full-time SARC or SHARP VA in a valid position may request a follow-on assignment to one of three location preferences after successfully completing a full tour. If three locations with a valid Army requirement are not available, the assignment manager will offer the Soldier three supportable locations from which to choose. To be eligible to participate, a Soldier will:

(a) Request assignment preference to three locations with a valid Army requirement for their MOS and grade.

(b) Submit PAR through the first LTC or O5 in the chain of command to their assignment manager at HRC.

(c) Request assignment preference no later than 12 months before the end of the 24-month duty for CONUS tours.

(d) Request assignment preference no later than 12 months before the end of the 24-month duty or the DEROS, whichever occurs first, for OCONUS long tour areas.

(e) Use the existing Home Base and Advance Assignment Program or request assignment preference no later than 9 months before the end of the 12-month duty or DEROS, whichever occurs first, for OCONUS dependent-restricted tour areas.

(3) A full-time SARC or SHARP VA may request stabilization at their current location for 12 months after fully completing a 24-month tour. To be eligible to participate, a Soldier will:

(a) Request stabilization in a valid Army requirement for their MOS and grade at the current location.

(b) Submit PAR through the first LTC or O5 commander in their chain of command to their assignment manager at HRC.

(c) Request post-duty stabilization no later than 12 months before the end of the 24-month duty for CONUS tours. Soldiers may request up to 12 months in the same location (no PCS cost).

(d) Request post-duty stabilization no later than 12 months before the end of the 24-month duty or DEROS, whichever occurs first, for OCONUS long tour areas, or no later than 9 months before the end of the 12-month duty or DEROS, whichever occurs first, for OCONUS dependent-restricted tour areas. The period will not exceed 12-month stabilization in the same location (no PCS cost). If post-duty stabilization exceeds the current DEROS, the Soldier must also submit a request either on a PAR or a memorandum for a voluntary foreign service tour extension.

(4) Although every effort will be made to accommodate requests for assignment preference or stabilization, the requests are not guaranteed and are subject to the Army's needs.

Section III

Drill Sergeant Program

8–17. Drill Sergeant Program scope

- a. DSs are the primary representatives of the Army during the formative weeks of an enlistee's training; therefore, only the most professionally qualified Soldiers will be assigned to DS duty.
- b. Soldiers may volunteer or be involuntarily selected for DS duty. DSs are authorized only for the specific purpose of training—
 - (1) Recretees in reception stations.
 - (2) Soldiers undergoing IET and ROTC Basic Camp.
 - (3) DS candidates at DS Academies.
 - (4) Soldiers undergoing English as a second language training at the Defense Language Institute English Language Center, Lackland AFB, TX, or the Puerto Rico Army National Guard Language Center, Puerto Rico.
 - (5) Soldiers undergoing physical readiness training at authorized fitness training units.
- c. RA and USAR or ARNGUS Soldiers from all career fields will be considered for selection and assignment into the program.
- d. On declaration of general war or full mobilization, provisions of this section remain unchanged.

8–18. Drill sergeant candidate prerequisites

- a. DS candidates are RA, USAR–AGR, USAR TPU members, ARNGUS, or ARNG drilling members, or IRR Soldiers who—
 - (1) Expend Government funds in compliance with RA, USAR–AGR, USAR TPU members, ARNGUS, or ARNG drilling members, and IRR DS Academy or assignment orders.
 - (2) Have reported to DS Academy but were already assigned to the DS Academy installation when selected for the DS Program.
- b. DS candidates must meet the following prerequisites:
 - (1) Be physically fit (maximum profile guide is 211321; however, some conditions may be allowed via waiver); meet body composition requirements in AR 600–9 and be able to pass the physical fitness test of record (no substitution of events) upon arrival at DS Academy.
 - (2) Have no speech impediment.
 - (3) Be a high school graduate or possess the GED equivalent.
 - (4) Display good military bearing.
 - (5) Have demonstrated leadership ability during previous tours of duty and have demonstrated capability to perform in positions of increasing responsibility as senior NCO in the Army, as reflected on the NCOERs.
 - (6) Have had no court-martial or civilian criminal court convictions.
 - (7) Have no record of disciplinary action, to include letters of reprimand, during the last 3 years.
 - (8) RA Soldiers may not have received EB or selective reenlistment bonus for current service obligation if PMOS is not among those authorized for DS positions.
 - (9) Have a minimum GT score of 90. This may be waived from 90 to 85 on a case-by-case basis by the Chief of the Drill Sergeant Team, FSD, HRC.
 - (10) Have qualified with an M16A2 or M–4 carbine rifle within last 6 months.
 - (11) Be SGT (SGT must have a minimum of 1-year time-in-grade and be a graduate of the BLC prior to nomination) through SFC (not applicable to USAR or ARNGUS Soldiers nor to DS Academy 1SG positions). AIT locations must be SSG through SFC.
 - (12) Have a minimum of 4 years total active Federal Service. SGT candidates must also have a minimum of 2 years' service remaining after the completion of DS Academy.
 - (13) Have a commander's evaluation by a LTC or higher. Commanders (LTC or higher) will personally interview the Soldier (this may not be delegated) and ensure that the Soldier meets prerequisites. Commanders will consider the "whole Soldier" when making their recommendation. Input should include, but is not limited to, demonstrated leadership ability and potential; physical fitness; character or integrity; the Soldier's ability to perform in stressful situations; and any incidents of abuse that the chain of command is aware of. All negative evaluations must include a full explanation. Once the commander's evaluation of the nominee is completed, the entire packet with all enclosures will be forwarded through the local

servicing personnel office to the CG, HRC (AHRC–FSR–N), 1600 Spearhead Division Road, Fort Knox, KY 40122–5303 at usarmy.knox.hrc.mbx.epmd-readiness-team@army.mil.

(14) Possess a favorable NACLC or higher investigation.

(15) Not be listed as a military sex offender (see table 3–3) and have a favorable National Sex Offender Registry check.

c. USAR Soldiers may have the following waived:

(1) NCO Education System ALC requirement. (Soldier must be a BLC graduate.)

(2) Have a minimum of 4 years total active Federal Service (USAR Soldiers must have a minimum of 4 years' TIS). SGT candidates must also have a minimum of 1-year time-in-grade and 2 years' service remaining after completing DS duty.

8–19. Qualification criteria

a. Soldiers stationed OCONUS may submit an application no earlier than 14 months and no later than 10 months prior to their DEROS.

(1) A curtailment of OCONUS tour for the sole purpose of entry in the DS Program will not be granted.

(2) Soldiers selected and in receipt of AI for the DS Program will not be extended OCONUS.

b. Soldiers based CONUS must complete at least 16 months at their current installation prior to submitting an application. Soldiers will not PCS until completion of at least 24 months TOS. However, as an exception, Soldiers may submit an application earlier when they are assigned to an installation where DS positions are authorized.

c. Soldiers must successfully complete DS Academy prior to performing DS duties.

(1) Soldiers based CONUS who are located at installations without a DS Academy will attend school in a TDY and return status.

(2) Soldiers located at installations where a DS Academy is located will be attached to the school for training.

(3) Soldiers returning from OCONUS will be assigned to the installation where they will be a DS and will then attend school according to paragraph 8–19c(1) or (2).

d. During the initial orientation at the DS Academy, DS candidates will complete the DA Form 7424 (Sensitive Duty Assignment Eligibility Questionnaire), indicating whether they have been arrested, apprehended, or investigated for any report of unfavorable information within the previous 12 months. Forms will be forwarded to email address: usarmy.knox.hrc.mbx.epmd-ebss@army.mil. If a Soldier indicates possible misconduct that could be a disqualifier from DS duty, the Chief, FSD, HRC will make the final determination and notify the DS Academy if the Soldier will be removed from the school.

e. Soldiers who refuse to complete DA Form 7424 are subject to further suitability screening or removal from the DS Academy. A Soldier's refusal and any adverse information of a nature of that requested in DA Form 7424 discovered during the investigation will be reported to the Chief, Special Actions Branch, HRC (ARHC–FSO–S), USAR, or ARNGUS, as appropriate. The Chief, FSD, HRC will make the final determination and notify the DS Academy if the Soldier will be removed from the DS Academy.

8–20. Drill sergeant tour of duty

a. Upon successful completion of DS Academy, Soldiers will—

(1) Be awarded SQL "X."

(2) Be awarded DS identification badge per AR 600–8–22.

(3) Be eligible for SDAP.

(4) Incur a 24-month obligation for DS duty. The 24-month obligation begins on the actual reporting date to the gaining unit. Soldiers must take appropriate action to meet the length of service requirement prior to attending school (see AR 140–111, AR 601–280, and NGR 600–200).

b. RA DSs will be stabilized for 24 months with an option to extend, on a one-time basis, for an additional 6 to 12 months. The stabilized tour will begin the month the Soldier reports to the DS position (gaining unit) and will terminate 24 months later, on the last day of the month from the actual reporting day. (Example: if the start date is 240113, the term date will be 260131). Normally, the DS tour will not exceed 36 months; however, some conditions may be allowed via waiver. The approval authority for third-year extensions requested prior to completing 18 months will be the first GO in the DSs chain of command. All other requests will be approved by the Chief, Nominative Branch, Readiness Division, HRC (AHRC–FSR–N).

c. RA Soldiers will normally serve only one tour as a DS.

d. Prior DSs who have completed successful tours as DS must serve not less than 36 months in a valid career progression TOE assignment before reentering the DS program.

(1) Former DSs requesting subsequent tours must still be qualified in accordance with paragraphs 8–17 and 8–18.

(2) Prior DSs must complete TRADOC-approved DS refresher training course before being assigned to DS duties.

e. The RA DS of the Year may be assigned to the U.S. Army Drill Sergeant Academy, Fort Jackson, SC.

f. Reassignment after a tour of DS duty outside the Soldier's PMOS or CPMOS is prohibited.

g. RA DSs who are promoted to MSG will continue to serve in authorized DS positions until the last day of the month prior to promotion. When promoted to MSG, RA DS candidates who have already started or graduated from DS Academy (but have not yet begun DS duties) will be withdrawn from the DS Academy and deleted from DS AI.

h. Mental health evaluations will be conducted during wellness week for all mid-tour and third-year DSs.

8–21. Appointment to drill sergeant

The appointing authority for RA DSs during the nominating process is the CG, HRC. The CG, HRC, may delegate appointment authority to the director level, who may further delegate it to no lower than the nominative branch chief. All delegations must be in writing. See AR 600–78 for the appointment authority for currently serving RA DSs.

8–22. Removal from the Drill Sergeant Program

a. The following reasons are grounds for removal of RA Soldiers from the DS Program. Refer to AR 140–10 for policy governing relief from DS duty for USAR Soldiers.

(1) Arriving unqualified to DS Academy—Soldiers that do not meet the course prerequisites, including body composition requirements in AR 600–9.

(2) Failure to pass the physical fitness test of record (see AR 350–1).

(3) Academic failure (DS Academy).

(4) Temporary medical reasons that will prevent the Soldier from completing the course (DS Academy) in the specified time.

(5) Administrative issues, which include emergency leave that would require the removal of a DS candidate from the program, execution of a Declination of Continued Service Statement, separation due to end of term in service, promotion to MSG, or approved reclassification. All other administrative removals must be approved by the Director, FSD, HRC.

(6) Failure to maintain high standards of military appearance, military courtesy, bearing, conduct, or professionalism—including noncompliance with body composition requirements in AR 600–9 and testing positive for drugs.

(7) Infractions of training policies or violations of the UCMJ.

(8) Lack of proper motivation, provided individual counseling has been unsuccessful, including failure to enter or complete DS Academy.

(9) Medical reasons, including pregnancy, when condition prevents the Soldier from performing DS duties.

(10) Hardship or Family problems that prevent the Soldier from performing DS duties.

(11) Soldiers in a DS candidate status, or serving as a DS, may submit applications for attendance to Service schools such as Warrant Officer Candidate School, CA, PSYOPS, and SF assessment and selection, or battle staff upon completion of 18 months of their stabilization period as prescribed in paragraph 8–20a(4). If selected for attendance to these or any other Service school, the Soldier will receive a class date after termination of their DS stabilization period. The approval authority for a waiver of this timeframe is the Director, FSD, HRC.

b. Request for removal for reasons other than suitability screening will be forwarded through current installation command channels to the Chief, Nominative Branch, Readiness Division, HRC (AHRC–FSR–N) and will include recommendation (approval or disapproval) from the first commander in the rank of COL. Requests will include all supporting documentation as appropriate (see paragraph 8–22f).

c. Removal, approval, and appeals authorities for currently serving RA DSs who are disqualified due to suitability screening are listed in AR 600–78.

d. When a serious incident occurs requiring an investigation, the DS will be reassigned and suspended from DS duties until the investigation is complete. If the DS is suspended for more than 90 days, the SDAP will be terminated on the 91st day. SDAP can be reinstated at a later date once the investigation is complete, and the DS is cleared of any wrongdoing. The mere occurrence of an incident or the conduct of an investigation is not intended to be a basis for removal from the program. Decisions on removal must be based on the circumstances or the completed investigation. Reports of removal are not required if Soldiers are cleared and returned to DS duty. (Soldiers who are pending removal or who are temporarily suspended from duties pending completion of the investigation will be counted in total (assigned) DS strength.) However, when RA Soldiers are removed from the DS Program, they will—

- (1) Be removed from the school or unit.
- (2) Be assigned other duties at the installation (if possible).
- (3) Have their SDAP terminated.
- (4) Have SQI "X" removed for reasons listed in paragraphs 8–22a(6) through 8–22a(8).
- (5) Have the DS identification badge revoked as governed by AR 600–8–22.

e. The DA Form 1059 (Service School Academic Evaluation Report) will be completed for Soldiers (excluding those who were unqualified upon arrival) removed from DS Academy. The names of Soldiers who were unqualified upon arrival at DS Academy will be reported, in writing, to Chief, Nominative Branch, Readiness Division, HRC (AHRC–FSR–N) usarmy.knox.hrc.mbx.epmd-readiness-team@army.mil.

f. Soldiers removed for academic failure may reapply for DS Academy after meeting the training objectives outlined in DA Form 1059.

g. Soldiers removed for reasons listed in paragraph 8–22a(4) or 8–22a(5) will normally be rescheduled for a later DS class.

h. Soldiers removed from the DS Program for pregnancy will receive AI to report back to DS duties or school, as applicable, normally 6 months after delivery unless the Soldier had completed 18 months or more of DS status when removed.

i. Removal packets are required when Soldiers are removed from the DS program for reasons listed in paragraphs 8–22a(2) and 8–22a(6) through 8–22a(10). As a minimum, the following must be included:

- (1) Letter of intent to remove.
- (2) Soldier's acknowledgment statement required by AR 600–37 or a statement by removal authority as to why the acknowledgment statement is not included.
- (3) Soldier's rebuttal statement, if provided.
- (4) All chain of command correspondence.
- (5) Removal correspondence signed by removal authority with removal paragraph and the reason cited.

(6) Justification—copies of formal counseling, Article 15, Court-Martial orders, permanent physical profiles (when pregnancy is reason include expected delivery date), as applicable.

j. Soldiers removed from the DS Program for reasons listed in paragraphs 8–22a(6) through 8–22a(9) (when a medical profile is permanent or is based on a mental evaluation) are not eligible for reentry into the program.

k. When a Soldier has been removed from the DS Program for reasons prescribed in AR 380–67, RFA will be forwarded to the DCSA AVS Portal.

l. Appeals to DS removal actions must be acted upon, and the final decision provided to Chief, Nominative Branch, Readiness Division, HRC (AHRC–FSR–N) within 20 calendar days from the date of the Soldier's removal from the DS Program.

m. Removal and appeal authorities.

(1) Refer to AR 600–78 for removal and appeal authorities for currently serving RA DSs who are disqualified due to suitability screening.

(2) Removal and appeal authorities for currently serving RA DSs who are disqualified due to reasons other than suitability screening:

(a) Senior commanders, U.S. Army Training Center commanders, separate brigade or appropriate equivalent commanders (removal authority must be at least COL level command and may be delegated to subordinate commanders, deputy commanders, or commandants in the grade of COL or higher, including commanders or commandants of other Services) may remove RA Soldiers from the DS Program (while in candidate status or while assigned DS duties) for any of the reasons listed in paragraph 8–22a.

(b) The Chief, Nominative Branch, Readiness Division, HRC (AHRC–FSR–N) is the removal authority for RA Soldiers who are stationed in CONUS and who become unqualified for DS assignment or duties

after graduation from DS Academy and prior to departing current installation (other than DS installation) on DS AI.

(c) The appeal and reinstatement approval authority for DS removed from the DS Program will be no lower than the first GO in the Soldier's chain of command and will always be a GO higher in grade than the designated removal authority.

(d) Appeals submitted to the CG, HRC, and the DCS, G-1 must be processed through the highest GO on the installation who is an appeal authority and is in the Soldier's chain of command.

(e) When removal from the DS Program is HRC-directed, the DCS, G-1 will act as the appeal and reinstatement authority. These appeals must be submitted to the DCS, G-1 (DAPE-MPE) (dape-mpe-dr@army.mil) within 20 calendar days from the date of the Soldier's removal.

Section IV

First Sergeant Positions

8-23. Scope

The most highly qualified and motivated senior Soldiers must be selected and assigned to 1SG positions. Moreover, these assignments are career-enhancing and serve as professional development for Soldiers in a CMF where 1SG opportunities are available.

8-24. Eligibility

Soldiers in the grade of SFC through MSG will be assigned as 1SGs based on the following:

- a. Outstanding qualities of leadership.
- b. Dedication to duty.
- c. Integrity and moral character.
- d. Professionalism.
- e. Military occupational specialty proficiency.
- f. Appearance and military bearing.
- g. Physical fitness.
- h. Possess a favorable NACLC or higher investigation.

8-25. Criteria

a. All requisition authorities in CONUS or OCONUS are required to identify 1SG positions with the appropriate SQI identifier of "M."

b. IET 1SG positions should be filled with Soldiers who have previously served successful tours as DSs.

c. When possible, the 1SG will possess the PMOS of the authorized duty position, particularly in TOE company-level organizations. Soldiers will only be assigned to 1SG positions outside their PMOS or CMF as an exception and with prior approval from the HRC branch Chief that manages the PMOS of the Soldier and the HRC branch Chief that manages the PMOS of the position. These Soldiers must possess SQI "M" and be the only qualified Soldiers available to fill the vacancy.

d. Senior or division commanders may reassign Soldiers within their command to fill 1SG positions. Soldiers who have been issued HQDA reassignment instructions through the Enlisted Assignment System of Record will normally not be approved for the position. However, HRC branch managers will consider requests for deletion from AI in exceptional cases.

8-26. Stabilization as a first sergeant

a. Soldiers will be stabilized as 1SG for 24 months, except that OCONUS stabilization will not involuntarily exceed normal tour length. Immediately upon the Soldier's assignment to a 1SG position, a re-request for stabilization must be submitted to the Chief, Actions, Policy, and Procedures Branch (AHRC-FSO-A). The effective start date of stabilization is the date the Soldier is assigned to the 1SG position. Requests for stabilization must include the date assigned to the 1SG position.

b. The initial period of stabilization will not be adjusted for Soldiers reassigned from one 1SG position to another 1SG position at the same station.

c. To be a 1SG, the Soldier must be assigned to a 1SG position. When loss of position or authorization occurs, personnel will revert to their former grade.

d. Repetitive assignments to 1SG duty will be based on—

- (1) Needs of the Army.
- (2) Soldier's performance as 1SG.
- (3) Soldier's desires and professional development needs.

8-27. Awarding skill qualification identifier "M"

The award of the SQI "M" will be made based on the criteria in DA Pam 611-21. The BCT/ brigade S1 will perform the transaction via the Personnel System of Record.

8-28. Appointment to first sergeant

a. A commander (COL/O6 and above for SFC, LTC/O-5 and above for MSG) may authorize Soldiers in the rank of SFC or MSG to be appointed to 1SG and to wear the 1SG rank upon assignment/slotting to an authorized 1SG position within their command. Appointment of SFC to 1SG does not apply to AGR and IMA personnel.

b. Appointment will not be approved to provide an interim fill for a 1SG position.

c. Appointment will not begin prior to the date the NCO is assigned to the 1SG position.

d. Identification cards, personnel data systems, and pay/entitlements will not be changed to reflect appointment to 1SG, except for MSG lateral appointment to 1SG, as appropriate. For MSG lateral appointment to 1SG, the rank entry date will be the date the Soldier assumes 1SG duties, and the grade entry date will remain unchanged. For SFC appointment to 1SG, both the rank entry date and the grade entry date will remain unchanged.

e. A Soldier must be in good standing, not flagged, and not otherwise have been found as Not Fully Qualified by their most recent NCO evaluation board to be eligible for this appointment.

f. SFC subsequently promoted to MSG while serving under an appointment to 1SG will be laterally appointed (on orders) effective the date of the promotion (provided the NCO remains assigned/slotted in the 1SG position). The 1SG rank entry date and grade entry date will be the date of promotion.

g. Upon release from 1SG duties, the unit will initiate appointment action via PAR or informal memorandum to terminate the appointment. For MSG, the rank entry date will be the date the Soldier is released from 1SG duties, and the grade entry date will remain unchanged. For SFC, both the rank entry date and grade entry date will remain unchanged. Upon removal of the 1SG designation, Soldiers are no longer authorized to wear 1SG insignia.

h. Appointments will be announced by PAR or by informal memorandum.

8-29. Withdrawal of skill qualification identifier "M"

a. Withdrawal of SQI "M," under all circumstances, is an administrative action only. It is not to be used as a disciplinary measure or as a means to replace proper disciplinary action.

b. The SQI "M" will be withdrawn when Soldiers are promoted to SGM or are no longer fully qualified to serve as 1SGs. Withdrawal may be initiated by the Soldier, the Soldier's commander, or the appropriate Branch Chief, HRC.

(1) Soldiers who feel they are no longer qualified to serve as 1SG may submit the withdrawal request through their immediate commander to the battalion commander (or equivalent) for approval or disapproval. Based on the needs of the Army, these Soldiers may be required to complete their current or scheduled 1SG assignment.

(2) When the Soldier's commander deems the Soldier not fully qualified as a 1SG, they may submit a withdrawal request to the battalion commander for approval or disapproval. Prior to forwarding the withdrawal request, the initiating commander will advise the Soldier and afford the Soldier the opportunity to submit matters in rebuttal, extenuation, or mitigation.

(3) When a review of the Soldier's AMHRR and other official correspondence reveals that the Soldier's demonstrated performance, proficiency, physical standards, or other criteria are below that expected of a 1SG, the appropriate Branch Chief, HRC will submit a withdrawal request to the Soldier's SC for chain of command consideration. The immediate commander will advise the Soldier so they may submit matters in rebuttal, extenuation, or mitigation.

c. When SQI "M" has been withdrawn from the MOS of a Soldier currently performing duties as 1SG, the commander will reassign the Soldier to a position for which the Soldier is qualified. If no position is available within the command, the Soldier will be reported IA (see paragraph 3-18).

d. When a Soldier is released from 1SG duties for reasons outlined in AR 380–67, the commander will forward DA Form 5248–R (Report of Unfavorable Information for Security Determination (LRA)) to the DCSA AVS.

Chapter 9

Miscellaneous-Type Assignments

Section I

Home Base and Advance Assignment Program

9–1. Scope

a. The practice of returning Soldiers to their previous permanent duty station or a different location after completing a dependent-restricted short tour is referred to as the Home Base and Advance Assignment Program. The two types of assignments in the Home Base and Advance Assignment Program are—

(1) Home base assignment. Soldiers are projected to return to the installation where they were stationed prior to completing a dependent-restricted 12-month OCONUS short tour.

(2) Advance assignment. Soldiers are projected to return to a different installation than they were stationed prior to completing a dependent-restricted 12-month OCONUS short tour.

b. Participation in the Home Base and Advance Assignment Program is optional. Soldiers who decline to participate will indicate so during their reassignment briefing, and the Soldier's desire not to participate in the Home Base and Advance Assignment Program will be indicated in their PCS orders. The servicing MPD Chief must send an encrypted email message, with attachment showing the declination, to the Chief, Strategic Readiness Branch (AHRC–FSR–S), FSD, in order to update the declination in the Enlisted Assignment System of Record. Upon completion of the dependent-restricted short tour, Soldiers who declined participation in the Home Base and Advance Assignment Program will be reassigned according to the needs of the Army.

9–2. Criteria

a. RA Soldiers who are SPC on a second or subsequent enlistment, SPC (P), or CPL through MSG, are eligible to participate in the Home Base and Advance Assignment Program when they are issued AI to a dependent-restricted 12-month OCONUS short tour area. Soldiers are eligible to participate in the program regardless of whether or not they have dependents.

b. Primary determining factors for the Home Base and Advance Assignment Program are—

(1) The needs of the Army.

(2) Assignment preference or volunteer location of the Soldier.

(3) Professional development considerations.

(4) Least cost factors.

c. Hawaii and Alaska residents may be provided a home base or advance assignment to their respective states. All others will not be given a home base or advance assignment in Hawaii or Alaska without their consent.

d. Eligible Soldiers stationed in an OCONUS-accompanied long tour who volunteer for an inter-theater transfer will be notified in advance of their projected home base or advance assignment.

e. The intent of the Home Base and Advance Assignment Program is to reduce PCS costs and to increase stability for the Soldier and his or her Family.

(1) Soldiers who receive a home base assignment under the Home Base and Advance Assignment Program must sign a statement indicating that they understand the intent of the program and that they are expected not to use their dependent PCS entitlements unless the assignment is cancelled.

(2) Soldiers who receive a Home Base and Advance Assignment Program advance assignment to a different installation will sign a statement indicating that they understand the intent of the program and are expected not to use their dependent travel and transportation allowances except to the locale of the advance assignment.

(3) Single Soldiers with minor dependents may participate in the home-basing or follow-on assignment programs with no HAAP restriction on dependent travel and transportation allowances, shipment of HHG, non-temporary storage of HHG, or with-dependent dislocation allowance, if otherwise eligible, in support

of the Servicemember moving minor dependents to a designated location in accordance with their family care plan.

f. Soldiers with SQI "P" (parachutist) are provided a home base or advance assignment to installations authorized parachutists unless the installation is over-strength parachutists.

g. The home base or advanced assignment may be changed or canceled due to changing needs of the Army (authorizations) or because the Soldier—

- (1) Declines to participate.
 - (2) Elects to serve an accompanied or unaccompanied tour rather than a dependent-restricted tour.
 - (3) Voluntarily extends their foreign service tour for any length of time.
 - (4) Has their foreign service tour involuntarily extended until two days prior to ETS or date of separation due to not meeting the SRR for assignment after completion of the prescribed tour.
 - (5) Is selected to attend the USASMA course.
 - (6) Is selected for promotion to SGM while serving on a dependent-restricted 12-month short tour.
- h.* Soldiers who participated in the Home Base and Advance Assignment Program may also request a change of home base or advance assignment. Each request will be considered on a case-by-case basis.
- i.* If either the Soldier's current home base or advance assignment is canceled or changed based on the needs of the Army, then the Soldier may use dependent PCS entitlements and allowances not yet executed for movement to the next assignment. Similarly, if the Soldier executes their dependent PCS entitlements and allowances contrary to provisions contained in paragraph 9–2e, above, then the Army may cancel or change the previously approved home base or advance assignment.

Section II

Assignment of Choice for Department of the Army Noncommissioned Officer or Soldier of the Year

9–3. Objective

To provide an incentive for improved career management, a DA NCO or Soldier of the Year will be given choice of available assignments.

9–4. Criteria

- a.* Soldiers selected as DA NCOs or Soldiers of the Year will be given their choice of assignment, provided valid requisitions exist, and they meet applicable statutory and regulatory provisions. When Soldiers have received AI prior to being selected, and the AI are not to their choice of location, the AI will be deleted.
- b.* Every reasonable effort will be made to assist Soldiers in obtaining their selected choice of assignment.

Section III

Special Assignments

9–5. Scope

Special assignments include special management command and joint, HQDA, and HRC assignments that have special missions and require personnel with specific qualifications. Soldiers assigned to these positions will be stabilized for a period of 36 months. However, the CG, HRC may reassign Soldiers with less than 36 months in accordance with paragraph 3–7k(1).

- a.* International and OCONUS Joint HQ, U.S. military missions, military assistance advisory groups, Joint U.S. military advisory groups, and similar activities.
- b.* The U.S. Central Command.
- c.* HQDA and HRC.
- d.* The U.S. Disciplinary Barracks.
- e.* The U.S. Army Intelligence and Security Command.
- f.* Office of the Assistant Chief of Staff for Intelligence and field activities.
- g.* Defense Courier Service.
- h.* The U.S. Criminal Investigation Division.
- i.* The U.S. Transportation Command.

- j. The North Atlantic Treaty Organization (NATO).
- k. The United States Military Academy, U.S. Army Command and General Staff College, U.S. Army War College, and U.S. Army Officer Candidate School.
- l. Joint Communications Support Element.
- m. U.S. Army Test and Evaluation Command.
- n. Security Forces Assistance Brigade.

9–6. General selection criteria

Soldiers may volunteer or be nominated provided the following criteria are met:

- a. Be a high school graduate or GED equivalent.
- b. Be a U.S. citizen (by birth or naturalization).
- c. Have or be able to obtain and maintain applicable security clearance that is required for the position. If no clearance is required, a favorable NACLC or higher must be maintained.
- d. Not listed as a military sex offender (see table 3–3) and have a favorable National Sex Offender Registry check.
- e. Have no record of conviction by court-martial or time lost to be made good under 10 USC 972 during current enlistment or last 3 years, whichever is longer.
- f. Have no record of civil conviction, except for minor offenses that do not disqualify for top secret security clearance under AR 380–67.
- g. Have no personal habits or character traits that are questionable from a security standpoint, including financial irresponsibility, foreign holdings or interest, alcohol, or drug misuse (does not include Soldiers who are declared rehabilitation successes under the ASAP), gambling, or emotional dysregulation.
- h. Have no diagnosed mental or psychiatric disorders which, in the opinion of competent medical authority, may cause a defect in judgment or reliability with due regard to the transient or continuing effect of the illness and the medical findings in such case.
- i. Have a minimum GT score of 100.
- j. Meet body composition requirements in AR 600–9.
- k. Have 36 months' time remaining in service upon arrival at assignment unless designated OCONUS tour is less.
- l. Soldiers must not be suspended from favorable personnel actions; however, a disqualifying flagging action for a minor infraction is waivable. For the purposes of this regulation, a minor infraction is that which would permit a flagging action to be transferred (see AR 600–8–2). The HRC assignment manager is the waiver authority.
- m. Soldiers assigned to an airborne position must be airborne qualified or have volunteered for airborne training.
- n. Soldier must be fully MOS qualified.

9–7. Waivers

Requests or recommendations for waivers of assignment criteria will only be considered for the following:

- a. Time lost to be made good under 10 USC 972.
- b. Education level.
- c. GT aptitude area score (not applicable to Allied Command Operations assignments).
- d. Not possessing the requisite grade (not applicable to Allied Command Operations assignments).
- e. Active Federal service time.
- f. The TOS and retainability.

9–8. International and outside the continental United States Joint headquarters, U.S. military missions, Military Assistance Advisory Group, Joint U.S. Military Advisory Group, and similar activities

In addition to the criteria in paragraph 9–6 the following apply:

- a. Soldiers may volunteer, whether in OCONUS or in CONUS, unless they are alerted or on orders for an OCONUS assignment. Soldiers who apply under a specific HRC announced volunteer program must also meet the qualifications prescribed for that program. If selected, they will be considered as IA for assignment.

b. Soldiers undergoing AIT training may volunteer provided AI have not been received. Normally, AIT Soldiers will be selected only to fill administrative, clerical, and signal communications requirements (not applicable to Allied Command Operations assignments).

c. Foreign service assignment policies prescribed in AR 614–30 will be followed.

d. If language training is required, assignment is contingent upon successful completion of the course. Soldiers selected for assignment to positions in military missions, advisory groups, or similar activities that require limited working foreign language proficiency or better must attend either of the following:

(1) The Defense Language Institute Foreign Language Center.

(2) Other institution designated by Defense Language Institute Foreign Language Center for initial or refresher language training.

e. Soldiers (SSG and above) selected for these assignments must attend the Security Assistance Management Course conducted at Wright Patterson Air Force Base, OH (not applicable to Allied Command Operations assignments).

f. Medical facilities are limited at most military missions, advisory groups, and similar activities; therefore, applicants must be medically qualified to reside in the country of assignment. Conditions or limitations that might reasonably be expected to require medical care during the normal tour of duty will be remedied before departure. For family member screening requirements for family member travel/command sponsorship to OCONUS duty stations, see DoDI 6000.20 and AR 608-75.

g. All security investigations must be current within the last 5 years.

h. Refer to AR 600–78 for suitability screening requirements for Department of State positions.

9–9. U.S. Central Command

In addition to the criteria in paragraph 9–6, Soldiers—

a. Must have no record of punishment under UCMJ, Art. 15, during current enlistment or last 3 years, whichever is longer.

b. Must have served a minimum of 2 years on AD.

9–10. U.S. Army Intelligence and Security Command

In addition to the criteria in paragraph 9–6, Soldiers assigned to INSCOM normally require top secret security clearances under AR 380–67. If new investigations are required, commanders will submit requests for investigations within 21 days of receipt of AI.

9–11. Defense Courier Service

In addition to the criteria in paragraph 9–6, Soldiers—

a. Must possess a top-secret security clearance under AR 380–67, with SSBI not older than 4 years and 9 months prior to departing current duty stations.

b. Must have a military physical profile serial code of 111221 or better, be able to lift 50 pounds, and must have no physical condition that prevents frequent travel aboard aircraft. Waivers may be approved by U.S. Transportation Command.

c. Must have no record of punishment under UCMJ, Art.15, during current enlistment or last 5 years, whichever is longer.

d. Must have valid state driver's license.

e. Must be a U.S. citizen.

f. Must be in the rank of CPL or above.

g. Due to the nature of courier duties and the small unit environment of courier stations, dual military married couples may not be assigned concurrently to the same Defense Courier Service unit.

h. Defense couriers are subject to short notice TDY that may take them away from their duty station for several days at a time. Single parents should consider this carefully before volunteering for courier duty. Single parents will be required to have a viable family care plan in place to care for their dependents.

i. An official passport is required for a position as a defense courier.

9–12. U.S. Transportation Command

In addition to the criteria in paragraph 9–6, Soldiers—

a. Must have no record of punishment under UCMJ, Art. 15, during current enlistment or last 3 years, whichever is longer.

b. Must have served a minimum of 2 years on AD.

9–13. U.S. Army North Atlantic Treaty Organization

- a. Includes—
 - (1) Supreme Headquarters Allied Powers Europe, Casteau, Belgium.
 - (2) Allied Joint Force Command Brunssum, The Netherlands.
 - (3) Allied Joint Force Command Naples, Italy.
 - (4) Allied Land Command, Izmir, Turkey.
 - (5) Allied Rapid Reaction Corps, Gloucester, United Kingdom.
 - (6) Allied Command Transformation, Norfolk, VA.
 - (7) Joint Warfare Center, Stavanger, Norway.
 - (8) NATO Rapid Deployable Corps, Valencia, Spain.
 - (9) NATO Rapid Deployable Corps, Istanbul, Turkey.
 - (10) 1 German-Netherlands Corps, Muenster, Germany.
 - (11) NATO Rapid Deployable Corps, Milan, Italy.
 - (12) 650th Military Intelligence Group, Casteau, Belgium.
- b. In addition to the criteria in paragraph 9–6, Soldiers—
 - (1) Must have no record of punishment under UCMJ, Art. 15, during current enlistment or last 3 years, whichever is longer.
 - (2) Must be SPC or above.

9–14. United States Military Academy, U.S. Army Command and General Staff College, U.S. Army War College, and U.S. Army Officer Candidate School

Soldiers assigned as NCO instructors and tactical NCOs should be graduates of the ALC for their MOS. Soldiers must have demonstrated ability or possess potential ability to perform as instructors. Refer to AR 600–78 for suitability screening requirements for all training cadre positions. In addition to the criteria above and in paragraph 9–6, Soldiers assigned as Military Science Instructors (MSI) and Instructors/Writers to the U.S. Military Academy—

- a. Should be graduates of the SLC for their MOS.
- b. Must have completed the SFC/E7 career developmental position in their CMF for 24 months or as specified by DA Pam 600–25.

9–15. Joint communications support element

As an exception to the 36-month stabilization period, Soldiers assigned to MOS 25 series coded positions in the joint communications support element will incur a 4-year SRR and will be stabilized for a period not to exceed 4 years TOS.

9–16. Security forces assistance brigades

a. The SFAB are specialized units with the core mission to assess, advise, liaise, and support operations with allied and partner nations. Their work strengthens our allies and partners while supporting U.S. security objectives and the combatant commanders' warfighting needs. Soldiers assigned to SFABs are highly trained and among the top tactical leaders in the Army. Stringent screening processes exist to ensure that only the highest quality Soldiers are accepted and assigned. After assessment and assignment, Soldiers will be stabilized for 36 months.

- b. In addition to the criteria in paragraph 9–6, SFAB eligibility requirements are as follows:
 - (1) Must maintain deployable status.
 - (2) Must obtain & maintain a secret security clearance (interim acceptable).
 - (3) Pass AMHRR check for derogatory information.
 - (4) Pass the physical fitness test of record with a minimum of 70 points in each event.
 - (5) Have a physical capacity, upper, lower, hearing, eyes, psychiatric of 111221 or better (no physical fitness test of record limiting profile), and vision and hearing limitations must be correctable.
 - (6) SSG and below must pass a rigorous 2-day assessment or a command interview and be selected for service in an SFAB. SFC and above who have not completed a career developmental assignment in their current grade must also meet this requirement.
 - (7) Soldiers at the rank of SFC or above, who have completed a career developmental position in their current grade, will conduct an interview with the SFAB leadership and will not be required to attend the assessment.

Section IV

Nominative Assignments

9–17. Scope

a. Stringent screening processes exist to ensure that only the most highly qualified Soldiers are selected for nominative positions.

b. Requests for units/agencies to be designated as nominative must be coordinated with the Chief, Nominative Branch, HRC, prior to submission to DCS, G–1. The Chief, Nominative Branch, HRC, will advise the organization on supportability and possible limitations, such as limited eligibility pool, reduced manning due to eligibility requirements, and increased timeline for fill of vacancies. If the Chief, Nominative Branch, HRC, recommends concurrence, requests to DCS, G–1 will include full justification of the need for nominative designation. Requests for nominative designation will only be submitted when all positions within a unit/agency will be designated as nominative. Individual positions or portions of a unit/agency will not be considered for nominative designation. Only the most highly qualified Soldiers are selected for nominative positions at the following agencies:

- (1) Office, Secretary of Defense.
- (2) Joint Staff.
- (3) Defense Commissary Agency.
- (4) Defense Finance and Accounting Service.
- (5) Defense Information Systems Agency.
- (6) Defense Threat Reduction Agency.
- (7) Defense Logistics Agency.
- (8) Defense Intelligence Agency.
- (9) National Geospatial-Intelligence Agency.
- (10) Uniformed Services University of Health Sciences.
- (11) U.S. Delegation NATO Military Committee.
- (12) Immediate Offices, Office, Secretary of the Army.
- (13) Office, Army Chief of Staff.
- (14) Military Personnel Exchange Program (see AR 614–10).
- (15) Office of the Administrative Assistant to the Secretary of the Army.
- (16) National Airborne Operations Center.

9–18. Overview

a. All personnel actions pertaining to nominative assignments are processed by the Chief, Readiness Division, HRC (AHRC–FSR).

b. The normal tour of duty for these assignments is 3 to 4 years, unless otherwise specified by the individual agency.

c. Soldiers assigned to these agencies are contact replacements requested by the appropriate agency approximately 9 to 12 months in advance of the incumbent's scheduled rotation date.

9–19. Selection criteria

Soldiers may volunteer or be nominated provided the following criteria are met. Soldiers must—

- a. Be high school graduates or have a GED equivalent.
- b. Have physical profile of 111121 or better.
- c. Be U.S. citizens (by birth or naturalization).
- d. Have or be able to obtain and maintain applicable security clearances that are required for the position. If no clearance is required, a favorable NACLC or higher must be maintained.
- e. Not listed as a military sex offender (see table 3–3) and have a favorable National Sex Offender Registry check.
- f. Have no record of conviction by court-martial or time lost to be made good under 10 USC 972 during current enlistment or last 3 years, whichever is longer.
- g. Have no record of civil conviction, except for minor offenses that do not disqualify for top secret security clearance under AR 380–67.

- h.* Have no personal habits or character traits that are questionable from a security standpoint, including financial irresponsibility, foreign holdings or interest, alcohol, or drug abuse (does not include Soldiers who are declared rehabilitation successes under the ASAP), gambling, or emotional dysregulation.
- i.* Have no diagnosed mental or psychiatric disorders which, in the opinion of competent medical authority, may cause a defect in judgment or reliability with due regard to the transient or continuing effect of the illness and the medical findings in such case.
- j.* Must have a minimum GT score of 100.
- k.* Must meet body composition requirements in AR 600–9.
- l.* Have 36-months' time remaining in-service upon arrival at assignment.

Chapter 10

Special Operations Forces Assignments

10–1. Army Special Operations Forces Scope and objectives

- a.* ARSOF assignments require Soldiers able to excel in the performance of their duties in highly complex and dynamic environments throughout the full spectrum of modern warfare and peacetime missions. The nature of SOF missions requires a high state of readiness; therefore, Soldiers will be assigned on a priority basis. Stringent screening processes exist to ensure that only the highest quality Soldiers are accepted and assigned. Soldiers who desire to apply for duty or assignment may do so without regard to current assignment.
- b.* ARSOF in-service Recruiters from the Special Operations Recruiting Battalion will work with unit commanders and Soldiers to schedule any assessment and selection course dates to meet both unit and ARSOF operational requirements and the Soldier's career goals.
- c.* The objective of SF is to conduct special operations for strategic and operational objectives, with an emphasis on unconventional warfare capabilities, in all physical and permissive, uncertain, hostile, or politically sensitive operational environments, with or through indigenous forces. Characterized by a highly adaptive culture and a versatile organization, Special Forces conduct operations that have operational and strategic implications. Special Forces Soldiers operate across the competition continuum and range of military operations, integrating their capabilities with joint, interagency, intergovernmental, and multinational partners, or with force-multiplying operations with indigenous groups and coalition forces as part of a larger effort. At any given time, SF detachments are conducting these types of operations in dozens of countries worldwide. Special Forces operations differ from conventional operations in the degree of political sensitivity and risk and the focus on indigenous assets, operational techniques, and modes of employment.
- d.* The objective of CA is to engage and leverage the civil component of the operational environment while enhancing, enabling, or providing governance. CA forces accomplish this through the execution of the CA core competencies throughout the range of military operations and across the competition continuum. These CA missions are designed to provide and enable commanders with the capabilities to find, disrupt, and defeat threats within the civil component. Threats in the civil component could be ineffective government, infrastructure degradation, criminal threats, asymmetric threats, and other factors that lead to unstable environments. Through CA operations, CA forces enable mission command, increase situational understanding, preserve combat power, and consolidate gains in support of the strategic objective of establishing a secure and stable operational environment that is consistent with U.S. interests. CA forces are specifically organized, trained, and resourced to address the civil environment and to integrate civil knowledge, resources, and considerations into decision-making during activities that span the competition continuum.
- e.* The objective of PSYOPS is to affect the behavior and objective reasoning of foreign target audiences in an effort to create conditions favorable to U.S. military and political interests. PSYOPS employ teams and detachments that perform missions of operational and strategic significance across the operational continuum. PSYOPS support conventional and special operations forces in an effort to influence neutral and hostile audiences favorable to friendly advantage. Training for PSYOPS is unique—ranging from warrior-related shoot, move, communicate, and survive tasks to the intricacies of influence, deception, psychology, marketing, and multimedia development and distribution.
- f.* The objective of USASOC Operational Support and Force Sustainment Soldiers is to provide exceptional support to all Special Operations units worldwide in all facets of their core competencies. These core competencies include both conventional and ARSOF-unique capabilities.

g. The objective of the 75th Ranger Regiment is a lethal, agile, and flexible force, capable of executing a myriad of complex, joint special operations missions in support of U.S. policy and objectives. The Regiment remains an all-volunteer force with an intensive screening and selection process.

h. The objective of special mission units is beyond the classification of this regulation.

i. The objective of the 160th Special Operations Aviation Regiment's (SOAR) mission is to organize, equip, train, resource, and employ Army special operations aviation forces worldwide in support of contingency missions and combatant commanders.

j. The objective of USASOC is to synchronize the planning of special operations and provide SOF to support persistent, networked, and distributed geographical combatant commanders' operations in order to protect and advance our Nation's interests.

10–2. Special Forces Initial Accessions Program (18X)

Anyone desiring to volunteer for SF duty may contact the nearest recruiting office. The following are the requirements for initial accession into SF—

a. Are 18 years of age by ship date to CMF 11 OSUT and have not reached their 32nd birthday prior to ship date. Maximum age for ARNG SF individual accession volunteer is 36 years of age (waivable).

b. Are qualified for, and volunteer for, airborne training (must have airborne stamp on physical).

c. Citizenship (nonwaivable).

(1) Are a U.S. citizen, or

(2) Are a lawful permanent resident (LPR) enrolled in the Accelerated Naturalization program.

d. Have a minimum GT score of 110 and minimum combat operation (CO) score of 100 (waivable).

e. Are a High School Diploma Graduate; GEDs are waivable on case-by-case basis. Must have high school diploma or GED prior to ship date.

f. Have no derogatory or adverse information that would preclude the granting of a secret or top-secret security clearance (provided within the Standard Form 86).

g. Have an approved SF Physical prior to SFAS and the ability to complete a high-altitude low opening physical during attendance in the special forces qualification course (SFQC). Female Soldiers must have a negative pregnancy test within 30 days of SFAS report date.

h. Can meet the requirement to complete Hyperbaric Oxygen Chamber certification upon completion of the high-altitude low opening physical.

i. Individuals will normally enlist in pay grade E–1 unless they meet prerequisites for a higher grade identified in AR 601–210 and will enlist under Option 3 (Training). Upon in-processing at Fort Bragg the Soldiers will attend the SF Preparatory and Conditioning course.

j. Those individuals already MOS qualified as 11B and airborne qualified will enlist under option 18 (U.S. Army First Assignment–No Training Enlistment Option) with assignment to Fort Bragg, NC, and once in-processed will start training with the SF Preparatory and Conditioning course.

k. Complete the Defense Language Aptitude Battery (DLAB) test before the start of the SFQC or provide a Defense Language Proficiency Test (DLPT) or Oral Proficiency Interview (OPI) with a minimum of 1/1 reading and listening score, given within the last 12 months.

l. Must have a physical profile rating of no less than 111221 and meet additional requirements for eyes and vision in accordance with AR 40–501 or be willing to undergo refractive eye surgery.

m. All Soldiers must be able to swim 50 meters wearing boots and an Army combat uniform prior to graduating the SFQC.

10–3. Special Forces initial accessions training path (18X)

Individuals who are NPS, days of Service/prior Service, and require retraining will enlist under Option 3 (U.S. Army Training of Choice Enlistment Option), MOS 18X, and will ship to Fort Benning, GA, and follow the training path listed below:

a. In-processing through the reception battalion.

b. OSUT for MOS 11X. Soldiers must be able to complete a sex-neutral Physical Fitness Assessment.

c. Complete Airborne training.

d. Complete the SF Preparatory and Conditioning course (Fort Bragg, NC). This course is 6 weeks in duration, consisting of physical conditioning, land navigation, and small unit team building. Individuals must obtain an electrocardiogram prior to their arrival at the SF Preparatory and Conditioning Course.

e. Once Soldiers meet all criteria, they will be scheduled for SFAS (3 weeks, 3 days) as outlined in the ATRRS course catalog.

- f. To start SFAS, the Soldier must be able to complete a sex-neutral personal fitness assessment (PFA).
- g. Soldiers who voluntarily cross-over to MOS 18X while attending Infantry OSUT must be able to complete a sex-neutral PFA must follow the previously described 18X training pathway. Infantry OSUT crossovers must meet all requirements under the Initial Accessions Program (IAP) section, paragraph 10–2.

10–4. Special Forces In-Service recruits

Soldiers (private first class (PFC) through SFC) desiring to volunteer for SF duty should contact the Special Operations Recruiter Battalion (Commander, U.S. Army Special Operations Recruiter Battalion, Fort Bragg, NC 28307–5200) provided they meet the requirements listed in DA Pam 611–21 and the following:

- a. Must be an RA or ARNG Soldier not older than 32 years old (RA) or older than 36 years old (ARNG, waivable) for SFAS attendance.
- b. Must have an approved SF Physical. Female Soldiers must have a negative pregnancy test within 30 days of SFAS report date.
- c. Must be airborne qualified or volunteer to attend airborne training.
- d. Must be a U.S. citizen (nonwaivable).
- e. Must be able to swim 50 meters wearing boots and Army combat uniform prior to graduating the SFQC.
- f. Must be able to complete a sex-neutral PFA.
- g. No Soldier, regardless of MOS or basic branch, will be recruited if he or she is unable to reclassify from their current MOS or basic branch into CMF 18.
- h. Attendance to SFAS after two attempts requires a waiver approved by the SF Branch Proponent in order to be scheduled for SFAS.
- i. Are not currently serving in a restricted MOS or branch or under additional AD service obligation.
- j. Complete the DLAB before the start of the SFQC or provide a DLPT or OPI with a minimum of 1+/1+ reading and listening score, current within the last 12 months.

10–5. Additional criteria exclusive to enlisted Special Forces applicants

- a. Stabilization of current DSs and detailed recruiters will not be broken.
- b. PFCs, SPCs, CPLs, and SGTs that successfully complete the SFAS course will normally have their RCP waived to attend the SFQC. Upon successful completion of SFQC, they will be allowed continued service. SSGs approaching their RCP will not be allowed to apply. PFCs through SSGs must have no more than 14 years' TIS when volunteering for SFAS. SFCs must have no more than 12 years TIS and 9 months' time-in-grade when applying for the SFAS course and they must be either airborne or ranger qualified. SFCs must attend the SFAS course within 90 days of volunteering and be able to PCS to the SFQC within 6 months of selection from the SFAS course. An MSG declination statement must be signed by all SFCs who wish to attend SFQC.
- c. After being scheduled for SFAS, Soldiers should only be deleted, deferred, or otherwise prevented from attending training for the following reasons:
 - (1) If they become disqualified or ineligible to attend the course in accordance with the provisions of this regulation. The request must be endorsed by the Soldier's first LTC/ O–5 in the chain of command and submitted to the Commander, Special Operations Recruiter Battalion, in accordance with AR 600–8–11.
 - (2) For operational reasons. The request must be approved by the Soldier's first GO in the chain of command, after coordination with the Commander, Special Operations Recruiter Battalion, to gauge the impact of the deletion or deferment action, in accordance with AR 600–8–11.
 - (3) These authorities may not be further delegated.
- d. OCONUS-based Soldiers may attend the SFAS course in a TDY and return status anytime during their tour. Upon successful completion of the SFAS course, Soldiers will be scheduled for the next available SFQC provided they have completed at least two-thirds of their overseas assignment obligation and have received approval from the appropriate Branch Chief, HRC, for curtailment of the remainder of their overseas tour obligation. Soldiers serving on a short tour will not have their assignment curtailed.
- e. CONUS-based Soldiers will attend the SFAS course in a TDY and return status anytime during their tour. Upon successful completion of SFAS, Soldiers will be scheduled to attend SFQC ensuring that they will have completed at least 1-year TOS prior to PCS.

f. Upon completion of SFQC, Soldiers must be utilized in a CMF 18 MOS duty position for 36 months AD.

Note: MOS phase is only one portion of the training. If a Soldier does not complete all phases, they are not a SFQC graduate.

10–6. Special Forces Disqualifiers

The following disqualifiers apply to all applicants—

- a. Be barred to continued service or be under suspension of favorable personnel action.
- b. Have 30 days or more lost time under 10 USC 972, within the current or preceding enlistment. Applicants with any loss totaling 29 days or less require a waiver from the SF commandant.
- c. A qualifying military or civilian conviction of a crime of domestic violence as defined by AR 600–20 (non-waivable).
- d. An open military or civilian investigation, charge, or indictment for a crime that could result in a qualifying conviction of a crime of domestic violence, as defined by AR 600–20 (non-waivable).
- e. Any use of a controlled substance without a valid prescription following the Soldier's date of initial entry into military service (waivable by the SF commandant).
- f. A military or civilian charge for driving under the influence or reckless driving within 2 years before the start of an assessment and selection class (waivable by Deputy Commanding General (DCG), U.S. Army Special Operations CoE).
- g. Any other open military or civilian administrative or criminal investigation, charge, or indictment on the Soldier (waivable by the DCG, Special Operations CoE).
- h. Punishment under UCMJ within 2 years before the start of the SFAS (waivable by DCG, Special Operations CoE).
- i. Any of the above circumstances occurring between the successful completion of SFAS and the beginning of the SFQC are waivable with the exception of domestic violence and the illegal use of a controlled substance. Any circumstance must be waived prior to starting SFAS or the SFQC. Candidates may apply for the waiver before 2 years from the disciplinary action; however, they may not start SFAS or the SFQC before the 2-year mark from the disciplinary action.

10–7. Special Forces Additional requirements

a. Soldiers must successfully complete the SFAS course before they can attend the SFQC. Soldiers will attend the course in a TDY and return status and normally attend at any time; however, the following exceptions apply:

(1) Soldiers on OCONUS AI must have their career branch chief's approval to attend but will not be scheduled for SFQC until completion of their prescribed tour.

(2) Soldiers on AI to dependent-restricted short tour may attend SFAS if a deferment is not required but will not be scheduled for SFQC until completion of their prescribed tour.

(3) Soldiers who volunteer for SFAS prior to receiving AI will be deferred to allow attendance at the SFAS course. Graduates' assignment to the SFQC will take precedence over any assignment conflict provided the Soldier volunteered for SFAS prior to receiving AI.

(4) Soldiers who volunteer for SFAS prior to receiving deployment orders will be deferred to allow attendance at the SFAS course, provided their unit has not requested and received an exception to policy for operational needs. Soldiers volunteering for SFAS after receiving deployment orders will deploy with their unit.

b. Upon successful completion of the SFAS course, Soldiers will be evaluated for placement in the most applicable SFQC. Soldiers will be rescheduled for SFQC, as required, through the Special Operations CoE SFQC coordinator and the Chief, Army Special Operation Forces Branch (ARHC–TAA–SF). Prerequisites for the SFQC are in the ATRRS course catalog. Soldiers will be scheduled for the next available SFQC provided—

(1) A second PCS in the same fiscal year is not required for OCONUS-based Soldiers.

(2) Soldiers who are CONUS-based have completed at least 12 months TOS prior to PCS to school.

c. Soldiers must obtain at least an interim secret or top-secret security clearance (based on initiation of an entrance national agency check) prior to the MOS phase of the SFQC and be able to obtain a final secret or top-secret security clearance prior to graduation.

d. Upon successful completion of the SFQC, graduates will be credited with BLC and ALC attendance, as applicable.

e. Voluntary requests for reclassification may be submitted after completion of 36 months in a CMF 18 duty assignment. Soldiers will not be released from CMF 18 duty assignment or scheduled for training prior to completion of 36 months SF duty.

f. Upon departure from a CMF 18 duty position, Soldiers later reassigned back to a CMF 18 duty position incur a 36-month reassignment SRR.

g. All requests for deletion or deferment of Soldiers on AI in CMF 18 must be submitted to the Chief, Army Special Operation Forces Branch, HRC for approval.

h. Soldiers will be terminated from SF duty, CMF 18 MOS withdrawn, and reported for reclassification and reassignment when—

- (1) They request termination from ARSOF duty or airborne status.
- (2) They refuse to jump from an aircraft while it is airborne.
- (3) Their security clearance is withdrawn.
- (4) They lose physical qualifications.
- (5) They fail to fulfill professional requirements or are found unsuitable, as evidenced by any of the following (not all inclusive):
 - (a) Civil convictions (whether or not an appeal is pending resolution) for a felony offense or an offense involving moral turpitude or any other conviction for civilian criminal offenses that result in suspended or unsuspended punishments of more than 6 months' confinement or a fine in excess of \$5,000.
 - (b) Initiation of any adverse administrative elimination action for reasons specified in AR 635–200.
 - (c) Repeated failure to perform MOS-related or ASI-related duties after counseling and rehabilitative reassignment.
 - (d) Any other act or series of acts inconsistent with the integrity, professionalism, and conduct required of a SF Soldier.
 - (e) Soldiers terminated from ARSOF duty will be reported as IA for assignment.
- i. The approval authority for SF Tab revocation or reinstatement is listed in AR 600–8–22.

10–8. Civil Affairs Criteria

a. Regular Army In-Service 38R and 38W recruit criteria.

(1) RA Soldiers in the rank of SPC with Basic Leaders Course to SSG desiring to volunteer for RA CA duty should contact the Special Operations Recruiting Battalion, Fort Bragg, NC Special Operations Virtual Recruiting Center at 877–874–5544 or email usarmy.knox.usarec.mbx.sorb-recruiting@mail.mil or <https://www.goarmysof.army.mil/>.

(2) All applicants must meet the Military Occupational Specialty (MOS) 38R30 or 38W30 requirements listed in DA Pam 611–21.

(3) Must complete a Survival, Evasion, Resistance, and Escape Level C physical exam within 12-months prior to submitting an accessions application. Female Soldiers must have a negative pregnancy test within 30 days of their CA Assessment and Selection report date. 1st Special Warfare Training Group (Airborne) Surgeon is the approval authority for all medical waivers.

(4) Must be Airborne qualified or volunteer for Basic Airborne Course and maintain Special Qualification Identifier P (Parachutist).

(5) RA SSGs who elect to attend the CA Qualification Course who get selected for PME in their MOS in the current fiscal year Army Evaluation Board while attending any phase of the CA Qualification Course will be required to decline promotion before their respective OML number if they desire to continue through the CA training pathway in accordance with AR 600–8–19. If Servicemembers elect to sign the declination for promotion to remain in the training pathway, they will be considered Not Fully Qualified on the current Evaluation Board. If the Servicemember does not elect to sign the declination for promotion to attend PME, they will be removed from the CA training pathway and placed on an assignment based on the needs of the Army. The Servicemembers will be scheduled through HRC Schools Branch for their respective PME to be eligible for promotion to SFC. This will not negate future Army Evaluation Boards as the Servicemember will be eligible for promotion through future Evaluation Boards. All declination for promotion must be approved by the CA Commandant, U.S. Army John F. Kennedy Special Warfare Center, and School (USAJFKSWCS), AOJK–CA, Fort Bragg, NC (swcs-capersonnel@socom.mil).

b. Regular Army 38T Training Accessions Reporting Code criteria.

(1) Soldiers desiring to volunteer for RA CA duty should contact the nearest recruiting office and must meet the MOS 38R or 38W requirements listed in DA Pam 611–21 and below.

(2) Must have an approved Airborne and Survival, Evasion, Resistance, Escape Level C (SERE–C) physical exams. Female Soldiers must have a negative pregnancy test within 30 days of report date.

(3) Are 20 years of age by ship date to BT and have not reached their 32nd birthday prior to ship date.

(4) Complete the DLAB test with a minimum score of 65 or a 1/1 DLPT or 1+ OPI score within 12-months of the CA Qualification Course start date.

(5) Individuals will be enlisted in minimum pay grade E–2 (based on HQDA exception for this option).

c. U.S. Army Reserve 38B initial entry training criteria.

(1) Soldiers desiring to volunteer for USAR CA duty should contact U.S. Army Civil Affairs and Psychological Operations Command (USACAPOC) Retention Office Fort Bragg, NC at commercial (910) 643–3934 or DSN 643–3934. Outside the Continental United States (OCONUS) Soldiers in Hawaii should contact 322nd CA BDE Retention Office at commercial (808) 438–1600 extension 3384 or DSN 315–438–1600. Or contact the United States Army Recruiting Command (USAREC) at email usar-my.knox.usarec.mbx.sorb-recruiting@mail.mil or <https://www.goarmysof.army.mil/>.

(2) All applicants must meet the MOS 38B requirements listed in DA Pam 611–21.

d. U.S. Army Reserve 38B In-Service criteria.

(1) USAR In-Service Soldiers reclassifying into MOS 38B are restricted to the rank of SSG and below. Waivers for Soldiers in the rank of SSG (P) and SFC may be approved by the CA Commandant, USAJFKSWCS, (AOJK–CA), Fort Bragg, NC 28310–9610 (swscapersonnel@socom.mil).

(2) All applicants must meet the MOS 38B requirements listed in DA Pam 611–21.

(3) Soldiers may not be within 24-months of ETS.

(4) Soldiers must be assigned to a valid 38B position and attend reclassification training within 12-months of assignment.

10–9. Civil Affairs Training

a. RA In-Service 38R and 38W training pathways.

(1) RA Soldiers selected or who volunteer to attend CA Assessment and Selection should only be deleted, deferred, or otherwise prevented from attending CA Assessment and Selection by their assigned unit for the following reasons:

(a) If they become disqualified or ineligible to attend the course in accordance with the provisions of AR 614–200 or DA Pam 611–21. Requests, with justifications, must be approved by the first O5 Commander in the chain of command and forwarded through the MPD/ Personnel Reassignment Work Center for submission to HRC. Signature authorities may not be further delegated in accordance with AR 600–8–11.

(b) For operational reasons. The request must be approved by the first GO in the Soldier's chain of command. If approved, submit request to: Commanding General, U.S. Army Human Resources Command (AHRC–FSO–A), 1600 Spearhead Division Avenue, Fort Knox, KY 40122–5303, or emailed to usarmy.knox.hrc.mbx.epmd-psa-branch@army.mil to execute deletion or deferment of any associated reassignment. The action will not be submitted to HRC if disapproved by the Soldier's first GO in the chain of command. Signature authorities may not be further delegated.

(2) Soldiers must successfully complete CA Assessment and Selection. Soldiers will be disqualified from attending CA Assessment and Selection or CA Branch service if they have a history of disqualifiers listed in DA Pam 611–21.

(3) Attendance to CA Assessment and Selection after two attempts requires a waiver approved by the CA Commandant, USAJFKSWCS, AOJK–CA, to be scheduled for third and final CA Assessment and Selection attendance.

(4) OCONUS-based Soldiers may attend the CA Assessment and Selection course in a TDY and return status anytime during their tour. Upon successful completion of the CA Assessment and Selection course, Soldiers will be scheduled for the next available CA Qualification Course provided they have completed at least two-thirds of their overseas assignment obligation and have received approval from HRC for curtailment of the remainder of their overseas tour obligation. Soldiers serving on a short tour will not have their assignment curtailed.

(5) Soldiers must complete Basic Airborne Course after CA Assessment and Selection, however, before they PCS to the CA Qualification Course. Failure to complete the Basic Airborne Course, the Servicemember will return to their parent unit to re-attend Basic Airborne Course.

(6) CONUS-based Soldiers will attend the CA Assessment and Selection course in a TDY and return status anytime during their tour. Upon successful completion of CA Assessment and Selection, Soldiers will be scheduled to attend CA Qualification Course ensuring that they will have completed at least 1-year TOS prior to PCS.

(7) Soldiers must successfully complete the CA Assessment and Selection course before they can attend the CA Qualification Course. Soldiers will attend CA Assessment and Selection in a TDY and re-turn status and normally attend CA Qualification Course at the earliest available course; however, the following exceptions apply:

(a) Soldiers who volunteer for CA Assessment and Selection prior to being placed on AI will have their AI deferred to allow attendance at the CA Assessment and Selection course. Graduates' assignment to the CA Qualification Course will take precedence over any assignment conflict provided the Soldier volunteered for CA Assessment and Selection prior to being placed on AI.

(b) Soldiers who volunteer for CA Assessment and Selection prior to receiving deployment orders will be deferred to allow attendance at the CA Assessment, and Selection course provided their unit has not requested and received an exception to policy for operational needs. Soldiers volunteering for CA Assessment and Selection after receiving deployment orders will deploy with their unit.

(c) Upon successful completion of the CA Assessment and Selection course, Soldiers will be evaluated for placement in the most applicable CA Qualification Course. Soldiers will be rescheduled for CA Qualification Course, as required, through the USAJFKSWCS CA Qualification Course coordinator and Army Special Operations Forces Division, Enlisted Branch, HRC (AHRC-EPA-C). Soldiers will be scheduled for the next available CA Qualification Course provided a second PCS in the same fiscal year is not required for OCONUS-based Soldiers or who are CONUS-based have completed at least 12-months TOS prior to PCS to school.

(8) Soldiers are required to achieve a DLAB minimum score of 65 prior to attending the CA Qualification Course. Native speakers can present a 1+ OPI or 1+/1+ DLPT within 12-months of CA Qualification Course start date.

(9) Upon successful completion of the CA Qualification Course, graduates will be credited with ALC PME attendance as applicable.

b. RA 38T Training Accessions Reporting Code (TARC) training pathway.

(1) Soldiers will enlist under Option 3 (U.S. Army Training of Choice Enlistment Option), TARC 38T IET.

(2) Soldiers must complete OSUT.

(3) Soldiers must complete Basic Airborne Course.

(4) Soldiers must complete Basic Leadership Course.

(5) Soldiers must complete the CA Assessment and Selection and be selected.

(6) Upon CA Assessment and Selection completion and selection, individuals will be designated 38W CA Medical Sergeant or 38R CA Reconnaissance Sergeant Individual Training Pathway and successfully complete respective training pathways.

(7) Soldiers must obtain an interim secret clearance prior to MOS phase (based on initiation of an entrance national agency check) prior to starting the CA Qualification Course and be able to obtain a final secret clearance prior to graduation. Must obtain a Secret security clearance required for the initial award and to maintain the MOS in accordance with the provisions in AR 380-67.

(8) 38T Soldiers who are non-CA Assessment and Selection selects will be reported as Needs of the Army and available for immediate world-wide assignment.

c. USAR 38B IET training pathway. Initial entry Soldiers must complete Basic Combat Training (BCT) and MOS 38B AIT conducted under the auspices of CA Commandant, USAJFKSWCS, AOJK-CA, Fort Bragg, NC 28310-9607 (swscapersonnel@socom.mil).

d. USAR In-Service 38B training pathway. USAR Soldiers reclassifying into CMF 38 must complete 38B MOS reclassification training conducted under the auspices of CA Commandant, USAJFKSWCS, AOJK-CA, Fort Bragg, NC 28310-9610.

10-10. Retainability and Service Obligation for Civil Affairs

RA In-Service 38R and 38W.

a. Upon successful completion of formal training and award of MOS 38R, Civil Reconnaissance Sergeant, Soldiers will serve 36-months in an MOS 38R duty position in accordance with para 4-6.

- b. Upon successful completion of formal training and award of MOS 38W, CA Medical Sergeant, Soldiers will serve 36-months in an MOS 38W duty position in accordance with para 4–6.
- c. CA NCOs who received an advanced degree through an Army civilian schooling program are required to serve in an initial Army Educational Requirement System validated position for a minimum of 24-month.
- d. 38R Civil Reconnaissance Sergeants voluntary requests for reclassification may be submitted after completion of 24-months in a CMF 38 duty assignment. However, 38R NCOs will not be released from CMF 38 CA duty assignment or scheduled for training prior to completion of 36-months of duty.
- e. 38W CA Medical Sergeants voluntary requests for reclassification may be submitted after completion of 24-months in a CMF 38 duty assignment. However, 38W Soldiers will not be released from CMF 38 CA duty assignment or scheduled for training prior to completion of 36-months of duty.
- f. All requests for deletion or deferment for CMF 38 Soldiers on AI must be submitted to HRC for approval.

10–11. Military Occupational Specialty revocation criteria for Civil Affairs

Soldiers will be removed from CA duty, CMF 38 MOS withdrawn, and reported for reclassification and assignment when—

- a. They request termination from CA duty or airborne status (if required by their position).
- b. Their security clearance is withdrawn.
- c. They lose physical qualifications.
- d. The Soldier is a jump refusal.
- e. The Soldier loses ability to maintain SQI "P" (if required by their position).
- f. They fail to fulfill professional requirements or are found unsuitable for continued service within CMF 38, as evidenced by any of the following (not all inclusive):
 - (1) Civil convictions (whether or not an appeal is pending resolution) for a felony offense or an offense involving moral turpitude or any other conviction for civilian criminal offenses that result in suspended or unsuspended punishments of more than 6-months confinement or a fine in excess of \$5,000.
 - (2) Initiation of any adverse administrative elimination action for reasons specified in AR 635–200 (Soldiers serving on active duty) or AR 135–178 (RC Soldiers not serving on active duty).
 - (3) Repeated failure to perform MOS-related duties after counseling and rehabilitative reassignment.
 - (4) Any other act or series of acts inconsistent with the integrity, professionalism, and conduct required of a CA Soldier.
- g. All MOS revocation actions must be submitted to and approved by the CA Commandant, USAJFKSWCS, AOJK–CA, Fort Bragg, NC (swcscapersonnel@socom.mil).
- h. Soldiers terminated from CA duty will be reported as Needs of the Army and available for immediate world-wide assignment.
- i. Soldiers identified for separation will be separated in accordance with AR 635–200 (Soldiers serving on active duty) or AR 135–178 (RC Soldiers not serving on active duty).

10–12. Psychological Operations Initial Accessions Program

Anyone desiring to volunteer for PSYOPS duty may contact the nearest recruiting office (NPS) or Special Operations Recruiting Battalion (in-service). The requirements for the PSYOPS initial accession program include the following:

- a. Is a U.S. citizen (non-waivable).
- b. RA Soldiers must be qualified for and volunteer for airborne training (must have airborne stamp on physical).
- c. Have a minimum GT score of 105 (non-waivable).
- d. RA Soldiers must have a minimum DLAB score of 75 or provide a DLPT or OPI with a minimum of 1+/1+ reading and listening within the last 12 months.
- e. Is a High School Diploma Graduate, waivable to GED on a case-by-case basis. Must have diploma or waiver prior to ship date.
- f. Have no derogatory or adverse information that would preclude the granting of a secret or top-secret security clearance.
- g. Must have a physical profile rating of no less than 111221 and have normal color vision.

10–13. 37F initial entry training path

a. RA IAP (RA 37F IET). Anyone desiring to volunteer for PSYOPS duty may contact the nearest recruiting office. Additional requirements are listed in DA Pam 611–21 and below:

- (1) Must demonstrate enunciation and comprehension of English and good Standard English grammar skills.
- (2) Qualified for, and volunteer for, airborne training.
- (3) Must have an approved Airborne Physical prior to PSYOPS assessment and selection and ability to complete a Special Operations physical during attendance in the PSYOPS training pathway. Female Soldiers must have a negative pregnancy test within 30 days of PSYOPS assessment and selection report date.
- (4) Those individuals already MOS qualified as 31B and airborne qualified will enlist under option 18 (U.S. Army First Assignment–No Training Enlistment Option) with assignment to Fort Bragg, NC, and once in-processed will start training with the PSYOPS preparatory and conditioning course.
- (5) Complete the DLAB test within 30 days of Delayed Entry Program with a minimum score of 75 (waivable by the Proponent, PSYOPS, U.S. Army Special Operations CoE (AOJK–PO) (usasoc.arsof.proponency.shdmbx@socom.mil) for enlisted personnel who are native speakers) or a DLPT or OPI with a minimum of 1+/1+ reading and listening score, given within the last 6 months.

b. Individuals who are NPS will enlist under Option 3 (U.S. Army Training of Choice Enlistment Option), MOS 37F, and will ship to Fort Leonard Wood, MO, and follow the training path listed below.

- (1) In-process through the Reception Battalion.
- (2) Complete OSUT for MOS 31B.
- (3) Complete Airborne Training (Fort Benning, GA).
- (4) Complete the PSYOPS preparatory and conditioning course (Fort Bragg, NC). This course is 3 weeks in duration, consisting of basic Soldier skills, physical conditioning, small unit team building, and human dynamic training.
- (5) Once a Soldier meets all criteria, they will be scheduled for PSYOPS assessment and selection (11 days) as outlined in ATRRS.
- (6) To start PSYOPS assessment and selection, the Soldier must be able to complete a PFA with a minimum score of 60 points per event and a cumulative score of 210 points based on the Soldier's sex and age bracket.
- (7) Individuals must obtain a SERE physical upon successful completion of the PSYOPS assessment and selection course.

10–14. Psychological operations In-service recruits

a. In-service recruits. Enlisted Soldiers desiring to volunteer to reclassify to PSYOPS should contact the Special Operations Recruiter Battalion at (910) 432–1818, or www.goarmysof.com, provided they meet the requirements in DA Pam 611–21 and the following:

- (1) Must demonstrate clear enunciation and comprehension of English and good Standard English grammar skills.
- (2) Upon successful completion of the 37F reclassification course or PSYOPS training pathway, RA Soldiers must be utilized in a CMF 37 MOS duty position for 36 months. RC Soldiers must be utilized for a minimum of 9 months.
- (3) Not currently serving in a restricted MOS or Branch and are eligible to reclassify from current MOS into CMF 37.
- (4) Must not be barred to continued service or be under suspension of favorable personnel action (see AR 600–8–2).
- (5) Must not have been convicted by court-martial or have disciplinary action noted in their OMPF under the provisions of UCMJ, Art. 15, waivable with the written approval of the Proponent, PSYOPS, U.S. Army Special Operations CoE (AOJK–PO). Soldiers will be disqualified from attending PSYOPS assessment and selection course if they have engaged in any conduct specifically prohibited by CG, U.S. Army Special Operations CoE. The Special Operations Recruiter Battalion maintains a current list of CG, U.S. Army Special Operations CoE disqualifiers.
- (6) Must not have been terminated from airborne duty, unless termination was due to medical release or voluntary termination due to compelling exceptional circumstance that were—
 - (a) Documented at the time of termination.
 - (b) Endorsed by the chain of command.

(7) Must not have any lost time under 10 USC 972 within the current or preceding enlistment. Waivable for up to but not more than 30 days lost time with the written approval of the Proponent, PSYOPS, U.S. Army Special Operations CoE (AOJK-PO).

(8) RA additional qualifications:

(a) Soldiers must be in the rank of PFC/E3 with a minimum of 18 months of active Federal service through SGT/E-5 non-promotable with no more than 10 years active Federal service at the time of submission of reclassification packet, waivable with the written approval of the PSYOPS Proponent, U.S. Army Special Operations CoE (AOJK-PO).

(b) By exception, Soldiers in the rank of PV2/E2, SGT/E-5 (promotable), and SSG/E-6 may apply for reclassification only with the written approval of PSYOPS Proponent, U.S. Army Special Operations CoE (AOJK-PO).

(c) Must be airborne qualified or medically qualified for and volunteer to attend airborne training.

(d) Must successfully complete BLC if not previously qualified.

(e) Must achieve a minimum passing score in each event on the Army physical readiness test of record.

(f) Must have a current SERE Level C physical exam and be able to meet medical fitness standards as prescribed in AR 40-501. Soldiers will attend SERE as necessary based on mission requirements.

(g) Must take the DLAB test prior to the beginning of the PSYOPS training pathway and achieve a minimum score of 75 (waivable under the written approval of PSYOPS Proponent, U.S. Army Special Operations CoE (AOJK-PO)) or have a current (within the last 12 months) DLPT with a minimum of 1+/1+, reading and listening score; or an OPI with a minimum 1+/1+ listening and speaking score.

(h) Female Soldiers must have a negative pregnancy test within 30 days of their PSYOPS assessment and selection report date.

(9) RC additional qualifications:

(a) USAR Soldiers reclassifying into MOS 37F are restricted to the rank of SGT/E-5 and below pursuant to guidance in DA Pam 611-21.

(b) By exception, USAR Soldiers in the rank of SSG/E-6 and SFC/E-7 are authorized only with the written approval of the head of PSYOPS Personnel Proponency Division, U.S. Army John F. Kennedy Special Warfare Center, and School (AOJK-POP), pursuant to guidance in DA Pam 611-21.

b. Completed applications should be forwarded to the Special Operations Recruiter Battalion recruiting center responsible for servicing the designated area. The application will be forwarded to the Special Operations Recruiter Battalion (RCMR-SO), Fort Bragg, NC 28310-9600 (usar-my.knox.usarec.mbx.sorb-recruiting@army.mil) for final review, formal processing, and formal scheduling for attendance of the PSYOPS assessment and selection course.

10-15. Additional criteria exclusive to enlisted applicants to psychological operations

a. Stabilization of current DSs and detailed recruiters will not be broken.

b. RA Soldiers that successfully complete the PSYOPS assessment and selection course will normally have their RCP waived to attend the PSYOPS training pathway. Upon successful completion of the PSYOPS training pathway, they will be allowed continued service. SGTs approaching their RCP will not be allowed to apply. PFC through SGT must have no less than 18 months and not more than 10 years TIS when volunteering for PSYOPS assessment and selection (waivable under the written approval of the Proponent, Psychological Operations, U.S. Army Special Operations CoE (AOJK-PO)).

c. RA Soldiers who are on orders to a short tour area will be allowed to attend the PSYOPS assessment and selection course if a deferment is not required.

d. Soldiers who volunteer for the PSYOPS assessment and selection course prior to receiving assignment notification will be deferred to allow for PSYOPS assessment and selection course attendance.

e. After being scheduled for PSYOPS assessment and selection, Soldiers should only be deleted, deferred, or otherwise prevented from attending training for the following reasons:

(1) If they become disqualified or ineligible to attend the course in accordance with the provisions of this regulation. The request must be endorsed by the Soldier's first LTC/O-5 in the chain of command and submitted to the Commander, Special Operations Recruiter Battalion, in accordance with AR 600-8-11.

(2) For operational reasons. The request must be approved by the Soldier's first GO in the chain of command, after coordination with the Commander, Special Operations Recruiter Battalion, to gauge the impact of the deletion or deferment action, in accordance with AR 600-8-11.

(3) These authorities may not be further delegated.

f. OCONUS-based Soldiers may attend the PSYOPS assessment and selection course at any time during their tour. Upon successful completion of the PSYOPS assessment and selection course, Soldiers will be scheduled for the next available PSYOPS training pathway provided they have completed at least two-thirds of their overseas assignment obligation and have received approval from CG, HRC for curtailment of the remainder of their overseas tour obligation. Soldiers serving on a short tour will not have their assignment curtailed.

g. CONUS-based Soldiers may attend the PSYOPS assessment and selection course at any time during their tour. Upon successful completion of PSYOPS assessment and selection, Soldiers will be scheduled to attend the PSYOPS training pathway provided that they have at least 1-year TOS prior to PCS.

10–16. Additional requirements for psychological operations

a. RA Soldiers must successfully complete the PSYOPS assessment and selection course before they can attend the PSYOPS training pathway. Soldiers will attend PSYOPS assessment and selection in a TDY and return status. Soldiers may normally attend at any time; however, the following exceptions apply:

(1) Soldiers on OCONUS AI must have their career branch manager's approval to attend PSYOPS assessment and selection but will not be scheduled for PSYOPS training pathway until completion of their prescribed tour.

(2) Soldiers on AI to dependent-restricted short tour may attend PSYOPS assessment and selection, if a deferment is not required, but will not be scheduled for PSYOPS training pathway until completion of their prescribed tour.

(3) Soldiers who volunteer for PSYOPS assessment and selection prior to receiving AI will be deferred to allow attendance at the PSYOPS assessment and selection course. Graduates' assignment to the PSYOPS training pathway will take precedence over any assignment conflict provided the Soldier volunteered for PSYOPS assessment and selection prior to receiving AI.

(4) Soldiers who volunteer for PSYOPS assessment and selection prior to receiving deployment orders will be deferred to allow attendance, provided their unit has not requested and received an exception to policy for operational needs. Soldiers volunteering for PSYOPS assessment and selection after receiving deployment orders will deploy with their unit, except as exempted by AR 600–8–11.

(5) Soldiers who are enlisted for AD under the Prior Service Accessions Program and have not successfully completed PSYOPS assessment and selection previously, must successfully complete PSYOPS assessment and selection prior to any additional requisite training or reporting to the operational force.

b. RA Soldiers, upon successful completion of the PSYOPS assessment and selection course, will be scheduled for the next available PSYOPS training pathway provided:

(1) A second PCS in the same fiscal year is not required for OCONUS-based Soldiers.

(2) Soldiers who are CONUS-based have completed at least 12 months TOS prior to PCS to school.

c. Soldiers must obtain at least an interim secret security clearance (based on initiation of an entrance national agency check) prior to starting the 37F reclassification training or PSYOPS training pathway.

(1) All RA and RC Soldiers must be able to obtain and hold a final Secret security clearance prior to graduation of the full training path and PCS to unit of assignment.

(2) RA Soldiers must be able to obtain and hold a final top secret with sensitive compartmental information security clearance within 24 months of initial MOS award. Waivers may be granted by 1st Special Forces Command (Airborne), Command Sergeant Major (AOSO–CSM).

(3) If a Soldier is unable to obtain a favorable adjudication of their security clearance after graduation of the PSYOPS training pathway they will be terminated from PSYOPS duty, CMF 37 MOS withdrawn, and reported for immediate reclassification and assignment in accordance with all applicable Army Regulations.

10–17. Retainability and service obligation for psychological operations

a. For RA Soldiers, voluntary requests for reclassification may be submitted after completion of 24 months' utilization in a CMF 37 duty assignment. However, Soldiers will not be released from CMF 37 duty assignment or scheduled for training prior to completion of 36 months of duty.

b. Upon departure from a CMF 37 duty position, Soldiers later reassigned back to a CMF 37 duty position incur a 36-month reassignment SRR.

10–18. Military occupational specialty revocation criteria for psychological operations

a. RA and RC Soldiers will be terminated from PSYOPS duty, CMF 37 MOS withdrawn, and reported for reclassification and Armywide assignment when:

- (1) They request termination from PSYOPS duty or airborne status.
- (2) Their security clearance is withdrawn.
- (3) They lose physical qualifications.
- (4) They fail to fulfill professional requirements or are found unsuitable for continued service within CMF 37, as evidenced by any of the following (not all inclusive):

(a) Civil convictions (whether or not an appeal is pending resolution) for a felony offense or an offense involving moral turpitude or any other conviction for civilian criminal offenses that result in suspended or unsuspended punishments of more than 6 months' confinement or a fine in excess of \$5,000.

(b) Initiation of any adverse administrative elimination action for reasons specified in AR 635–200.

(c) Repeated failure to perform MOS-related or ASI-related duties in accordance with DA Pam 600–25, after counseling and rehabilitative reassignment.

(d) Any other act or series of acts inconsistent with the integrity, professionalism, and conduct required of a PSYOPS Soldier.

b. Soldiers terminated from PSYOPS duty will be reported as available for Armywide assignment.

c. RA Soldiers and RC Soldiers in Airborne units must be able to maintain Airborne status unless not required by position.

d. Soldiers who are unable to maintain Airborne status due to a medical condition or permanent pro-file may continue to serve in CMF 37 within the limits of their physical capabilities and be assigned in accordance with their limitations. Soldiers that fall into this category:

- (1) Will not be assigned to a billet at the tactical level.
- (2) Will not be assigned to leadership positions that require the performance of Airborne operations.
- (3) May serve in staff or instructor positions (provided the performance of Airborne operations are not required).

(4) Must be advised and understand that their promotion potential and opportunities for advancement within CMF 37 may be encumbered due to their inability to serve in career developmental positions that require Airborne duties.

10–19. U.S. Army Special Operations Command operational support or force sustainment positions

a. Soldiers in the grade of E–1 through E–6 may volunteer provided the following criteria are met:

- (1) Be a high school graduate or GED equivalent.
- (2) Be a U.S. citizen (by birth or naturalization).
- (3) Have or be able to obtain and maintain applicable security clearance that is required for the position.
- (4) Not listed as a military sex offender (see table 3–3) and have a favorable National Sex Offender Registry check.
- (5) Have no record of conviction by court-martial.
- (6) Have no personal habits or character traits that are questionable from a security standpoint, including financial irresponsibility, foreign holdings or interest, alcohol, or drug misuse (does not include Soldiers who are declared rehabilitation successes under the ASAP), gambling, or emotional dysregulation.
- (7) Have no diagnosed mental or psychiatric disorders which, in the opinion of competent medical authority, may cause a defect in judgment or reliability with due regard to the transient or continuing effect of the illness and the medical findings in such case.
- (8) Have a minimum GT score of 100.
- (9) Meet body composition requirements in AR 600–9.
- (10) Have 36 months' time remaining in service upon arrival at assignment, unless designated OCONUS tour is less.
- (11) Soldiers must not be suspended from favorable personnel actions in accordance with AR 600–8–2.
- (12) Soldiers must be airborne qualified or have volunteered for airborne training.
- (13) Soldiers must be fully MOS qualified. If there is a disqualifying permanent medical profile, it must be determined by a Military Occupational Specialty Administrative Retention Review (MAR2) whether or

not Soldiers are assignable (deployable) worldwide and can be properly used in an USASOC organization.

b. In addition to the criteria in paragraph 10–2, Soldiers in the grade of E–7 through E–9 may volunteer or be recommended by the Soldier's current chain of command through a talent management slating process provided the following criteria are met:

- (1) Soldiers must submit a Talent Management packet that consists of the following:
 - (a) Request for Assignment Memorandum (email the USASOC Enlisted Management Branch @usasocg1emb@ahqb.socom.mil for the most up to date information).
 - (b) Soldier Record Brief.
 - (c) Last three NCOERs.
- (2) Soldiers will be selected for positions based on the following:
 - (a) Army needs.
 - (b) ARSOF needs.
 - (c) Slating decisions are made by a panel of ARSOF subject matter experts in concert with HRC Branch representatives accounting for professional growth and development.
- (3) Soldiers selected for an ARSOF position will be placed on AI in accordance with the following:
 - (a) Soldiers assigned OCONUS must have their career branch manager's approval and must submit their application no less than 5 months from their DEROS, not to report until completion of their prescribed tour. Assignment curtailments must be approved by their career branch manager and will be processed on a case-by-case basis by HRC.
 - (b) Soldiers on AI to a dependent-restricted short tour when applying may not report until completion of their prescribed tour.
 - (c) Requests for deletion or deferment of Soldiers slated to or from an ARSOF unit must be submitted to USASOC G1 for recommendation and CG, HRC for approval.
 - (d) Soldiers assigned CONUS selected for assignment to an ARSOF unit must complete at least 12 months at current location prior to PCS.
 - (e) Upon assignment to an ARSOF unit, Soldiers are stabilized utilizing AEA code W for the agreed upon tour length between HRC and ARSOF slating officials.
- c. Waiver authority for assignment criteria is the CG, USASOC. Requests or recommendations for waivers will only be considered for the following:
 - (1) GT aptitude area score is waivable, for otherwise fully qualified Soldiers, to a score of no less than 90.
 - (2) Not possessing the requisite grade.
 - (3) The TOS and retainability.
 - (4) Airborne. Waivers will be approved based on the following order of precedence:
 - (a) Previous Airborne experience, to include Soldiers who decline Airborne assignment.
 - (b) Airborne volunteers.
 - (c) Non-Airborne personnel. When previous attempts to fill from all other categories have been exhausted, ARSOF will accept non-airborne personnel up to a maximum level in accordance with current Army manning guidance.
- d. Final assignment decision will be made by CG, HRC in accordance with policy and Armywide personnel readiness concerns.

10–20. 75th Ranger Regiment assignments

a. The Ranger Assessment and Selection Program is broken down into two separate courses. Ranger Assessment and Selection Program 1 must be completed by all Skill Level 1 and 2 Soldiers to gain AI to the 75th Ranger Regiment. The Ranger Assessment and Selection Program 2 requirements must be completed by all E–6 through E–9 in order to gain AI to the 75th Ranger Regiment. Requirements to successfully complete Ranger Assessment and Selection Program 1 and Ranger Assessment and Selection Program 2 are the same and as follows.

- (1) Pass the Ranger Fitness Test (58 Push-ups, 69 Sit-ups, run 5 miles in 40 minutes or less, 6 pull-ups).
 - (2) Must complete 12-mile foot march in 3 hours or less with a 35lb rucksack.
 - (3) Must complete the Ranger Swim Ability Evaluation while displaying confidence in the water.
- Ranger Assessment and Selection Program 1 candidates must attempt (not required to pass) the Ranger

Swim Ability Evaluation. Ranger Assessment and Selection Program 2 candidates must successfully complete the Ranger Swim Ability Evaluation.

(4) Must conduct full psychological screening with no major psychological profiles identified by the Regimental Psychologist.

(5) All Ranger Assessment and Selection Program candidates must have and maintain a secret security clearance prior to attending the course.

(6) Must pass the Commander's Board. For Ranger Assessment and Selection Program 1 candidates, this event is for select individuals based on peer evaluations, cadre assessment, and overall performance. The Commander's Board is a requirement for all Ranger Assessment and Selection Program 2 candidates.

(7) All Ranger Assessment and Selection Program candidates must successfully complete the Ranger Assessment and Selection Program of Instruction in order to serve in the 75th Ranger Regiment.

b. IAP Option 40. Individuals desiring to volunteer for Ranger Regiment duty may contact the nearest recruiting office. The requirements are listed below –

(1) Qualify for, and volunteer for Airborne Training (must have airborne stamp on physical).

(2) Are U.S. citizens (non-waivable).

(3) Have a minimum GT score of 105 for NPS/ Prior Service (PS) enlistees (only waivable by the Commander, 75th Ranger Regiment, (AORG–CO), Ft. Benning, GA 31905). Direct inquiries to the Recruiting Detachment; email: 75recruit@socom.mil or 75officerrecruit@socom.mil.

(4) Are eligible for and maintain a secret security clearance.

(5) Volunteer to attend airborne training after the completion of AIT. Must successfully complete all pre-BT tasks required by the USAREC prior to ship date.

(6) AIT Soldiers must demonstrate the ability to run 5 miles in 42:30 or faster upon completion of AIT. All soldiers must achieve all Regimental Physical Fitness Standards no later than the end of Ranger Assessment and Selection Program 1.

(7) Have a physical profile rating of no less than 111221 and meet additional requirements for eyes and vision in accordance with AR 40–501.

(8) Do not have any moral or physical waivers.

(9) Are willing to attend Ranger School.

(10) Those individuals already MOS qualified in an MOS authorized within the Ranger Regiment MTOE and are airborne qualified will enlist under option 40 (U.S. Army Airborne Ranger) with assignment to Ft. Benning, GA, and, once in-processed, will start Ranger Assessment and Selection Program 1.

c. 75th Ranger Regiment Training Path IAP Option 40. Individuals who are NPS, days of service/PS, and require retraining will enlist under Option 40 (Airborne Ranger), will ship to subsequent AIT per requested MOS, and follow the training path listed below:

(1) In-process through the reception battalion.

(2) AIT Soldiers must demonstrate the ability to run 5 miles in 42:30 or faster upon completion of AIT. No later than the end of Ranger Assessment and Selection Program 1, all Soldiers must achieve all Regimental Physical Fitness Standards.

(3) Basic Airborne Course.

(4) The Ranger Assessment and Selection Program 1 Course (Fort Benning, GA), as described in ATRRS course catalog. This course trains, assesses, and selects Skill Level 1 and 2 Soldiers for service in the 75th Ranger Regiment.

(5) Once the Soldier successfully completes Ranger Assessment and Selection Program 1, they will be assigned to positions within the Ranger Regiment per Regimental manning needs.

d. In-Service Recruits. Soldiers (PVT through SFC) desiring to volunteer for service with the 75th Ranger Regiment should contact the 75th Ranger Regiment Recruiting Detachment (Commander, 75th Ranger Regiment, (AORG–CO), Fort Benning, GA 31905). Direct inquiries to the recruiting team; email: 75recruit@socom.mil or 75officerrecruit@socom.mil provided they meet the following criteria—

(1) Must be a RA Soldier (non-waivable).

(2) Must be a U.S. citizen (non-waivable).

(3) Must have a GT score of 105 or higher (only waivable by the Commander, 75th Ranger Regiment).

(4) Pass the ranger fitness test (58 push-ups, 69 sit-ups, run 5 miles in 40 minutes or less, 6 pull-ups).

(5) Must be airborne qualified or volunteer to attend airborne training.

(6) Must have a physical profile of 111221 or better and able to meet medical fitness standards as prescribed in AR 40–501.

- (7) Must be eligible for and maintain a secret security clearance.
- (8) Must be of good moral character (no pending UCMJ action or drug or alcohol-related incidents within 24 months).
- (9) No Soldier, regardless of MOS or basic branch will be recruited if unable to reclassify from current MOS into an MOS within the Ranger Regiment MTOE.
- e. Additional criteria exclusive to enlisted applicants:
 - (1) Stabilization of current DSs and detailed recruiters will not be broken.
 - (2) Soldiers on assignment will not be allowed to attend Ranger Assessment and Selection Program without their branch manager's prior approval. Soldiers on orders to a short tour area will not be allowed to attend Ranger Assessment and Selection Program until completion of assigned tour. These Soldiers may submit an application and will be assigned at the earliest available training date after their DEROS.
 - (3) OCONUS-based Soldiers must complete their assigned tour prior to attending Ranger Assessment and Selection Program. Soldiers' branch manager must approve authorizations for curtailment and the appropriate HRC curtailment authority, and Soldier must have completed at least two-thirds of their overseas assignment obligation. Soldiers may submit their application no less than 5 months prior to their DEROS.
 - (4) CONUS-based Soldiers may attend Ranger Assessment and Selection Program in a TDY and return status upon completion of 10 months' TOS. Upon completion of Ranger Assessment and Selection Program, Soldiers will PCS to their gaining battalion within the Ranger Regiment, ensuring that they will have completed at least 12 months TOS prior to PCS.
 - (5) Must have a minimum of 24 months remaining TIS upon completion of Ranger Assessment and Selection Program. Soldiers who will not be able to meet TIS remaining requirements upon completion of Ranger Assessment and Selection Program must take action to re-enlist or extend their contract to meet TIS remaining requirements.
- f. All applicants must not—
 - (1) Be barred to continued service or be under suspension of favorable personnel action.
 - (2) Have been convicted by court-martial or have disciplinary action noted in their AMHRR under the provisions of the UCMJ, Art. 15. This provision can only be waived by the Commander, 75th Ranger Regiment, on a case-by-case basis.
 - (3) Have been released for standards from the Ranger Regiment where the commander or CSM stated "Never to Return." If stated otherwise, requested action must be completed prior to ASCO.
 - (4) Have 30 days or more lost time under 10 USC 972 within the current or preceding enlistment.
- g. Soldiers must successfully complete Ranger Assessment and Selection Program prior to being placed on AI for gaining battalion within the 75th Ranger Regiment. Soldiers will attend Ranger Assessment and Selection Program in a TDY and return status and normally attend at any time; however, the following exceptions apply:
 - (1) Soldiers on OCONUS AI must have their career branch manager's approval and must submit their application no less than 5 months from their DEROS, not to report for training until completion of their prescribed tour. Assignment curtailments must be approved by their career branch and will be processed on a case-by-case basis by HRC.
 - (2) Soldiers on AI to a dependent-restricted short tour may not attend Ranger Assessment and Selection Program until completion of their prescribed tour.
 - (3) Soldiers who volunteer for assignment to the 75th Ranger Regiment prior to receiving AI will be deferred to allow attendance to Ranger Assessment and Selection Program. Graduates' assignment to the 75th Ranger Regiment will take precedence over any assignment conflict provided the Soldier volunteered for the 75th Ranger Regiment prior to receiving AI.
 - (4) Soldiers who volunteer for the 75th Ranger Regiment prior to receiving deployment orders will be deferred to allow attendance to Ranger Assessment and Selection Program provided their unit has not requested and received an exception to policy for operational needs. Soldiers volunteering for service in the 75th Ranger Regiment after receiving deployment orders will deploy with their unit. Post-deployment stabilization may be waived to meet training dates.
- h. After successful completion of Ranger Assessment and Selection Program, Soldiers will be stabilized no less than 48 months with the opportunity to extend twice for 36 months per each extension.
- i. After being scheduled for Ranger Assessment and Selection Program, Soldiers should only be deleted, deferred, or otherwise prevented from attending training for the following reasons:

(1) If they become disqualified or ineligible to attend the course in accordance with the provisions of this regulation. The request must be endorsed by the Soldier's first LTC/O-5 in the chain of command and submitted to the 75th Ranger Regiment Recruiting Detachment, in accordance with AR 600-8-11.

(2) For operational reasons. The request must be approved by the Soldier's first GO in the chain of command, after coordination with the 75th Ranger Regiment Recruiting Detachment, to gauge the impact of the deletion or deferment.

j. Soldiers will be released from the 75th Ranger Regiment under the authority of the Regiment Commander and report for AI at the needs of the Army when—

(1) They request termination from the 75th Ranger Regiment or airborne status.

(2) They refuse to jump from an aircraft while it is airborne.

(3) Their security clearance is withdrawn.

(4) They fail to maintain physical qualifications of Ranger Assessment and Selection Program standards for service in the 75th Ranger Regiment.

(5) They fail to fulfill professional requirements or are found unsuitable, as evidenced by any of the following (not all inclusive):

(a) Civil convictions (whether or not an appeal is pending resolution) for a felony offense or an offense involving moral turpitude or any other conviction for civilian criminal offenses that result in suspended or unsuspended punishments of more than 6 months confinement or a fine in excess of \$5,000.

(b) Initiation of any adverse administrative elimination action for reasons specified in AR 635-200.

(c) Repeated failure to perform MOS-related or ASI-related duties after counseling and rehabilitative reassignment.

(d) Any other act or series of acts inconsistent with the integrity, professionalism, and conduct required of a Soldier in the 75th Ranger Regiment.

k. Soldiers terminated from the 75th Ranger Regiment status will be reported as IA.

l. The SQI "U" (Ranger Regiment Leader) identifies positions and personnel in any MOS (skill level 2-6) who have specialized training and experience within the 75th Ranger Regiment. The SQI "U" will supersede the SQI "V" (Airborne/Ranger qualified) on all personnel management systems based on the unique skills of the 75th Ranger Regiment NCO. All enlisted Soldiers who complete internal/external leader training requirements as well as meet the commanders experience requirements will be awarded SQI "U" for future ASCO. These requirements for the SQI "U" include:

(1) All qualifications required to receive the SQI "V" are met, including successful completion of Airborne and Ranger schools.

(2) Successful completion of the Ranger Assessment and Selection Program.

(3) Successful completion of the Small Unit Ranger Tactics program.

(4) 24 months assigned to the Ranger Regiment.

(5) Must be in the ranks of SGT to CSM.

(6) Assigned Battalion Commander recommendation within the 75th Ranger Regiment.

(7) Qualifying Soldiers no longer assigned to the Ranger Regiment may provide a PAR to the 75th Ranger Regiment commander for consideration to receive the SQI "U."

(8) Revocation authority for the SQI "U" designation is with the 75th Ranger Regimental commander and will be considered when a Ranger is released for standards.

m. All personnel assignments into, within, or leaving the 75th Ranger Regiment will be coordinated by ARSOF Branch Chief, HRC.

(1) No assignment action will be taken on any personnel assigned to the 75th Ranger Regiment without official coordination with the 75th Ranger Regiment Commander or CSM and ARSOF Branch Chief, HRC.

(2) Soldiers assigned to the 75th Ranger Regiment must coordinate any assignment requests outside of the 75th Ranger Regiment with ARSOF Branch Chief, HRC. ARSOF Branch Chief, HRC will coordinate the release with the Soldier's Career Branch manager, and then ARSOF Branch Chief, HRC, will place the Soldier on assignment.

10-21. Special mission units

a. Soldiers who desire to volunteer or who are recommended by the Soldier's current chain of command for assignment to a special mission unit at Fort Bragg may email usarmy.bragg.usasoc.mbx.sof-recruiter@army.mil and in the national capital region may email usarmy.ncr.usasoc.mbx.info@army.mil.

b. All Soldiers must meet the following qualifications:

- (1) GT score of 110 or higher.
- (2) 3 years minimum TIS.
- (3) Rank of E-5 or above.
- (4) 22 years of age or older.
- (5) Be a high school graduate or GED equivalent.
- (6) Be a U.S. citizen (by birth or naturalization).
- (7) Possess a Secret clearance, eligible for upgrade to top secret.
- (8) Must be airborne qualified or have volunteered for airborne training.
- (9) Does not misuse drugs or alcohol.
- c. Desirable qualities of a candidate:
 - (1) Be of high moral character.
 - (2) Be sufficiently intelligent to interpret orders and regulations.
 - (3) Be capable of communicating effectively with individuals at all levels.
 - (4) Be free of family/financial/marital problems.
 - (5) Be willing to work long, irregular hours, to include weekends, holidays, and nights.
 - (6) Individual must be a self-starter and be capable of working with little, if any, supervision for long periods of time.
 - (7) Be creative and organized.
 - (8) No issues preventing an extended TDY schedule, if required.
 - (9) Be exceptionally well qualified in applicable MOS.
 - (10) Not be suspended from favorable personnel actions.
- d. Continued service in special mission units is at the discretion of the unit's leadership.
- e. Final assignment decision will be made by CG, HRC in accordance with policy and Armywide personnel readiness concerns.

10-22. U.S. Army Special Operations Command

All Soldiers assigned to U.S. Special Operations Command (USSOCOM), to include the seven Theater Special Operations Commands (Special Operations Command Africa, Special Operations Command Central, Special Operations Command Europe, Special Operations Command Korea, Special Operations Command North, Special Operations Command Pacific, and Special Operations Command South), must meet the following criteria:

- a. Applicable security clearance for positions that may be up to top secret security clearance under AR 380-67. If new investigations are required, commanders will submit requests for investigations with-in 21 days of receipt of AI.
- b. Must have served a minimum of 6 years on AD.
- c. Must be in the rank of SGT or above.
- d. Vetted by the gaining command and requested for assignment to USSOCOM or any of the other seven Theater Special Operations Commands if Soldier meets all eligibility requirements.
- e. Have no personal habits or character traits that are questionable from a security standpoint, including financial irresponsibility, foreign holdings or interest, alcohol, or drug misuse (does not include Soldiers who are declared rehabilitation successes under the ASAP), gambling, or emotional dysregulation.
- f. Have no diagnosed mental or psychiatric disorders which, in the opinion of competent medical authority, may cause a defect in judgment or reliability with due regard to the transient or continuing effect of the illness and the medical findings in such case.
- g. Must be exceptionally well qualified in applicable MOS.
- h. Must exhibit superior military bearing, neatness, and manner.
- i. Possess mature judgment and initiative.

10-23. 160th Special Operations Aviation Regiment (Airborne)

- a. Soldiers who desire to volunteer or who are nominated for assignment to the 160th SOAR(A) will submit an application and visit the Special Operations Recruiter Battalion Recruiting Home Page at <https://go160thsoar.com>.
- b. All Soldiers must meet the following qualifications:
 - (1) Be a high school graduate or GED equivalent.
 - (2) Be a U.S. citizen (by birth or naturalization).

(3) Possess or able to obtain applicable security clearance that is required for the position. Soldiers will apply for and be granted, at a minimum, an Interim Secret clearance before they proceed on AI.

(4) Have no record of conviction by court-martial or time lost to be made good under 10 USC 972 during current enlistment or last 3 years, whichever is longer.

(5) Have no record of civil conviction, except for minor offenses that do not disqualify for a Secret security clearance under AR 380–67.

(6) Have no personal habits or character traits that are questionable from a security standpoint, including financial irresponsibility, foreign holdings or interest, alcohol, or drug misuse (does not include Soldiers who are declared rehabilitation successes under the ASAP), gambling, or emotional dysregulation.

(7) Have no diagnosed mental or psychiatric disorders which, in the opinion of competent medical authority, may cause a defect in judgment or reliability with due regard to the transient or continuing effect of the illness and the medical findings in such case.

(8) Have a minimum GT score of 100. A waiver no less than a score of 90 will be considered for exceptional circumstances. Soldiers with a GT score below 100 but not less than 90 will have 24 months from the date of assignment to raise their GT score to 100 or above.

(9) Meet body composition requirements in AR 600–9.

(10) Meet Army Physical Fitness Standards within the last 30 days of application or nomination.

(11) Have 36 months' time remaining in service upon arrival at assignment unless the designated OCONUS tour is less. The Regiment CSM is the only waiver authority.

(12) Soldiers must not be suspended from favorable personnel actions, to include a disqualifying flagging action for a minor infraction (see AR 600–8–2). The ARSOF Branch 160th Assignments Manager is the only waiver authority.

(13) Soldiers assigned to an airborne paid parachutist position must be airborne qualified or have volunteered for airborne training.

(14) Soldiers must be fully MOS qualified. If there is a disqualifying permanent medical profile, it must be determined by a MAR2 whether or not the Soldier is assignable (deployable) worldwide and can be properly used in an USASOC organization.

c. CONUS-based Soldiers volunteering for assignment to the 160th SOAR(A) must complete at least 18 months at current location prior to PCS. Soldiers can attend the Enlisted Combat Skills Training course in a TDY and return status at any time as long as attendance does not hinder unit operational requirements. Upon successful completion of the Enlisted Combat Skills Training course, Soldiers will PCS to their gaining battalion within the 160th SOAR(A).

d. OCONUS-based Soldiers volunteering for assignment to the 160th SOAR(A) must fulfill at least two-thirds of their assignment obligation. Approval for curtailment must be provided by Soldier's branch manager and the appropriate HRC curtailment authority. Soldiers should submit their application no less than 5 months prior to their DEROS.

e. Soldiers on orders to a short tour area, volunteering for assignment to the 160th SOAR(A), will be placed on assignment to the 160th SOAR(A), with a report date following completion of assigned short tour. These Soldiers may submit an application and will be assigned at the earliest available training date after their DEROS. Soldiers will not attend the Enlisted Combat Skills Training course until completion of their prescribed short tour.

f. Soldiers who volunteer for assignment to the 160th SOAR(A) prior to receiving AI, based on the needs of the Army, will be deferred to allow attendance to the Enlisted Combat Skills Training. Assignments for Enlisted Combat Skills Training graduates will take precedence over any assignment conflict, provided the Soldier volunteered for the 160th SOAR(A).

g. Soldiers who volunteer for the 160th SOAR(A) prior to receiving deployment orders will attend Enlisted Combat Skills Training unless they have received an exception for operational needs.

h. Soldiers volunteering for service in the 160th SOAR(A) after receiving deployment orders will deploy with their unit and be placed on assignment to the 160th SOAR(A) following their deployment stabilization termination date (post-deployment stabilization may be waived by the first LTC in the Soldier's Chain of Command to meet training dates).

i. After successful completion of Enlisted Combat Skills Training and assignment to the 160th SOAR(A), Soldiers will be stabilized no less than 48 months with the opportunity to extend twice for 36-months per each extension at the Commander's discretion.

j. Soldiers will be released for standards from the 160th SOAR(A) under the authority of the Regiment Commander and reported for AI at the needs of the Army when —

- (1) They request termination from the 160th SOAR(A).
- (2) Their security clearance is withdrawn.
- (3) They fail to maintain physical qualifications of Enlisted Combat Skills Training standards for service in the 160th SOAR(A).
- (4) They fail to fulfill professional requirements or are found unsuitable, as evidenced by any of the following (not all inclusive):
 - (a) Civil convictions (whether or not an appeal is pending resolution) for a felony offense or an offense involving moral turpitude or any other conviction for civilian criminal offenses that result in suspended or unsuspended punishments of more than 6 months' confinement or a fine in excess of \$5,000.
 - (b) Initiation of any adverse administrative elimination action for reasons specified in AR 635–200.
 - (c) Repeated failure to perform MOS or ASI-related duties after counseling and rehabilitative reassignment.
 - (d) Any other act or series of acts inconsistent with the integrity, professionalism, and conduct required of a Soldier in the 160th SOAR(A).
- k. Soldiers terminated from the 160th SOAR(A) will be reported as IA for AI or Surplus.
- l. After being placed on assignment to the 160th SOAR(A), Soldiers should only be deleted or deferred for the following reasons:
 - (1) If they become disqualified or ineligible for the assignment. The request must be endorsed by the Soldier's first LTC/O–5 in the chain of command and submitted to CG, HRC in accordance with AR 600–8–11. The request will not be submitted to HRC if it is disapproved by the Soldier's first LTC/O–5 in the chain of command.
 - (2) For operational reasons. The request must be approved by the Soldier's first GO in the chain of command, after coordination with the 160th SOAR(A) Recruiting Team to gauge the impact of the deletion or deferment action and will only be submitted to CG, HRC if approved in accordance with AR 600–8–11. The action will not be submitted to CG, HRC if disapproved by the Soldier's first GO in the chain of command.
 - (3) These authorities may not be further delegated.
- m. All assignments of personnel into, within, or leaving the 160th SOAR(A) will be coordinated by ARSOF Branch Chief, HRC.
 - (1) No assignment action will be taken on any personnel assigned to 160th SOAR(A) without official coordination with the 160th SOAR(A) Commander or CSM and ARSOF Branch Chief, HRC.
 - (2) Soldiers assigned to the 160th SOAR(A) must coordinate any assignment requests outside of the 160th SOAR(A) with ARSOF Branch Chief, HRC. ARSOF Branch Chief, HRC, will coordinate the re-lease with the SM's Career Branch manager, and then ARSOF Branch Chief, HRC, will place the Soldier on assignment.

10–24. Enlisted Combat Skills Training Course (600–F29)

- a. Soldiers on assignment to the 160th SOAR(A) will attend the Enlisted Combat Skills Training course, TDY, and return or TDY enroute to follow-on assignment within the 160th SOAR(A). IET Soldiers will attend training TDY enroute. Permanent party Soldiers will attend training TDY and return. Soldiers must successfully complete the Enlisted Combat Skills Training in order to proceed on AI to 160th SOAR(A). Option 1 Soldiers (Non-Prior Service) will have Enlisted Combat Skills Training identified in their initial contract and will attend Enlisted Combat Skills Training TDY enroute. If Option 1 Soldiers fail to successfully graduate Enlisted Combat Skills Training, they will be assigned to the needs of the Army. Bonus payouts prior to Enlisted Combat Skills Training completion are subject to recovery unless Soldiers successfully graduate Enlisted Combat Skills Training.
- b. The Enlisted Combat Skills Training is an assessment and selection course that incorporates basic survival skills required of a Special Operations Soldier. The course focuses on Physical Fitness, Modern Army Combatives, Land Navigation, First Responder, and Weapons training. Requirements to successfully complete the Enlisted Combat Skills Training are as follows:
 - (1) Minimum passing score in each event on the Army physical readiness test of record.
 - (2) Must complete 4-mile run in 36 minutes or less.
 - (3) Must complete 4-and 8-mile foot marches at a 15-minute pace or less with a 35lb rucksack.
 - (4) Must successfully complete all hands-on and written exams.
 - (5) Must pass screening by the regimental Psychologist.

(6) Students must pass security screening and must possess a secret clearance prior to Enlisted Combat Skills Training arrival.

c. Stabilization of current DSs and detailed recruiters will not be curtailed.

d. All requests for deletion or deferment of Enlisted Combat Skills Training course attendance must be submitted to ARSOF Branch, 160th Assignments Manager.

(1) The request must be endorsed by the first LTC/O-5 in the chain of command and forwarded through the MPD/Personnel Reassignment Work Center for submission to CG, HRC. These signature authorities may not be further delegated.

(2) For operational reasons, the request must be approved by the first GO in the Soldier's chain of command, after coordination with the Special Operations Recruiter Battalion or ARSOF Branch, 160th Assignments Manager, as appropriate, to gauge the impact of the deletion or deferment action.

(3) If approved, it must be forwarded to CG, HRC (AHRC-FSO-A), 1600 Spearhead Division Avenue, Fort Knox, KY 40122-5303, or emailed to usarmy.knox.hrc.mbx.epmd-psa-branch@army.mil, to execute deletion or deferment of any associated reassignment.

e. The ASI "K1" (Special Operations Aviation Enlisted Combat Skills Graduate) is for personnel use only. There are no positions associated with this ASI.

(1) Must have successfully completed Enlisted Combat Skills and be approved by the Commander, 160th SOAR(A) to receive the ASI.

(2) For use with any Enlisted MOS with 160th SOAR(A) and is part of the Soldier's permanent record.

(3) Withdrawal of the ASI may occur when the Commander, 160th SOAR(A) determines the individual to be unqualified or at the request of the individual.

Sexual Assault Prevention and Response: Program Procedures (Cited in title page.)

UCMJ, Art. 117a

Wrongful broadcast or distribution of intimate visual images (Cited in para 1–12c(21).) (Available at <https://jsc.defense.gov/>.)

UCMJ, Art. 120

Rape and sexual assault generally (Cited in para 1–12c(21).) (Available at <https://jsc.defense.gov/>.)

UCMJ, Art. 120c

Other sexual misconduct (Cited in para 1–12c(21).) (Available at <https://jsc.defense.gov/>.)

UCMJ, Art. 130

Stalking (Cited in para 1–12c(21).) (Available at <https://jsc.defense.gov/>.)

10 USC 673

Consideration of application for permanent change of station or unit transfer for members on active duty who are the victim of a sexual assault or related offense (Cited in title page.)

10 USC 972

Members: effect of time lost (Cited in para 5–2b(4)(d).)

34 USC 20911

Relevant definitions, including Amie Zyla expansion of sex offender definition and expanded inclusion of child predators (Cited in para 3–20.)

Section II**Prescribed Forms**

Unless otherwise stated, Department of the Army forms are available on the Army Publishing Directorate website at <https://armypubs.army.mil/>.

DA Form 3739

Application for Compassionate Actions (Prescribed in para 5–10a.)

DA Form 4873

Certificate of Appointment to Command Sergeant Major (Prescribed in para 7–4c.) (Available through normal supply channels).

DA Form 7424

Sensitive Duty Assignment Eligibility Questionnaire (Prescribed in para 8–19d.)

Appendix B

Internal Control Evaluation

B-1. Function

The function covered by this evaluation is enlisted readiness and eligibility for assignments.

B-2. Purpose

The purpose of this evaluation is to assist commanders, ACOM, ASCC, or DRUs and installation managers in evaluating their key internal controls. It is intended as a guide and does not cover all controls.

B-3. Instructions

Answers must be based on the actual testing of key internal controls by utilizing one of four test methods which are Inquiry, Observations, Examination, or Re-performance. Inquiry regarding a control's effectiveness does not, by itself, provide sufficient evidence of whether a control is operating effectively and generally is corroborated through other types of control tests (observation or inspection). Answers that indicate deficiencies must be explained and corrective action identified in supporting documentation. These internal controls must be evaluated at least once every 5 years. Certification that the evaluation has been conducted must be accomplished on a DA Form 11-2 (Internal Control Evaluation Certification).

B-4. Key control questions

- a. Are Soldiers that are volunteering for U.S. Army Special Operations Command in grades SGT and above?
- b. Are 1SGs being stabilized from the day of their assumption of responsibility?
- c. Are standing operating procedures established and maintained?
- d. Has the Soldier's current qualifications and ability to fill a valid requirement been part of the primary consideration for reassignment?
- e. Has the Soldier's availability, volunteer status, TOS, and other criteria been a part of the secondary consideration when more than one Soldier meets the primary considerations for the same assignment?
- f. Has it been determined that the reassignment requires a waiver(s) such as TOS, second PCS in the same FY (2XPCS Same FY), OCONUS tour curtailments, or post-deployment stabilization?
- g. Has the waiver(s) been submitted to the proper approving authority?
- h. Are waivers, when required, approved before the Soldier's departure?
- i. Has EFMP been vetted for the follow-on assignment location for medical/education support requirements via EFMP tool kit?
- j. Has the appropriate documentation been submitted for a life cycle management?
- k. Have assignment stabilization requests been processed in accordance with this regulation?
- l. Who qualifies for an expedited transfer under SHARP?

B-5. Supersession

This evaluation replaces the evaluation previously published in AR 614-200, dated 25 January 2019.

B-6. Comments

Help to make this a better tool for evaluating internal controls. Submit comments via email to usarmy.knox.hrc.mbx.epmd-regulation-proponent@army.mil.

Glossary of Terms

Accompanied tour

The tour length that is the longest a specific overseas duty station and usually means that a Soldier is accompanied by command-sponsored dependents.

Active duty

Full-time duty in the active military Service of the United States, including active duty or full-time training duty in the Reserve Component.

Additional military occupational specialty

Awarded MOS other than primary or secondary MOS.

Additional skill identifier

Identifier of specialized skills that are closely related to and in addition to those required by the MOS.

Army National Guard

The part of the organized militia of the several States and Territories, Puerto Rico, and the District of Columbia, active, and inactive, that is a land force; is trained, and has its officers appointed, under the sixteenth clause of section 8, article I, of the Constitution; is organized, armed, and equipped wholly or partly at Federal expense; and is federally recognized.

Army National Guard of the United States

The Reserve Component of the Army all of whose members are members of the Army National Guard.

Borrowed military manpower

The use of military manpower from a MTOE unit to perform duties within a TDA activity where an ACOM, ASCC, or DRU-approved manpower requirement exists but for which no manpower space has been authorized.

Brevity code

A code word, which provides no security, that serves the sole purpose of shortening of messages rather than the concealment of their content.

Career management field

Grouping of related MOSs that are basically self-renewing and managed in terms of both manpower and personnel considerations and characterized by providing a logical progression to SGM.

Career Soldier

Soldiers who are serving under second or subsequent enlistment contracts.

Combatant command

A unified or specified command with a broad continuing mission under a single commander established and so designated by the President, through the Secretary of Defense and with the advice and assistance of the Chairman of the Joint Chiefs of Staff.

Conscientious objector

A member who, by reason of conscientious objection, sincerely opposes participation only in combatant military training and service and for whom such beliefs play a significant role in his or her other life; or a member who, by reason of conscientious objection, sincerely opposes participation in combatant and noncombatant military training and service in war in any form and for whom such beliefs play a significant role in his or her life.

Dependent

See definition at 37 USC 401 and the JTR, appendix A.

Duty military occupational specialty

The MOS that identifies authorized manning table positions to which a Soldier is assigned and for which they are performing duty or the MOS of the duty that the Soldier is performing if not assigned to an authorized manning table position.

Dwell time

The time a member of the armed forces or a unit spends at the permanent duty station or home port after returning from a deployment (see 10 USC 991).

Enlisted Assignment System of Record

Generic terminology used to encompass past, current, and future systems such as the Enlisted Distribution Assignment System, the electronic Military Personnel Office (eMILPO), the Total Army Personnel Database, and the Integrated Personnel and Pay System-Army (IPPS-A).

Enlisted Personnel Management System

Total process for which enlisted personnel are professionally developed in order to satisfy force structure authorizations (for example, accessing, recruiting, training, assigning, promoting, rotating, professional developing, transferring, discharging, reenlisting, and retiring military personnel).

Expiration term of service

The date a Soldier is expected to complete the military Service required by the enlistment contract.

First-term Soldier

Enlisted member of the Army on an initial enlistment.

Household

The Soldier and those dependents, who reside with the Soldier or are dependent on the Soldier for over one-half of their support.

Long tour

A tour of duty in an overseas location where the tour length is equal to or greater than the 36-month accompanied tour and the 24-month unaccompanied tour.

Low-cost move

A PCS for which the total expected cost, including the Soldier's travel and transportation allowances and dislocation allowance, if applicable, does not exceed \$1,000.00.

Minor offense

Whether an offense is minor depends on several factors: the nature of the offense and the circumstances surrounding its commission; the offender's age, rank, duty assignment, record and experience; and the maximum sentence imposable for the offense if tried by general court martial. Ordinarily, a minor offense is an offense for which the maximum sentence imposable would not include a dishonorable discharge or confinement for longer than 1 year if tried by general court-martial (see Manual for Courts Martial, Part V1e).

New equipment training

The identification of personnel, training, training aids, devices, simulators, and simulations, and the initial transfer of knowledge gained through equipment development from the materiel developer/provider to the trainer, user, and supporter (see AR 350-52).

On-the-job training

Training in which Soldiers learn through actual hands-on experience under competent supervision under an approved planned program.

Permanent change of station

The assignment, detail, or transfer of a Soldier to a different PDS under a competent travel authorization that does not specify the duty as temporary, provide for further assignment to a new PDS, or direct re-turn to the old PDS (see DoDI 1315.18).

Permanent duty station

The Soldier's official station. For the purposes of a Soldier's household goods, privately owned vehicle or mobile home shipment, or dependent transportation, the PDS may be one of several locations to include the home from which the Soldier commutes daily (see Joint Travel Regulation, Appendix A).

Personnel management

Actions taken by HRC enlisted career divisions to identify, select for training, assign, and manage Soldiers in various programs.

Prescribed tour length

The period of time established for tours in specific geographic locations in the continental United States or overseas.

Primary military occupational specialty

Awarded MOS that is most important to the Army in terms of training, experience, demonstrated qualifications, and Army needs.

Reclassification authority

Level of command or activity designated by Army HRC to change a PMOS or SMOS or to withdraw any AMOS.

Regular Army

The Regular Army is the component of the Army that consists of persons whose continuous service on active duty in both peace and war is contemplated by law, and of retired members of the Regular Army. The RA includes—

- a. The officers and enlisted members of the Regular Army;
- b. The professors, director of admissions, and cadets of the United States Military Academy; and
- c. The retired officers and enlisted members of the Regular Army.

Secondary military occupational specialty

Additional MOS in a specialty different than PMOS. Second in importance to the Army when evaluated in training, experience, demonstrated qualifications, and the Army's needs.

Short tour

A tour of duty in an overseas location where the tour length is less than the 36-month accompanied tour, or the unaccompanied tour is less than 24 months.

Space imbalanced military occupational specialty

Situation at a given time (present or projected) in which overseas MTOE and TDA authorizations or requirements for a given MOS exceed those documented for CONUS installations.

Special duty

Performance of duty with an organization other than that to which assigned while continuing to be administered and accounted for by the unit of assignment. Includes borrowed military manpower and troop diversions.

Temporary duty

Travel to one or more places away from a permanent duty station to perform duties for a period of time and, on completion of assignment, return, or proceed to a permanent duty station.

Theater

The geographical area for which a Combatant Commander has been assigned military responsibility.

Tour of duty

Military duty when assigned to a military installation or activity permanently located at a land station either inside the CONUS or overseas.

Troop diversion

Use of Soldiers, not meeting the borrowed military manpower definition, to perform recurring duties with an organization or unit other than that to which assigned while continuing to be administered and accounted for by the unit of assignment. (See also SD and borrowed military manpower.)

Unaccompanied tour

The authorized tour length at a specific overseas duty station for Soldiers who are not accompanied by command-sponsored dependents. A tour at a location with only an unaccompanied tour authorized is considered to be a dependent-restricted tour.

Volunteer

Soldiers who, on their own, write to Army HRC through proper channels expressing a desire for specific designated duty.
